B No. 4 be made to read as follows: That until such time as the proposed united church shall form its own creed, all deliverances by the General Assembly shall be advisory and not authoritative.

The committee was continued.

On motion the report on Theological Seminary was amended so as to read:—

Inasmuch as the Northern Church is disturbed by differences of doctrine, and especially inasmuch as there is a prospect of a union of the Northern Church and the Cumberland Presbyterians, this Mission feels that it must insist, as a basis of union in the proposed Seminary, on a faithful adherence to the Westminister Standards without the Brief Statement of the Northern Assembly.

(2) It is further recommended that each professor must be acceptable to the Missions of both churches concerned.

The other resolutions were adopted as in the report of the committee, viz:—

(2) The Seminary is to be located at Nanking.

(3) That the Missions request the Board of Foreign Missions of the Presbyterian Church U. S. A. and the Executive Committee of the General Assembly of the Presbyterian Church in the U. S. to appropriate the sum of U. S. G. $12,000, that is $6,000 each, for the purchase of land and erection of buildings for the accommodation of students and for residence of two professors. And of this sum $2,000 be made available as soon as possible for the purchase of land and erection of walls.

(4) That the Seminary be under the direction of a board of directors consisting of eight members, four from the Central China Mission and two each from the Mid-China Mission and from the North Kiangsu Mission. Four directors are to be elected every year by the Missions they represent, and shall serve two years. In first constituting the Board of Directors, the Missions shall elect four members to serve two years and four to serve one year.

(5) For the present the faculty of the Seminary shall consist of two men, one to be chosen by the Mission of the Northern church and one by the two Missions of the Southern church.

WHEREAS, the Theological Seminary is designed for the thorough training of better equipped men seeking the ordained ministry, and will not meet the needs of useful but less educated men in training for lay helpers, we further recommend:

(6) That in view of the present pressing needs of the work, classes be formed for the instruction of lay helpers, the Missions and different stations co-operating as closely as possible in this work.

(7) That the course of instruction for lay helpers be made as uniform as possible. To this end we recommend a committee of three, representing the three Missions, to report to the Missions on a course of study, and that the Missions concerned provide for a joint or separate examination of the students.

(8) Stipends of beneficiary students shall not exceed five dollars per foreign month. This shall cover the expense of living in the Seminary, viz.: food, clothes, lights, books, bedding, etc. And this stipend is to be paid through a member of the faculty.

(9) Travelling expenses and allowances for wife and children shall be provided separately, the Seminary authorities being in no way responsible.

(10) In no case shall the family of a student live in the Seminary, nor shall the Seminary authorities be under obligation to provide house room for the families of students.

(11) The Board of Directors shall have control of the administration of funds, of the curricula, and other matters pertaining to the Seminary according to provisions to be agreed upon by the directors and subject to the approval of their respective Missions.

(12) The professors shall by virtue of their office have seats on the Board of Directors with power to vote.

(13) Each Mission or presbytery shall be responsible for the maintainance of its own students.

(14) The property of the Seminary shall belong to the churches founding and sustaining it in proportion to the amounts of their investments.

(15) The Board of Directors upon appointment shall proceed to prepare a constitution and code of by-laws to be presented to the Missions concerned for ratification.

In framing the constitution, the following points are noted for careful consideration.

(a.) The proper credentials of the students attending the Seminary.

(b.) The form in which the title deeds of property shall be drawn.

(c.) The careful guarding of the standard of theological instruction.

(16) While the question of a site for the Seminary buildings cannot be definitely settled until the Missions concerned have actually decided upon the establishment of the Seminary, and we would not bind the future committee to any one locality, the committee suggests the sites contiguous to the Hu Pu Chieh (尸部街) property of the Northern Presbyterian Mission as desirable; preference being given to the land on the north and west of that property rather than to the land on the east. We consider that a tract or tracts some ten mow or more in extent would be necessary for the two residences and the Seminary buildings. We recommend that the matter of securing a site be put into the hands of a committee consisting of Messrs. Drummond, Sydenstricker, and Williams, to take action when the proper time arrives.

On location of new missionaries it was decided to advise Dr. McFadyen to go to Hsüchoufu, and Dr. and Mrs. Morgan, M.D., to locate at Tsingkiangpu. However, if only one party arrives, that the needs of Hsüchoufu be supplied first. Rev. and Mrs. Grafton were advised to locate at Chinkiang.

Mr. White moved that the appropriations for the house and hospital to be built for Dr. Moore be transferred to the new physician. Adopted.

Mr. White moved a reconsideration of the question of calling for a teacher for high school work. His original motion was tabled.

The report of the committee for building a hospital at Hsüchoufu was taken from the docket. A new committee was appointed to consist of McFadyen, White, and Bradley. Mr. Bradley, referee.

The committee to build the physician's house at Hsüchoufu to be:—McFadyen, White, and with Bradley, referee.

Mr. Junkin reported on the building of the Suchien schoolhouse as follows:

A three-roomed house was built, but later with the approval of the Mission it was decided to turn over this house with the west lot to Dr. Bradley's house-building committee, a larger piece of property with brick buildings on it having been secured for the school.

W. F. JUNKIN, *Chairman.*

Carried.

Dr. Sydenstricker's report on the seminary was taken up seriatim. The recommendations of the board as far as read were approved.

This mission also approved of the call of Rev. J. L. Stuart, Jr., to the seminary work. And further it was moved that the Executive Committee be requested to consider an appropriation of twenty-five hundred dollars gold in addition to the two thousand already appropriated, but not paid, as one

With regard to the question of putting the school for training native helpers in connection with the seminary, the mission resolved to make the vote on this matter, without discussion, the first order of the day for Wednesday morning.

On the matter of a training school for native helpers an overture was presented. It originated with the Christian Mission and was seconded by members of the Northern Presbyterian and Southern Presbyterian Missions It proposed that this mission unite with the Christian and Methodist and Northern Presbyterian Missions in renting cheap property at Nanking and establishing a school for the training of native helpers. It was distinctly declared that matters of distinctively denominational bearing be relegated to the different churches to teach as they saw fit. With regard to this matter Dr. Woods moved that while this mission appreciates the spirit of the overture from these brethren, and wishes all success to every effort to promote the training of native helpers, it does not see its way clear to co-operate in this union school. Carried.

In behalf of the committee on building a school and mission house at Chinkiang, Mr. Paxton reported that it was not feasible to begin building till late spring; that the property had been well walled in and Chinese quarters erected; that there is every reason to think that the school building and the dwelling which is now building will be ready for occupancy within three months. That the school will have a capacity for about thirty boys. That the dwelling will be comfortable and commodious. That in erecting these buildings the committee deemed it wise, and the truest economy, to use the best material. That on account of high prices and bad exchange the $8.000.00 gold donated, will barely be enough for this work. The report was adopted and the committee continued.

Mr. Junkin moved that a committee be appointed to consider the wants of the whole North Kiangsu field and our relations to other missions in the field and to bring in a report to the mission, with recommendations as to what points we should occupy and what force we should have to evangelize this field. The minutes were read, corrected and approved.

The order of the day was the vote on the training school in connection with the seminary. The vote was to be taken without discussion. The order to vote without discussion was reconsidered. After hearing a letter from Dr. Davis, advocating the training of the lay helpers in connection with the seminary, and after full discussion the item in the report of the seminary recommending the plan of training native helpers in connection with the seminary was adopted, with the understanding that the mission does not pledge itself to support a permanent

Bible school at Nanking. A further report of the Examining Committee was heard and recommitted.

The report of the committee to bring the resolutions of the mission before the Executive Committee of the *Christian Intelligencer* was adopted seriatim and is as follows:—

The mission instructs its representative to bring before the Executive Committee of the *Christian Intelligencer* the advisability of having its (the representatives on the) Executive Committee elected annually by the contributing missions, instead of being self-perpetuating as at present. When the mission is assured that it will be given the privilege of always having one or more of its members elected by the mission to represent it on the Executive Committee, it agrees to give due consideration to any requests for its proportion of financial aid for the maintenance of the paper. (Signed). J. W. PAXTON, W. F. JUNKIN.

The committee to report on the needs of the North Kiangsu field made the following report, which was adopted:—

This mission is responsible for ten million people, and the number of missionaries needed at once for each one hundred thousand is one hundred. This mission asks for twenty new missionaries for next year. There are three stations which should be opened in the near future, viz., Haichow, Yencheng and Tongtaï or Taichow.—A. SYDENSTRICKER, *Chairman.*

On motion of Mr. Grafton the house instructed the treasurer to pay the bill for the rent of the house in which mission met and also other minor expenses connected with the meeting.

The committee on appealing for help for a special evangelistic campaign this fall reported and recommended the following :—

First. That Mr. Grafton be allowed to make a special plea to the church in Shantung for well-equipped Chinese helpers to assist us for about two months in the autumn.

Second. That Dr. J. B. Woods be authorized to obtain what helpers he can from the English Baptist Mission in Shantung.

Third. That the following appeal be sent to the Mid-China Mission to convene at Mohkanshan, September 7th :—

"On account of the present crisis in our field, there being such an opportunity here now as there has never been before and perhaps never will occur again, and believing that we will be doing very wrong if we do not make a very special effort this autumn to bring a knowledge of the Bread of Life to the very greatest number of people possible in this field, we earnestly request the Mid-China Mission to send to our help, for two or more months, as many well-equipped Chinese helpers able to speak Mandarin as they can possibly spare. Further, we also request that Rev. W. H. Stuart come to our help for a year, if possible, but if not, for as long a time as he can be spared. We make these requests feeling assured that our brethren of the Mid-China Mission sympathise with us at this time of opportunity and understand the spirit in which the requests are made."

Fourth. That the mission requests Mr. I. Kuykendall, if he can see his way clear to do so, and if he can obtain the consent of his mission, to help us for as long a time as possible. (Signed) H. M. WOODS, T. B. GRAFTON, W. F. JUNKIN.

This report was adopted.

It was moved by Dr. J. B. Woods and carried that the committee be instructed to inform Mr. Stuart and the Mid-

China Mission that if he looks to this work as a permanent one, he will be cordially welcomed.

It was moved by Dr. Bradley and carried that Mr. Jas. McGinnis be asked to help us in the evangelistic campaign this fall.

Dr. J. B. Woods moved that any station that may secure the assistance of missionaries for evangelistic work, without calling on the treasury for financial help, be allowed to do so. Carried.

With regard to the proposal of Dr. Klopsch, of the *Christian Herald*, to provide funds to establish an orphanage for the support of famine orphans, the committee to propose resolutions on this subject proposed the following, which were adopted:

First: That we accept the offer of Dr. Klopsch.

Second. That a committee be appointed to communicate with Dr. Klopsch asking for definite information as to the amount of money available for plant and for annual expenses, also stating that it would be impossible to restrict ourselves to the children of parents who had perished in the famine. That the estimate of twenty dollars per annum would not include plant.

Third. That the first of these orphanages, if more than one are possible, be located at Tsingkiangpu.

Fourth. That Miss Morton be set apart for the orphanage work.

Fifth. That the Tsingkiangpu station be the executive board and that all their action be subject to the mission's review. (Signed) J. B. Woods, W. F. Junkin, T. B. Grafton.

The chairman appointed Messrs. J. B. Woods, Junkin and Grafton as the committee to correspond with Dr. Klopsch.

This committee was also instructed to inform Dr. Klopsch that this mission gladly undertakes the orphanage work with the understanding that the relation proposed by him shall be a permanent one.

It was ordered that if Mr. Kuykendall came to N. K. Mission to help in the special evangelistic work this autumn, that he be requested to go to Hwaianfu. That if Mr. Kuykendall does not come, that Mr. Stuart be requested to go to Hwaian. That if Mr. Kuykendall comes Mr. Stuart is not expected to go to that station.

The mission then went into a committee of the whole with Dr. Bradley in the chair to consider estimates.

At 1.30 p.m. the committee rose and reported progress.

Estimates were made the second order of the day for Thursday.

After being led in prayer by Mr. Hancock, the mission adjourned till Thursday morning.

Thursday Morning.

The devotional exercises were conducted by Mr. Paxton.

The committee rose and reported the following recommendations :—

First. That the mission appoint a committee to outline the mission's policy on schools.

The chairman appointed the following members to act on this committee : Messrs. JUNKIN, J. B. WOODS, GRAFTON and PAXTON.

Second. That Dr. J. B. WOODS and the Chinkiang Station be made a committee to consider our business arrangements at Chinkiang.

Resolutions adopted.

The estimates were approved as passed by the committee.

The house then went into a committee of the whole to hear personal reports. At the hour for adjournment the committee rose and reported that all the reports had been heard, except those of the members at Hsuchoufu.

Adopted.

The report of the Committee on Union of Presbyterian Bodies recommended the action contained in the following resolutions. The report was considered seriatim and approved in substance and recommitted for rewriting. It was further ordered that the resolutions in their final form be sent around

the mission for its recorded aye and nay vote. The resolutions are as follows:—

In regard to the resolutions of the Council of the Presbyterian Church in China on "*Local Union with Other Churches*" (see Minutes of Council, 1907, p. 4. and Resolutions XII, XIII, XIV, p. 12), the North Kiangsu Mission, after carefully considering the proposal to encourage local union with other denominations, feels constrained to lay the following protest before the presbyteries and synods forming the union:—

First. That such action is beyond the powers of delegates to the council to entertain, inasmuch as it contravenes the declared original purpose in view, which was to form a united Presbyterian church in China and not to bring about a fusion of all denominations, and it will do injustice to any Presbyterian body which approved the compact on the understanding that it was entering a united Presbyterian church.

Second. That the suggestion to approve and adopt as a whole the resolutions of the council without amendment, and if there is objection to some of the proposals to "make an appeal against them later" (vide p. 12, Res. XIV) is unwise and tends to work injustice to any Presbyterian body which cannot approve of such action, as it puts the appealing body in the disadvantageous attitude dissenting from an action which it has already tacitly approved, while the responsibility for arousing debate and possible friction should rest with those who propose a departure from the original plan.

Third. While this mission cannot approve the proposals with reference to local union, it records its high regard for the brethren of all denominations, its willingness to co-operate with them in Christian work, and its desire for every exhibition of the true unity of the Christian body. It does not believe, however, that loyalty to denominational conceptions of truth necessarily works any harm to this unity. It conceives that the whole counsel of God will be best declared and the body of Christ be best built up, not by obliterating denominational distinctions, but by cherishing a true spirit of Christian love and allowing every denomination to retain its own conception of the truth and its own individual existence. It understands that this is the teaching of the Spirit in 1st Corinthians 12. The apostle there points out that the oneness of the body is in no way impaired by preserving the individuality of the members.

Fourth. This protest is not offered in a critical or antagonistic spirit. This mission, in view of the manifest agreement on fundamental points of faith and polity among Presbyterian bodies and their declared recognition of the same standards of doctrine, still hopes to unite with kindred organizations in one Presbyterian church for China. But while appreciating the excellent intention which actuated the proposal for local union with other denominations, it is felt that in practice the measure will be fraught with grave dangers. The discretionary power thus granted to churches to dissolve relations with parent bodies may be easily abused and tend to encourage divisions, thus defeating the very end that is desired, i.e., unity.

As therefore these recommendations of the council seem premature and out of harmony with the original purpose in view in forming the Presbyterian

union to which all contracting bodies have given their assent, it is respectfully recommended, in order to promote unity and harmony among Presbyterian bodies, that the proposals for local union with other communions be not approved until such union can be effected on the basis of a oneness in doctrine which shall be in harmony with standards recognized by the Presbyterian Church of Christ in China.

The Wilmington Church offered to send him out, and it was through Dr. George Worth that he sent in his application at the present time. I think myself he was much more needed in the North than in the Mid-China Mission, but we do not ever think it wise to force a man to go where he does not want to go. The doctor question is getting to be more and more serious". Signed, S. H. Chester.

The committee appointed by the chairman, to confer with Mr. Woodbridge in regard to his continuing the editorship of the Bulletin until Mr. Richardson returns, reported that Mr. Woodbridge consented to that arrangement. The report was adopted.

The Extension Committee completed its report which was amended, and adopted as follows :-

I. Your Committee has, since last Mission meeting, passed on and approved the following plans,—

1. In Sept. 1912, a plan for servants' quarters, to be built at Chinkiang and temporarily occupied by Mr. Paxton. This

was approved on condition that the cost should be a part of the appropriation for Mr. Paxton's residence.

2. In Nov. 1912, a plan for a boys school building at Tsingkiangpu, approved with minor suggestions.

3. In Feb. 1913, a request from the Suchien Hospital, to build isolation wards in cheaper style than the plan approved of by a former extension committee.

4. In March 1913, a notification was sent in by Mr. Hancock to the effect that, in emergency, he had bought a piece of property for temporary residence, using the remainder of the Opening Station Fund and a part of his building fund, with the intention of replacing the latter out of future appropriations for rent. The Committee cordially approve of the purchase as a temporary measure, but did not consider that it should pass on the question of what funds were used for this purpose.

5. In April 1913, a request from Dr. Morgan asking for authority to build the hospital at Haichow this Summer.

6. In April 1913, a plan from Mr. Armstrong for the church at Hsuchoufu.

7. In June 1913 plans for hospital and residence at Haichow were approved with minor suggestions.

8. In June 1913, plans for the Tsingkiangpu hospital were approved with minor suggestions.

II. According to the instructions of the last two Mission Meetings, as a matter of suggestion to future builders and not a defined Mission policy, your Committee has begun to collect and file for reference, plans, facts, and suggestions about building. We were not able to get plans of all the buildings of the Mission. Of the plans passed on by this Committee, in some cases we got duplicate plans to file, others were asked to send back their plans when the duplicates are finished.

On behalf of the Mission your Committee received from Miss. Morton, now Mrs. Moore, a present of a valuable book on architecture with a bound set of plans accompanying it.

III. The data collected by your Committee has been collated and summarized in a paper accompanying this report. Your Committee would suggest that this paper, after being read to the

Mission, be filed with future Extension Committees for reference by future builders.

IV. In view of the facts brought out in the paper above mentioned, the Extension Committee would make certain recommendations which they think should be passed by the Mission as a matter of Mission policy.

Your Committee would recommend, 1. That stations be not required to build all residences on the eight room plan.

2. That, while not recommending any one plan for residences, special attention be given to three points: (a) Sanitation. To this end, rooms should get breezes in Summer and sun light in Winter. Drainage should be good. If there are stairways they should be easy of ascent. If practicable houses should be rat proof. (b) Durability. To this end builders are advised to carefully study the suggestions made and the errors pointed out in the accompanying paper, before making their plans. (c) Economy. Unnecessary expense for mere show, or to provide for all contingencies is unwise expenditure of Mission funds.

3. As to cost, (a) that land be provided for outside the appropriation for residence, whether property acquired on the opening station fund or property acquired in connection with other Mission buildings, or by special appropriation. (b) That the $4500.00, appropriated for each residence be supposed to represent $4,000.00 for a two story eight room house with four bed rooms, and $500.00 for out buildings connected therewith, and that this action take effect at once. (c) That in case a building committee, with the approval of the Extension Committee, can economise this fund, whether by the builder voluntarily building a smaller house, or by spending less on out buildings, the balance should be refunded to the Mission, or appropriated to other station uses with the consent of the Mission. (d) That in case it be necessary to build a larger house or in case the walls and out houses cost more than $500.00, as they have done in many cases, special arrangements should be made with the Mission before expenditure.

4. Your Committee recommends that ordinarily the maximum size of a two story residence be seventeen fang.

Signed, J. W. Bradley.

The report of the Publicity Committee was adopted as follows :-

1. Quarterly Reports;- Your Committee wishes to report that two stations sent their reports in on good time. Two stations sent in three reports but failed to get in the fourth, one station did not attend to the matter, and three stations were not represented.

2. Personal Reports;- The personal reports were edited and sent to the Bulletin but were not printed.

Several of the stations sent photos and post cards to the home papers but so far as we know very little use has been made of them. In fact in one instance these were returned, saying that they could not be used. A plan to have some phase of the Mission's work presented each month in the church papers was carried out with some success, each having had several letters in the home papers. The chairman of the Committee was asked to write to the church papers and see if they were willing to use our material, but the answers received were rather discouraging.

3. Recommendations;- (a) That last year's program be carried out this year as far as possible, and in addition that we get the information to the church through our own workers at home on furlough.

(b) That special emphasis be laid on quarterly reports, and that each station be asked to see that their reports go in on time.

(c) That the preferential list for Land and Building be sent to the Executive Committee, to the chairman of the Laymen's Movement, and to our missionaries at home on furlough, with the request that they be put before the church in order of their priority.

(d) That the plan for locating new missionaries, as approved by both Missions, also be sent to the Executive Committee, leaders at home, and to missionaries on furlough.

Signed, J. W. Bradley.

The number of scholars (403) larger than ever before: the order and discipline excellent; and the general health unusually good, there being one death and only three or four cases of serious sickness. Good thorough work has been done by the students. APPENDIX A.

Report of the Mission's Special Committee on the Relation of the Mission to the Nanking School of Theology, and Kindred Matters.

The Committee appointed to consider the Mission's relation to the Nanking School of Theology and kindred matters, would report :-

First.

Resolved that the Mission earnestly recommends the following changes in the proposed Constitution of the Nanking School of Theology ;-

Under I. For "Nanking School of Theology" substitute "Union Theological Seminary".

Under IV. Sec. 1. That the clause "shall be one foreigner" be changed to read "may be one foreigner".

Sec. 3. (b). Add "The names of all proposed candidates to professorships in the institution shall be in the hands of every member of the Board of Managers at least six weeks before the meeting of said Board at which the election takes place".

Sec. 3. (c). That the word "bodies" be substituted for the word "missions".

Under V. That the clause "with the request, etc" be changed to read "with the definite understanding"; and that the following be added, "said trustees may not initiate action in the control of the institution, and may act only on the authority of the Board of Managers".

Under VI. Sec. 4. The following reading, "The members of the Faculty may attend the meetings of the Board of Managers on invitation of said Board, except, etc.

Under VII. In the preamble after the words "Our common evangelical faith", that the following words be inserted; "as expressed in the standards and declarations of the cooperating bodies."

Sec. I. That the following clause be added; "and maintains the integrity and historical reliability of the Holy Scriptures".

Under X. Sec. 1. That the second paragraph, beginning "For its share, etc" be changed to read; "For its share in the property of the union the retiring Mission shall be reimbursed with such funds and in such manner as shall be considered equitable by a committee, to be chosen by the Mission concerned and the Board of Managers; said committee-men to be acceptable to both parties.

Second.

In as much as the Executive Committee has definitely instructed our two Missions that the Seminary is not to be merged into "the Union Bible School, or other union enterprise, except such as may be composed of Presbyterian elements", and because of the conditions herein noted; the North Kiangsu Mission cannot now vote for the merging of the Theological Seminary into the Nanking School of Theology.

If the amendments to the proposed Constitution, relating to the election of professors, doctrinal basis, and Board of Trustees, are adopted, the Mission will recommend to the Executive Committee the merging of these institutions.

? p. 22 If these conditions are not accepted, this Mission must withdraw from the institution.

Third.

That the secretary be instructed to foward these proposed changes in the constitution, and resolutions, to the Mid-China Mission and urge their concurrence.

Fourth.

That Mr. Junkin be appointed a committee of one to explain to the Mid-China Mission the reasons for these resolutions, and request their joint action.

Signed, B.C. Patterson, (Ch'man of Com.)

Proposed Constitution of the Nanking School of Theology.

Adopted by the Board of Managers, May 22, 1913.

I. Name.

The name of the school shall be the Nanking School of Theology.

(In Chinese, 金陵神學).

II. Character and Aim.

(1) The School shall be interdenominational in character, thorough in intellectual processes, evangelical in doctrine, reverent in spirit, pedagogical in method, and practical in aim.

(2) The aim of the School shall be the same as that of the Bible Teachers' Training School in New York City, adapted to conditions in China, which aim is to equip men for Christian work. In giving this training, special prominence shall be given to the study of the Bible and the development of spiritual life.

III. Composition of the School.

(1) The School shall be established by the following Missions:—

Methodist Episcopal Mission.

Foreign Christian Mission.

Central China and Kiangan Presbyterian Missions (North).

Mid-China and North Kiangsu Presbyterian Missions (South).

(2) Each co-operating mission shall agree to furnish toward the permanent equipment of the School a minimum of $2,000.00 Mexican in cash or property. The residence of each foreign professor shall be considered part of the property of the School.

(3) Other missions may co-operate by complying with the financial condition, mentioned above upon approval by a two-thirds vote of the entire Board. But no mission shall become a co-operating body if within six months after approval by the Board any two of the co-operating missions shall officially protest against it.

IV. Board of Managers.

1. Each co-operating mission shall provide for the election of two representatives, who shall be one foreigner and one Chinese, to serve on the Board of Managers. They shall also provide for the election of an equal number of alternates. Only officially appointed representatives shall be recognized as members of the Board.

2. The Board shall elect annually the following officers :— Chairman, Vice-chairman, Chinese Secretary, English Secretary and Treasurer.

3. The powers and duties of the Board shall be as follows:—

(a) To determine the general policy and curriculum of the School.

(b) To elect members of the Faculty. These shall be elected by a two-thirds majority of the total membership of the Board. But no one may be declared elected as a member of the Faculty against the formal protest at time of meeting of any two members of the Board representing two co-operating bodies.

They shall elect members according to their fitness, and when practicable, all the co-operating missions shall be equitably represented.

(c) To make estimates for current expenses not otherwise provided for. The amounts needed shall be borne proportionally by the co-operating missions.

(d) To elect a President and Vice-President of the School.

(e) To meet annually in regular session. Upon written request of three members of the Board, representing three missions, the Chairman shall call a special meeting of the Board of Managers. Notice shall promptly be given to all the members and ample time allowed for attendance.

(f) To provide for a Finance and Property Committee and an Examining Committee, and such other committees as the needs of the School may require.

4. An Executive Committee of three shall be elected by the Board annually, to attend to urgent matters between the regular meetings of the Board.

5. A majority of the members of the Board shall constitute

a quorum, provided a majority of the co-operating bodies are represented.

V. Board of Trustees.

The lands and buildings and other material equipment and all funds for same shall be held by Trustees appointed by the societies in America, which are in the union, but with the request that these Trustees be not the same as those constituting the Board of Trustees of the University of Nanking.

VI. Faculty.

1. Members of the Faculty shall agree to teach in harmony with the Constitution.

2. The salaries of the Chinese teachers shall be paid by the School, those of the foreign teachers by the Missions to which they belong, unless otherwise provided for.

3. The Faculty shall have general management of the School, and shall present an annual report to the Board of Managers.

4. The members of the Faculty may attend the meetings of the Board, except when the latter is in executive session, and have the privilege of the floor without the right to vote.

VII. Doctrinal Basis.

The Nanking Bible School accepts as the basis of its teaching the Word of God, and holds to the fundamental doctrines of our common evangelical faith, which faith has been the strength and heritage of the Christian Church through all of its history.

1. It accepts the Scriptures of the Old and New Testaments as the inspired Word of God, the supreme rule of faith and practice, and as containing all things necessary to salvation.

2. It accepts the Lord Jesus Christ as the divine Son of God, and His vicarious atonement for the sins of the world.

3. It accepts the divinity and personality of the Holy Spirit and His operation in the work of regeneration and sanctification.

4. It holds that the Church of the Lord Jesus Christ is a spiritual institution, organized for spiritual ends, depending on spiritual power, and as a Church has no political authority.

VIII. Denominational Teaching.

1. Inasmuch as the large body of evangelical truth is held

in common by the co-operating churches, the teaching of such truth may be done in common in the daily classes.

2. But provision shall be made by which the particular faith and polity of each co-operating church may be taught separately, each church having charge of its own distinctive teaching, and the members of the Board belonging to each separate denomination may have charge of the distinctive teaching of that denomination.

IX. Amendments.

1. In order to amend this Constitution, notice setting forth clearly the purpose of the amendment shall be sent through the Secretaries of the Board to each of its members, not less than six months before the meeting of the Board at which the amendment is to be proposed.

2. An amendment, to be valid, must be passed by at least a two-thirds vote of the entire membership of the Board.

3. The foreign Secretary shall submit promptly to the co-operating missions all amendments made by the Board.

4. The amendment shall become operative when approved by two-thirds of the co-operating missions. If, after six months' notice, any mission fails to act, its vote shall be counted in the affirmative.

X. Withdrawal and Retirement.

1. Should any of the co-operating missions wish to withdraw from the union, it shall give one year's notice of its intention; this notice to be presented to the Board of Managers at its annual meeting.

For its share in the property of the union, exclusive of specific gifts to the institution, the retiring Mission shall be reimbursed with such funds and in such manner as shall be considered equitable by the Board of Managers, after conference with the representatives of the retiring Mission.

2. When a member of the Faculty becomes unacceptable, the Board of Managers shall have power to retire him by a two-thirds vote of the entire Board.

Note.—The word "Bodies" in the above constitution refers to separate controlling bodies, whether missions or Chinese church courts.

APPENDIX B

Report of Committee on Tenghsien School.

"Your Committee recommends that the Mission reconsider its action on the Circular Letter, passed last Autumn, on uniting with the Northern Presbyterians, in the Training School at Tenghsien. Further, whereas the Normal work at Tenghsien can be duplicated at several of our Stations, with little additional expense and difficulty, and whereas, further the multiplication of schools will enable us to reach more men in each district, such as the future officers and evangelists, we recommend, that such Stations as find it practicable, will establish local Normal and Training Classes in connection with the High School, and that the Theological Students from Suchien and Hsuchowfu be allowed to go for the present to Tsingchowfu for further Theological Training."

APPENDIX D.

Report of Representative on Board for the Chinese Christian Intelligencer.

The Board this year found it unnecessary to meet together, and transacted its business by circular letter. We are glad to report a successful year for the paper. The roll of subscribers grows at the rate of fifty names a month, and has now reached the number of 4750. The single subscriptions have doubled since 1912, and are now 1971, of which number only 250 are to foreigners. In accordance with the action of the Board last year, the size of the paper has been enlarged by an extra sheet. The paper this year asked for no increase in the amount of appropriations. The circulation of the paper in the bounds of our own mission has been somewhat enlarged, but still a very large proportion of our Chinese membership do not have the help of their church paper.

HUGH W. WHITE.

APPENDIX E.

Report of Committee on Communications.

Your Committee would report as follows:—

Re the Communication from Dr. Hayes, referring to proper representation from our field, at the next Presbyterian Council, your Committee would recommend that this be referred to members of the Mission who are members of the several Presbyteries.

Re By-Law of Executive Committee on Furloughs, your Committee recommend that this matter be referred to the special Committee already appointed on this general subject.

Re letter from Dr. Chester, regarding editing Mission Reports, your Committee recommend that Rev. B. C. Patterson be appointed to edit the annual Mission Reports and forward same with Statistical Reports to the Executive Committee.

Re the celebration of the S. P. Mission Jubilee, your Committee recommends that we approve the same, and appoint Committee of three, as suggested.

Re letter from Dr. Price, requesting contribution to Continuation Committee, your Committee recommends that the Treasurer of the Mission pay Dr. Price, the sum of G. $50.00. We take this action with the understanding that no precedent is established.

Signed, J. B. Woods,
J. W. Paxton,
O. V. Armstrong.

APPENDIX F.

Report of Committee to formulate the action of the Mission in regard to withdrawal from the Seminary.

Your Committee would report as follows :—

The North Kiangsu Mission, in Session assembled this 25th day of August 1914, are impressed with the urgent need of an Institution to provide adequate and satisfactory teaching for evangelistic workers. The Nanking Theological Seminary, which was established by this and other Presbyterian Missions, has now become the Presbyterian Department of the Nanking School of Theology. After tentative co-operation for three years, with this inter-denominational institution, the North Kiangsu Mission finds that it is unsatisfactory, for the following reasons, viz; (a) While this Mission wishes to co-operate with other Christian Missions, as far as practicable, yet it feels called to stand strongly for the fundamental principles, common to the evangelical denominations of the Christian Church, and to do so it is necessary to control the instruction given to evangelistic workers. In the tentative plan of co-operation, a right of effective control was guaranteed to participating Missions, by the power granted to two Missions, but in the development of the Nanking School of Theology, has been taken away, as the Board of the institution has now annulled the regulation that the representatives of any two Missions, can prevent the election of a professor, objectionable to those Missions, or cause the removal of a professor for the same reasons. (See Minutes of Nanking School of Theology, Third Meeting, App. IV. Par. IV 3 (b). Minutes of Fourth Meeting App. V. Par. 3 (c).

(b) The methods of conducting the Nanking School of Theology, do not suit the conditions in the fields of this Mission, hence there are strong tendencies in many of our stations to either send their students to other institutions or to train them privately. Thus this Mission which should be giving its best energies to the development of a force of Chinese evangelistic workers, is dissipating its energies and scattering its work. Therefore the North Kiangsu Mission does hereby determine to withdraw from the Nanking Theological Seminary and declines to enter the Nanking School of Theology.

Signed, C. N. Caldwell, H. W. White,
B. C. Patterson.

APPENDIX G.

Report of Committee on Conference Committee's Report.

Your Committee would report as follows:—Instead of the item re the Executive Committee's Regulations we recommend the following:—Whereas the regulations recently sent out by the Executive Committee forbidding the Mission Treasurers to issue Gold Orders beyond G. $250.00, per month, works very great inconvenience and necessitates the missionaries financing to a greater or less extent out of their own salaries or borrowed funds. work, the estimates for which have been approved by the Executive Committee, we recommend that our Treasurer be instructed to communicate with the Executive Committee, earnestly advising that these regulations be not made effective but instead, that a tentative sum of G. $180.00 per quarter, shall be reserved at Nashville, to meet the individual Gold Orders from the field, and further, that in case at the end of the quarter, the pro rata amount of our entire appropriations (exclusive of Land and Building) approved by the Executive Committee has not been drawn, since all appropriations are for actual running expenses, and therefore, needed every month, we ask that the Treasurer be allowed to draw on the Executive Committee up to that amount.

Whereas, further the regulations concerning plans and specifications for house-building, are very difficult to put into effect, if indeed, not impossible, we recommend that these regulations be not made effective.

In regard to furloughs, we recommend:—That a furlough of six months, including travel, be granted in the Spring after six full years of service. With the consent of the Medical Committee, of the Mission, the missionary may stay on the field longer. The furlough to be lengthened by two months for each year added to term of service.

Signed, A. A. McFadyen, G. P. Stevens,
C. N. Caldwell, J. R. Graham,

APPENDIX H.

Report of Publicity Committee.

Your Committee would report as follows:—The following quotation from a letter of Dr. Chester's was sent to each station, about the first of Oct.: "With reference to Station Reports, please remember that we want to have them printed by the first of Dec., March June and Sept. of each year, and ought to have them in hand by the middle of the preceding month, at latest." This means that they should be mailed by the 15th of Oct., Jan., April, July.

By agreement, the special edition of the Bi-monthly Bulletin took the place of the quarterly Report. As far as we have been able to ascertain, Suchien, Tsingkiangpu and Hwaian were the only stations that sent in the three Reports that were due. Haichow and Yencheng sent one or more. No definite information from Chinkiang, Taichow and Hsuchowfu.

To satisfy the frequent requests of the members of the Executive Committee for photographs, a large amount of energy and some money was spent in trying to secure photographs of all the members of the Mission, on the field. These were inserted along with Personal Reports, in a special number of the Bi-monthly Bulletin. We ordered a thousand extra copies, five hundred of these were sent to the Executive Committee and the remainder, distributed among the members of the Mission. After the Bulletin was issued, the "Half-tone Blocks" were sent on to the Executive Committee.

Signed, O. F. YATES.

APPENDIX I.

Report of Committee on Estimates for Students' Stipends and Day-schools.

Your Committee would report as follows:—

1. In regard to Day-schools. In the judgment of your Committee, the rule as it now stands, requiring patrons to furnish a third is a good one and should not be departed from without previously procuring Mission consent. At the same time we recognize that in new fields the strict enforcement of the rule may work temporary injury. We therefore recommend that in the case of Messrs. Rice and White the rule be suspended for one year, in the expectation that reasonable progress shall be made towards the Mission standard.

2. In regard to Mr. Hancock, in view of his shorter period of service, your Committee feels that he should not be burdened with such responsibilities, hence, we recommend that his estimate for Boarding-school be reconsidered, and for the coming year not granted, and that his estimate for day-schools be reduced to $250.00.

3. In reference to Students in College preparing for the Ministry, we recommend that the Standing Rule already in existence in regard to students preparing to teach or practice Medicine, apply also to those preparing for the Ministry, and that the estimates for them be approved, with the understanding that such contracts be made.

Resolved 2, That a copy of this resolution with an explanatory letter be sent to the Executive Committee, stating that the Mission feels it to be their duty to call the attention of the Executive Committee to the fact that this withdrawal of guarantee of sound teaching meets the strong disapproval of the Mission, and we earnestly warn the Executive Committee of the danger which confronts the Church's work and the proper training of its native ministry arising from this action of the Trustees of the Nanking School of Theology."

An immediate reply was requested for the guidance of the Missions at the Annual Meetings. (2) In regard to the location of new missionaries, resolved (a) that in locating new missionaries the principle be recognized that all reinforcements are to be in addition to the working force existing at the time the Five-Year Call was issued, except as hereinunder indicated; and that the filling of vacancies caused by death or permanent removal from the field takes precedence of all reinforcements of Stations. (b) That in view of the vacancy caused be the death of Mr. Stewart the first male evangelist who comes to the field be assigned to the Mid-China Mission; thereafter the Missions to receive additions alternately, the first to be assigned to North Kiangsu. (c) That in view of the vacancy caused by the resignation of Miss Matthews the first new lady evangelist be assigned to Mid-China, thereafter all lady evangelists be assigned alternately to the two Missions, beginning with Mid-China. (d) That in view of the resignation of Dr. Malcolm, the first doctor to arrive be assigned to North Kiangsu. According to the principle laid down in (a), Dr. Mooney's withdrawal would put the second doctor to arrive, in Mid-China, but because of the urgency of the need in North Kiangsu, it is our judgment that the second doctor should also go to North Kiangsu; thereafter all doctors arriving up to Aug. 31st, 1916, be assigned alternately, beginning with Mid China. The Mission understands that this does not apply to Dr. Hewett. (e) That all trained nurses arriving up to Aug. 31st, 1916, be assigned to North Kiangsu. (f) That the first male teacher to arrive be assigned to North Kiangsu, thereafter, up to Aug. 31st, 1916, alternately to the two Missions, beginning with Mid-China. This is in view of the great need for a male teacher at Tsingkiangpu, and further in view of the fact that Miss Watkins is going to Kashing to assist in the school. (g) That new lady teachers be assigned to the two Missions alternately, the first to North Kiangsu.

At 11 o'clock the Com. took recess.

The Com. met at 3 p. m. and was opened with prayer.

The report of the sub-committee on Present Phases of Mission work was adopted as follows: We recommend that each Mission at its Annual Meetings hold Conferences on Evangelistic, Educational, Medical and Literary Work. That special effort be made to discuss tendencies and changes in China and propose measures to increase the efficiency of Mission work.

The report of the sub-committee on Matters for Special Reference to the Executive Committee was adopted as amended and is as follows:

1. Re the new regulation of the Executive Committee concerning erection of new buildings, resolved (1) That the Executive Committee be requested to furnish the Missions model plans for 8-room and 4-room plain brick dwellings and plans for schools and hospitals; the Missions to conform to these plans as far as possible.

(2) That it is the sense of the Conference Committee that the submission of specifications and monthly reports on buildings to the Executive Committee is impracticable, but Building Committees shall confine themselves in their building operations to appropriations granted.

(3) That when buildings have been completed full statement of accounts together with plans of the buildings, shall be forwarded to the Executive Committee for information and filing.

2. That we reaffirm the importance of missionaries obeying the rules of the Missions in reporting receipts of Special donations from sources other than Mission Treasurers.

3. Resolved, that the China Missions request the Executive Committee to adopt for China, instead of the secret ballot recently ordered, the following, proposed by the Committee last year and already favored by the ad interim committee of the Mid-China Mission, amended to read as follows: When a missionary applies to his or her Mission for furlough travelling expenses, it shall be the duty of the ad interim committee of the Mission, or such special committee as the Mission may designate for that purpose, to ascertain whether his or her station desires the return of the missionary to the same field of work after furlough. In case return is desired the Station shall take formal action to that effect and a written call shall be placed in the hands of the committee

having the matter in charge. (In case of one or two-man stations the committee itself after consultation with the full station shall make recommendations to the Mission.) This committee shall report such call to the Mission for approval and the Secretary of the Mission shall forward it to the Executive Committee of Foreign Missions. In case the same station does not call for the return of the missionary, the committee shall ascertain whether any other station desires to issue a call for his or her services and shall, if possible, report their findings to the said missionary before he or she leaves the field, and to the Mission, which shall forward notice of such action as may be taken, to the Executive Committee, through the Mission Secretary.

We further recommend that the Missions request the Executive Committee to indicate for our guidance what they consider sufficient grounds for the recall of a missionary.

4. That we urge upon the Executive Committee the necessity, owing to peculiar fiscal customs in China which make it necessary to close contracts in January, of receiving notice of appropriations granted the Missions, not later than the first of January.

On motion the committee concurred with the ad interim committee of the Mid-China Mission in approving an estimate, of G. $2500, for the erection in Hangchow of the Stuart Memorial Church on condition that the amount be raised by special donation, with consent of the Executive Committee.

Resolved that for the sake of accuracy, each Mission print in its annual Minutes the full report of the Conference Committee together with amendments passed by the Mission.

The Secretary was instructed to print 150 copies of the Minutes.

Moved that the next meeting be Wednesday May 31st, 1916 at 8.30 p.m., and the place the Missionary Home Shanghai.

Minutes of the day approved. Adjourned with prayer by Dr. Woods.

Chairman: B. C. PATTERSON
Secretary: J. MERCER BLAINE.

APPENDIX B.

Report of Representative on East China Educational Union.

Meeting

Your representative would report that he attended the meeting of the Union in Shanghai in February. The advantage of our membership in the Union is somewhat curtailed by the fact that English comprises so large a part of the curriculum in all the participating Missions, except our own, and yet we still think it worth while to maintain our connection with it, as aside from the question of English, many of the problems in Educational work are common to all and united consideration of them is helpful. The "Uniform Course of Study" is far from satisfactory, and is to be revised, making the Higher Primary Course cover three years instead of four as heretofore.

Respectfully submitted,

M. B. GRIER.

A SURVEY

OF THE

SOUTHERN PRESBYTERIAN CHURCH'S

North Kiangsu Mission

At the annual meeting of the North Kiangsu Mission, in 1914, a Committee was appointed to make a full and complete survey of our Mission field, its area, population, occupation, equipment, and needs; and to present to the Mission for consideration a practical plan for its ultimate evangelization. This Committee has been prayerfully and painstakingly considering this question for the last twelve months. We have sedulously sought to avoid as far as possible approaching this study from our own personal point of view; and allowing our report to be unduly influenced by any preconceived views which we ourselves might have formed on general principles of missionary policy and method. We have studied very carefully the published works of many recent writers on the general topic of the Science of Missions; we have searched the reports and findings of many of the numerous Councils, Conferences, Committees, and individuals which have been published during the last decade, and especially since the Edinborough Conference; we have discussed the conclusions which this report will bring before you with other missionaries and prominent Chinese workers; and lastly we have carefully weighed the several reports sent in by each of the Stations of our own Mission, and many of the views therein expressed are embodied in this Survey.

We wish to emphasize the fact that the report which we are now presenting is simply an attempt to make a business-like survey of our field; and to present a proposed plan of Mission policy along certain general and well-defined lines of effort. It is not intended to be an inopportune appeal for great numbers of men and large sums of money. We are acutely conscious of the financial difficulties which our Executive Committee is now called upon to face; but we believe that those difficulties are for the most part only temporary; and that when the world shall have passed through the present period of great shock and upheaval, our Church will then begin to realise that she has not yet come into the full consciousness of her great resources and her correspondingly great responsibilities. Against the coming of that consciousness and a consequent forward movement on the

part of our Church we need to have before them a clear-cut and definite statement of the status and out-look of the task which we have undertaken in this part of the non-Christian world. If this report shall succeed in making clear *what* is being done and *where* in our field, then we as a Mission shall be in a position to spend our funds and our service in the most efficient manner possible; and the churches at home with the facts fairly before them can definitely determine their future course of action.

A detailed survey of our field and of other Mission fields has long been called for. We believe that there has been an incalculable loss of effort and of money in the work of carrying the Gospel to alien lands because of the fact that our various missions and Mission Boards have not always made careful surveys of the fields which they wished to occupy, and formulated plans for the occupation of those fields. Within recent years some of the missions of other churches have realized the importance of this and have already taken the lead of us in the mapping out of their territories and the systematic planning of their work with a definite aim in view; and we have received much help from the study of the work done by them in the delimination of their fields and the defining of their policies.

Some of the things which we are about to set forth in this report, at the first reading, may cause serious dissent. But we ask you to bear with us patiently and sympathetically until the report as a whole shall have been presented; and then with the full statement of our facts before you consider the report not from the view point of one who sees only its defects, but from the view point of one who would like to have before us for future reference and guidance a carefully and seriously considered attempt to formulate a constructive and businesslike statement of Mission policy and procedure. If each of you who reads this report had been working on this committee for a whole year, studying facts and figures, reading bewildering reports from other fields, formulating comparative statistics of population, "realizing each minute that each unit of the population meant an individual soul, who has every bit as much intrinsic right to hear the good news of Jesus Christ as you or I have, and realizing further that unless you and I get tremendously busy in larger and more statesmanlike planning for the work, they will most of them pass into the next world before an adequate opportunity is given them to know of the Gospel,"—I say, that if you had been dealing with this one problem almost continuously for the last twelve months, then I believe that the findings of this Committee would seem to you wise and conservative rather than rash or extravagant.

In approaching the survey of our North Kiangsu Mission, its territory, population, present occupation, and equipment, we can best orientate ourselves by considering briefly the missionary work which is being done in the Kiangsu Province as a whole. With a clear and adequate conception of the present situation throughout the other parts of the Province, we can the more intelligently consider what remains to be done in our section of the territory in order to establish the Christian Church strongly enough to enable it to complete its task. We purposely say to enable the Chinese Church to complete its task; for we are firmly convinced that the ultimate evangelization of our territory—the establishment of a self-supporting, self-governing, and self-propagating church is the work, not of the foreign missionary, but of the Chinese Christians. The realization of this fact may mean for some of us on the field a revolution of our previous conceptions and a consequent diminution of our self-esteem. A new spirit is abroad in the land of China to-day. There is a new-born sense of freedom, of liberty, and of self-respect,—born we believe of God as a result of the coming to this people of the Gospel of Jesus Christ. Five years ago we were planning for a very large number of foreign reinforcements. We may still need them; for we have no prophetic insight into the future; but an interpretation of the present day signs and tendencies would certainly seem to justify the conclusion that after the passage of a comparatively few more years we shall have arrived at the place where there will be neither demand nor desire for more foreign missionaries in this part of China. With an unceasing fidelity to our trust and our opportunity now, backed by the loyal and consecrated support of our Church at home, together with the presence and power of the Holy Spirit, the completion of the next fifty years ought in God's providence to mark the termination of the work of the Southern Presbyterian Church in the North Kiangsu Mission.

So much by way of introduction. Let us now consider the work of the province as a whole, and not from the view point of any one mission. In this way we can approach the work in our own field with a comprehensive view of what the different missions and stations are doing,—what part they are taking in the evangelization of this Province. We would at the outset register a word of caution in the matter of statistics. In the compilation of statistics and especially of comparative statistics, where there is always so much possibility of divergence in point of view, it is difficult for one to be unbiased by one's own view point. As an illustration of this: In 1913 our Church's Japan Mission issued a very thorough and statesmanlike survey of their field, a survey very rich and suggestive in comparative statistics. In one of the statistical tables presented in this survey of the Japan field it is

stated that the combined population of our two China fields is 9,180,000; and that we have an average of one missionary to every 70,000 of the population. One who had only these figures to go by, and no first hand knowledge or information to draw upon, could not well avoid the drawing of a very erroneous conclusion. The author of this survey of the Japan Mission, in a recent communication to the writer says :

"This I now realize, after my recent trip to China, is an unfair estimate; but at the time these figures were estimated I had nothing to go by to make my totals approach more near to the real state of affairs. I say this so as to assure you of my honesty in the matter as far as my light went." In the preparation of the statistics of the population and the missionary occupation of this Province the writer has consulted all the estimates that were accessible, and each of our different stations also supplied local estimates of the population of the station territories; and as a final precaution—fearing that statistics formulated by ourselves might be supposed to be unfree from the personal element—all of these figures were submitted to the Statistical Secretary of the China Continuation Committee for correction and approval; and the statistics herein presented are to be taken as approved by that competent and impartial authority. In many cases the totals as here set forth are less than the figures sent in by some of the stations concerned; but it is far better to err on the side of conservatism than it is to run the risk of an overstatement. There is benefit to us as a mission and also to the Church at home in having estimates of population that may be looked upon as final. An over-legitimate excess of advertising zeal is sometimes inclined to lead us into an overstatement rather than an understatement of the population of our individual fields; and such excessive statements are always productive of harm.

According to the survey of The Far Eastern Geographical Establishment[1] the Province of Kiangsu with an area of 38,610 square miles supports a population of 23,980,230.[2] The density of the population is 620 to the square mile, a greater density than that of Belgium before the war (589), or England and Wales (558), or Pennsylvania (140). The Province is about two-thirds the size of England and Wales; is situated on

2 The population of this Province has been variously estimated at from 20 to 40 millions. Mr. E. S. Little regards 30 millions as a minimum estimate. The conclusions of the above mentioned work of reference seem to have met with a very general acceptance, and have the advantage of being very conservative. Cf. "Survey of the Missionary Occupation of China." By Thos. Cochrane, M. B., C. M., page 87. The Kiangsu Provincial Educational Association in a communication addressed to the writer gives 30,000,000 as the minimum figure for the population of this Province.

the east coast, with Shantung for its northern boundary, while on the West lie Honan and Anhwei, and on the South is Chekiang. With regard to its physical features the Province may be divided into three parts: 1. The northern part stretches down the old bed of the Yellow River and forms about a third of the Province. In soil and general characteristics this section resembles the northern provinces.

2. The central part of the Province, which lies between the old bed of the Yellow River and the Yangtse, is covered with shallow lagoons and canals; but rich crops of wheat, beans, rice, and cotton are grown; the waters also abound in fish, and salt is a large article of export.

3. The southern part of the Province, though somewhat mountainous in the West, is for the most part flat with a perfect labyrinth of lakes, rivers, and canals. The sediment deposited by the rivers has greatly increased the area of the Province, and "many of the hills in the eastern part were formerly islands in the sea."

The Grand Canal traverses Kiangsu from the North-west to the South-east; and the Tientsin-Pukow Railway runs from the western boundary via Suchowfu (Hsuchowfu) to the left bank of the Yangtse opposite Nanking. Railway communication also exists between Nanking and Shanghai via Chinkiang and Soochow.

The people of the North and Central sections differ very widely from those in the South, a general improvement in type and character being seen as one proceeds northward from Chinkiang. The people of the North are much stronger physically and more direct in speech,—as a rule more dependable. "The Southern people are more intelligent, more cultured and more tricky." The language in these two sections is uniformly Mandarin; while in the South the Wu Dialects prevail. This uniformity of language in the northern and central sections is of great advantage in the propagation of the Gospel. From the southern border of the North Kiangsu Mission to Pekin the language is the same, with unimportant dialectic variances.

As regards missionary occupation the Province, speaking generally, falls into two sections: The north (embracing both the northern and the central sections referred to above), and the South. The entire Province contains 60 magistracies (hsien), of which 29 lie South of the River and 31 north of the River. The missionary occupation of the Province as a whole, by Societies and Stations, is shown in the following statistical table, approved by the Statistical Secretary of the China Continuation Committee:—

Different Missions 9 Totals for working the territory North of River, including eight Magistracies South of River		30	13	9	37	45	2	52	84	11	131

Note on above table :—Of the six missions put down as working in the Chinkiang field, only the Presbyterian and the Baptist Missions are doing a general missionary work. The C. I. M. is engaged in agency work. The one male physician mentioned has been set aside by his mission to superintend house building in this and the neighboring provinces. The N. B. S. S. agent engages in no local missionary work but has charge of the distribution of his Society's publications over three provinces.

Reference to the map will show that about one-third of the Kiangsu Province is south of the River, and two-thirds north. This ratio holds good also as indicating the distribution of the population. While there are no cities north of the River as large as Soochow, for instance; yet the country districts are much more densely populated. As supplementary to the above tabulated force of foreigners, there is in mission employ in the two sections the following corps of Chinese workers: For the territory south of the River (exclusive of the A.P.M. South; and the F.C.M., for which no figures could be secured) there is employed a total teaching and preaching force of 995 Chinese assistants. In the territory north of the River there is employed by all the agencies working in this section a body of 277 teachers and preachers.

In educational work the southern section has a total of over 60 mission colleges, and high schools for boys and girls. (The Educational Directory of China, for 1915, lists 58; but we know personally of several others which are not listed). The northern two-thirds of the Province has a total of only 11 high schools for boys and girls. Of government high schools the entire Province has a total of 33; 21 of which are established by the district authorities and private individuals, and 11 by the provincial authorities. All of these are for boys; and 25 of them are in the territory south of the River. In the territory north of the River there are eight government and private high schools, located in the following magistracies: One in Tantu; one in Rukao; two in Kiangtu; two in Shanyang; one in T'ongshan; and one in Tonghai.

More suggestive still are the figures for mission medical work: In the southern third of the Province there are 15 hospitals; 38 physicians (exclusive of Harvard Medical School and other not distinctively missionary institutions); 13 foreign trained nurses; and 160 Chinese trained nurses. In the northern section there are 7 hospitals; 11 physicians; one foreign trained nurse; and three Chinese trained nurses.

THE NORTH KIANGSU MISSION:

The territory of the North Kiangsu Mission, as indicated on the accompanying map, embraces the three magistracies of Chintan, Tanyang, and Tantu south of the River; and (with the exception of certain magistracies presently to be indicated) all of that part of the Province north of the River and north of a straight line drawn from Penniu on the Shanghai-Nanking Railway to the coast of the Yellow Sea on the East. As noted above there are 31 magistracies north of the River. A glance at the map will show that these magistracies are from two to five times as large as those south of the River; and that more than two-thirds of the total

area of the Province is embraced in this northern section. We have seen no estimate which places more than one-third of the total population of the Province in the territory to the south of the River; but rather than run any possible risk of an over-estimation of the population north of the River, let us put the figure at 15,500,000, which is less than two-thirds of the population of the whole Province. A better view of the missionary occupation of this part of the Province may be had from the preceding chart (Page 6). A glance at this chart shows that in this two-thirds of the Province there are 9 Missionary Societies and Agencies at work, as compared with 38 Societies and Agencies in the southern third of the Province. North of the River there is a total foreign missionary force of 131 as compared with 627 in the southern section.[1]

Comment on so glaringly unequal, and unstatesmanlike a distribution of the missionary force for the Province is unnecessary. Yet one or two further points of comparison may be suggested: and let it be consistently borne in mind that these comparisons are suggested not in any sense by way of criticism; but simply as an attempt to get at the real facts as to the occupation of this part of the mission field: Omitting Shanghai, which in many respects represents a peculiar case, owing to the large number of foreign missionaries who are engaged in editorial, agency, and administrative work, and also to the considerable number of what we may call freak missionary societies in that city (such as the Christian Scientists, Dowieites, etc.), the city of Nanking with a population of 302,035 people is occupied by 126 foreign missionaries, or one to every 2,389 of the population. The city of Soochow with a population of 500,000 and a population in the surrounding territory of another 500,000 is occupied by 6 Missionary Societies with 88 foreign representatives; being one to every 11,366 of the population. If we omit the population of the surrounding country, Soochow has one foreign missionary to every 5,682 of the population. When we take into account the large number of Chinese preachers, teachers, evangelists, colporteurs, Bible women, etc., who are in the direct employ of the various churches or Missions represented in Soochow, there are few cities in Europe or America better supplied with paid Christian workers.

1 In all of these statements "North of the River" must be understood to include that part of the Chinkiang field which is embraced in the magistracies o. Chintan, Tanyang, and Tantu; which lie south of the River, but are included in the North Kiangsu field, and are worked *exclusively* by the North Kiangsu Mission's Chinkiang Station. *All* of the foreign missionary force at Chinkiang, including those engaged in executive, administrative, and agency work are included in the figures for the territory north of the River. This is unfair to the north of the River field; since aside from the North Kiangsu Mission's representatives, all the other missionaries at Chinkiang engaged in direct missionary work *are working in the territory south of the River*,—though not in the territory worked by the North Kiangsu Mission's Chinkiang Station. In order to avoid any misunderstanding on the part of some who read this Survey, it should also be stated that the territory of our Church's Mid-China Mission is not confined to the southern third of Kiangsu Province; but includes also much of Chekiang Province.

It would be interesting to understand the causes which in the past have led to such concentration and unequal distribution of our missionary forces. It is probable that in the earlier days openings occurred and opportunities arose which led to some centers being more fully occupied than others. The lack of co-operation between the different Missions and Missionary Societies has in the past prevented any serious attention being given to the distribution of the Missionary force over the Province as a whole. In a word, the circumstances and conditions under which many of our missions had to work in the past tended to convert the individual missionary into a free lance, who worked when and where he could find an opening. At the present time conditions are much more favorable for a proper distribution of our forces. Formerly the missionaries had to go where they could rather than where they would. To-day they may go where and when they will. The whole country is open: the people are not only receptive but even eager for the missionary herald. Under these changed modern conditions, the question might well be raised if it would not be the part of Christian wisdom and in the interest of the speedy completion of our task if the home Boards and Agencies would consider the whole question of the redistribution of the missionary force at present engaged in this section of China; and the readjustment of appropriations for material equipments. Wise and statesmanlike occupation of a given territory is impossible of realization until we have a changed point of view regarding the relation which should exist between the missions and the Home Base in the mapping out of the territory, and the efficient distribution of the Home Base's available funds and forces. The Home Boards could learn much from the business methods of such corporations as the Standard Oil Co., and the British American Tobacco Co., in the orderly and painstaking survey of the territory which they wish to occupy; and in the distribution of their forces in such a way as will best realize the accomplishment of their aim. No individual missionary contributor should be allowed to dictate the location of the missionary whom his money is to support. Such a policy is subversive of all missionary method.

In planning the future development of our work in the North Kiangsu Mission, therefore, we need to scrupulously avoid all overlapping of territory and duplication of forces. A recent writer from an over-occupied city says: "If instead of five men, crossing and recrossing one another's steps, and passing from one place to another over fields in which others are working, we had a proper delimination of territory, the result would be far greater efficiency and incalculably greater economy."

A reference to the map and accompanying chart of the North Kiangsu Mission will show that in this field there has been and is no overlapping

of territory. At Chinkiang there are located representatives of five Missionary Societies and Agencies.[1] The work of these separate organizations is distributed as follows:

1. The China Inland Mission has here three representatives, one man and two women, who are engaged in agency work, and who conduct a sort of home for such members of their own mission as may need a vacation and rest. The male representative also gives a great part of his time to the over-seeing of house building in various parts of this and the neighboring provinces. In addition to these three, the C. I. M. Mission also has at Chinkiang one trained nurse who works for the foreign members of that mission only, undertaking no work for the Chinese.

2. The National Bible Society of Scotland has a General Agent located at Chinkiang, whose territory embraces the three provinces of Kiangsu, Anhwei, and Chekiang; and who engages in no direct local missionary work. Through the employment of colporteurs throughout the above mentioned territory, the representative of this agency seeks to give as wide distribution as possible to the Scriptures as issued by the society which he represents. His time and activities are, therefore, about equally distributed over the three provinces mentioned.

3. The Methodist Episcopal Mission has here a work for women and girls. At present there are located here four single women, two physicians and two educational workers. Of these four workers two are leaving this autumn and do not expect to return. This mission has here no male representative, and does no general evangelistic work. There is a medical work for women and a High School work for girls. The educational work for boys is left entirely in the hands of the Southern Presbyterian Mission.

4. The Southern Baptist Mission has at Chinkiang two men and their wives. As neither of the wives undertakes to do any missionary work, the work of these two men is confined to a general evangelistic work; and is limited largely to the country districts to the west of the city. This mission and the Southern Presbyterian Mission are the only two agencies engaged in a direct evangelistic work of any important extent; and the work of the Baptist Mission does not in any sense or in any place encroach upon the work of the North Kiangsu Mission. By mutual consent the territory has been so occupied that there is no overlapping or over-crossing on the part of the one of the fields which are worked by the other. In the city of Chinkiang proper the North Kiangsu Mission is the only agency

1 This does not take into account the so-called "Church of God," a proselyting propagandism, which seeks to prey upon the weaker adherents of the Christian Church. This Society has two representatives at Chinkiang, though so far as we have been able to discover they are for the present inactive and comparatively harmless.

which is represented, either by foreign missionary or native worker. In the territory which is now being opened up by Mr. Crenshaw there is also no representative of any other missionary society. The same is true of the large territory now worked by Dr. Sydenstricker and Mr. Paxton; and of the much larger territory which is as yet untouched, but which they are planning to open as soon as the funds are available.

In the whole of the territory north of the River there are altogether six magistracies in which other missions have relieved us of the responsibility. Two other magistracies (Haimen and Chingkiang) are as yet unoccupied; but should be left to other missions as they are too remote from the North Kiangsu Mission, and also as we already have more than we can undertake with our present force and equipment. Haimen should be worked either from Shanghai or by the Foreign Christian Missionary Society from Nantungchow. Chingkiang is more accessible to the Southern Presbyterian Mid-China Mission from Kiangyin than to any other agency, and it is very desirable that the responsibility for that magistracy be assumed by the Kiangyin Station. Nantungchow is worked by the Foreign Christian Missionary Society, which has there a force of 4 foreigners, 2 men and 2 wives. Yangchow and Icheng are worked by the Southern Baptist and the China Inland Missions from Yangchow city[1]; Luho is occupied by the American Friends' Mission, with a total foreign force of 2 men, 1 single woman, and 2 wives. Lienshwei (formerly Antung) is worked by a force of 3 single women under the direction of the China Inland Mission; and Hsinghwa is worked by a foreign staff of 6 independent missionaries.

This leaves to the North Kiangsu Mission a territory unworked by other foreign forces of 26 magistracies, embracing a population of thirteen million souls.[2] In addition to this territory attempts are also being made to reach some of the unoccupied and destitute sections of Honan and Anhwei just across our provincial borders on the north-west. These sections while

1 The American Episcopal Mission has an Educational work for boys at Yangchow.

2 So far as we can discover Chinkiang and Tsingkiangpu are the only two Stations in the whole of the North Kiangsu territory where there are representatives of other missions. The non-Presbyterian missionaries located at Chinkiang have been referred to above. At Tsingkiangpu there are two single women, representing the China Inland Mission, who have a small school work and an amateur medical clinic. Formerly the American Episcopal Mission had a native representative at Taichow; but they have now retired from that field. The C.I.M. Mission still has a chapel with a native helper there; but they will in all probability have retired in favor of our mission before this report shall have been made public. *In this connection we would call the attention of our Executive Committee to the fact that the population of our field is much larger than the figures which have been adopted at home in the distribution of our Church's 25,000,000. Those figures give 12,000,000 as the total of our responsibility in the China field; four million of whom are assigned to the Mid-China Mission, and eight million to the North Kiangsu Mission. Since our field actually contains a population of 13,000 000, our Executive Committee should decide whether we shall continue to carry this responsibility or definitely abandon a part of the territory which we are now trying to cover.*

outside the borders of Kiangsu Province are nevertheless dependent upon us for the Gospel; and no other Mission is in so favorable a geographical position for reaching them as are we. We have made no attempt to estimate the population of these districts which we are working in Honan and Anhwei; and they are, therefore, not included in the estimates of population given above. One who is familiar with this territory, and who knows the estimates given for the densities of population in other lands, can not fail to be convinced that the work of the Southern Presbyterian Church's North Kiangsu Mission is in one of the most densely populated sections of the globe,—a good many careful observers have not hesitated to state without reservation that *it is the most densely populated field* in all the world. Other Missions have held aloof from this field, waiting to see whether we will enter in and take possession of our unoccupied territory; and the people of this territory are looking to us alone for a knowledge of the Gospel of Jesus Christ. It is, therefore, a self-evident proposition that with the whole field left absolutely to us, we are in a far better position to make workable plans, and to prosecute those plans with greater economy and success than would be the case if we were working in an unenviable competition with other missions. This fact places upon us an extra burden of responsibility to make our plans, take stock of our resources; and if our present and probable ultimate resources are found to be insufficient for the evangelization of this field, then we owe it to the people among whom we are now trying to work to overture our Executive Committee to take such steps as may be necessary for the definite abandonment of a certain part of our Church's responsibility in this part of the heathen world.

COMMUNICATIONS:

In our territory the means of inter-communication are various, and for the most part extremely primitive. Of the central stations Chinkiang and Süchowfu may now be reached by rail. Tsingkiangpu, Yencheng, and Taichow are accessible by steam launch. Sutsien and Haichow must be reached by slow boat; a journey of about three days' time from Chinkiang to Sutsien, and of four days' time to Haichow. In the work of itinerating the three northern stations have to depend largely on slow overland travel by wheelbarrow or cart; while the southern stations are dependent on slow boats, wheelbarrows or donkeys. These slow and painful methods of travel greatly accentuate the long distances which our missionaries have to travel in covering their territory. To travel in any one of the above mentioned ways once or twice is a pleasant novelty; but when one has to do it over and over again, year in and year out, it is a novelty not much to be desired. This difficulty of travel has been relieved to some extent by

the railways at Süchowfu and Chinkiang; by a mission motor boat at Tsingkiangpu; and by motor cycles at Haichow and Sutsien. One of the greatest economizers of the time and strength of our missionaries would be the possession of more such aids to quick and comfortable travel. The initial expenditure of money for motor boats and motor cycles would be negligible when compared with the increased efficiency of the individual missionaries. With the exception of Süchowfu, each of our central stations should have a first class motor boat. These boats should not be in the name of any one individual, but should belong equally to all the members of the stations and there should be a competent, reliable native boatman to take care of and run them. In all sections of the field where such can be used each of our itinerating missionaries should have either a motor cycle or a motor boat.

To briefly summarize the foregoing: There are 26 magistracies in the territory of the Southern Presbyterian Church's North Kiangsu Mission, with a total population of 13,000,000 people. In this territory, exclusive of wives, there are 38 missionaries, an average of one to every 342,105 of population. Counting each wife as a full missionary unit, there is a total foreign force of 62 for this territory, or one foreign missionary to every 209,679 of the population. In the United States there is one ordained minister to every 594 people; in the North Kiangsu Mission territory there is one ordained minister[1] to every 590,909 of the population. The following comparative statistics are exceedingly suggestive:

		Population	Missionaries	Ratio
1.	Our Cuba Mission:	81,500	11	1 to 7,400
2.	Our Korea Mission:	2,635,000	76	1 ,, 34,679
3.	Our Mexico Mission:	500,000	11	1 ,, 45,454
4.	Our Africa Mission:	1,710,000	37	1 ,, 46,216
5.	Our Mid China Mission:	5,450,000[2]	69	1 ,, 78,985
6.	Our Japan Mission:	3,840,627[3]	36	1 ,, 106,684
7.	Our Brazil Mission:	4,026,000	35	1 ,, 115,028
8.	Our North Kiangsu Mission: ...	13,000,000	62	1 ,, 209,679

1 Foreign ordained minister. In the North Kiangsu territory there is no native ordained minister. The policy of the mission has been to require of a candidate for ordination the same qualifications which are necessary for ordination in the home land. Our native preachers are usually ordained as elders and are not qualified to administer the sacrements.

2 These figures are taken from the Executive Committee's Report to the General Assembly, 1915. Obviously there are some errors. For example, the Soochow Station's estimate of 2,000,000 is doubtless a misprint. The city of Soochow and the surrounding country doubtless contain that number of people; but there are 6 different missions, with a foreign force of 88 missionaries, working in that field.

3 This estimate of population is taken from the Japan Mission's survey issued in 1913, which was signed by all the members of the Mission, and should, therefore, be taken as authoritative. The figure given in the Executive Committee's Report to the General Assembly is in excess of this, and obviously erroneous.

As a preliminary to the adequate occupation of this territory with its population of 13,000,000 people, our North Kiangsu Mission with its force of one foreigner to every 209,679 of the population has already established eight central stations. These stations are located as follows: 1. Chinkiang; 2. Taichow; 3. Yencheng; 4. Hwaian; 5. Tsingkiangpu; 6. Haichow; 7. Sutsien; 8. Süchowfu. As indicated below, the two stations of Hwaian and Tsingkiangpu are regarded as occupying only one general district. So that in reality we have only seven centers or divisions of territory.

A brief glance at these stations in their geographical order will give a better understanding of the work of our Church in this field:

1.—*Chinkiang:* The city of Chinkiang is situated at the intersection of the Yangtze River and the Grand Canal. It is an open port of great commercial and missionary importance. The population of the city and immediate suburbs is at least 350,000. Local officials give the figure 800,000 as the population of the Tantu magistracy, exclusive of Taipingchow, which has a population of 20,000. If the whole magistracy has the population which is officially given, then the city and suburbs must have at least 500,000. The territory for which our Chinkiang Station is responsible includes the five magistracies of Chintan, Tanyang, Tantu, Yangchong and Taishing; and has a population of 2,000.000. The city is beautifully situated; and surrounded by extensive suburbs which extend along the canal. Not less than 5 cities can be seen from an elevation just outside the city, where the Presbyterian Mission compound is located. Our work at this Station was opened in 1883; the money necessary for the opening being supplied by the Stuart Robinson Memorial Church, of Louisville, Kentucky. The history of the work here has been one of great difficulties and hindrances; but there has been steady growth. Apparent failure, outward difficulties, lack of funds and equipment, have been only the accidents of the work. During the past few years a greater change has possibly come to Chinkiang than to any other city in our field. Having taken an important part in the Revolution, Chinkiang has received to the fullest extent all of the benefits which have come from that social and political change. The people have a passion for things Western; and there was never before so great an opportunity for the presenting of the Gospel. In High School work for boys the North Kiangsu Mission is alone responsible for the 2,000,000 people in this field. Our present building for the boys' boarding school was intended to accommodate 60 students. By utilizing what was formerly a foreign residence, we now have in the school a total of 77 boys; and there are at present more than twenty applicants for admission. Unless the money for a school building is secured within the next year,

many of the boys now in school will have to be dismissed, as the old residence just mentioned will not stand longer than that. In addition to the boarding school, we have in this field a total of eight day schools, four in the city and four in the country. In evangelistic work there are thirteen out-stations, and four regularly organised churches, with a total membership of over 390, of whom 93 have been received within the past twelve months. The people of our entire field are receptive and appreciative of the Gospel; and on all sides the harvest is waiting for our gathering. At this Station we are face to face with a great crisis; and unless we can secure the force and the funds necessary for a more adequate occupation of the field, we shall have to contend against the force of a lost opportunity.

Another of this Station's urgent needs is a fully equipped modern hospital. For these two million people in and around Chinkiang there is absolutely no medical work, except the Methodist Mission's Hospital for women. One who has been in China, even on a globe trotting tour, can imagine something of the suffering among so many people without medical care. We who live in the midst of it all are constantly oppressed with a sense of a great duty undone, because we are doing nothing to relieve this suffering. We are teaching our people that the ministry of the Church is the three-fold one of preaching, teaching, and healing; but we have not yet been able to meet their need for healing. Our witness to them is an incomplete witness, and our work among them is an imperfect work.

2. *Taichow:* This Station was opened in 1908; but until within the last two years it has been occupied by only one man. Rev. C. N. Caldwell spent four years on a house boat while waiting for an entrance into the city. The attitude of the people has completely changed within the last three or four years; and there is now an open door on all sides. The present foreign force consists of two evangelists and their wives, who are engaged in a general evangelistic work. In addition to the directly evangelistic work, there is one small day school. So far no out-stations have been opened because of the lack of funds and workers. The native force consists of three preachers and one school teacher. The Station's present plans include the opening of six out-stations, as soon as funds and sufficient native force can be secured. As yet this field has no organized church; but there is a nucleus of twenty-eight baptized Christians. There are no other foreigners located in this territory, which has a population of 1,250,000. The present equipment of the station is one residence, one chapel and residence combined, and two plots of vacant land. Generally speaking, the desire of this Station is to have Taichow as a fully equipped

central station; and also to occupy five other main points with selected native workers. Their plan is to have a regular visitation of the larger market towns and villages, establishing groups of Christians who will be self-supporting from the first establishment of the work among them. Connecting as it does the southern and the northern parts of our work, Taichow is in many important particulars a strategic center; and we should make a very grave mistake if we did not at the earliest possible moment give to that Station the force and the equipment which it requires for the successful continuance of its work.

3. *Yencheng:* Work at the Yencheng Station was opened in 1911; and there is already an organized church with 154 members. The territory of this station includes the two magistracies of Yencheng and Funing, together with the northern portion of Tongtai and such sections of Hsinghwa and Lienshan as are unworked by the independent missionaries who are located in those magistracies embracing a total population of 1,250,000. The foreign force at present consists of two evangelists and one physician together with their wives. There are eight regularly occupied out-stations which have been partially developed. There is a native working force of thirteen evangelists and three Bible women; six dispensary helpers, and eight school teachers. In accordance with the Mission's general policy of Station equipment, Yencheng should also be supplied with a hospital and boarding schools for both boys and girls. Funds for the partial equipment of this station are already in hand, being receipts from the last annual Sunday School collection; but as soon as reinforcements are secured more funds will also be required for the construction of additional foreign residences. The present equipment of this and all other stations in the mission will be given on a separate chart.

4. *Hwaianfu:* The Hwaian Station was definitely opened by foreign residence as early as 1904; but very little has been done towards the development and equipment of the work in that city. Hwaianfu was formerly a prefectural city, but under the new adjustment of territory it belongs to the Hwai-Yang District; and the District Governor's place of residence is Tsingkiangpu. "There are several considerations which make Hwaian a desirable center for missionary work. Though only ten miles distant from Tsingkiangpu it is an entirely distinct field and has a large population, including Paoying a total of about 1,300,000 souls. It is worthy of notice that the districts north and south of this center have in past years suffered large losses of population from famine and rebellions; but the Hwaian territory has always escaped. It is also a natural geographical center for evangelistic work, having good canals both East and West.

Being the home of many literati and retired officials, and having been the prefectural city of six magistracies previous to the revolution, it is still largely the social and commercial center not only of its own magistracy, but also of the people living in the regions east and south. This field presents most excellent opportunities for evangelistic, educational and medical work; and our Church is wholly responsible for the work, no other Mission being represented here. Our Mission should as soon as possible take advantage of the unusual opportunities for educational work which this centre affords; and while it is not possible for this Station to have its own independent medical work at present, we should leave the way open for the establishment of a medical work here when the Executive Committee deems it proper."[1] There is as yet no organized church at Hwaian, and only three baptized converts.

5. *Tsinkiangpu:* Tsinkiangpu was the second of the stations opened by the Southern Presbyterian Mission in this section of China, work there having been begun in 1887. The city itself contains a population of not less than 130,000; and is one of three strategic centers of our mission. The field for which this station and Hwaian missionaries together are responsible embraces a population of fully 3,000,000;[2] a larger number of people than the entire population of our Africa Mission or our Korea Mission; six times the population of our Mexico Mission. The evangelistic work at this station is subdivided into two departments; work at the central station and the country itinerating work. Station reports state that the church and chapel services are crowded, standing room being at a premium. "Our numbers have increased considerably and we are getting quite a number of men and women who are of help to us in the work. The church has been organized now for over a year. The elders have proven to be fine men for the office and have been a great help to us in church matters, especially in the examining of enquirers and deciding who should be admitted into the membership of the church. These men have grown very much both in a knowledge of the Bible and in spiritual life during the last two years. At the central station there is a flourishing Sunday School under a Chinese superintendent with seventeen teachers." A weekly normal class for the Sunday School teachers is conducted by Dr. Jas. B. Woods. This station is also equipped with an up-to-date hospital plant, a middle school for boys, and a temporary building for the girls' high school and 2 day schools. The foreign force consists of four men,

2 For the sake of being conservative we estimate this field in a subsequent chart as having only 2,500,000.

with three wives, and four single women. There is also a work for orphans at this station. The church membership consists of 115 people.

6. *Haichow:* This station was opened in 1908; and at present has a foreign force of two evangelists and one physician with their wives. The evangelistic work is carried on by native workers under the supervision of the foreign evangelists. In the central station there is an unorganized church of 100 members under an efficient native pastor, who in addition to his pastoral work also acts as colporteur and hospital evangelist. There are six out-stations under the direction of fairly well trained native evangelists, who are engaged in preaching, teaching, and book selling. There are also a number of women evangelists working under foreign supervision, two of whom spend the greater part of their time in the out-station work. This station also has four day schools with an enrollment of 107 students; and one boarding school with nine students. In its work for women and in its out-station medical work Haichow station has given a good example to the workers in other stations. Each week there is a clinic at one or another of the out-stations and evangelistic work in connection therewith. In this way the benefit of the central station's medical work is spread over a much larger territory, and its help as an aid to the evangelistic work thereby increased. The most outstanding needs of this station are funds and force for the establishment of an educational work for girls, and single women evangelistic workers.

7. *Sutsien:* Sutsien is a city of about 50,000 inhabitants, situated on the Grand Canal about 60 miles north of Tsingkiangpu. Evangelistic work was begun in that city by our mission in 1893; but there was much opposition on the part of the gentry, and the missionaries were unable to secure homes until 1898. The magistracy of which Sutsien is the seat of government has half a million inhabitants; and is surrounded on all four-sides by districts equally as large, without another mission station nearer than sixty miles. This is a farming section, and the people are from strict necessity accustomed to economy. This station has two organized churches, with a membership of 523. There is a foreign force of two male and two female evangelists; one male and one female educational worker, one physician; and three wives, making a total foreign force of ten missionaries. Of the native force there are sixteen evangelists and forty school teachers. There are a boys' and a girls' boarding school and thirty primary day schools with a total of six hundred and seventy students under Christian instruction. This Station has shown particular wisdom and foresight in the attention given to primary educational work, a department of work in which all of the other stations are sadly deficient. This deficiency is due partly to a lack of

funds and partly to a lack of appreciation of the importance of day school work. The Sutsien field is unparalled outside of China. Its two millions of people are waiting to receive the Gospel; and our force there can not begin to enter the doors which have been opened to them. There are no others who will undertake to share our responsibility in that field; and unless we give the people the Gospel they will not receive it.

8. *Süchowfu* (*Hsuchowfu*): Süchowfu, our Mission's most northern station, was opened in 1896. The Southern Presbyterian Church's southmost station is Hangchow; Süchowfu is six hundred miles to the north. The population of Süchowfu, including suburbs, is 125,000. The population of the entire station territory is 2,500,000. The next nearest station to Süchowfu is Sutsien station, eighty miles to the southeast. The city of Süchowfu is situated on the bank of the old Yellow River, which left its bed about fifty years ago and sought an outlet to the sea farther north. The Grand Canal passes Süchowfu on the east, about thirty miles away.

The Süchowfu field is untouched by workers from other missions; and we alone are responsible for its evangelization. The foreign force at this station consists of three male evangelists, one educational worker, one physician, one man engaged in orphanage work, and five wives. There is a boys' boarding school with an enrollment of 105; and 22 day schools with 312 students. A girls' boarding school has also been started and at present has 59 pupils; but the work for girls is handicapped by the lack of a single woman to give her time to it. Süchowfu, situated as it is on the Tientsin-Pukow Railway, is one of the strategic centers of our mission; and we should spare no effort in its speedy equipment and development.

The work of our eight Stations and consequently the work of the Mission as a whole may be tabulated as follows:

The above summaries give a general view of our North Kiangsu Mission's territory, population, missionary occupation, and material equipment. The work of our church in this field was begun in 1883; but the North Kiangsu Mission was not organized until 1899. Those of us who are now on the field, especially those of us who have been here for a longer period of time, confidently believe that we have passed our years of waiting; and are now ready to enter upon a period of growth and expansion. The history of our work in the past has been filled with difficulties, hindrances, and opposition. Our advance has been slow but constant; and the growth has been sound. We have made a good beginning; the foundations of our work have been well laid; and we have come now to the time when we must advance more rapidly or lose much of the ground already gained. The reports from our various stations and individuals show that the people of this territory are wakening to the fact that their old religions have failed them. For centuries they and their ancestors have gone on pilgrimage seeking happiness and have found it not. The souls of this people have been made for God; and to-day they are restless because they have not found rest in Him. This restlessness, receptiveness, and eagerness of the people is *our* opportunity. All over our field the foundations of the old religions are undermined. Thinking men have lost their faith in idols. "A man embarking on a new business

venture, a woman praying for a child, a traveler going to a far country, a harlot seeking for success in her trade—these may come to petition the gods. Of true worship there is no trace. Small wonder that many of the temples are deserted, many more turned into schools, public offices, or police stations; while the idols have been huddled into corners, or even broken to pieces and thrown into the rivers.'' Just a few days ago an old Chinese scholar said to the writer: 'The Chinese religions are good for women and the country people. Intelligent Chinese have no religion.' A prominent Chinese merchant at Chinkiang recently made the remark: 'Formerly I was a Buddhist. Now I have no religion; and I want none'.

Those of you who have read *Blackmore's* ''Lorna Doone'' will recall that chapter describing the great winter, when a heavy snow storm that covered houses and trees and water courses was followed by frost that converted well nigh the whole valley of the Doones into a solid mass of ice. It seemed as if the winter would never end. But at last after long and weary waiting the soft west winds began to blow, uncovering houses and trees and fields, until finally grass and foliage reappeared; and the whole valley teemed with new life. And so for the past quarter of a century the soft west wind, the wind of the Gospel of Jesus Christ, has been blowing upon this field of ours, dissolving the icy frosts that have covered it for untold centuries, causing the hearts and minds of the people to quicken with new thoughts and new hopes. Shall we respond to those thoughts and meet those hopes, which are so glorious a prophecy of that day when all China will be the Lord's? The non-Christian Chinese who surround us in such great multitudes to-day are ready to confess that we foreign missionaries are in their midst not for selfish gain, or other unworthy motive; but because we care for them; sympathize with them in all their struggling, sorrowing, sinning, and suffering; and want above all things else to help them. And because the heathen Chinese knows this, he is ready not only to commend our ''good deeds;'' but also to show his appreciation by gifts to mission schools and hospitals. A recent incident of this kind occurred at Haichow Station; the local Chinese contributing $1,500 to the medical work of Dr. Morgan. For twenty-five years our missionaries have labored hard to find an entrance for the Gospel; and it now seems as if the entrance had been found.

The work of the past years has created the tremendous opportunity which confronts us to-day. The barriers have been broken down, the way has been made clear. Those of our number who have been on the field for longer term of service, who have born the burden and heat of the day, would be untrue to themselves; and those who have more recently entered upon

the work would be recreant to their trust and unworthy of their heritage, if we do not in God's strength take possession of the land. It is incumbent upon us to exert ourselves to the utmost in the work; and at the same time it is our sacred duty to use every possible method to impress upon the Church at home the fact that a great door and effectual has been opened unto us; and that we should enter before that door be closed. The burden of responsibility for evangelizing this people no longer rests upon our shoulders: we have done what we can, and we must now wait upon the will of the Church at home.

Our aim is not to secure foreign missionaries in sufficiently large numbers to evangelize our territory; but simply to have a foreign force sufficiently large to train the Chinese Christians and to direct them, so far as may be necessary, in the evangelizing of their own people. We cannot place too great emphasis on the fact that the greater part of the work of evangelizing ultimately must be done by the Chinese. Our aim is to establish a Christian Church that will quickly become independent of foreign funds and foreign control; and in its independence become the chief agency for winning the Chinese to Christ. The success of our work will be determined by the strength of the Chinese Church within our bounds. Mr. John R. Mott gives statement to a fundamental truth when he says: "While the Churches of Christian lands are responsible for the introduction of Christianity to non-Christian nations and for making sure that it is securely established in them, the principal burden of responsibility for the extension of Christ's Kingdom through each country rests upon the Christian sons and daughters of the soil." We as missionaries need first of all to realise ourselves, and then we need more and more earnestly and emphatically to impress upon the minds of the Chinese the truth that we must decrease and they must increase. Our aim—our Ideal, therefore, should be the establishment of a self-supporting Church. We need not be concerned about self-government and self-propagation. These two features will follow upon self-support more quickly than some of us could hope for. Comparatively speaking, we in the North Kiangsu Mission have only a small part to play in the work of the establishment of a self-supporting Church throughout the whole of the Republic of China; but if our part be done wisely and well, then the burden of any possible failure does not rest upon our shoulders.

If we are to take advantage of the present enlarged and unprecedented opportunities; and begin a great forward movement for the completion of our task—a movement which shall be maintained with energy and enthusiasm until the work be done, then we need to plan our work even

down to the minutest possible details. Wise plans in the inception of any work make for efficiency and economy ever after. There is now every opportunity for the orderly development of our work. We have the experience of others—their successes and their failures—to fall back upon for guidance in making our plans; and on the field there are no longer any great difficulties to be overcome. To-day we have our choice of openings and we can take advantage of them whenever we will. Efficiency and and economy should be our watch words. When we shall have combined the highest efficiency with the wisest economy, we shall have advanced far on the way to a science of missions. The suggesting of efficiency schemes is at present a very popular pastime; and while many of the suggestions made are exceedingly puerile, yet the prominence of the question is an indication of its real importance. We do not believe that our Church has a body of missionaries more capable than are those of the China field; but if there are methods by which our capabilities can be utilized to a higher degree of efficiency, it is our duty to find those methods. We need the highest possible efficiency for the sake of the more rapid, sure, economical, orderly development of our work. Economy is necessary, in the first place, because the finances of our Church are already straitened; and, in the second place, because the call of Christ upon the liberality of our Church is not confined to the call of the North Kiangsu Mission. Economical plans in our field will be an example for others; and will enable our Church to conserve its resources for meeting the tremendous demands of other fields and other causes. We have, therefore, cut the cost of our work down to the last dollar consonant with efficiency. Having done this, we wish to state our needs to the Church at home; and say to them: "This is what we *must* have, if we are to do the work which you have a right to expect of us. If you cannot supply our needs, then it would be wiser for some of us to come home; and let the amount of our salaries be converted into the equipment necessary to enable those who stay on the field to do more decent work. We cannot do mission work without the necessary implements of our trade; any more than a carpenter can build a house without material." Fifty foreign missionaries with full equipment and with the funds to employ native assistants to help in the extension of the work would be worth more to our cause than would one hundred missionaries who, lacking funds and equipment, can only fret and fritter their lives away. If physicians have no hospitals, if those of us who are engaged in educational work can receive no students because we have no buildings, then the sending out of more missionaries, without a correspondingly larger increase in funds for equipment, is not only folly: it is sin.

In the interest of both efficiency and economy we are convinced that we should plan and standardize our work along certain general lines presently to be specified. The planning of our work is necessary in order that all of our efforts may be related, and a proper balance maintained between the different parts of our field and the different work of individual missionaries. If the work of one Station or of one individual be inefficiently done, the work of the whole mission is thereby hindered. There is need for a closer coordination of all the mission work in our field. The experience of the past would seem to indicate that "if a missionary is not an individualist to start with, he is in danger of quickly becoming one." We need to link up all the departments of our work; to multiply points of contact between the different forms of work; and to secure for the whole work of the whole field the intelligent interest and sympathetic support of each individual worker. Our work is not the unrelated work of seven or eight different fields; but the united work of one field; and the work of each Station and of each individual has an important bearing on the whole. The North Kiangsu Mission has no place for free lances or free lance work. What we need is standardization, cooperation; and unity of aim and method. Definiteness of aim, continuity of purpose and general policy should be our mission's principle of growth. In this way calls for service and demands for opening new work will largely settle themselves automatically. The distribution of forces and funds will have a guiding principle. "Without such definiteness of aim all sorts of tangents will manifest themselves. No mission should grow by the coral reef method, each person adding what he wants, and when and where he wants it. And yet such an aim or ideal should not be so rigid as to preclude the clear leading of God's Spirit in another direction. But a radical change should not be allowed until after the fullest consideration, and for the clearest and most convincing reasons. A mission should not permit the whim of a wealthy donor, the sentiment of an active and persuasive woman, or the determination of a strong headed man to veer the bark from its true course." (F. S. Brockman). In addition to a general policy, we purpose at regular intervals to take an accurate stock of our resources in men, money, and equipment; "review the needs of the whole field, and map out a clear-cut program of work covering a period" of at least five years. Such periodic reviews and programs should fit into our general plan and policy, and should aim only at the further advancement of our ultimate purpose. Definiteness of purpose and plan will not only be of value to us on the field; but should also render important service to our Executive Committee and the Church at home in increasing interest in our

cause, and enlarging gifts of men and money. In mapping out our work we also seek to estimate as far as possible the time required for its accomplishment. "In this respect we might well study the example of industrial institutions where the most minute study is made of the time required to perform each task required of the thousands of workmen. In some factories minuteness is carried to the point of knowing within a fraction of a minute the time required for each operation. It is true that our tasks are largely not mechanical and not capable of the same rigid standardization; but the fact that we cannot determine within a fraction of a minute the time that work will consume does not mean that we should make no effort to determine whether it will take one man one year or two men five years." (F. S. Brockman.)

As far as possible, we purpose also to specialize in our work. At best the duties of the foreign missionary are bewilderingly complex. In reply to a questionaire sent out, one of the missionaries answering the question as to what kind of work he is engaged in, replied: "City evangelistic work, including the regular church services, street chapel work, street work of other kinds, country itinerating, class work, distribution of literature, entertaining visitors, visiting in homes, executive work, clerical work, making reports, keeping accounts, writing letters to home Church, literary work, including books, articles, etc., teaching our own children, house-building." That is the daily program of many of us. It reminds one of the sign over a Chinese shop in Shanghai: "Furnaces and umbrellas mended. Any mortal thing can do." But the missionary who is forced to become a jack of all trades greatly loses in real missionary efficiency. No man can do all things and do them well. Therefore the mission should see to it that each missionary is assigned to that form of missionary effort which by natural ability and training he is best fitted to do. To take a man who is preeminently fitted to do evangelistic work and assign him to the work of keeping books, conducting a school, or building a house, means the transforming of an efficient agent into an inefficient one, with an unavoidable consequent loss to the mission as a whole. When a man and his wife who have been sent out to the evangelistic, educational, or medical work (their combined support as estimated by our Executive Committee at home being $200 gold per month) spend the greater part of a year hanging around, nagging at and being nagged by a gang of Chinese carpenters or masons, it may seem economical on the surface. But when we take into consideration the fact that during this ten months their service is practically lost to the real work of the mission and also the further fact that before coming to the field the man probably did not know

the difference between a rip saw and a hand saw, we can well believe that the critic of foreign missions was justified in citing cases of this kind as illustrative of mission folly. In as far as possible the Mission should see to it that each man "performs those functions which he is best fitted to perform, and should prohibit him from interfering in the performance of those functions about which he is not specially qualified to give an opinion."

We owe it to the people among whom we work, to the Church at home which supports us, and above all to ourselves to secure the greatest possible returns from our expenditure of men and money. We thoroughly agree with the Editor of the Chinese Recorder (July, 1915) that the putting of mission work on a thoroughly efficient basis is not a question for the mission alone. In one respect at least our Home Base needs to readjust its policy. "Mission work is still largely administered from the Home Base. A larger measure of power for practical administration on the field is necessary in order to clear the way for efficiency. The missionaries are the experts in the actual doing of mission work. To set them free in large measure in the practical conduct of mission work from the oversight of those who live ten thousand miles away, most of whom have no first hand knowledge of the problems, would allow the missionaries to adjust the work more quickly to the actual problems on the field than is now possible. If the mission be allowed to work out details and solve unimportant problems in the light of circumstances and conditions which give rise to those problems, greater efficiency will be had upon the field; and the Home Base will have larger freedom for the carrying out of its special function of securing funds and recruits for the advancement of the Mission cause."

The following has been adopted by the Mission as its general policy of occupation, and plan of work:

In the allocation of territory to the different stations, geographically, our field as a whole is divided into seven general districts, the two stations of Hwaian and Tsingkiangpu being regarded as occupying one large district though they are separate and independent centers of work.

Taking these seven districts of work in geographical order from South to North each central station is responsible for the development of the general territory indicated below; but it should be kept in mind that these subdivisions of territory are not meant to be hard and fast lines of division. It would be a mistake to require the members of each station to confine themselves strictly within geographical lines; in many cases it will be found that a station's best work is just over the border. The Chinkiang station,

for example, is now working in seven magistracies; but is put down as being responsible for the work in only five magistracies. Süchowfu station also is working over the border in North Anhwei and Eastern Honan, and while they could not for the present think of abandoning their work there, yet they are not assigned the responsibility for those sections. While approving the general division of territory indicated below, the Mission leaves the delimination of territory to the various stations concerned.

1. The Chinkiang field includes the five magistracies of Chintan, Tanyang, Tantu, Yangchong, and Taihsing, embracing a population of 2,000,000 people.

2. The Taichow territory is the two magistracies of Taihsien and Rukao, together with the southern half of Tongtai (including the city of Tongtai), the entire field having a population of 1, 250, 000.

3. Yencheng station is responsible for the territory embraced in the magistracies of Yencheng, Funing, the northern part of Tongtai, and unworked sections of Hsinghwa, and Lienshwei. This territory also embraces a total population of 1,250,000.

4. The Tsingkiang and Hwaian field embraces the magistracies of Hwaiying, Hwaian, Sziyang, Paoying, and Shweiyang (the old magistracies of Sanyang, Shweiyang, Ch'ingho, T'aoyuan, and Paoying), with a population for the whole territory of 2,500,000. (The combined population of these two stations is nearer 3,000,000; but we estimate as 2,500,000 rather than run the risk of an over-statement.)

5. The territory for the evangelization of which the Haichow Station is responsible is the three magistracies of Tonghai, Kanyu, and Kuanuin, with a population of 1,500,000.

6. The territory of Sutsien Station includes the magistracies of Sutsien, Shweining and P'ichow, and also those sections across the border from Shweining, with a total population of 2,000,000.

7. The territory of Süchowfu Station is the magistracies of T'ongshan, Feng, P'ei, Hsiao, Tangshan; which together with sections now worked across the borders give to that station a responsibility of 2,500,000.

This subdivision of the territory omits all those sections north of the River which are being worked by other missions; namely, the six magistracies of Nant'ong, Kiangtu (Yangchow), Hsinghwa, Lienshwei (Antong), Icheng, Luho; it also omits the two magistracies of Chingkiang and Haimen which as stated above are unoccupied but too remote from our field to be successfully worked by us. Of these magistracies only two, Lienshwei and Hsinghwa, are within the boundaries of our mission; the

remaining six are outside the limits of our territory. We have therefore, as shown by the map, a territory which is intact, and our work is intended to be contiguous on all sides.

The Mission's plan for the occupation and equipment of these central stations in order to enable them to work the territory which has been assigned them is indicated below. The general plan for conducting the work at each of these centers is as follows:

1. Evangelistic Work comes first in order of importance, and is intended to characterize in one form or another every phase of our enterprise. The Mission does not purpose to consent to the establishment of any school, hospital, or other institution, or appropriate money for any form of work, unless the aim be directly and primarily evangelistic. Every department of our work should not only have an evangelistic tendency; it should have an avowedly evangelistic purpose.

To this end each station is urged to see to it that those in charge of institutional work should be assigned the definite oversight of some form of evangelistic effort, such as the training of teachers, older students, medical assistants, and nurses; and sending them out to specific places for the conducting of regular Sunday Schools and preaching service. Christian students and teachers from our boarding schools should not as a rule be congregated at one center of work for the Sabbath services; but should be utilized in reaching as large a number of people as possible; and in giving regular and systematic instruction to widely separated groups. Heads of institutional work, both ordained and unordained, should—if possible—be placed in regular charge of a chapel. With institutional workers directing evangelistic work also, having under their oversight and direction good native assistants, the other missionaries of the station can be free to employ that time which they now give to comparatively well established churches in opening new centers of work.

We believe that the time has now come for a great forward movement in the work of evangelizing the masses of our territory; and that God by his Spirit is calling upon us for the prayerful formulation of definite plans for spreading the Gospel of his Kingdom. In the formulation and prosecution of such plans, special emphasis should be placed upon the importance of intercession; and in training church members in methods of personal work, and in the leadership of Bible Study Classes. In planning the evangelistic work throughout the territory of our various stations our aim should be to reach the family and not merely the individual; and for this reason the "coordination and inter-relation of the work for men, for women, and for children should be carefully considered." Judging from Station reports,

Haichow Station has anticipated our other stations in the development of a very valuable phase of work for women. They have a number of Chinese women evangelistic workers under foreign supervision, who go from place to place, spending from two weeks to a month at each center, teaching the people there and then passing on to another center of work. Other women workers also teach and preach in the homes of the city.

2. The second form of work to be considered is that of education; and while placed second in order, yet this is to-day probably the most important and indispensable of all our missionary efforts; and should be made our greatest and most direct evangelizing agency. Not only are our schools great centers of evangelism; they are also our source of supply for future leadership. The future of the Church in China depends to a large extent, humanly speaking, upon the products of our Christian schools, and our mission schools never before had so large an opportunity as that which confronts us to-day. The writer of this report has already received applications for admission into the boarding school two years in advance. There is a great educational revival in this part of China to-day. "The new China was born of an intellectual resurrection, and it can only be fashioned into fairness and grace by the maintenance of an educational revival." A few years ago there was an educational revolution, in which everything of the old order was cast to the winds; "the old growths were cut down, uprooted in fact, in order to make way for the new." The present educational revival is a much more rational thing. What is left of the old is being refashioned; and set to new and higher uses. A most welcome sign of the times is the fact that educational values are being rightly appraised by "men distinguished rather for their intense practicalness than for their scholarship."

If we are to grasp our present opportunity in the educational work of our field, we must adapt the work of our schools to the needs of our people; otherwise the work done by Chinese educators in purely Chinese institutions will deprive us of our choicest constituency. There will always be the parasite constituency available—more than enough to overtax our capacity; but if in the future we are to reach a socially and financially respectable class of students, we must have an adequate equipment and an able force of instructors.

We believe that the Chinese educational leaders are right in their conviction that one important part of the educational work in China, whether missionary or government, should be to teach the students of China to serve their country. The history of educational work in China during the last hundred years should teach us that any form of education which

separates and alienates the student from his or her own people is a hindrance rather than a help to the progress of the Kingdom of Christ. The aim of Mission educational work in the past has been very largely to run a machine for the manufacture of preachers and mission school teachers. With this aim in view the missionary institution has been superior to the government school. To-day, however, we have reached a point where we can and must enlarge our aim. From the graduates of our institutions we should be able in the future to select those most fit to serve in the work of the mission; and the others, going out to live among their own people and engage in the ordinary vocations of life, independent of foreign money and foreign control, should become as great a factor in the extension of the Kingdom of Christ as will those who enter directly into the employ of the mission.

Our entire educational system should be made to follow as closely as possible the system outlined by the National Educational Association, especially in the adoption of curricula and methods of instruction more adequately adapted to the psychology of the Oriental mind. The question of superiority is after all only a relative question. For our purpose our mission schools can be made preeminently superior to any system of secular education by reason of our exaltation of Jesus Christ. It is a question of atmosphere and of tendency. If our whole atmosphere be spiritual and our tendency God-ward, then—other things being equal—we shall have the substance of which the non-Christian school—be it public or private—can have only the shadow.

At present our mission has well established boarding schools for boys at Chinkiang, Tsingkiangpu, Sutsien, and Süchowfu; and one has already been begun at Haichow also. These schools already opened should be given proper plants and equipment at once. And the mission should establish and equip similar boarding schools for boys at each of our other stations. We would earnestly endeavor to impress upon the Church and the Executive Committee at home the urgent necessity of allowing us sufficient appropriations to properly equip our educational work now. Our Japan Mission is now calling for the sum of $30,000.00 gold for establishing boys' boarding schools at its central stations. If we lose our present opportunity, and wait until we are called upon to compete with an expensive and elaborate system of government high schools, we also shall have to follow the example of the Japan Mission in calling for much larger sums of money. Five thousand dollars now will accomplish as much as ten thousand ten years from now. Our home constituency must realise that if we are to set a standard in education; if we are to command the

respect of Chinese educators, if we are to compete with non-Christian schools, secure a desirable class of students, and do creditable and efficient work, we must have laboratory, library, gymnasium equipment; and all the other essentials for conducting a successful educational work. In material equipment the boarding school for boys of which the writer has charge is far inferior to that of the local government high school, save in one respect: we have foreigners to teach English. The salaries paid the teachers of the two schools, on the other hand, are widely different: the Chinese principal of the government high school receives a salary of $120.00; the Chinese principal of our mission school receives a salary of $50.00; the government school's vice principal receives a salary of $60.00, our vice principal receives a salary of $35.00; the government school's ordinary teachers receive an average salary of $40.00; our school's ordinary teachers receive an average salary of $18.00. Without undue exaggeration we may safely say that our mission school teachers in this instance are better qualified than are the government school teachers. This fact should answer the charge that the mission salaries are higher than our employees could receive elsewhere. Our number of students is also larger than ther number of those in the Government High School.

In our mission we have no need at present of colleges or other higher institutions of learning. Everything above high school work, both for boys and girls, can be done at union institutions, either at Nanking or Tsinanfu. Our field's great need and great opportunity is in the work of high schools and primary schools. In such schools not only can we train and develop the future leadership of the Church; but here also we have our greatest opportunity for winning converts and life long Christian workers by individual personal appeals. The mission school used to be regarded partly as an advertisement for Christianity; to-day it is one of the mightiest agencies for winning men and women for Christ. During their school days the boys and girls are most responsive to influence. The life of the Christian teacher, as well as his words, exercise an incalculable influence upon the student. Relatives and friends of the student are also brought into contact with the foreigners; and in this way many are for the first time led to attend the church services and learn of the saving love of God. At Chinkiang our custom is to keep open house for the family and friends of the school boys. They have a standing invitation to come to tea with us on Saturdays; and in this way we are enabled to reach not only the students but also many of their relatives and friends. We have found this to be one of the most profitable evangelistic forms of our educational work. Not only are our schools one of our greatest direct evangelizing

agencies; but as stated above they are also our great source of supply for our Christian leaders. In our North Kiangsu Mission this year there are 2000 students under Christian instruction. There could be no greater field for missionary effort. We do not know the figures for the other boys' boarding schools of our mission; but the following figures for the Chinkiang school will give some idea of the evangelistic importance of our boarding school work: During the last year there was a total enrollment of 77 students who remained in the school for the full two terms. Of these 77 students, 50 have joined the Church since entering the mission school; 25 others have applied for admission into the church, but have not yet been received; and of the 52 church members 10 are candidates for the ministry. There are only two students who are not Church members and who also have not applied for admission into the Church. These two have been in school for only a part of one term; and are not included in the 77 full term boys mentioned above.

Finally, in our high school work for boys greater emphasis should be placed upon the classics. To advocate the teaching of the classics and other ancient Chinese learning, including the ethical and moral instruction of Confucius and Mencius, a couple of years ago meant that we would be called all sorts of hard names, the mildest of which was "reactionary;" but the Chinese educators themselves are now coming to realise that if the young of the land are to be allowed to grow up knowing nothing of their own language and literature, nothing of the moral principles which have moulded their national life and character for thousands of years; nothing of the ancient history and glory of their native land, then they can have no ground for patriotism, no incentive to all that is highest and best in love of country. Until the Chinese educators have reached a state of equilibrium in the matter of the teaching of the classics, we missionary educators can not do better than maintain an attitude of conservatism. We should secure the best possible teachers of the Chinese classics; and require our students to spend a proper equivalent of time upon the language and literature of their own land.

At present our mission has three girls' boarding schools, located at Tsingkiangpu, Sutsien and Süchowfu. These three schools should be given their needed equipment; and similar schools should be established at each of our other central stations, with the possible exception of Chinkiang, where cooperation can be had with the Methodist Episcopal Mission in educational work for girls. As stated above, a girls' boarding school should also be located at Hwaian. This school by seeking to reach a different class of girls could supplement the work done by the school at Tsingkiangpu.

With the unbinding of the feet of the Chinese woman there is coming also the unbinding of her mind. The old restraints are disappearing, and doors which from time immemorial have been closed to the girlhood and womanhood of China are now open. Women are now regarded as citizens of the new Republic; and are constantly appealed to as such in the Chinese Press. China has come to realise that the greatest and most potential of all her undeveloped resources is her womanhood; and the women of China will have a great part to play in the future of their country. In the Book of Poetry it is said that the daughters of China shall have to think only about the spirits and the food, and to cause no sorrow to their parents. The marvelousness of the changes which the past few years have seen in the status of women is equaled only by the marvelousness of the opportunity which is thereby given to our educational work for girls and women. What was said above with reference to the adequate equipment of our boarding schools for boys should be said with equal emphasis with reference to our boarding schools for girls. Inadequate equipment means inefficient work and consequently uneconomical work.

There are 4,445 lower primary schools conducted by the district and provincial authorities in the entire province. Of these 2,163 are for boys alone; 112 are for girls alone; and 2,170 are mixed schools. The number of two-grade schools, i.e., schools having the lower and higher primary schools in one, is 290; of which 162 are for boys, 59 are for girls, and the remaining 69 are both boys and girls. The number of higher primary schools is 172; of which 158 are for boys and only 14 for girls. Out of a total of 182,441 students in government lower primary schools in this province, 162,472 are boys and only 19,969 are girls. Of 14,812 higher primary students only 864 are girls. In the two-grade schools there are 26,027 pupils of whom only 6,633 are girls. As stated above, there are no government middle schools for girls in the province; but there are two normal schools, and one industrial school established by the provincial authorities; and there are eight normal, three industrial, and four manual training schools established by district authorities and individuals. Of these latter schools only two (normal) are in the territory north of the River; one being located at Nantungchow and the other at Rukao. In the province there are 7 privately established middle (high) schools for girls. These are all in the section of territory south of the River.

In the matter of education we should give far more time and attention to the establishment and development of lower primary schools. The mission would urge upon the Church at home the necessity of supplying us with a much larger appropriation for opening up at each station as large

a number of first grade day schools as possible. There should be a minimum of one day school to every ten thousand of the population in our territory. These schools should be standardized in equipment and curriculum; and should be presided over by capable and efficient teachers.

The consideration of the various elements entering into the successful conduct of our educational work make it seem absolutely essential that each station should appoint one man to have general oversight of all the day schools in that territory. By doing this haphazard methods and uncorrelated efforts would be avoided; and far greater efficiency would be secured. The man who is submerged in evangelistic work has not the time to properly supervise the day schools in his district; and often he has not the aptitude nor the training for this form of work. The Station Superintendent of Educational Work would be able to arrange and require uniform courses of study; would have time to adapt his curricula to the actual needs of the people; and give practical guidance and help to the teachers in his district. We cannot too strongly emphasize the fact that mission schools if they are worthily to represent Christianity and win the confidence and respect of the Chinese people, must be strictly first class. There should be no place in our mission field for inferior schools. Rev. Arnold Foster, a veteran missionary in China, well says: "The foreign Churches must learn that effective educational missionary work will cost, and will cost heavily; but it will abundantly pay in influencing the lives of the coming leaders in China." This cost can be minimized, however, by allying our forces with the Chinese forces in the villages and communities where we have educational work. In most places where we have day schools it should be possible to secure the co-operation and support of the gentry and progressive scholars, who would be interested in the opening of an up-to-date and efficient school in their locality. Through sympathetic personal relationships, friendly conferences, and co-operative organization, no small part of the mission burden could be placed upon the shoulders of the Chinese themselves. If we can convince the leading men in any town or village that we want to help them in the meeting of their local educational needs, we can secure not only their moral but also their financial support. Our day schools should be made a community affair and react with a compelling force upon the life of the community. The experiment of local co-operatio in the conduct of schools, has been tried in some cases; and, according to the President of Nanking University, the co-operative effort has met with unlooked for success.

In Medical Work our Mission now has hospitals at Tsingkiangpu, Haichow, Sutsien, and Süchowfu. There is imperative need for a hospital

at Yencheng, Taichow, and Chinkiang. Because of their interior location and distance from any medical attention for the foreign missionaries, Yencheng and Taichow should be assigned the first two physicians joining the Mission. After supplying these stations, the third physician coming to the field should be assigned to Tsingkiangpu. The fourth physician should be sent to Chinkiang. It is the medical policy of the mission that as soon as a station has a foreign hospital the foreign staff of such a hospital should consist of two physicians and one trained nurse.

The foreign missionaries at Chinkiang can receive medical attention from the resident port physician; but in all that field of two million people there is no medical work for the general populace; especially is there none whatever for the men and boys. There is unspeakably great suffering here which needs to be relieved, and which we have referred to above.

Literary Work is the final outstanding phase of our missionary enterprise which should be represented in our field. In China literature has been revered for ages; and we can use this method of work with great success in giving a new horizon to Chinese thought. The present day Chinese is not afraid of new ideas: he is over-eager for them; and the man who is engaged in literary work can be a pioneer of new thought. This section of China is now flooded with cheap and nasty literature. There is a list of at least a dozen unclean periodicals published at Shanghai; which are sold to the Chinese at from five to thirty cents a copy, according to whether they are weekly or monthly publications. Such publications cannot fail to exert a pernicious influence over the minds of school children who are so fond of reading them. According to the Sinwanpao (a Chinese daily paper) the majority of the native publications are couched in the most obscene language. And "as though impurity of language were not sufficient to satiate the lust of our degenerate society, the publishers often decorate their periodicals with pictures of half clad girls which are most obscene."

Books and pictures are among the most effective means for reaching the minds of the people, especially the younger generation; and we should give more serious consideration to the importance of literary work in the evangelizing of our territory. The work done by the Christian Literature Society, the Chinese Tract Society, and other agencies meets our needs to a very large extent; but there are always local and special needs which cannot be supplied by general publication societies. No one knows the peculiar needs and difficulties of a particular field as well as the men who are actually at work in that field. The Mission and the Executive Committee should give encouragement and support to such individual mission-

aries as have special aptitude for this form of missionary work. But no individual missionary should engage in literary work, or any other special form of work, unless he has been definitely assigned thereto by the Mission; and the Mission should appropriate no money for meeting the expense of literary work which has been undertaken without the Mission's approval.

Our various forms of missionary effort as thus briefly outlined have but one aim and purpose in view, the aim and purpose of winning souls to Jesus Christ, and establishing His Church firmly within our bounds. Through these various forms of activity we are constantly seeking to create new centers of work numerous enough and strong enough to carry through to completion the task which we have begun—the task of giving every man, woman, and child within our bounds an adequate opportunity to know and accept our Saviour. It is a tremendous task fraught with tremendous possibilities; a task calling for heroism, enthusiasm, and consecration both on our part and on the part of the home Church. The accomplishment of this task we would convert from a dream into a definite purpose. The people of our territory assuredly are a part of the purchased possession of our Lord: here in our midst He is waiting to see of the travail of his soul and be satisfied. To bring this people into complete allegiance to Jesus Christ is a task big enough to enlist all our powers, and wide enough to engage our utmost endeavor. We are the co-workers of God in leading this part of awakened China into a full and perfect knowledge of Christian truth. The present spirit of receptiveness on the part of the people is for us a God-given opportunity to bring them to Him who is the Way, the Truth, and the Life.

And so the question confronts us: Are our resources sufficient? The problem for us on the field is: Can we with our present force and equipment firmly and speedily establish the Kingdom of God here in our North Kiangsu territory? Can we create new centers of work strong and numerous enough to carry on to completion the work already begun? Efficiency should always be our first consideration; and in the making of efficient plans there is always wisest economy. If we can so plan and conduct our work as not to call for foreigners to do anything that a Chinese can do just as well, we shall then have made a large contribution to the progress of the Church of Christ in this part of China. If the suggestion of some experienced missionaries were followed, then we should have to issue a call for an additional foreign missionary force of something like four hundred men and women in order to occupy our field. The ratio established by the Birmingham Laymen's Conference of one missionary to

every 25,000 people would give us a foreign force of 520 missionaries; or 458 in addition to the 62 whom we now have. But while this estimate may be an ideal ratio for some fields, we do not believe that it would be wise for the North Kiangsu territory. A science of missions demands that all of the factors and circumstances in each given district be taken into account. If the evangelization of Korea calls for one missionary to every 30,000 of the population, it by no means follows that the same ratio must be observed here. The people are different; the circumstances and conditions under which we work are widely divergent. In asking for so large a number of missionaries, we have heard the statement made: "Of course we don't really expect that the home church will be able to supply us with so many men or so much money; but hitch your wagon to a star and you will get to the top of the house." But we would be honest with ourselves and with the Church. Our estimates for funds and forces is for the minimum rather than the maximum. If subsequent events should show the necessity for more, we can always go before the Church with an additional claim. It has never been the policy of this mission to ask for a dollar more than we deemed absolutely and imperatively necessary. That policy we expect to maintain with the most scrupulous exactitude.

In 1912 our Mission made out a budget for the succeeding 5 years, calling for an equipment fund of $147,985; and an additional missionary force of 15 men and 13 single women. At the time, those estimates as compared with the equipment and foreign force of occupied fields were ultra-conservative. During the last three years conditions have greatly changed in China. We can plan our work with more definiteness now than was possible a few years ago. Having adopted a plan of occupation which will presently be outlined, we have gone over our estimates with the utmost care; and have revised them so as to accord with our plan for the *ultimate* evangelization of our field with the most economical possible expenditure of men and money. *This plan we wish to place before our Executive Committee and the Church at home; and in the name of our Lord and Master Jesus Christ call upon them to supply us with what the completion of our task immediately and urgently demands, if our work is ever to be done. Working along the lines outlined in the following pages we believe that under the guidance of God's Spirit, the force and equipment indicated below would enable us to see the completion of our work in this field within the next half a century.* It will be noticed that in this plan the emphasis is placed upon the work of the Chinese rather than of the foreigner. We are just now coming to the time when our various schools, as well as union institutions, are turning out trained and efficient Chinese

helpers in ever increasing numbers. This year we were compelled to dismiss some of our most efficient workers, because of the lack of funds for their support. The support of one foreigner and his wife ($2400.00) will easily provide for the salary of 20 efficient Chinese workers; and by utilizing increasingly larger numbers of well trained Chinese helpers our task can be accomplished not only with greater economy, but also with greater despatch. The foreign force need only be sufficiently large to guide and direct the native force in the preliminary years of implanting the Gospel and establishing the Church; it should be the minimum number consistent with efficiency; and it should not forget the temporary character of its work. By training the Chinese in administrative work, pushing them out into responsible positions, and insisting upon the fact that they must increase while we must decrease, the years of our work will be greatly lessened. If the period necessary for training an efficient and sufficient native force be reckoned at 40 years; add ten years more for foreign administrative and advisory work; *and 50 or 60 years should see the withdrawal of the Southern Presbyterian Church's foreign missionary force from the North Kiangsu field.*

The following is an outline of the plan adopted by the Mission for the territory for which we are responsible:

1. Area and Population. As indicated on the map, the territory of our Mission embraces the territory of three magistracies south of the River and of twenty-three magistracies north of the River, together with certain out-lying sections which have also been left to us. This territory for which we alone are responsible contains a minimum population of 13,000,000 souls.

2. Agency and Equipment: The plan of the Mission calls for 8 central Stations; the two Stations of Hwaian and Tsingkiangpu because of their geographical contiguity are regarded as occupying one district, but are separate centers of work. The principal agency for the evangelization of this territory should be *Chinese*. We believe that strong emphasis should be placed upon the necessity of a greater number of Chinese agents both because of their greater economy and also their ultimate efficiency. We should have a *native force of one evangelist to every ten thousand of the population in our field*. This would give us an ultimate Chinese evangelistic force as estimated on the following chart; and these workers should be secured as rapidly as they become available.

Station.	Present Force.	Needed Force.	Increase Required.
Chinkiang	18	200	182
Taichow	3	125	122
Yencheng	15	125	110
Tsingkiangpu and Hwaian	6	250	244
Haichow	7	150	143
Sutsien	16	200	184
Suchowfu	15	250	235

Total of the Mission's Required Force of Evangelists ...1,300
Total of the Mission's Present Force of Evangelists... ... 80

Total Additional Force called for 1,220

2. In addition to the male evangelistic force, we should have a minimum of one Bible woman to every 50,000 of the population. Our estimate of the number of paid Bible women required for the working of the field is purposely made small, because the wives of the Chinese evangelists may also be counted upon for doing a considerable amount of efficient evangelistic work among the women.

This would give us a paid force of Chinese Bible women as follows:

Station	Present Force.	Required Force.	Increase Required.
Chinkiang	3	40	37
Taichow	0	25	25
Yencheng	3	25	22
Tsingkiangpu and Hwaian	0	50	50
Haichow	7	30	23
Sutsien	2	40	38
Suchowfu	5	50	45

Total number present Bible women 20
Total number required 260

Total Additional Force called for... 240

III. EDUCATIONAL WORK.

Each central Station with the possible exception of Hwaian should have a Boys' Boarding School; and, with the exception of Chinkiang, where cooperation may be had with the Methodist Episcopal Mission in educational work for girls, each Station should also

have a Boarding School for Girls. Provision should also be made for a girls' Boarding School at Hwaian, to be established when the way is clear. These central schools should do both Higher, Primary and High School work; their curricula being uniform, and leading up to regular college courses in union institutions—either Nanking or Tsinan. For the present the mission has no need for institutions doing college grade work. At present the Mission has in operation 5 boarding schools for boys. These should be given all necessary buildings and equipment; and then similar schools should be established at Taichow and Yencheng. We now have three embryonic boarding schools for girls. These should be completed and equipped; and then similar schools should be established at Taichow, Yencheng, and Hwaian.

In addition to these central schools, there should also be Lower Primary Schools (where possible with local co-operation and support) at each of our out-stations for every 10,000 of the population. At some of the larger and more important out-stations there should also be schools of the Higher Primary Grade. All of these schools should be standardized in curricula and equipment; and made preparatory to the central boarding institutions.

3. For Normal and Bible Training School work the plan of the Mission is to depend upon Union Institutions, either at Nanking or Tsinan for advanced work; and also upon local training classes.

4. The Mission plans to provide a Teachers' Institute, or Summer Course in Normal Training, for the benefit of our Lower Primary School teachers.

The above educational programme gives an ultimate total of 7 Boys' Boarding Schools; 7 Girls' Boarding Schools; and 1,300 out-station Primary Schools. The cost of conducting this program cannot be estimated with any degree of accuracy, because of the possibility of native co-operation and support referred to below; and also because of the fact that such a system cannot be established at once. Its growth and proper development would necessarily cover a period of several tens of years; and the Church should supply us with the necessary funds as they are required by the Mission.

IV. Medical Work.

The Mission's plan is to have a well equipped modern hospital with two Physicians and a trained nurse at Süchowfu, Sutsien, Haichow, Tsingkiangpu, Taichow, Yencheng, and Chinkiang. The establishment of a separate medical work at Hwaianfu is left open for future consideration. For the present the Medical work at that Station is under the direction of the hospital at Tsingkiangpu.

V. Foreign Force.

The force of Foreign workers should be as small as possible consistent with efficiency. Taking circumstances and conditions as they are in our field to-day, we should say that the minimum number of foreign workers consistent with efficiency is a force averaging twelve missionaries (exclusive of wives) to each of the seven districts outlined above. For the whole mission this would give us a total of 84 missionaries, exclusive of wives, or one to every 154,762 of the population. The most effective composition of this force would ordinarily be 8 men (4 evangelists, 2 educational workers, and 2 physicians); and four single women, of whom one should be a trained nurse, though the composition of this force in particular cases should be left very largely to the individual station concerned. Assuming that the men called for will all be married men, the mission would then have an average of eight wives to each station; and with a Women's Committee and a carefully planned program of work to which each wife should make some contribution, we could safely count upon an efficient contribution of 50% by the wives. That is to say that in spite of their home duties eight wives would be equivalent to four single women workers. They could do all the women's work of the central station and immediately adjacent territory; and the single women could spend their time in country and out-station work. This would give the entire mission an efficient working force averaging sixteen foreign missionaries to each Central district, and consisting of eight men and eight women.

Our mission at present has a foreign force, exclusive of wives, consisting of 27 men and 11 single women. There are in the mission 24 wives. Our call, therefore, is for 29 men and 17 single women, being a total increase of 46 missionaries. Our hope is that the men will all have wives; in which case we would have an addition of 32 wives. The Birmingham Conference platform says that we should have six times this many missionaries; but if the Church will speedily supply us with the number here specified, we believe that we can complete our task in this part of the heathen world.

Financial Suggestions.

The building of missionary residences, boarding schools, and hospitals must necessarily be done with foreign money; but with that we believe that the use of foreign funds for permanent equipment should very largely cease. In the opening of out-stations and of central station chapels in most cases chapel rent would have to be provided by the mission for the first few years. Only under very special circumstances should the mission invest money in the purchase of land for churches, or in the building of

churches. The two questions of voluntary evangelizing work and Christian giving are vital to our whole propaganda; and the only way in which Christian liberality on the part of the Chinese can be promoted is by a more and more sparing use of foreign money. If we should add foreign missionaries until we had one in every village, and supply foreign funds until we had built schools and churches in every hamlet, we should be no nearer but rather farther from the main thing which calls for our presence here, i.e., the establishment in our field of a Chinese Christian Church.

Greater emphasis should be placed upon voluntary service, which would not only help to solve the vexing problem of self-support, but would also inculcate a taste for Christian work; and greatly increase the number of those fit and willing to devote their lives to personal evangelistic effort. Only radical measures will stimulate the spirit of Christian independence and thereby loosen the purse strings of the converts to the Christian faith. The head of a non-Christian family will spend as much as five or ten dollars a year on heathen rites and ceremonies; while the average contribution for the Christian Church in our mission is about a dollar per annum from each member of the Church. The amounts now contributed by the Chinese Christians to the work of the Church are due not so much to a lack of ability on their part as to the character of the training which they have received. A prominent member of one Chinese Church arose in public meeting and stated that it might give offence to the foreigners, if the Church did not use some foreign money. Such a feeling as this would have been impossible if the converts in that particular church had been properly trained in the duty of Christian giving.

We believe that in all of our future work the native Church should as far as possible be established on a self-supporting basis from the very first. Until the significance and the ultimate implications of self-support and self-government are better understood by the Chinese themselves, we can look for only a limited and painfully slow attainment of that ideal. Christian leaders in China to-day, both missionaries and natives, are practically unanimously agreed that all churches organized hereafter should be self-supporting from the day of their organization; but Chinese leaders seem to think that existent churches, established under the old system of foreign dependency, should be brought to a self-supporting basis by slow degrees only. We cannot help feeling that, whether in churches already established or in those yet to be instituted, every day of unnecessary dependence upon foreign funds is only another day of arrested development. "The function of the native Church is to act as an occupying force;" and

to hold and enlarge what has already been won. "The function of the Mission is primarily that of an evangelizing and training agency. When it usurps the function of the native Church and becomes an occupying force its powers as a true missionary agency will quickly decay." Wide spread and rapid development of the work in our field will not be possible until the Chinese Church established by us realizes the importance of becoming self-supporting, self-governing, and self-propagating from the day of its birth. So long as the churches established by us are organically connected with the mission and dependent upon it for financial support, we shall have only "a feeble type of Church, more dependent upon man than upon God." Such dependence upon the mission also leads to the concentration of our time and resources upon a favored few "to the consequent loss of myriads of hungry souls who are equally entitled to a share in the blessings of the Gospel."

Heretofore the use of foreign funds for the support of the churches established by us was necessary; but it is not the purpose of the Mission to allow the "temporary expedient of other days to become the settled policy of to-day." New opportunities have arisen and we are working in new environments, which give room for corresponding changes in policy and methods of work. What we need to-day is not the establishment of nursing homes for the missionary converts; but of self-respecting and self-supporting Christian Churches. The newly established Church in China, as elsewhere, has no vital needs which it is not able to meet out of its own resources, no matter how limited those resources may be. When we impose artificial needs upon the church by supplying it with costly equipments, it is natural that we who impose those needs should be expected also to provide for their cost. Our principal concern should be, not to show how much the Christian Church should have, but rather how little it really needs "for the development of the highest and deepest things in the Christian life." The needs of the native Church will ultimately increase as the Church develops and expands; but with increasing needs will come also increasing ability to meet those needs.

"The missionary chiefly stands for evangelization and the things which pertain to evangelization. This is his true work. If he takes up a position as pastor of a church, or as superintendent of a group of churches, he establishes a relationship hurtful to the church and more or less fateful to evangelistic developments. By so doing he unites the permanent with the transient, and also retards the natural development of the church along lines of self-government and self-support. A church will need and profit by the constant sympathy, encouragement, and co-operation of the mission;

but it will be hindered by foreign control and foreign financial support." If the Chinese Church be constrained to remain under foreign control, it has a right to expect foreign financial support. Independence should be made the greatest incentive to self-support. The foreigner should retire from his control and give place to Christ, the true Head of the Church.

In the case of churches now dependent upon the Mission, the whole membership should be made fully to realise that the entire population for which we have accepted responsibility has a claim upon us; and that we have no moral right to bestow upon a favored few gifts which were intended to be shared among many. "The motive for self-support is not that the Mission resources may be relieved, but that they may be released"; and so be used in the carrying of the Gospel to other centers. The infant church should be trained to give rather than to get. Our future policy as a mission is to preach the Gospel, establish the Church; and then pass on to new centers. "It is commonly supposed that churches which have lapsed in the past have been left too soon. It is perhaps nearer the truth to say that they have been prepared in the wrong way, and were not left soon enough." If we force our converts and our churches to realise that they cannot depend upon us, then they will depend upon themselves. A great many students of mission problems believe that in the past the native Church has been over-shepherded, and that the native workers employed by the missions have been following the example of the missionary, and have been over-shepherding rather than pressing out in aggressive evangelistic effort. At any rate there is room for discussion as to whether the lack of initiative and independence on the part of the Chinese Church is due to too much pampering and petting on the part of the foreigner. In a word, over-contraction and concentration in evangelistic work is fatal to the highest interests of the missionary cause. Strong concentration in our institutional work, wide and constant expansion in evangelistic work is essential to the completion of our task.

In the working out of its policy the mission does not expect in the future to make any very large investments of money in church buildings. In opening up new preaching centers where there is good prospect for the collecting of a Christian nucleus, mission funds will have to be used in the renting of a chapel or place of meeting. As soon as this Christian group has become sufficiently large to assume the rent themselves, the mission appropriation should be immediately withdrawn. Ten to fifteen native Christians would be sufficient to assume the small expense incident upon the incipient work; and as their numbers gradually increased they could provide themselves with a permanent place of worship. From the very

first the handful of Christians should be taught to administer their own affairs, and thus the Church will develop along natural lines; and not become involved in the intricacies of a foreign system. The natives ultimately must direct and control the affairs of their own church; and from the first should be allowed freedom to express themselves in their own way.

When the Christian nucleus in any given center is large enough to undertake the support of their own pastor, and have been sufficiently trained in the fundamentals of Church Government, they should be organized, and given their freedom from mission support and mission control. The funds thus released can be transferred to a new center, and the work thereby enlarged. Thus the constant enlarging of our work by the passing on from one center to another, always using in the new place funds which have been released from the old, will not necessitate such increasingly large calls upon the liberality of the Church at home as might at first be supposed.

In connection with this plan of occupation we would very earnestly call the attention of the home Church and the Executive Committee to the necessity of supplying our Mission with a proportionately larger share of the total appropriations for the conduct of the mission work in our Church's foreign fields. The accompanying chart based on the Executive Committee's Report to the General Assembly in May, 1915, will show that in view of the vastness of our field the amounts granted this Mission for the conduct of our work have been proportionately far too small. The estimates for the population for which we are responsible in the various fields are in some cases erroneous; but are retained here as having the approval of Executive Committee (See appendix, Chart No. I).

We wish to emphasize the fact that the comparative estimates in this connection, as well as in other places in this Report, are made in no spirit of unkindly criticism. As stated in the prefatory remarks at the beginning, we have been only trying to get at and consider all the vital facts bearing upon the successful prosecution of the work for which we are responsible in this field. In the division of the great work of carrying the Gospel of Jesus Christ to all the non-Christian world, our Church assumed the responsibility for evangelizing 25,000,000 souls. *Half of the burden of that responsibility is here in the territory of the North Kiangsu Mission.* We are the representatives of our Church which has sent us here to occupy the field. Impressed with a sense of the responsibility resting upon us, we have been studying the problem which confronts us. We are face to face with the responsibility of a burden too great for us to bear; and so we are sending the facts to you and we shall be guided by your decision.

When you shall have read this survey of our field and its work, we feel that the responsibility rests upon your shoulders. We have told you our plans and you can see something of the many problems involved: we have given some of the darker as well as some of the brighter sides in this task of undertaking an enterprise so vast in its compass and its consequences. We have told you what we want to do; and have given you some idea of how we shall try to do it; and lastly we have indicated to you in a general way what we must have in the way of workers and funds* to enable us to do it. The ultimate problem of leading these 13,000,000 human beings from the darkness of heathenism into the glorious light and liberty of the knowledge of our Lord and Master is one which you under the guidance of His Spirit must solve. With prayerful expectancy we shall await your response. We want to assure you that we count it a privilege and find it a great joy to give our lives and service as the representatives of our Church to the cause of Christ and his kingdom here in the North Kiangsu field; but our joy becomes a great sadness sometimes when we realise that our service is weakened and our lives rendered ineffective because of the lack of those things which are indispensable for the successful conduct of our work.

We cannot refrain from saying to our Southern Presbyterian Church, through its Executive Committee of Foreign Missions, that to-day we are facing the peril of a lost opportunity. The crisis is upon us *now*. This crisis can be met only by the willing response of all those who are ready to assume the Christian responsibility of filling up that which is still lacking of the suffering of Christ for His Body's sake, which is the Church. We are confronted to-day with the choice of two ways: Either we must go forward to conquest; or else we must admit our failure to do that which was required of us, and retreat. The path of right and of duty is plain before us; though the possibilities of the one way and the shameful catastrophe of the other none can tell. We have been thinking of retreat; but cannot do so without first putting the facts before you, and leaving the determination of our course to you. Where there is no vision the people perish, and in the midst of this great crisis and peril in which we now are we pray most fervently that our beloved Church may have a great vision of this people's need, of the power of the Gospel which alone can supply that need, and of the great commission of our risen Lord. *If every Christian, both foreign and Chinese, within the limits of our North Kiangsu Mission were paid a salary to preach the Gospel to this people, each would have a parish eight times as large as the average parish at home!* "How shall they believe in Him of whom they have not heard?"

---

*Note.—It is impossible to make an accurate estimate of the ultimate amount of money required for equipment, as the amount will vary from time to time, depending upon the increase in foreign force and upon the development and extension of the work. As sorely as we need additional workers, we would emphasize the fact that *our first need is equipment for the workers already on the field.*

APPENDIX II.

Recommendations Proposed by the Committee on Survey and Adopted by the Mission.

1. That the Mission approve of the report of this Committee as read; and adopt the general plan of occupation and method of work therein outlined as the Mission's policy for the future development and extension of its work in this territory.

2. That God may prepare us and lead us in a great evangelistic campaign during the coming year, we recommend that at this mission meeting some definite period be set aside for special prayer that the Chinese Church members and workers, and also the foreign missionaries of our field, may be led into a life of deeper union with Christ and to a fuller receiving of the power of the Holy Spirit.

3. That a special Committee, consisting of Revs. W. F. Junkin, G. P. Stevens, J. W. Vinson, A. A. Talbot, H. W. White, C. N. Caldwell, and J. W. Paxton be appointed to prepare and present to the Mission a comprehensive plan for a general evangelistic campaign throughout the territory of our whole Mission during the year 1916; and that this Committee confer with similar committees from the Presbyteries within our bounds.

4. That each Station be instructed to exert itself to the utmost in the carrying out of this Mission-wide evangelistic campaign.

5. That an appeal be made to the Executive Committee for a special appropriation to cover the expense incident upon this campaign.

6. That each Station be advised by the mission to carefully and prayerfully reconsider the whole question of making the widest possible use of all its available evangelizing force, both paid and unpaid, in sending them out to reach as many different centers as possible.

7. That the Mission instruct its members who are engaged in evangelistic work to bring before the members of the Chinese Churches the necessity of releasing the funds now used in comparatively well established work, in order that we may meet the claims of others upon our resources.

8. That the Mission instruct each missionary to continue to urge self-support along all lines; and as soon as possible to make the work of the Chinese Church independent of foreign support.

9. That the Mission instruct each Missionary in charge of evangelistic work to encourage and lead each congregation to organize evangelistic work in its immediately adjacent districts, for the purpose of stimulating, reviving, and strengthening its own resources.

10. That the Mission urge all Churches now organized, if unable to call a pastor for his whole time, to call one for a part of his time; and that there be impressed upon the Churches the fact that the calling and supporting of their own pastor is their *first duty;* after which should come the calling of other evangelizing agents, such as Bible women, evangelists, and colporteurs.

11. That upon any Church's readiness and willingness to assume the support of its own work it be offered its freedom from Mission control and urged to place itself under the jurisdiction of the Presbytery.

12. That a Committee consisting of Dr. H. M. Woods, Dr. A. Sydenstricker, and Mr. W. H. McCutchan be appointed to embody the intent of the foregoing recommendations (2-11 inclusive) in a letter addressed by this Mission to the Chinese leaders and members of each congregation and Church under the direction and control of our Mission; which letter shall be transmitted to the membership of the Chinese Church without further reference to the Mission.

13. That those in charge of institutional work be urged to give as much time as possible to outside evangelistic work, thus aiding in the task of reaching the masses; and that where possible the congregation or congregations of the central Stations be placed in charge of those engaged in institutional work, thus leaving the other members of the Stations free for a wider and more aggressive evangelism.

14. That after 1915, if possible, every teacher in charge of a day school shall be a graduate from a High School, or have had some normal training.

15. That in both our Day Schools and Boarding Schools no distinction shall be made in the rate of tuition charged to students from Christian and from non-Christian homes.

16. That no non-Christian teacher shall be placed in charge of any mission school.

17. That the School Committee be instructed to bring before the mission recommendations looking to the establishment of an Annual Teacher's Institute for the benefit of our day school teachers.

18. That a permanent Committee on Literary work be elected annually;

and that the Mission express its disapproval of any individual missionary engaging in literary work without first securing the approval of this Committee.

19. That each Station be required to keep a written record of all its regular business meetings.

20. That the foregoing Survey of our field be sent to the Executive Committee with the request that it go before the Church with their approval.

21. That the N. K. Mission appeal to the Executive Committee to give the fullest possible consideration and publicity to the call which we are making for more funds and forces; and, if in their judgment there is not great probability of our needs being met within the next few years, then that they approve of our entering into negotiations with other Missions with a view to disposing of a part of our work and property and using the funds and the forces thus released in the better manning and equipping of our remaining Stations.

(c) Non-Christian native teachers included under Columns 3 and 4.

(d) Only those schools doing regular kindergarten work should be classed under the heading.

(e) Include here all schools covering the first four years of elementary training after the kindergarten.

(f) The teachers of the lower and higher elementary schools are separately called for. These should, however, be included also under Columns 3, 4, and 5.

(g) Include here the higher elementary, intermediate or grammar schools, covering the second period of three or four years of study.

Report of the Representatives on the Board of the Shanghai American School.

Your representatives attended the meeting of the Board of Managers held in Shanghai in March, while one of us who was appointed Chairman of the Executive Committee of the Board,

attended nearly all the meetings of Ex. Com. held during the year. The School appears to be conducted in an efficient way, and shows rapid growth. The number of boarding pupils this year being 74 is an increase of about 48%. The total attendance in all grades is 134. Two new teachers have been added, while two others are under appointment, and will probably enter upon their duties in Sept. next. The amount contributed by our Executive Committee has been reduced from $7212.68 which was the amount contributed by us last year, to an amount which is the exact proportion of the total contributed that we should make. The Executive Committee of the Board has appointed a Committee of five ladies living in Shanghai to constitute an advisory Committee to counsel with the Supt. from time to time particularly as regards the boarding Dept. On this Committee Mrs. Caldwell was appointed as the representive from our Missions.

Respectfully submitted,

JOHN W. PAXTON, C. N. CALDWELL.

Report of Auditing Committee to audit Hsuchoufu Orphanage, and Ta Chang Oil Cos. Books.

Your Committee met in Hsuchoufu, in accordance with your instructions on Oct. 11th. 1915. to audit the accounts of the Orphanage and the Ta Chang Oil Co. Mr. Richardson owing to illness was unable to be present at any time during the auditing of the accounts, Dr. McFadyen for various reasons was not able to go over all the accounts. The Orphanage accounts submitted, by Messrs. Grafton and Brown were carefully examined from the beginning of the Orphanage to the end of Sept. 30th. 1915 all accounts both in English and Chinese being carefully examined, also all Bank pass books native and foreign also all check books except the native Bank pass books. "lost in the fire at the time of the looting of the city in Feb. 1913.," and find them to be correct. The result of this audit is a balance sheet which we have made out and spread upon the Orphanage account book, showing assets of the Orphanage on that day Sept. 30th. 1915. amounting to a total of $13984. composed of cash on hand in office safe, and in native and foreign Banks, F/D. Receipts mortgages, and loans amounting to $1420.00. "These mortgages and loans are somewhat doubtful of collection in full." Nearly two days was consumed in the examination of the

Oil Co's A/c's after which it was found impossible to audit the books in full for the following reasons, namely; No accurate record of the expenditures were available for the period July 23rd. 1914 to Feb. 1st. 1915. and from Feb. 1st. 1915. to July 21st. 1915 several pages were missing from the A/c's. No one could inform us as to where the missing accounts could be found. "When the business was closed up there were assets amounting to $14153.87 with liabilities of $8074.50 against the Oil Co. showing a profit of the business of $6079.37." There will also be a few further sums to be deducted from the profits amounting to $105.16. "We have counted the cash and seen the securities represented by the sum of $14153.87 and find them intact and they are in the possession of Mr. Grafton. The disposition of this nett profit remains for Mission action.

Respectfully submitted for the Committee

APPENDIX E.

Report of the Survey Committee of North Kiangsu Territory.

Your Committee reports as follows; I. Since last meeting of the Mission, following instructions of the Mission we have re-edited the survey of our field; and presented same to the Chairman of the Laymen's Movement. Considerable expense was incurred in the compilation of the task undertaken by your Com. Several trips had to be made to Shanghai in order to consult with the Sectry, of the China Continuation Committee and to secure the use of such reports, surveys, and other sources of information available in his office. Other travel was necessitated in connection with our work. Several very expensive and rather complicated books and maps had to be purchased. Materials for map drawing; and the services of an expert map and chart drawer were secured. Because of the number of charts and statistical tables contained in the report the printing was rather expensive ($2.60 per page) The Mission allowed us a grant of $50. only to cover the expense of our work. After the meeting of the Mission last year it was thought that each member of our Mission would be willing to make a personal contribution to help cover the financial responsibility which we had asumed. The response from individual missionaries, however was not what we had expected; and so the work of your Com. to date has been accomplished at a personal cost to the Chairman of your Com. of $72. and some cents. II. Two hundred copies of the Survey were printed and

one copy sent to each of the stations in our two Missions; one to each of the members of our Mission who had contributed a dollar toward the expense of our work; one copy to each member of the Executive Committee. Several copies together with various maps charts, photos, and other material collected were sent to the Chairman of the Laymens movement, with the request that the Laymen undertake the publication and distribution of our Survey; and also inaugurate a movement to supply our Mission with the funds and the forces urgently needed in our work. The several replies received from the Laymens movement will be taken up in a supplementary report of your Com. III. On page 25 of our report last year, the Mission adopted the following. "In addition to a general policy, we propose at regular intervals to take an accurate stock of our resources in men, money, and equipment, review the needs of the whole field and map out a clear cut programme of work covering a period of five years." In addition to this we feel that in pushing our campaign for equipment and reinforcements from this side, some one should be delegated to co-operate with the Laymen in their work at home. If the Campaign be inaugurated and funds be received, semi-annual or at least annual bulletins should be issued informing the Laymens movement and the individual donors of the progess and development of our work: and of the disposition of their funds. In this way we can keep in vital touch with sources of our help and aid in sustaining their interest. In other words, what we shall need now is a vigorous and tactful "followup" campaign from this side. We recommend therefore, that the Mission either continue this committee or appoint some other Committee to carry through the work which at best we have only begun; and that some financial provision be made for meeting the expenses of the work of that Com. As stated above the present deficit of the Com. is $72. including this there should be at least $125. provided for the remainder of the current year. Since however the deficit of the $72. mentioned above was incurred without authorisation, we do not feel that it is at all incumbent upon the Mission to reimburse this amount.

Supplementary report. 1st. Mr. Rowlands two letters,
2nd Mr. Pratts visit
3rd. Mr. Pratts list for equipment
4th. Mr. Pratts letter, and request that we begin the campaign on this side.

Respectfully submitted

Report of the Extension Committee

During the year the following plans have been approved. Alterations and repairs on Dr. McFadyens residence; Hsuchoufu Mens Hospital, Dr. Hewetts residence, Mr. Graftons residence, together with Orphanage rooms, walls and cistern. In addition the Com. paid a visit to Yencheng Station in October in order to confer with the station in the matter of the use of the property and location of buildings. Dr. Sydenstricker presented plans for alterations to his residence which work had already been completed. Your Committee did not feel that this was within their province, hence we took no acton.

Report of the Committee on Chinkiang Agency. We would report that the Agency has been working as usual. That on account of the reduction of the Appn. there are not enough funds in hand to retain the agent and the C. I. M. rooms for the whole of the year. The C. I. M. has raised the rent of the rooms rent $60 per annum. The Committee would request the Mission to instruct its Com. in view of this deficit in the appropriations.

J. B. Woods *Chairman.*

Appendix H.

Report of the Committee on East China Medical School. Your representative on tbe E. China Medical Board, would report attendance on one meeting of the Executive Committee, and the only meeting of the full Board, which after thorough discussion and after having the position of the home Boards explained by Dr. Speer it was decided that to co-operate with the China Medical B oard in their English speaking school in Shanghai in effect means the doing away with the E. China Medical school entirely. This did not appeal to me to be a wise proceedure, but as there were divided counsels in the medical faculty itself some wishing to teach in English and others in Mandarin co-operation with the China Medical Board seemed the best solution. However if we still think it wise to provide medical education under Christian auspices it seems to me that the course advocated by Dr. Shields, in his recent circular letter,

is the best course by far left open to us. Join in with Tsinan and make one well equipped and well manned institution teaching in Mandarin and I believe success will soon attend our efforts, and we will have an ever increasing supply of well trained native assistants for our hospitals and more and more they will go out to private practice in our own midst, where they are so much needed.

Respectfully submitted
A. A. McFadyen

Appendix I.

Report of the Committee on Communications

Regarding the Executive Committees communication re elimination of inefficient missionaries the N. Kiangsu Mission recognizes that the adoption of some plan is for the best interests of the work. The Mission strongly disapproves of the plan suggested by the Ex. Com, and feels constrained to reaffirm its approval of the plan already adopted by the China Mission. Re Communication from the Ex. Com. with reference to the Nanking school of Theology, We recommend that in view of the vote of the Mission already taken at this meeting no action is necessary.

Re the letter from the Chairman of the Conference Committee requesting an interpretation of section 37 of the Ex. Com's manual that until the reply of the Ex. Com. is received this Mission take no action.

Re the request of the Ad-Interim Committee of the Mid China Mission requesting the N. Kiangsu Mission to transfer the appropriation for personal teacher from Mrs. McFadyen to Mrs. Young, that this Mission does not see its way clear to accede to that request.

Re letter from the dean of the East China Medical School at Nanking, we recommend that it is desirable to have a Mandarin speaking Medical School in East China. That this Mission is willing to support such a school so far as it is able. That if the Medical School is closed up at Nanking this Mission is willing to support the Mandarin speaking school at Tsinan recommending that Dr. Shields be our representative at Tsinan and the appropriation to the East China Medical School be transferred to Tsinan School.

Re Communication from the Ex. Com. on the status of lady missionaries, that the questionaire as amended be sent to every member of the Mission (women as well as men) and that

they be requested to forward their votes to the Sectry, who is authorised to send the results of this vote to the Ex. Com.

Re Letter from the Ex. Com. concerning the definite annual sailing date for new missionaries and those returning from furlough etc. That owing to many conditions it seems undesirable to fix a definite sailing date but in general the Mission recommends from Aug. 15th to Sept 15th. That the date of sailing for beginning furlough be about July 1st of last year of the missionarys term of service. That the Mission has mentioned these approximate dates especially from the standpoint of the work on the field yet it realizes that it may not be so convenient from the standpoint of the Ex. Com. as regards farewell services and consecration meetings as mentioned in the Committees letter.

Report of the Committee on the Tenghien School.

Minutes of the Northern and Southern Representatives to consider School Union.

Date of meeting at Tenghien Feb. 16-17 1916.
Present Dr. Junkin, Mr. Brown, Dr. Mateer and Messrs Thompson, Romig, Li Tao, Whei, Liu Si I.

The following resolutions were adopted.
In view of the need of a school for the training of men, unable to obtain a full college education, in one of our existing University Colleges, We the delegated representatives of the Presbyterian Church, together with members of the directorate of the present Bible and Normal School of South Shantung, after a discussion of the character and aims of a united school cordially and unanimously agree to recommend to our respective Missions and Boards the following;—

I—That we enter into a union school constituted for the purpose of training workers for the church and for elevating the standard of Christian intelligence among our Christian communities, this school to be called in English, The Mateer Memorial Institute, in Chinese,—

2—This school be committed to the control of a Board of Directors the number from each Mission to be, in general, in relation;—

1st. To the relative annual expenditure determined by the number of students from each Mission.

2nd. The amount represented by the amount of capital invested in the plant.

3rd. The salaries of the foreign professors.

However we recommend for the present, that in order to insure the establishment of a genuine Union School, there be four directors from the Southern Church, and six from the Northern. Moreover that we always earnestly endeavor to have entire agreement between the two churches as regards the general aim and policy of the school.

3. That the teaching staff be divided into two classes;—

a—A President and Vice President together with other full professors.

b—Instructors.

4. The men of the first class shall be elected by the Directors and have charge of the management of the school under the Directors, they being at liberty to refer any matters they think best to the decision and management of the entire teaching staff. These members of class (a) shall have full liberty of discussion in the meetings of the Board of Directors but without voting power. The duties of the President and Vice President together with those of the Secretary and Treas. Shall be defined at the first meeting of The Board of Directors.

5. That the annual school expenses be supplied by each Mission in proportion to the number of students from each church.

6. That we request the Northern Presbyterian Mission and Board to immediately supply $8000 Mex. for foreign residences, $4400 Mex. for residence of the Chinese professors, $2000 Mex. for the equipment of the present school building, and $1100 Mex. for the fence around the lot.

*Altho we recommend the above as the present basis of union we request the two Missions and Boards to consider the proposition of having the Southern Board furnish either two fifths of the expense of the plant, excepting the cost of the main building, or the interest on the money represented by two fifths of the cost. If the interest on the plant be considered, the salaries of the foreign professors shall also be taken into account.

W. F. JUNKIN, *Chairman*
H. G. ROMIG, *Foreign Secretary*
LIU SI I, *Chinese* „ „

*This item was not a part of the basis of union agreed upon, but is simply spread upon the minutes as being the views of the members of the Com.

Your Committee makes the following recommendations.

That the Mission now takes steps to enter into the co-operation and management of the Bible and Normal school of South Shantung known as The Mateer Memorial Institute.

That the basis of union be the recommendations adopted by the representatives to consider school union at the meeting in Feb. 1916, with the exception of article three. which read as follows. "That the directors from each church be equally divided between Foreigners and Chinese."

That the Tenghien Committee be directed to communicate the Missions action of last year and the basis of union as above to the Executive Committee of Foreign Missions for their approval.

APPENDIX L

Report of the Evangelistic Committee.

Resolved 1st. that we urge every member of the Mission, doctor and teacher as well as ordained evangelist, both men and women, to take advantage of the evangelistic spirit now to some extent pervading the Chinese Christian body as well as the Missionary body and use every effort to lead on and encourage the Chinese to personal work and testimony for their Saviour, and to real hearty individual and united efforts; not necessarily, or perhaps chiefly, in attempts to hold big meetings, but that each Christian in home, in school, in hospital, in his own community, be urged to use every endeavor and method to gain the interest of others and to teach them the essentials of Christian faith.

2nd. That, in places where the way seems open for such, and where it is possible to have such, protracted meetings be held seeking the revival of the Christians, deeper faith and earnestness and zeal, or the reaching of the unsaved, or both.

3rd. That the Christians, both in country out-stations and in the main station centers, be encouraged and urged to organize themselves into bands, where there are not already such organisations, and go out to the adjoining villages and towns and tell the Gospel and teach.

4th. That night schools, especially at out-stations, be encouraged, as evangelistic agencies; and that by this and other methods, we endeavor to have every Christian not past middle life learn to read the Gospel; that not only the regularly paid Bible women be encouraged to spend much time in the teaching of individuals, but that we especially strive to develop volunteer work of women for women; also that efforts be made to secure more catechism teaching and Bible teaching in connection with the Sabbath services.

5th. That in accordance with the suggestion of the *Special Committee on A Forward Evangelistic Movement of the China Continuation Committee*, a special week of evangelism (striving to have as many members of the church as possible to take part with a view to reaching all classes of people) be observed at every station and out-station where it is possible and practicable to do so, and that, where it is convenient, this week be January 28th to February 4th. 1917.

9th. That we earnestly strive not to allow this evangelistic movement to be or to become abnormal or spasmodic, but that by methods used, and by every effort, in suggesting or directing, and controlling, we endeavor to make it a normal part of the Church life and work.

Respectfully submitted

Appendix

The Auditing Committee reports as follows:

We have examined the Mission Treasurer's Accounts, comparing them with Bank Pass Book, Individual Station Balance Sheets, The Executive Committee's Treasurer's Statements, and all other vouchers, and have found them correct.

We have also examined all the individual balance sheets; and have approved them with the following exceptions:

(1) Miss Pearl Sydenstricker's Balance Sheet was referred to the Auditing Committee for coming year.

(2) The Balance Sheet of Dr. J. W. Hewett was disapproved, as it showed an expenditure of $2462.94 on buildings in excess of the amount approved by the Mission. This account is referred to the Mission with the recommendation that Dr. Hewett be required to refund this unauthorized expenditure.

Your Committee would call the attention of all the members of the Mission to the fact that individual balance sheets should be audited and approved by the Station concerned; and also signed by the individual missionary himself. Failure to do this necessitated the return of many balance sheets to the ones concerned; and much delay to the work of the Committee.

We also recommend that all members of the Mission be requested to send in their balance sheets immediately after the close of the fiscal year.

Respectfully submitted:

DONALD W. RICHARDSON,
THOS. L. HARNSBERGER,
J. C. CRENSHAW,

CONFERENCE COMMITTEE MINUTES

The Conference Committee of the Mid-China and North Kiangsu Missions met in Shanghai at the home of Rev. C. N. Caldwell on July 11, 1917, at eight thirty p. m.

Present, Messrs. Blain, Richardson, Caldwell, proxy for Dr. Patterson, Stuart, Hudson, Harnsberger, and Moffett.

Meeting opened with prayer by Mr. Blain.

C. N. Caldwell was elected chairman, and L. I. Moffett secretary.

The Mission Secretary presented a letter from the Executive Committee *re* Mr. H. W. White's plan for administration of foreign mission work. It was recommended that the two Missions take up the matter at their next annual meetings.

The Mission Secretary presented a letter from the Executive Committee *re* new missionaries being sent. Voted to reccommend to the two Missions their assignment as follows:

Miss Neville to Hsuchoufu.

Miss Stribling to Hangchow for the Union Girls' School.

Miss Young to Soochow: (*Disapproved and call her to Haichow*) and further to urge the Executive Committee to find some one at once for Haichow in place of Miss Irvine who could not be sent.

Resolved: That we reccommend to the Missions and the Executive Committee that the location of new missionaries be left to the Conference Committee of the two Missions. (*Disaproved.*)

Resolved: That in view of the present inadequate support of the existing work; and the present urgent need of putting this work on a more adequate financial basis; we recommend to the Executive

Committee that no new missionaries (except in the case of actual vacancies through death or removal) be appointed to any of our fields, until the work now in existence has been adequately provided for.

The vacancies now existing are:

Chinkiang, a lady evangelistic worker.
Haichow, a lady educational worker.
Hsuchoufu, a male educational worker.
Kashing, a doctor.
" a trained nurse.
" a male evangelistic worker.
" a male educational worker.
Hangchow, a male educational worker for the Hongchow Boys' College. (*Deleted.*)

Resolved: that in view of the fact that the Nanking University Hospital has no relation to the work of either of our China Missions, and that they have no part in its control, and are under no obligations for its support, but are obligated to the Medical School at Tsinanfu for the amount originally appropriated to the Nanking Medical School therefore, we reccommend, that the Executive Committee do not make any grant for the financial support of the Nanking University Hospital. (*And do not approve of a doctor being there.*)

The Mission Secretary presented a letter from the President of Shantung Christian University requesting our Missions to elect a member on the University Council. We recommend that Dr. McFadgen be elected to represent the two Missions.

Resolved: That the Mission Treasurer be instructed to investigate the cost of securing bond and of employing an expert accountant to audit his accounts. (*Words securing bond deleted.*)

Resolved: That the Chairman appoint a committee of three to formulate a statement of the kinds of literary work needed, and to make recommendations as to the persons suitable to do it. (*Deleted.*)

Committee, Messrs. Richardson, J. L. Stuart, and Hudson.

Resolved: That we recommend to the two Missions that the Joint Committee on the Jubilee Conference be continued. (*Deleted.*)

Minutes were read and approved.

Report for the Nanking Seminary.

The Board had two meetings during the year; the first one in January when the session closed for the Chinese New Year. The feature of chief interest during this meeting was the very large number of graduates from the Bible School department—about thirty in all.

The second meeting occurred near the close of the school for the summer vacation. At both of these meetings the usual routine of business was transacted. Immediately after the first of these meetings the Presbyterian part of the Board held an extra session to transact such business as came before us. During this meeting of the general board the student body sent in a very nicely prepared and respectful petition to the Board containing a complaint that the faculty was giving too much attention to outside work and neglecting the regular teaching of the classes. Personally I was very glad to see this complaint, showing, as it did, that the students went to the school to study and wished to get the best that was possible, and also because I knew that some members of the faculty were giving more attention than was due to outside matters. The whole thing made a fine impression, done, as it was in such a fine spirit and respectful manner.

The matter of chief concern in the last meeting of the Board centered round the Bible School department. Mr. Blackstone, representing the "Wilson Stuart Fund" in China approached the seminary with the offer of assistance, both in finance and teaching. Mr. Blackstone's plan was to erect a school in which shorter courses of Bible study could be given and including a wider range of Christian workers, e.g., class leaders, Sunday School teachers, colporteurs, etc. Some of the faculty did not take very kindly to this. But there were two very important considerations that weighed heavily. The Seminary is in debt. Dr. White of New York who has been sending an annual sum contributed by a lady friend in New York,failed us this year. In the second place, it was felt that if Mr. Blackstone's offer was not accepted, he would erect a school of his own in Nanking which would detract from the Bible School department of the Seminary. So after very careful thought and long conferences with Mr. Blackstone a working plan was finally adopted. The present Bible School department will gradually go out of the seminary into a separate school near by—the location not yet definite-

ly settled. The Seminary Board elected five of its own members to cooperate with five others chosen by Mr. Blackstone as a new board for this Bible School. The members of the present faculty will teach in this new school as much of their time as they can spare, and other teachers will be added as the need may be. Mr. Blackstone will finance the new school and also pay the salaries of the Seminary faculty for as much time as they can give to teaching in the new school. This plan will materially decrease the expense of the school and widen the sphere of teaching in the Bible School.

The Committee in the States which Mr. Blackstone represents stands for two things most emphatically;

One is, Accepting the Bible—the whole of it—as the inspired word of God without question:

The other is, Emphasizing and pressing forward evangelistic work all over China and in all the mission fields of the world. It is needless to say that these are most worthy and important aims.

Meanwile the seminary is preparing to add a higher sourse of study designed especially for college graduates and other of high class education.

D.

As your representative on the East China Medical College I attended one meeting of the Board of Directors of Nanking University. As the medical department of the University has ceased to exist as such, arrangements were made to wind up its affairs. While there I heard of the proposed arrangement for us to continue our connection with the University by cooperating in the medical work in the Nanking Hospital. As that work is purely local I felt like it would not appeal to the members of our Mission, I feel like our Southern Presbyterion representative, if such there is to be here often, should come from the Mid-China Mission, preferably from the Nanking Station.

Respectfully submitted.

A. A. McFadyen.

Report of the Tsing Kiang Pu Orphanage Board.

The work of the Orphanage has gone on as usual during the past year. There are now 22 boys in the Orphanage. During the year three boys have gone out, one to do industrial work, two having

graduated from the High School and are now teaching. One we hope can go to College this year, nine or ten are in the High School, all are taking industrial work also. The contract with the Christian Herald has expired but they are continuing indefinitely a small appropriation, which with money that we have saved, will allow us to continue the Orphanage for some years. Several of the boys have united with the Church during the past year. A large proportion of the total number of the boys who have been in the orphanage have become church members.

Report of Committee on Dr. Hewett's Building and Balance Sheet.

Your Committee having gone into the matters referred to us as carefully as possible with the data at hand, would report as follows:

(1) That the whole account stands as follows:—

By Residence appropriation		$5000.00
„ Contract price for Hospital		5400.00
„ Salary		2960.87
„ 2nd Class appropriations		1509.00
To Salary	$2960.87	
„ Expenditures on 2nd Class	1846.28	
„ Disbursements for Hospital (regular)	5400.00	
„ Residence	5500.00	
„ Extra payments on above two items	1960.94	
By Amount overspent		2798.22
	$17668.09	$17668.09

Explanation of above "Overspent" item.

To amount overspent		$2798.22
By Dr. Hewett's personal gift	$500.00	
„ „ „ „ „	217.33	
„ Gate Receipts	854.61	
„ Old funds in hands for hospital accounts	835.71	
„ Deficit still outstanding	390.57	
	$2798.22	$2798.22

(2). We recommend that he be granted permission to use on account of residence, hospital, &c. The following sums:

Personal	$500.00
"	217.33
Gate Receipts	854.61
Old funds in hand	835.71
	$2407.65

(3). That the Treasurer be instructed to pay the balance due on hospital account of $200.00.

(4). That of the deficit still due, $190.57 be paid by Dr. Hewett personally, and the remaining $200.00, be provided out of this year's gate receipts or current appropriations, if sufficient, otherwise Dr. Hewett himself be personally responsible.

(5). That the $1400.00 which the Treasurer was instructed by the Executive Committee to pay Dr. Hewett on hospital account, be held by the Treasurer for future hospital building at Yencheng. Plans for which future buildings should of course go through the usual channels.

(6). That inasmuch as these extra funds were spent for buildings essential to the work at Yencheng, and the buildings are now the property of the Mission, and inasmuch as $835,71. of the amount so used, as well as the gate receipts $854.71 are sums that could reasonably be spent on hospital, or other medical work, if permission therefore had been properly obtained and inasmuch as Dr. Hewett by the above recommendations will have personally contributed to the buildings upwards of $900.00, which should cover any apparent extravagances connected with the buildings, your Committee recommends

(7). That as it is a first offence of a new member of the Mission, the Mission suspend censure, but warn Dr. Hewett that if in future such irregularities should occur, the Mission will hold him strictly accountable according to Mission rules.

Report of the Haichow Orphanage Board August, 1918

The Orphanage having now completed it's tenth year finds it's work almost finished. Out of the original list of 180, supported by The Christian Herald there remain now on Christian Herald support only 11, at least two of whom will be dropped before or during the next quarter.

At the beginning of the year I announced that I expected to bring the institution to a formal close at the end of this year. I urged every boy to accept the first available employment, especially if the harvest was good, without waiting till the end of the year when employment might be uncertain. A large number, rather to my surprise and in several cases to my regret left shortly before the close of the term. I say regret for several were among the promising boys and I was trying to find a way to carry them still further. Yet I felt it was best for them to get out and hustle for themselves. I have since learned that most of them enlisted in the Northern Army and I have heard from several who were already in Changsha.

In addition to the eleven above mentioned we have had ten or a dozen more whose term of support was out four years ago or who never were on the Herald list. Among them is a student in Mr. McCutchan's school, three boys now doing effective work in the Hospital, and in the School several more.

This year the boarding boys have far outnumbered the orphans, and in the coming term there will be only three or four boys left in school. For these three years, our total appropriation from the Mission has been $480 a year—not even enough for the teacher's salaries, so while regretting the necessity we have had no other course than to use our formally accumulated Orphanage funds for the large boarding school.

We plan with our remaining funds to carry on the boarding school another year and devote the balance towards the educating more fully of several of our most promising boys and girls. The two girls in Nanking have done splendidly, the older of whom, Chang Hsiang Lan still maintains her splendid record. Of all our choice minds and spirits she still stands easily first. A strong healthy body, a clear knowledge-devouring mind, a gentle Christian spirit and the talent for leadership mark her as one of the coming Christian women of our mission.

I cannot close this report without a tribute to some of the young men who have made good. It is the good fortune of all

to know young Chinese both intelligent and forceful: but when in addition such men are also lovable, unafraid of dirt and the most menial tasks, ready always to do the job in hand—it makes one's heart exceeding glad to have had the privilege of seeing them develop.

This decade of Orphanage work has exactly coincided with the fourth decade of my life. While I hope that succeeding periods may be more fruitful I can hardly hope for them to be any happier.

Report of Building Committee for Haichow School and Teacher's Residence

It being impossible to get a contractor at Haichow the whole of these buildings was begun and completed by day labor.

The war prices of iron resulted in the selection of a ruberoid roof, said choice being approved by the Extension Committee and by the Nashville Business Committee. It has not proved satisfactory, and must be replaced as soon as prices permit, with an iron roof.

Not being able to get a contractor, and owing to the extreme difficulty of getting building material, it was decided to treat the two appropriations as one, pushing the work on whichever one we could get the materials for.

The accounts, which have been audited are as follows.

Reply to the Executive Committee. The mission is pushing self support and self government in every department of the work. The medical and educational work have already attained a large degree of self support and in all other branches self support is being pushed, and with self support self government comes naturally. Some missionaries think that to advance self-support the best way is to put the Chinese in control of funds from the parent churches while others would ask them to sit as advisers, and yet others in newer work have not felt it necessary to consult the newly reached people. So while there is not entire unity in the working out of the ideal the Mission is earnestly endeavoring to forward self government and self support in the native Church.

There has been decided progress in the matter of selfsupport.

The Mission has no recommendations to make at present.

With reference to the question of a house for Mr. Stevens and Mr. Brown we recommend that a house be built and occupied temporarily by Mr. Brown and that every effort be made to secure an appropriation for Mr. Brown's house as it will be needed also.

Report of O. V. Armstrong, as Member of Board of Managers of Nanking Theological Seminary

There have been two meetings of the Board since last Mission meeting—a called meeting, Jan 15-16; and the regular meeting, June 25. N. Kiangsu had representatives present at both meetings. The attention of the Mission might be again called to the following items of interest.

I. The January Meeting

At this meeting the Board approved the recommendation of the Faculty that Dr. J. E. Williams of the University be requested, while at home to endeavour to secure four additional foreign professors, and sufficient funds for their salaries and residences; and also $8,800 Mexican for residences for four Chinese professors. The Board also asked Dr. Williams to see the Home Boards of the co-operating Missions, requesting that each Denomination provide as soon as possible $4000 Mex. yearly toward the running expense of the Seminary; and that the part of this amount, above what is now being given, be secured from special sources;

Rev. C. Stanley Smith and Mr. T. T. Liu were nominated as professors. Mr. T. T. Liu is the Chinese student who was sent to the United States by Dr. Leighton Stuart. He has already completed his seminary course at Yale, and will get his Ph. D. from Columbia University next June.

The Board was informed that G $15,000 for another dormitory and money for a residence from the Southern Methodist Board has been entered on its Centenary Fund, such will add very much to the present buildings.

II. The June Meeting:—

At this Board meeting, the following was adopted with reference to the Correspondence Course:— That for the present the course be held in abeyance; the work already prepared be not printed; the faculty further proceed to organize the course; and that the Board through the Faculty look for a man who as a member of the Faculty, shall be able to give his whole time to this work.

Rev. C. Stanley Smith was elected as a member of the Faculty. As to Mr. Liu's election, the following action, was taken:—

1. That Mr. Liu be elected as a professor subject to his ability and willingness to meet the required covenants relative to his position and service on the Faculty. 2. That this action be forwarded to Mr. Liu with a covering letter by the English Secretary. The Board was informed that Mr. Liu had been offered $600 (G) for next year by Union Seminary New York to teach a branch in that institution; and that Mr. Liu was constrained to accept same in order to relieve his financial embarrassment and enable him to get his Ph. D. next Spring. The Board instructed the Secretary to write Drs. J. C. Garritt

and Speer, requesting them to advise with Mr. Liu as to the advisability of his not taking the proposed work at Union Seminary New York. Mr. Liu has made a most remarkable record as a student and has proved himself an Universal Christian leader and public speaker.

The following letter was sent to Mr. Liu.

"Dear Mr. Liu:—

I am instructed as a Secretary of the Board of Managers to write to you of your election today as a member of the Faculty of Nanking Theological Seminary and to lay before you certain matters connected therewith.

The members of the Board have watched with interest and gratification your fine record as a student and we are grateful for the high purpose which animates you, being determined, as you are, to lay all of your honors and attainments at the Master's feet, for the promotion of His work in your native land, especially in the raising up of an educated ministry.

In this confidence we have elected you as a member of the Faculty of this institution.

At the same time in all brotherly frankness to call your attention to the emphasis which this Seminary places upon the great fundamentals of the Christian faith, generally known as evangelical Christianity.

As between the conservative and liberal attitudes towards Christian belief this institution while welcoming all freshness of interpretation still avowedly stands for the conservative position which is the position held by our constituencies both in America and in China. We desire that the students shall stand for the faith once delivered unto the saints, being rooted and grounded in the truth. We desire to stand all together, as only thus shall we be able to stand at all. For this reason we write to you in this way, acquainting you with our postition in this matter and assuring you of our confidence in you that you will be able to accept without reservation the doctrinal basis of the institution and to go forward with us in the great work which lies before us.

The new department for University Graduates, which will be called the School of Theology (In Chinese), will be opened for the matriculation of students September 18, 1918. This course will cover three years; and those completing the full prescribed course with an average of 85% will be recommended for the Degree of B. D.

For the year ending in June there were 59 students in the Seminary Department; and 43 in the Bible Department. There were students from 12 Provinces and Korea, representing 16 Denominations, of these students 24 were American Presbyterian South, 12 in each Department. There were 15 graduates from the Seminary Department in June, none of them were American Presbyterian South. In the graduating class of June 1919 there will be no N. Kiangsu students. In the 1920 class there are only 5 for N. Kiangsu. In short our N. Kiangsu Mission, with its 8 stations entrusted with the evangelization of 13,000,000 souls, has entirely too few students in the Seminary Department. "The fields are white already unto harvest." What are we going to do about it?

Respectfully submitted,

O. V. Armstrong.

Recommendations:—

That the Mission approve the request of the Seminary to present the need, for $4000 Mexican for running expenses from each co-operating Denomination to the Home Board; with the understanding that the increase over the present appropriation is to be obtained from special sources and not to come from the regular appropriations.

To the Mid China & North Kaingsu Missions:—

As your representative on the Council of the Shantung Christian University, I would report that I was not able to attend the meeting held September 2nd, 1917, but that I attended the meeting of the University Conference followed by the Council Meeting in May of the year. At the informal Conference and in the council meeting that followed, the reorganization of the University, on a more efficient basis, was discussed, The results are before you in the Shantung Christian University Bulletin, Council Minutes No. 5.

After very exhaustive discussion in the Conference, and later by the Council, the Basis of Union was revised, in accordance with the "Proposals," sent from America by Dr. A. J. Brown, with the exception of section 7 which was altered very materially, as can be seen from Bulletin submitted. This revision of No. 7 is submitted in order to secure a Field Board of managers representative of all Missions concerned together with representatives from the alumni of the institution and the local Shantung church: and in order to secure expert advice those elected representatives, are to co-operate to half their number, educa-

tional leaders from the whole China field. In order that the Board might not be unwieldly, from size, the Northern Presbyterians and English Baptists very generously surrendered ⅔ of their present representation on the council. Thus it was voted, that each Mission, whether co-operating, in one or all departments, of the University, should leave one representative on the Field Board of Managers. Certainly no plan could be more generous to the smaller Missions.

As your representative on the University Council I move that the Mid China and North Kiangsu Missions, approve the Revision of the Basis of Union, as proposed by letter of Dr. A. J. Brown, and modified as to section 7 by action of the University Council at its May meeting. If any change is desired let it be submitted to the Field Board of Managers as a recommendation.

2nd. That the Conference Committee of the two Missions elect a representative for our Missions on the Field Board of Managers—the length of term to be determined by said board.

3rd. That the Mid China Mission make provision, as soon as possible for a residence for Dr. Shields.

4th. That we look forward to a wider co-operation in the work of the University as soon as the way may become clear.

Respectfully Submitted,

A. A. McFadyen.

Report of The Examining Committee

Your Committee recommends:

1st., That the mission accept the first year of the Nanking Language School in lieu of our own course by students who have satisfactorily completed that course, but that, for the present, we require our own course for the second year.

2nd., That Dr. Patterson and Mrs. Richardson be appointed a Committee to revise our present Language Course, to report at next Annual Meeting.

Your Committee reports:

1st., That Dr. Bell has been examined on and passed most satisfactorily the second part of the first year of the Language Course, Mr. Taylor the first and second part and Mrs. Taylor the first part of the first year, Mr. Ghiselin the whole of the second year, Miss Lily Woods the

first part of the third year, and Mr. McLauchlin the first part of the third year.

2nd., That Mr. and Mrs. Lancaster have completed the course and passed the examinations of the first year in the Nanking Language School and Mr. Montgomery of the first half of the first year.

We recommend that, Mr. Lancaster having nearly completed the work required in the second year at Nanking he be permitted to take that course in the second year instead of our Mission course.

3. Mid-China sudmitted a scheme for completing the occupation of its field by opening new centres as follows:

	City Centres	Country Outstations
Hangchow	0	1
Kashing	3	5
Soochow	0	5
Kiangyin	1	7

Estimates were also presented by Mid China for the amount needed to complete its evangelistic equipment; as far as can now be foreseen. This calls for Mex. $50,000.00 outside of Kashing which already has the promise of funds for its complete evangelistic equipment.

Voted: That the Conference Committee of the China Missions approve of the North Kiangsu Mission's making up a separate estimate of the amount needed for evangelistic, educational, and medical equipment and incorporate the same in the report sent home.

Adjourned after prayer to meet at half past eight.

Saturday, 8: 30 P.M.

Committee called to order at 8:30 P.M. Prayer by Dr. R.B. Price. Report of Evangelistic Committee adopted as a whole. Voted to approve of Medical Committee report re. Mid-China as follows:

We believe that the Mid-China Mission should intimately relate itself to the great and pressing problems of Medical Work in China in the following ways:

1. We approve of our Mission's contiuuing its cooperation in the most important work of medical education in China and the closest possible linking up with the splendid work of the Union Medical School located at Tsinanfu.

2. We approve of the establishment and equipment of base hospitals at certain strategic centres in China, to be Union institutions few in number, having the regular evangelistic purpose of the mission hospital; but to be equipped for the purpose of carrying on the further education and training of the medical graduates in a more efficient and scientific way than the ordinary mission hospital could hope to do. These base hospitals to be the seats of modern training schools for male and female nurses and to afford the whole community an object lesson in the advantages of Western medicine, and of hygiene and sanitation. We believe that our mission should relate itself correctly to one such model Union hospital in this section of China.

3. We believe that the vast majority of mission hospitals should be carried on with the ultimate object in view of turning the work over to the Chinese just as soon as advisable. In furtherance of this end we believe that these hospitals should be limited in their extensive development but would urge that their internal equipment be of such charater as to enable the staff to render thoroughly efficient service. This limiting of the size of these hospitals, both as to foreign staff and money, should hasten the day when the Chinese can assume the entire responsibility for them, thus releasing the foreign staff for opening of medical work in unoccupied territory.

4. The following definite needs of the present medical work are presented:

KASHING HOSPITAL

MEX. $15000 for completing Plamer Mem. Building.
MEX. $ 5000 for quarters for Chinese staff (doctors).
MEX. $ 3000 for electric light equipment.
MEX. $ 2000 for kitchen.
Total $25,000.

NOTE:— North Kiangsu Mission not in a position to approve this article referring to the Mid-China Mission.

KIANGYIN HOSPITAL

MEX. $4000 For quarters for Chinese doctors.
MEX. $1500 Extra operating room and nurses quarters.
MEX. $ 750 Instruments and apparatus.
G. $2000 X Ray outfit.

SOOCHOW HOSPITAL

No specific plan was approved, it being understood that a fund of G. $20,000 had been provided for development of this work. It was voted to await return of Dr. Wilkinson before passing on plans for hospital development.

Voted: That all estimates for equipment should be presented in Mexican Dollars unless the money was to be spent in Gold.

Voted: To refer to the Ad. Interim Committee of the Mid-China Mission, the resolution of Chinkiang station calling for the transfer of Doctor Young from Soochow to Chinkiang. The resolution was as follows:—

In view of the urgent need of medical work in the Chinkiang field and in view of Doctor Young's desire to engage in medical work in that field, Therefore.

Resolved: That the North Kiangsu Conference Committee request the Mid-China Conference Committee to concur with us in asking the Ad. Interim Committee of the Mid-China Mission to grant the request of the Chinkiang Station that Dr. Young be transferred from Soochow to take up medical work at that place.

The following recommendation of the medical committee was adopted: Resolved that we approve the policy of having two foreign doctors and one foreign trained nurse for each regular mission hospital.

The application of this rule will require reinforcements as follows:

North Kiangsu.....	Doctors 5	Nurses 5
Mid China.....	,, 1	,, 0

Voted: To appoint Revs. Richardson and Moffett to edit the report and forward to Dr. Armstrong,

Voted: To reproduce the map of the China missions and furnish same to members of the mission.

Resolved that in view of the tremendous size of the China missions' field and the extent of the work undertaken by our church in China, we urgently request Dr. Armstrong to extend the time for the study of the China field for another year; the first year being devoted to the study of China as a whole, and the second year to the study of our specific work in China.

Adjourned to meet Monday Feb. 4th at 9 A. M.

SUNDAY FEBRUARY 3RD.

A very helpful devotional service was held at residence of Dr S. I. Woodbridge at 9 A. M. led by Dr. P. F. Price. Another devotional service was held at the residence of Rev. C. N. Caldwell led by Rev. Geo Stevens, at 8 P. M.

MONDAY, FEBRUAY 4TH.

Committee was called by the chairman at nine o'clock. Mr. Yates led in prayer. Mr. DuBose absent from this session.

Voted: To make list of vacancies in the missionary staff of the China missions:—

EVANGELISTIC:	Chinkiang	1 Lady evangelist.
	Hsuchowfu	1 Male evangelist.
EDUCATIONAL:	Haichow	1 Lady teacher.
	Hangchow	1 Teacher for college.
MEDICAL:	Kashing	1 Doctor and 1 Nurse.

Voted: To call for a fourth man for the Hangchow college in addition to the one to fill vacancy above. Mr. Hendry has enlisted for service in France and his return is therefore quite uncertain. If he should return in the future, he is to be reckoned as the fifth man asked for from our missions for the faculty of the college.

The following resolution was unanimously adopted:

Resolved that we hold before us as Southern Presbyterian Missions in China the definite ideal of extending our work to some unoccupied section of China as soon as the present work has been adequately provided for; and that Messrs. Hudson, Blain, Worth, Richardson, Graham, and McFadyen be appointed a committee to visit and investigate the unworked portions of the North Kiangsu territory and make a full report of the conditions and need of that field.

Voted: That we recommend to the Committee on Organizing a General Assembly of the Presbyterin Church in China that the Assembly at its first meeting consider the advisability of determining on an Assembly Mission to some, at present, unreached portion of China, and that we inform the Assembly of the policy adopted by our China Missions on this subject.

Voted: That all new male evangelistic workers coming to China before the next meeting of the Conference Committee be assigned to North Kiangsu Mission.

The first lady evangelist also to be assigned to North Kiangsu; the second to Mid-China.

The Others to North Kiangsu.

Educational workers to be assigned as follows: first male worker to N. Kiangsu; second to Mid-China. First lady teacher to N. Kiangsu.

Medical; First doctor to Mid-China. First nurse to Mid-China.

Voted: That when the Committee adjourns, that it adjourn to meet at the Missionary Home, Shanghai, Thursday, July 10th 1919. 8 P. M.

Voted: To request treasurer to pay for printing 200 copies of minutes. Minutes read and approved. Adjourned after prayer Dr. Hudson.

Report of G. P. Stevens on The Mateer Memorial Institute

The Mateer Memorial Institute has had an attendance this past year of 80 students 45 in the Bible School and 35 in the Normal Department. Of the 45 in the Bible Dept. 16 were from North Kiangsu Mission-12 being from Hsuchowfu 4 from Sutsien.

In addition to these men—Hsuchowfu station sent up twenty two women this spring for Bible classes, so that Mrs. Stevens has helped in the training of 40 or more men and women.

Mrs. Stevens taught one class in English and one in the Bible in the Institute in addition to her regular teaching in the Womens Bible classes. I have been almost entirely free from administrative work and thus able to give my whole time to teaching. Mr. Dodd has to leave on furlough soon but the Northern Pres. plan to put another man in his place. We have also recently secured two new teachers for the Normal school which begins in earnest next month. One of them is a graduate of the Tsinanfu Gov. Normal school, while the other is a graduate of Shantung University with a Normal course and some years of teaching experience in addition. We trust they will prove the men needed for the normal work.

Quite a number of the boys and men have gone Saturdays and Sundays to the villages around Tenghsien to preach and teach. Pastor Liu and I frequently went with them. We also had weekly meetings with them. The Institute proper had nine teachers--Pastors Lui, Dodd and myself, three Weihsien graduates and three Chinese teachers without western training. Pastor Lui as president looked after the administrative work such as managing and paying teachers and management of the pupils. Quite a spirit of harmony prevailed in the entire faculty. We attribute a great deal of this to the weekly faculty prayermeeting attended regularly by all save the one non-christian member of the faculty.

Mrs. Stevens, Dr. Keator and Miss Dodds(taught the women) with the assistance of the wives of the teachers and the wife of the Chinese doctor in the station. These all served without pay, setting a fine example of voluntary service, for reports proper and conference on evangelism.

We tried an evangelistic meeting at the close of the Spring term having pastor Li Tao Hewe of Tsinanfu and pastor Shia of Nanking with us for five days just after examination closed. We felt that the meetings were a great help, many of the boys and men were very much concerned for their immediate relatives. We feel sure the year's work at Tenghsien has not been in vain.

In addition I have visited the Pientang field three times, during the year. While the work there is not especially flourishing we are encouraged over the new school started and the prospect of a higher-primary being started soon, some enquirers are coming in but no baptisms this year.

G. P. Stevens.

Appendix B

Report of Representative on the Board of Field Control of Shantung University

The organization of the University is proceeding along large lines, with the actual union of four British Societies, one Norwegian, one Canadian and two American Missionary Societies. These Societies are organized under two Home Boards known respectively as the British Joint Board and the American Joint Board which latter includes the Presbyterian Church society of Canada. Besides the societies the University is seeking the cooperation of two or three more American Missionary Societies.

The large influx of students from the old Peking Medical School into the Medical department of the Shantung University made the problem of caring for them all by the Medical teaching staff of the University quite difficult, but the problem was met earnestly and a useful year was completed in that department this June with the graduating of more than forty physicians.

In spite or this large number of graduates the needs of the various Mission Hospitals could not be met. This shows what a large and useful career lies ahead of this department in fulfilling the demand and needs of our Medical work in China.

The British Societies expect to send out four physicians to join the staff this year; each man especially fitted for teaching in some special department. It is recommended that the representative of our two Missions be appointed for a period of three years in order to provide continuity in the representation on the Board of field control of the Shantung University.

Respectfully Submitted
A. C. Hutcheson.

Report of Mission Representatives on Board of Managers of Shanghai American School

We would note that by an excellent system of duplicated minutes, every member of the Board has been kept fully and clearly informed of all that was being done at the monthly meetings of the Executive Committee of the Board.

We would note that Mr. Stockton has resigned as Superintendent and his resignation has been accepted. From a cable gram received from America, August 2nd, it is probable that a new Superintendent has already been secured. Several new women teachers have been engaged and are now en route to China.

We would report that plans for the participation of American Business people in China in the management and control of the School have been consummated and a new Constitution has been adopted subject to the approval of the at present controlling Societies.

We would call the attention of the Mission to the fact that the Christian character of the School is clearly recognized in this Constitution, and it is required that the Principal and Teachers and members of the Administrative Staff shall be of "good Christian character."

There is to be a Board of Trustees in America, composed of one representative from each of the controlling Missionary Societies and a corresponding number of representatives from Business Organizations doing business in China with the addition of three coopted persons.

There is to be a Board of Managers in China composed of one representative from each cooperating Missionary Society and an equal number of business men with the addition of three coopted persons.

We would call the attention of the Mission to the fact that this proposed Constitution thus divides the control of the School equally between the business world and the missionaries, and that there is contemplated only one representative on the Board of Managers from the two Southern Presbyterian Missions instead of two from each, as heretofore.

We recommend the adoption of the following Resolutions:—

1st—Though heartily welcoming non-missionary bodies to a share in the control of the School nevertheless, in view of the fact that the first conception of this School has been that it *must be positively Christian and unswervingly loyal to the Bible*

and Evangelical Truth, and in view of the conviction that we must not allow any inducements to make us lose sight of this first and basal ideal, we disapprove of the proposed constitution, suggesting that the majority of the Board of Managers should be Christian Men.

2nd—We earnestly urge the Board of Managers to devise some means for ensuring more careful oversight and discipline in the School, and more positive Christian influence on the part of teachers.

3rd—That copy of Resolution I be sent to the Mid-China Mission and to the *Executive Committee* in Nashville, and that Rev. Messrs. Patterson and Graham be appointed a committee to correspond with the Mid-China Mission and to write an accompanying letter to Nashville explaining more fully the dangers feared.

Appendix E

Actions of Missions Conference Committee

Upon request of Mr. Rice it was decided to change the date for the next annual meeting of the Mission from September 18th to the first Sunday in October with the understanding that the question may be reconsidered at a subsequent meeting of the Com.

Mrs. Bradley was granted permission to use a special gift of $30.00. Mr. Yates' request for the payment of a medical bill of $86.00 was approved and the Ex. Com. was asked to make this appropriation.

Mr. Harnsberger was granted permission to dispense with the use of mission funds in the conduct of his own evangelistic work, with the understanding that after the end of the current year the disposition of such released funds is in the hands of the Mission.

Mr. Richardson was asked to act as the Missions representative on the Kiangsu Federation Council in the place of Mr. Harnsberger.

Permission was granted to Yencheng Station to use $200, special gifts to meet any deficiency in this year's work.

The Chairman reported that the circular letters re. Miss Bissett for Sutsien, and re Yencheng's use of funds at Tienhu had been passed.

Mr. and Mrs. Smith were advised to take their furlough as soon as possible on account of Mrs. Smith's health.

After a discussion of the needs of Yencheng station a committee consisting of Messrs. Smith and Richardson was

appointed to confer with Mr. Reaves or other available man, and in case the former should be willing to present a call for him to the Ad-I. Com. of M/C.

In case the above should not succeed, it was voted to ask the Ex. Com. to grant the Yencheng station an appropriation of $300, for securing a native assistant to help carry on Mr. Smith's work,

The Chmn. was authorized to confer with Dr. E. W. Smith, and in case the latter should desire a joint meeting of the Con. Com. of the two missions, to confer with the Chairman of the M.C. Ad-I. Com. and call a joint meeting at such time and place as may be agreed upon.

Meeting adjourned with prayer by Mr. Rice.

The request of Suchowfu Station for the use of special gifts of $175, for the training of students for Christian work, and for the use of $225, (both items in gold) for the education of other students was granted.

The request of the Tsingkiangpu Hospital for an extra special appropriation of $150, was approved and referred to the Ex. Com. with the request that it be granted.

Consideration of the request of Tsingkiangpu Hospital for the next nurse was deferred.

Dr. R. B. Price's request for release for Red Cross work in Siberia was granted from December 1 to September 1, 1919, should the need continue for so long a period, Mr. Graham asked that his vote be recorded in the negative. Executive Com. of Foreign Missions Nashville Tenn. U.S.A.

Kuling August 22nd, 1919.

Dear Brethren:

The N. Kiangsu Mission has directed us to write to you in regard to the reorganisation of the Shanghai School which up to the present time has been under the joint control of the participating Missions. This mission insists that a school to be at all satisfactory to the missionary body should have an assured Christian character. While the proposed constitution declares that, it maintains this ideal, it does not guarantee that its Board of Managers shall be Christian men. Now the ideals of a board of managers must control the character of the school rather than the ideals of a preamble and the past history of the school. Therefore this mission earnestly urges the Ex. Com. to make it a *condition of participation that a majority of the Board of the new school must be Christian men.* In the second place the matter of arranging with the business men for a joint school was not brought to the attention of the Board of managers until May 1919 and on August 5th possibly before the matter was submitted to any mission at a regular meeting. The Ex. Com. of the old Board of school managers reported that 15 out of 19 men had approved and that this vote is now considered final, and goes to the Boards for approval. This mission thinks that in a matter that so vitally effects individual missionaries, action should have been deferred till all have been appraised of the movement and its meaning, and that it should not hrve been decided without such reference. Further unless Christian ideals are safely guaranteed in the new institution this mission wishes to reserve its right to request the Executive Committee at Nashville for its proportion of funds with which to help sustain one or another of the several Christian Schools in the Yangtse valley.

Yours cordially and respectfully on behalf of N. Kiangsu Mission.

Signed B. C. Patterson
,, Jas R. Graham.

It was also stated that the proposed plan contemplated keeping the school under Christian management.

Bulletin Committee

Messrs. Richardson, Smith, and Rice were appointed to confer with the Mission treasurer and see if he would be willing to assume the business management of the *Bi-Monthly Bulletin*.

Conference with Dr. Smith

In discussing the question of salaries of missionaries Dr. Smith stated that it is the policy of the Executive Committee to leave the determination of salaries to the missionaries themselves. In view of this fact each individual in voting on the question of salaries should vote according to his own experience; and if any increase in salaries is asked that increase should be so graduated as to give relief to the missionary with children as well as to the single missionary or to the missionary couple without children. Dr. Smith felt also that dental bills should be paid by the Mission; and that in case of the necessity of using a trained nurse this should also be included in the medical account.

General Secretary

Dr. Smith in further conference expressed his conviction of the need for a general secretary and evangelist for the work of our Church in China. Such a secretary, he said, should be a man whose spirituality and ability would command

the respect of all; should be a man of experience in country evangelistic work; of experience in institutional work; and a man of evangelistic gifts. Such a secretary should be responsible solely to the China Missions. Dr. Smith's statement was followed by a full discussion of his suggestions; and the Conference Committee by majority vote expressed its hearty approval of the plan as outlined, with the understanding that the title, duties, and functions of this secretary should be defined later.

Committee Appointed

Messrs. Little, Graham, and Hudson were appointed a committee to consult with Dr. Smith, designate a title, to define duties and functions of such a secretary; and report to this committee.

Adjournment

It was voted that when we adjourn it be to meet at 4.30 this afternoon.

Medical Examination

Dr. Smith urged the annual medical examination of each missionary on the field; and the Conference Committee recommended to the Executive Committee to have suitable blanks for such medical examination prepared and supplied to the two Missions.

"Committee-itis."

Dr. Smith also emphasized the danger of loss in missionary efficiency through excessive work on committees.

Special Prayer

The meeting adjourned with special prayer by Dr. Smith in behalf of the bereaved family of Margaret Gay Talbot, the sad news of whose death had just been received.

The Conference Committee met at 4.30 in the afternoon; and was opened with prayer by the Chairman.

S. $550 per year; (2) that the stipend for children be continued on the present basis except when the child is in boarding school in the United States when the stipend shall be U. S. $350; (3) that both of the above items be paid at the minimum rate of two for one; and (4) that the dental bills of missionaries be put on the same basis as medical bills.

It was voted to ask the Executive Committee to make this grant from April 1st, 1919, if it be approved by the Missions.

The Special Committee which was appointed to designate a title and define the duties and functions of the evangelistic secretary advocated by Dr. Smith reported as follows:

We wish also to assure Dr. Smith of our most cordial, prayerful, and sympathetic support of him in the conduct of the work committed to him; and we do this the more heartily because his visit has led us to regard him not only as a fellow-worker in the world-wide extension of the Kingdom of Christ, but also as a close personal friend; and we can only hope that the memories of us and our field which he carries with him are as pleasant as those which he leaves behind. The Representative of the Mission on the Chinese Christian Intelligencer reported and the report was adopted. In this connection it was suggested that we ask the Intelligencer to open a Book Review Column for the benefit of the Chinese readers.

The Representative in the Shanghai American School reported and the report was recommitted.

The Representative on the Nanking Seminary Board reported and the report was adopted as follows:

"Report on Nanking Theological seminary, August 14th, 1920 There was a called meeting of the Board in the Fall, the call for it did not reach me in time to attend. I was in the country out of touch with the mails. The Regular meeting was held in early March and was fully attended. The matter of

especial importance attended to at that time was a change of plan in regard to the courses given in the Seminary. It was decided to do away with the training school department, and to institute three different courses, one to correspond with the present dsen ko (Seminary course, four years). This for graduates of High School, the second for graduates of the Junior College course, a fair knowledge of English is required in this course though not all the work is to be done in English and several of the colleges agree to reckon the three year's Seminary course as an equivalent of the balance of work necessary for attaining the degree of A. B. The third course is for regular A. B. or B. S. graduates of Colleges and is given in English. New men were received into the Fu Ko this year but none are to be received in future. Dr. Price has been away on his furlough this past year. Dr. Sydenstricker has been assisting in the teaching in the Seminary two days in the week in ddition to doing his work on the correspondence course. Dr. Garratt, the President of the Seminary has been away the entire year, kept in America by ill health. For the year there have been two professors doing full work (Missionaries). Drs. Rowe and Richardson. Messrs. Smith and Ritter have each begun work, though they have not yet taken over their full duties. Three Chinese professors have been on the Faculty. One has been sick most of the time. The other two are doing good work. Rev. Tsen Gin Yung and Rev. Yu An-loh both resigned during the year and their places have not yet been filled. There have been several calls to men, both foreign and Chinese, to take chairs in the Seminary but thus far they have not been successful. The Seminary is seriously crippled in its teaching force, and something should be done very promptly if its work is to be done properly. Calls were extended to Drs. Lowrie and Hayes but they have not given favorable replies.

I think that the Seminary is in good condition except for this lack of a sufficient teaching force. The number of students 140, is the largest on record. They have done good work during the year except that they on occasions declared a Ba Ko which on the part of Seminary Students the Committee does not like at all.

Dr. Rowe has been Acting President during the year.

The Report of the Representative on the Shantung Christian University Council was read and adopted:

Report Of Representative On Board Of Managers Of Shantung Christian University.

Shantung Christian University has had a rather trying year in two respects as perhaps most of you know.

In the first place, an entire reorganization of the heads of the University and deans of schools was made necessary by most unfortunate complications of a personal nature which after investigation resulted in the resignation of three prominent members of the University organization and faculty.

At a meeting of the field Board of Managers held in September, 1919, at which were present Dr. Moorshead, Secretary for the English Baptist Board of Missions, and Dr. Scott, one of the secretaries of the Northern Presbyterian Board of America, the whole matter was gone into most thoroughly and, painful as it was for all concerned in this investigation, it was felt there was nothing left to do but to request the resignation of the president of the University, the Dean of the Arts and the Dean of the Theological Schools respectively. After this wholesale removal of such prominent members of the University staff, a re-organization was effected with the election of Dr. Neal as President, Dr. Balme, Dean of the Medical

School, and Dr. Shields was asked to take the position of Dean of the Arts School in addition to his duties in the Medical School.

Dr. Shields filled this position very creditably for one whole term, though with a good deal of inconvenience, we think, and distaste to himself. He finally resigned the deanship, and has since been devoting his time to medical subjects and translation of medical text books.

The student strike in the spring ended rather unsatisfactorily for the University, since they were unable to continue the classes this spring, and had to dismiss the students until the fall term, thus necessitating the postponing of all classes for six months, and the return of prospective graduates in the medical school in particular for a short course and examination in the early fall.

In spite of these two unfortunate events in the year's history of the University, its morale has been sustained and its future prospects are, in our opinion, fine. The Medical Department has increased its staff by adding the following new men: a man for medicine, one for anatomy and for X-ray. A special gift has been made for an X-ray equipment for the University.

While naturally difficulties in getting in personal touch with the students will increase as the school enlarges, and elements may be introduced among so wide a mission representation which may not be altogether in accord with the attitude of the more conservative Missions such as our Mission, for instance, yet I honestly believe that the school is in safe hands, and as long as such men as Drs. Shields, Evans, Neal and Johnson are still in the saddle, the school is on safe ground. The number of graduates in the Medical School this year will probably be about twenty-five.

Volunteer Bible classes have been organized among all the medical students and have been quite successful. I am informed that all the members of the graduating class in medicine are Church members.

The Provincial Assembly of Shantung has voted a $5,000 yearly grant to the University, and it is to be hoped that this will materialize each year for some years to come.

Dr. Balme is in America and interesting many individuals and societies in the work of the institution, and even larger co-operation with other missions is looked for in the near future.

Respectfully submitted,
Allen C. Hutcheson.

The Committee on Communications reported and their t was adopted as follows:

The Report of the Committee on Theological Seminary, Bible School, College and Normal School reported.

The consideration of this Report was made the first order of the day for 2:00 p.m. to-day.

The Representative on the Board of Managers of the Shanghai American School reported; and the report was adopted as follows:

"Your representative on the Board of Managers of the Shanghai American School respectfully reports:

He attended the annual meeting of the Board last December. At this meeting the action of the Executive Committee of this Board with reference to the new Constitution and new Board of Managers elected thereinunder was confirmed, which action was as follows:

'Voted to ask the contributing Missions to appoint their representatives on the Board of Managers under the proposed Constitution with the understanding that the Board as thus constituted shall act provisionally under the proposed Constitution in the matter of the purchase of land and the erection of school buildings until such time as the Constitution shall be finally approved by the contributing Boards in America, the present Board of Managers to continue the conduct of the School until

the new buildings are erected and ready for use, at which time the new Board of Managers shall assume full control.'

On June 23d, 1920, collections and subscriptions in China to date for new plant were Mex. $141, 610; and subscriptions in America, as far as known, $135,000,00 Gold. Negotiations are in progress and it is thought that a desirable piece of property will soon be purchased.

We regret to report that Mr. E. S. Dreher, Principal, on account of ill health, was obliged to resign and return to America. A new Principal has not yet been received. This securing of a proper man for Principal is an exceedingly important matter, and your Representative requests the members of the Missions to make this a matter of prayer.

The disapproval of our Mission of the proposed Constitution was reported and explained to the Board of Managers, but our suggestion that the majority of the Board should be Christian men, was not accepted. It seems that there is not entire satisfaction among the contributing Boards in America in reference to this matter, and the final approval of these Boards has perhaps not yet been obtained.

We recommend that the Mission instruct the Secretary to write to the Executive Committee in Nashville, at once, drawing attention to the letter written by order of the Mission last year re this matter and urging action on their part.

Wm. F. Junkin."

The Report of the Committee on Revision of the Mannal was made the second order of the day for this afternoon.

The Report of the Committee on Sunday Schools was presented and adopted as follows:

Report of Committee on Sunday School Work

According to the 1919 Minutes of the Mission there were a total of eighty-three Sunday Schools, two hundred and seventy-seven teachers, and four thousand four hundred and thirty-seven Sunday School pupils in our Mission.

Without reflecting on the work of any station, where there must have been special reasons, your Committee would call attention to the fact that some stations have developed Sunday School work more extensively than others. A study of the statistics will show that the two stations, Hsuchowfu and Sutsien, together are doing more in Sunday School work than all the other six stations. For illustration, of a total of 83

Sunday Schools, sixty are in these two stations; of a total of 277 teachers, 170 are in these two stations; and again of a total of 4437 pupils, 2622 are in the two stations.

To the Committee it seems that these figures indicate that some of us have not realized the full possibilities of the Sunday School, as the development of the Sunday School in these two stations is larger than the proportionate lines of work in other departments.

The statistics indicate that some of the stations have more enrolled in Sunday Schools than their Church membership. Other stations have less enrolled than the church membership.

Going on the theory that the Sunday School is the whole church of Christ at work, studying the Word of God, it seems wise to try to have at least all of the Church membership and inquirers enrolled in Sunday Schools."

Dr. S. I. Woodbridge reported on the two publications which he edits, i. e, The Chinese Christian Intelligencer and the Bi-Monthly Bulletin, speaking of the very great difficulties at present encountered in his work, and also of the success which has come to the Intelligencer.

It was voted that the Mission request one of its single women workers to locate at Yencheng for at least one year.

It was voted that the appointment of a worker to Yencheng be the first order of the day for tomorrow, and that the assignment be made by ballot.

The report of the Committee on Seminary, Bible School College and Normal School was again taken up; and the report was adopted as a whole:

"We, Your Committee apointed on Theological Seminary and Bible School College and Normal School respectfully report: We have very carefully and prayerfully considered these subjects, have talked with many both within and outside of our own Mission, including the visit of the Chairman of the Committee to Weihsien, Shantung, and have made various investigations.

I. As to Theological Seminary.

Since last Mission Meeting, the Presbyterian contingent of the Theological Department of Shantung Christian University at Tsinanfu, which a number of our students have been attending, has broken away from the University, the class work being continued under Dr. W. M. Hayes at Weihsien. The Chinese Presbyterian Church in Shantung has already made plans to establish their own Presbyterian Seminary and has subscribed more than $10,000.00 towards this object. We herewith present papers describing the organization of this new Institution. They earnestly desire the cooperation of our North Kiangsu Mission, or the Chinese Church of North Kiangsu, or both. Your Committee feels that this seminary or something similar to it, is greatly needed by our field, and we recommend:

1st. That we express gratification at seeing our Chinese brethren undertaking such a work, and our congratulations and best wishes and prayers for success and God's richest blessings.

2nd. That we elect a committee of three to confer with the Kiangpei and Huaiyang Presbyteries and with the Board of Trustees of this Seminary with a view to our co-operation, either as a Mission or as Presbyteries; and that this committee if it sees best, in case the Seminary can be located at Tenghsien, make definite plans for co-operation and report at next Mission Meeting.

3rd. That we promise to, in case we agree to co-operate, as soon as possible set apart a foreign missionary to teach in the Institution.

4th. That the Secretary be instructed to write to the Board of Trustees informing them of this action and giving them the names of the committee elected.

II. As to College.

We find that we are left without any suitable higher institution of learning that is safe in its Biblical teaching and is accessible to the northern part of our field. The only accessible mission institutions and also Hangchow College, emphasize English to such an extent as to make it impracticable for the greater part of our students to attend. In addition there are strong economic reasons demanding an Institution within or near our own bounds. Therefore, we recommend:

1st. That we express our conviction that we should have a higher Institution of Learning, at least of the grade of Junior College, within the bounds of our Mission or near its borders, over the Biblical teaching and the Christian influence in which

our Mission would have large, if not complete, control. This Institution should be modest in construction and equipment and most economical in operation.

2nd. That the location of this Institution be determined at some future time.

3rd. That we request from the Home Church within the next six years $30,000.00 towards buying of property, buildings and equipment, at least $10,000 of which we ask to be sent us within one or two years.

4th. That we urge the Executive Committee to at once seek out and send us as soon as possible two school men to prepare to teach in this Institution.

5th. That a Committee of three be elected to obtain data and report at next Mission Meeting as to location, proposed grade, or courses, probable expense of equipment, etc., and style of buildings wanted; also to push this matter before the Executive Committee and the Home Church and seek to obtain funds and men.

6th. That this College would best be developed by gradually adding to the curriculum and equipment of one of our existing High Schools.

III. As to Bible Schools and Normal Schools.

We refer the Mission to the report of our members of the Board of Trustees of the Tenghsien Bible and Training School and to the report of the Committee on Bible School for the southern section of the Mission.

Committee:—
J. C. Crenshaw
J. B. Woods
Wm. F. Junkin,"

The Committee to which was referred the Communication from the Secretary of the China Continuation Committee re the 1921. National Christian Conference reported and the report was adopted as follows:

"The Committee appointed to consider the Communication from the Secretary of the China Continuation Committee re the appointment of delegates to the 1921 National Christian Conference reports as follows:

We recommend (1) the election of four delegates to this Conference.

(2) That the Mission instruct these delegates to the effect that no form of organization shall be set over the delegating bodies until the approval of the said bodies shall have been obtained.

(3) That the Mission protest to the organizing Committee of the proposed National Conference against the coopting of twenty percent of the delegates to this Conference; and express its judgment that the entire membership of the Conference should be made up of regularly appointed delegates from the Missions and Church Courts concerned."

Dr. Bradley asked that his vote be recorded against this report.

The Mission elected the following delegates: W. F. Junkin, H. M. Woods, Mrs. Graham, and D. W. Richardson Messrs. J. B. Woods, Woodbridge, and Graham were elected alternates.

The Representatives on the Tenghsien Bible School reported recommending the election of Dr. H. M. Woods to succeed Mr. Stevens as our representative on the faculty of the above institution. By a rising vote, Dr. Woods was elected to this position.

The Report of Tenghsien School Board was adopted as a whole.

Report of Committee on Tenghsien School.

Your Committee reports as follows:

We have kept in touch with the institution by means of frequent visits, by correspondence with Mr. Stevens and by several conferences with Pastor Liu, the President, one of these conferences being held at Kuling which was well attended by members of the Mission. One Board meeting has been held at Tenghsien. The outstanding features of the year 1919-20 that differentiate it from other years are as follows:

1. The organization of the Normal Department.
2. The securing Rev. Roy Allison as a member of the faculty.
3. The increased activity of the students in preaching among the villages.
4. The decision to drop the High School department in July of this year.
5. The great increase in the number of students from our Mission.

Taking these points up in order we would call attention to the following facts:

The decision to open the Normal was conditioned on securing at least ten students. Much to the surprise of the Board, twenty-nine students matriculated in this department, some of them coming from points as far distant as Weihsien, and a number of them being high school graduates. The addition of these more advanced students to the student body has helped to elevate the standard of scholarship for the whole school.

Mr. Allison during the past year has been transferred by the Shantung Mission from Ichowfu where he has had valuable experience as an evangelist to the faculty at Tenghsien; his department being Bible. The Board is greatly gratified in securing him.

About sixty students have voluntarily bound themselves together to take turns in visiting the villages each Sunday and preaching. Some go as far as 40 li round trip. A number of men have been brought into the church already as a result of their work.

The vocational nature of the school has been improved by eliminating the High School, which also avoids any appearance of competition with any of the five Mission high schools that act as feeders to the school.

During the year we have had 32 students from our Mission, distributed as follows, and President Liu reports that they are above the average in ability and training.

Hsuchowfu	13	
Sutsien	13	Of these 21 are in the Bible Department
Yiencheng	2	10 are in the Normal Department
Taichow	2	1 is in the high school
Hwaian	2	

Including the Shantung students, the enrolment is as follows:

The Bible Department	41
The Normal Department	29
Total	70

Your Committee has audited the accounts of the Treasurer of the Tenghsien funds, Mr. Stevens, of all funds received by him from the Mission and from Mr. Milton Stewart, and find same to be correct. The funds have been disbursed in accordance with the action of last Mission Meeting (see minutes page 17). We note there is a balance in the Treasurer's hands on July 30, 1920 of $28.96 from the Milton Stewart funds.

We would call attention to an error in the minutes of 1919, as printed on page 17. The item for Bible women's classes should read $120, and the item "To Tenghsien Board for increase in salaries, etc.," should read $380.00.

Recommendations :

1. That all our stations be invited to consider the merits of this school for training their teachers and Evangelistic Helpers. The faculty and Board are sound on the fundamentals ; the cost per student is very economical and the teaching is increasingly efficient. We would call special attention to the two years pre-theological course which will probably be inaugurated this fall.

2. That the Executive Committee of Foreign Missions be asked to grant an additional annual appropriation of $500; making the total appropriation $1,000 Mexican and that this item be double starred.

3. That the Executive Committee be asked to grant an appropriation of $6,500 Mex. for a residence at Tenghsien for our representative on the faculty, and the Tenghsien committee be directed to write the Executive Committee, explaining the needs for the above two appropriations. (On $6,500 item, see report of Estimates Committee.)

4. That in view of the fact that Mr. Stevens, for health reasons, feels compelled to resign his position on the faculty, we reluctantly accept his resignation, to go into effect when his successor is appointed. We take this opportunity of testifying to the wise leadership that Mr. Stevens has shown during the formative period of the school, and to his strong and helpful influence with faculty and students. We believe he is the man for the place.

5. That a successor to Mr. Stevens be appointed at this meeting of Mission, if possible. (Recommitted.)

6. That the Mission elect one Chinese representative on the Tenghsien School Board. Mr. Chang Yu Chang was elected.

F. A. Brown
W. F. Junkin

The North Kiangsu Conference Committee submitted the following supplementary report which was adopted:

"Resolution re Country Chapels.

PREAMBLE:

It was decided by the North Kiangsu Conference Committee that the special funds for Country Chapels be estimated at an average of five hundred dollars. Mr. Willis wrote that they were to be at four hundred dollars, and must all be at this same figure. The Treasurer has been embarrassed about the payment of these funds.

(1) Resolved, that the North Kiangsu Mission authorize the Treasurer to pay these chapel funds at four hundred dollars each.

(2) That so far as practicable special memorial funds be used intact.

"Whereas word has come to the North Kiangsu Mission that the Executive Committee of Foreign Missions contemplate providing funds for the Bible Encyclopedia which is so urgently needed, by reducing the appropriations of the China Missions; we, therefore, respectfully request the Executive Committee to provide in full the appropriations needed by the Missions and also by special appeal supply the needed funds for the Encyclo-

pedia. The two do not and should not conflict, and both are most important. We believe an earnest appeal from the Executive Committee to the Church for contributions for the Encyclopedia will soon result in the funds being abundantly supplied."

The Evangelistic Committee reported as follows, and the report was adopted:

"The Evangelistic Committee beg to report :

In accordance with the instructions of last Mission Meeting, a program was arranged and an Evangelistic Conference was conducted during the sessions of the present meeting. At the request of those taking part in the discussions during this Conference, we present the following recommendations:

1st. That the Examining Committee be requested to draw up a list of the indispensable questions to be put to those publicly presenting themselves for baptism and that this list be translated by one or more of our linguists into the very best Mandarin, so that our public Sacrament may be performed in a way to command the respect and approval of the most cultured Chinese who may be present.

2nd. That this Committee also draw up a list of indispensable questions for inquirers and applicants for baptism.

We also recommend:

1st. That the Mission strongly advise that the week of Evangelism during the first days of the Old Time New Year be observed, if possible, at all our stations and outstations.

2nd. That we record our conviction of the necessity of large and speedy increase in the foreign evangelistic force, both men and women, at least double its present numbers, if we are to overtake the work opening up before us and grasp the splendid opportunities. Conscious of the truth of the oft repeated statement that China must be converted by the Chinese, we yet contend that there must be more missionaries to help make Christian constituencies and to seek out and nurture and prepare for work more native preachers and other Christian workers if this field is soon to be evangelized. Preachers must be chosen from a Christian constituency, and a Christian constituency cannot be made without preachers.

3rd. That the School Committee be instructed to arrange for an Educational Conference during the sessions of next Annual Meeting.

4th. That the Mission request each Station to have prepared on cloth for next annual Meeting a map made on the uniform scale of two miles to one inch.

Mrs. A. Sydenstricker
Mrs. J. R. Graham.

Wm. F. Junkin.

Report of Conference Committee, North Kingsu Mission

Committee met in Chinkiang, Saturday, January 31, 1920.

The meeting was opened by prayer by Mr. Yates, retiring chairman pro tem.

Members present: Messrs. Graham, Brown, Yates, White, Price, Paxton, Crenshaw, McLauchlin. Mr. Crenshaw represented Mr. Grafton at his request.

By common consent, after listing the matters of business, the committee proceeded to have a season of prayer.

I. On motion it was decided that each conference committee should elect its own chairman, the chairman of the old committee to act as chairman until a new chairman is elected. If the old chairman is absent, the first man on the printed list should act as chairman until a new chairman is elected.

II. Re Dr. Smith's letter of July 24th concerning country chapels. It was decided (1) to ask for some chapels; (2) the number of chapels asked for immediate needs is as follows;

Suchowfu	15
Taichow	15
Chinkiang	10
Yencheng	12
Hwaian	6
Tsingkiangpu	15
Haichow	10
Sutsien	A loan fund equivalent to 15 chapels

Mission's Amendment: Each station is requested to carefully consider the question of the use of chapel funds, and be urged not to ask the Mission for any chapel funds except for use in distinctly strategic points, and then only after using every effort to get the Chinese to help to the full extent of their ability in raising the funds needed.

(3) The average cost of a country chapel to be estimated at $500; (4) Mr. Brown was asked to prepare a plan to be sent Dr. Smith to be used at home in making appeals for this purpose, and the secretary was asked to write a letter explaining the action of the committee in regard to country chapels, and to request him to send to the field immediately funds sufficient to erect three country chapels for each station, making a total of 24 chapels for our mission. This in view of the fact that Dr. Smith has written that he has already received funds sufficient to erect 20 of these chapels; (5) In the opinion of the Conference Committee, as important as these country chapels are, it is still more important at present to provide the residences on the list printed in our last mission minutes. And it is the opinion of the Conference Committee that effort should be made to raise the funds for building these residences before raising the funds for building the country chapels.

III. Re Dr. Smith's letter of September 4, 1919, concerning the need of Haichow for a doctor. The secretary was instructed to write Dr. Smith on this subject and embody the will of the Conference Committee on this matter as brought out in the discussion, especially urging that the Executive Committee make special effort to send a doctor to Haichow at once.

IV. At 2:30 in the afternoon the committee heard Mr. Paxton, Mr. Wilson and Mr. Dodd on the subject of union with the Methodist Mission in the Chinkiang High School. The following committee was appointed to confer with a similar committee appointed by the Methodist Mission to bring in a definite plan of union and present to the two missions.

Committee: Messrs. Hopkins, Paxton, Richardson, Taylor.

In connection with this question it was voted to ask the Mid-China Mission to return Mr. Hopkins to Chinkiang to take the school for another year, afterward to do evangelistic work in the North Kiangsu Mission.

V. Voted to recommend to the mission that Dr. Woodbridge be received as a member of the North Kiangsu Mission.

VI. The following committee was appointed to look into the matter of outfit for new missionaries, to consult with a similar committee from the Mid-China Mission and report to the Conference Committee later.

Committee: Dr. Price, Mr. Yates and Mrs. Paxton.

VII. Mr. Brown was asked to write a letter to Mr. Grafton asking him not to bring up his question of the union of the missions, etc., before the home church until it is put before the Mission.

VIII. Dr. Chester's letter re American School was received as information, the letter to be sent to individual stations for their information.

IX. (1) Taichow's request for the use of a sum not exceeding 1700 strings of cash, out of current appropriations, for use in buying property at Tungtai was granted; (2) Request of Taichow station for permission to ask the Executive Committee to make a special appropriation of $5,000 for the purpose of buying land at Taichow was granted, it being understood that this amount is included in the estimates approved by the mission at its last meeting. This action was taken with the hope that the land difficulties in Taichow would be thereby brought toward a solution, the American Consul having advised the Taichow station to pursue this policy.

X. (1) Voted to ask the Executive Committee to engage Miss Agnes White to take the Girls' School at Yencheng for one or two years at a missionary salary. (2) Voted to request Dr. Price to make regular visits to oversee the medical work at Yencheng during Dr. Hewitt's absence on furlough, in case no foreign doctor is available. (3) The Secretary was instructed to write to the Executive Committee stating the situation at Yencheng and urging them to put the remainder of the fund, received by Yencheng through the Sunday School Rally Day gift, on a two for one basis. (4) Voted to request Dr. J. B. Woods, Mr. Yates and Mr. Gao Yu Dzung to act as a committee to investigate a case of persecution in Mr. White's field.

XI. Owing to cases of violation of the following rule "They (the Extension Committee) shall supervise and approve or veto the plans and specifications of all building committees, when their appropriations exceed $500, and of all alterations to Mission buildings when the appropriations exceed $200."

We request all members of the Mission to study this rule and in future govern yourselves accordingly.

XII. (1) The secretary was requested to write to the Executive Committee emphasizing the great need of several new doctors, mentioning in particular that, besides the need at Haichow, Yencheng will soon be without a doctor on account of Dr. Hewitt's going on furlough, and pointing out the fact that the Mission's Men's Hospital at Suchowfu will probably have to be closed when Dr. McFadyen goes on furlough unless a temporary supply can be found. (2) Voted to grant Suchowfu a special appropriation of $185, the amount spent on special train to Tenghsien carrying Mrs. Grier to Mrs. Stevens in her last illness. (3) Voted to put the following appropriations for Miss Young in the double starred column, the appropriation to begin October 1, 1919:

Personal teacher	$ 96.
Repairs and incidentals	100.
Itineration	30.
Total	$226.

XIII. Mr. Junkin's request that his name be withdrawn as nominee for representative of our two missions on the American School Board, and his request that the name of Rev. W. H. Hudson be substituted for his as nominee, was granted.

XIV. The secretary was asked to write and thank the Executive Committee for increasing children's stipends and making arrangements to pay dental bills.

The committee adjourned at this point to meet at 9 A.M. on Monday, February 2d, Prayer by Mr. Brown.

Monday, 9:00 a.m., February 2d, 1920.

Meeting opened by prayer by Mr. Yates, Mr. Graham also led in prayer for the sick ones of the Mission.

XV. Decided that if new doctor arrives before the return. of Dr. Morgan he shall be located temporarily at Haichow. If, after Dr. Morgan's return or if two doctors come, a doctor should be located temporarily at Yencheng to fill vacancy caused by Dr. Hewitt's furlough.

XVI. Voted to request the Executive Committee to inform the stations of the names of donors of chapels, so that letters of appreciation may be sent to the donors.

XVII. Voted to approve Mr. Grafton's request that the thousand dollars he had asked for before for use in repairing roof and building country chapels, be granted for use in building country chapels.

XVIII. Voted that one of the Tsingkiangpu doctors be requested to go to Haichow for two or three months,—this because of condition of roads and the critical condition at Haichow. The secretary was requested to write a letter conveying and explaining this action.

XIX. The following telegram was received from Mr. Crafton Saturday night:

> "Request committee sanction taking wife Tsingtao Hospital. Acute attack passed, general condition bad. Southern routes impracticable. Ocean steamer running."

And after an informal consideration the following reply was sent:

> "Committee sanctions. Sympathy."

This informal action was approved by formal action of the Conference Committee at its Monday meeting.

XX. Dr. Sydenstricker was asked to sit as a corresponding member of the committee with privileges of the floor.

XXI. Voted that Yencheng be allowed to press its claims at home for one new evangelist and one lady teacher and that Suchowfu be allowed to press its claims at home for one new male evangelist.

XXII. Voted that Mr. Ghiselin be authorized to continue his work at Taichow, the vacancy declared at Taichow being thus filled.

XXIII. Voted that Haichow be urged to call for another male evangelist now.

XXIV. It was the understanding regarding the Inter-Church Movement reports that the columns referring to annual appropriations for salaries of missionaries and native workers each succeeding year after 1920 should include the previous increases and the grand total should be the total amount used for the purpose during the five year period.

XXV. Voted to make duplicate of Taichow's estimate of needs for the next five year period and send it in as representing the needs of the Haichow station as seen by the Mission, this because the copies sent to Haichow station were lost.

XXVI. Voted that the Interchurch Movement blanks be finally revised by the stations and sent to the secretary of the Conference Committee who is authorized to sign them and send to the Executive Committee and the Interchurch Movement.

XXVII. Dr. Chester's letter re Rev. H. M. Woods. (1) Voted to approve of Dr. Woods being set aside for two years for the definite work of translating Orr's Encyclopaedia. (2) Voted to express our approval of the movement started in the Synod of Virginia to raise a fund of $20,000, apart from regular missionary contributions, for the purpose of assisting in the publication of this Encyclopaedia. (3) Voted that the secretary be requested to write to the Executive Committee calling special attention to this action.

XXVIII. Voted that if Mr. Hopkins joins the North Kiangsu Mission he be advised to locate at Yencheng.

XXIX. Voted that all circular letters after being voted on be sent to the secretary of the Conference Committee who is to send a report of the result to the stations and to the mission secretary and also record these actions on the minutes of the Conference Committee.

XXX. As no notice of the appointment of a literature Committee can be found in the 1919 minutes, we request the examining Committee to act in this capacity until mission meeting.

XXXI. The Nanking School of Theology, through Mr. Richardson, requested that the action of the Seminary in asking

Dr. Sydenstricker to assist in the teaching at the Seminary to the extent of two to two and one-half days per week, be approved. Voted to approve.

Minutes of each meeting were read and approved.

Adjourned to meet at the call of the chairman.

Meeting of Conference Committee

The Conference Committee of the Mid-China and North Kiangsu Missions met in Chinkiang on Monday, February 2, 1920. There were present Messrs. Blain, H. M. Smith, Hutcheson, Moffett, Little, Graham, White, Brown, Yates, Paxton, McLauchlin, and Crenshaw, H. W. White was elected Chairman, and L. I. Moffett, Secretary.

In response to a letter from the Associated Treasurers explaining the necessity of supplying some assistance to their staff during the absence of Mr. C. N. Caldwell on furlough, the following actions were taken:—

(1) That the Treasurer of the Missions be instructed to send an urgent call to the Executive Committee for a stenographer to relieve the situation in the Associated Treasurer's office resulting from Mr. Caldwell's furlough.

(2) That Mr. H. M. Smith be elected Vice-Treasurer for the two Missions, and be requested to give such time as shall be necessary for consultation with the Associated Treasurers to secure proper application of the rules of the two Missions.

(3) That in case the call for a stenographer cannot be met by the Executive Committee, Mr. H. M. Smith be requested to take over the work of Mr. Caldwell during his absence (N. K. Mission's amendment: it being understood that Mr. Caldwell's work as Secretary of the North Kiangsu Mission is excepted.)

A committee composed of Messrs. Blain, Smith and Crenshaw were appointed to consider the increase of children's stipends as proposed by the Executive Committee. At a later session their report was adopted as follows:—

That a committee of one be appointed to write to the Executive Committee expressing our appreciation of their thoughtfulness in increasing the stipends of children, recognising the increase as a fair one, except in the case of children away from home at school in China for whom $250 gold at 2 for 1 will be sufficient after April first, the beginning of the fiscal year. (This instead of $350 gold, as proposed by the Executive Committee.)

Mr. Blain was appointed to write.

The nomination of Rev. P. F. Price, principal, and J. W. Paxton, alternate, for the position of Secretary-Evangelist, was referred to the two Missions with the approval of the Conference Committee.

Assignments of new missionaries were approved as follows:—Rev. and Mrs. R. C. Douglas to Kiangyin, Rev. and Mrs. J. E. Wayland to Tsingkiangpu, and Rev. and Mrs. E.S. Currie to Haichow.

The two missions were requested to appoint Messrs. Blain, and Richardson respectively a committee to meet new missionaries whose location has not been determined, and advise them as to their temporary location, their permanent location to be determined at the next meeting of the Conference Committee. Messrs. Crenshaw and H. M. Smith were appointed alternates to the committee.

The chairman of the committee to visit the North Kiangsu field, Mr. Blain, reported that the visit has been made, and the report is in course of preparation.

The Ad Interim Committee of the Mid-China Mission was, requested to appoint a committee of three (two men and one lady) to confer with a similar committee of the North Kiangsu Mission in regard to outfit for new missionaries.

Mr. Richardson, the retiring editor of the Bulletin, made a statement in regard to its finances, and at his request Messrs. H. M. Smith and Caldwell were asked to audit the books and make a statement of the amount of deficit.

It was recommended to the stations that the subscriptions to the Bulletin be paid through the Associated Treasurers, a certified list of payments to be made being sent to the Treasurers from each station, and that copies of the Bulletin be mailed direct to individual subscribers, instead of being sent through station secretaries as at present.

The secretary of the committee was authorized to have the minutes printed in the Bulletin, accompanied with the statement that these actions are not the authoritative action of the two missions until approved by them. In addition, the usual number of separate copies was ordered printed separately for distribution.

Dr. Hutcheson announced that the Nanking University now has a resident missionary dentist ready to serve the missionaries.

Dr. H. M. Woods was heard in regard to the translation of a conservative Bible dictionary. It was resolved that the Conference Committee express its conviction that the publication of a Biblical Encyclopedia from the conservative viewpoint is a matter of prime importance; that we endorse the work Dr. Woods is doing in this connection; and that we express our appreciation of the effort being made in the Synod of Virginia to finance the undertaking.

It was voted that the resolutions in regard to securing of assistance for the Associated Treasurers, in regard to stipends, and in regard to the publication of the Bible dictionary, be considered as emergency actions which should be sent at once to the Executive Committee without awaiting further action by the Missions.

Signed,

Lacy I. Moffett,

Secretary of the Conference Committee.

Report of Representative Shanghai American School.

Your representative was not able to attend the annual meeting of the Board of Managers last December, but by well kept Minutes of the meeting of the Board and of all the monthly meetings of the Executive Committee, which are printed and sent to all the different members of the Board, he has been able to keep informed as to the School, actions of the Executive Committee, difficulties, progress, etc.

The School seems to be in good condition and to have an excellent corps of teachers. The policy of the Managers is to secure the very best teachers possible. There have been 219 students enrolled this year. The new teachers for next year are all engaged and scheduled to sail so as to reach Shanghai not later than September first.

Chiefly on account of increase in salaries, it has been ecessary to raise tuition fees and also to ask a 25% increase of ppropriations by the contributing Boards. Consequently our xecutive Committee of Foreign Missions is being requested rough the Mid-China Mission to increase their annual appro-iiation from $2,000 gold to $2,500.

The New Community Missionary Shanghai American School oard of Directors have secured about 100 "mou" of land and ee opening a second campaign in China for funds.

There were enrolled iing the year 104 students in the seminary and 33 in the Bible aining School department. Of these 33 were from the two ssions of the S. P. Wesley Shen, of the Southern Methodist Church wa elected a professorship; his name had been presented an approved of at a previous meeting of the Board. The electio of these two gentlemen has been approved by all the Missior concorned.

Rev. Lewis Lancaster of our own Mission was also electe to a chair in the Seminary, his election has not yet bee approved by our Mission, though all the other Missions hav approved. The matter should come up at this meeting of th Mission, as the approval was deferred until the matter could b discussed at a full meeting of the Mission. Dr. Watson Hay of the N. P. Church in Shantung was elected a Special Lecture to give service for one term in each year. The other term bein occupied as Professor in the Seminary opened by the Shantur Presbyterian Church in Tenghsien. Arrangements have al been made for tearing down the west dormitory and mess h and erecting on its site a fine large dormitory building, includin mess halls, etc.

This new building is erected with money contributed by th Southern Methodist Church. The building is to b architecturally in harmony with the main building and the Ea dormitory already in use. The old building just being to down is the one with which Dr. Davis, of honored memory, wa so intimately assciated. He had oversight of the actual buil ing operations, and one feels that an old landmark is going, b the rebuilding is entirely in the best interests of the institution.

The Training School is to be closed when the present classe have finished their courses, either at the end of the current yea or of the following year. From now on there are three differe courses offered; one for the graduates of High Schools, one f the graduates of Junior College and one for the full graduates o the Senior College, this course will be almost entirely in th English Language.

Report of School Committee.

Your Committee wishes to report:

1. That at the direction of the Mission last year, (through the report of the Evangelistic Committee) a conference on educational problems was held this year in connection with this Mission Meeting.

Your Committee recommends that in view of the large amount of interest attending the Evangelistic and Educational Conferences during these past two years, the Medical Committee be requested to take under advisement the matter of holding a Conference on problems in connection with our Medical Work, during the sessions of the next Mission Meeting.

2. That the policy of the Mission re boys' and girls' high schools be that each station can open a boys' or a girls' boarding high school when, in the judgment of the station, the time has come to open such a school, provided that station obtain the approval of the Mission.

3. (a) That the $150 dating from April 1, '21 to March 31, '22, taken by order of the last Mission Meeting from the original $300 appropriation of this Mission to the Su Wan School board, which said $150 was allocated to the holding of teachers' institutes witin the borders of our Mission, be given again this year to the Su Wan School board, making $300 given them this year, in view of the fact that the Su Wan board was only recently notified of the cut in the appropriation.

(b) That two Teachers' Institutes be held within the bounds of our Mission during the summer of 1922; one at Sutsien, the other at Chinkiang.

(c) That the $150 which the Mission has withdrawn from the Su Wan School Board be divided equally towards the expenses of these Institutes, after the year closing Msrch 31, 1922.

(d) That Messrs. McCutchan and Taylor be appointed as a Committee of two to have charge of the progrom of the one, and Messrs. Farrior and Ghiselin of the other.

The printed minutes of this meeting have been sent to each Mission station.

We recommend an appropriation of $300 to meet our part of the certain deficit due to the increased cost of paper material for the twelve page sheet, be approved by our Mission and be placed in the fourth column, double starred, and that Dr. Woodbridge be asked to write the Executive Committee about the matter.

Respectfully Submitted,

J. C. C. renshaw.

APPENDIX

Completed Report of Committee on Resolutions and Communications,

(1). As to the National Conference this committee

(a) Calls the attention of the Mission to the fact that we are entitled to one more delegate, and recommends that one be elected. Also that members of the Mission see to it that the Presbyterians appoint delegates at the rate of one for each one thousand members or fraction thereof.

(b) We recommend that the Mission provide three hundred dollars of the amount asked for by the Committee of the Conference to defray the expenses thereof.

(c) In regard to the ultimate objects of the Conference, we recommend that the Mission instruct its delegates not to commit us to entering any union until it has first been approved by the Mission.

Amendment added to "(c)": whereas we learn on good authority that the China Continuation Committee has stated that it is now time to give an account of its stewardship and either be elected by the Missions permanently or be discontinued, and whereas we learn that the China Continuation Committee will either be reestablished or a similar body (like a council) be

elected to take its place. Therefore the North Kiangsu Mission would affirm its conviction that the reappointment of this committee or of a council with similar powers is unnecessary and will not best snbserve the interests of Missions in China, and we therefore request the Executive Committee and our Church at home not to favor the establishment of such a committee or council in China, unless.

(1) The powers of such committee or council are limited to being purely advisory.

(2) Unless all the members of such body be directly elected by the Missions and native churches in China on a fair basis of representation.

(2). In response to the Chinkiang workers, we recommend that the Chairman appoint a Committee to revise the schedule and report to the Mission next year.

(3). This Committee recommends that the letter from the treasurer in the U. S. re financial policies and exchange be answered by the secretary of the Mission, explaining our position.

Report on the Chinese Bible Encyclopedia.

The work on the Bible Encyclopedia has progressed well in spite of being hampered by lack of funds. There has been only one Chinese assistant: there should have been four to adequately meet the need. The first draft of the four and one-half volumes of Orr has been nearly finished. In addition to Orr, much use has been made of Davis' (Prinecton) Bible Dictionary. The whole work done will need to be much amended and carefully revised, at least twice before going to the printer. Some articles need to be enlarged, others abridged. There are Hebrew, Greek, English and Chinese names and geographical and philosophical terms to be revised and thousands of proof texts to be verified. We hope, if adequate help is given, to finish in another year. Four well qualified Chinese writers with good knowledge of English as well as of Chinese style are needed this fall. The ordinary salary for competent men of this kind is $100. Mex or more per month. Realizing this need the Publication Committee of the two China Missions at its meeting in May 1921 requested the Executive Committee to supply the funds needed for these four helpers

without delay. No definite answer to this was received. The report reached the Executive Committee about the time of the General Assembly and in the press of business was probably overlooked or laid aside. The request for $2000 gold to complete the work is reasonable in view of the high and rising prices for competent Chinese help. The Chinese Literature Society doing the same kind of work on a much smaller Bible Dictionary had a full staff of Foreign Editors and of trained Chinese assistants to give their full time to it. Of course assistants will be engaged at the lowest possible price consistent with good work, and all expenditures will be under the supervision of the Editoral and Publication Committees. There are about forty contributors to the Bible Encyclopedia in Chinese, some translating, others contributing original articles. These represent twenty-one or more different organizations, as the North Kiangsu Mission, Mid China Mission, Northern Presbyterian, Canadian Presbyterian, Southern Baptist, English Congregationalist, Northern Methodist, American Episcopal, Norwegian, Swedish, Finnish, Danish Societies, English Weslyan, Christian (Disciples), China Inland Mission, Church of England, China Tract Society, Anti Opium, Temperance, Christian Missionary Alliance, Nanking Seminary and Hangchow College.

These are representative of wide areas of country—Hunan, Hupeh, Shantung, Shansi, Peking, Canton, Fukien, Kwangsi, Chekiang, Kiangsu, Honan, Kansuh, etc. We ask your earnest prayers that the Holy Spirit will direct all of the work done and use it for the strengthening of the faith and Christian life of the Chinese ministry and Church, and for the glory of His name. Also the help of all friends will be much appreciated to make inquiries and secure really competent Chinese assistants.

Respectfully submitted,

Henry M. Woods,

Recommended:

That North Kiangsu Mission reaffirms its conviction that this Bible Encyclopedia is urgently needed to help keep the Chinese Church true to the great fundamentals of Christian faith and to repel the insidious attacks made on the Holy Scriptures. Inasmuch as the two China Missions have declared more than once that this work is "of prime importance" we believe that no secondary considerations should be allowed to delay it. While we consider it highly desirable that our Executive Committee enlist the financial support of other Missionary Societies and Churches for this undertaking, the prosecution of it should not be conditioned on the cooperation of other Boards. The North Kiangsu Mission is also convinced that the question of whether the Encyclopedia can be made a paying proposition should not be raised. As this work is like all our other missionary work, the determining consideration should be, witnessing for the truth of the Gospel in this crisis, and helping the spiritual life of the Chinese Church.

We therefore approve the recommendation that $2000 gold be appropriated for Chinese assistants for one year and that the $1200 Mexican previously asked for and appropriated be used to meet the expenses already incurred during the present year.

We most respectfully and earnestly ask the Executive Committee, in view of the rising tide of unsound doctrine in China and its disastrous effects on the Chinese Church, that you do not look upon this undertaking with indifference or disfavor, but that you heartily join with our two China Missions in commending it to the liberality of contributors through out our Southern Church, for with your kind help and advocacy we feel sure that there will be no difficulty in raising the needed funds, both for the completion of the book and for its publication. As time is required to find and engage suitable Chinese assistants, we respectfully request the Executive Committee as soon as they grant this appropriation to cable Mr. H. M. smith, Treasurer Shanghai, the words "Bible granted." We can thus avoid needless delay, and can proceed at once to engage the needed assistants.

Report of Examinging Committee.

Dr. J. B. Woods reports that Mr. and Mrs. Wayland have passed examination on the second half year's course, also that Mr. Wayland has passed examination on the third half year's course.

The following persons have been students in Nanking Language School and report that they have passed examinations as follows: Miss Farr of first half year's work. Mr. and Mrs. Bridgman, first three quarters of first year, Miss Sloan on first half year; Miss Amis first half year Miss McCown, first half year.

Mr. Vinson has examined Mr. Currie on the first year's course, as outlined by our Mission. Said examination was satisfactory and has been recognized by the Mission.

Miss Grier has passed an examination on the first year's work, and has almost completed the second examination on the first year's work, and has almost completed the second year's work. She expects to take an examination on the second year's course within a short time.

Last year the Examining Committee was instructed to prepare a list of indispensable questions for the examination of candidates for baptism also a similar list for use in public service in connection with the sacrament of baptism. Some members of the Committee think that such matters belong to Presbyteries rather than to the Mission, so no lists have yet been prepared.

Signed, H. W. McCutchan.

Report of Committee on Estimates

Your Committee makes the following recommendation:

1. Dr. L. N. Bell be authorized to use from his $4000.00 gold, residence appropriation, a sum not to exceed $900 Mex. for the purchase of land and building of walls.

2. Mr. McLauchlin be authorized to use as much as $6000.00 Mex. if necessary from his $6000.00 gold, residence appropriation, in buying land and puting up walls in Haichow.

3. Mr. F. A. Brown be authorized to use from his $4553.00 gold, residence appropriation, a sum not to exceed $2000.00 Mex, for the purchase of land for residences and building of walls—this to be in addition to the $1000.00 Mex already granted by the Conference Committee in December 1920 for similar purpose, on condition that residence be not erected on low tract of land recently purchased by Hsu Choufu Station.

4. The Secretary be directed to request the Executive Committee of Foreign Missions to grant in the 1920-21 budget and afterwards as a regular annual appropriation, the $400.00 Mex under the name of Mr. Grafton, appearing in the minutes of 1920, Haichow Station appropriation class V (1) Column 3. As this item seems to have been overlooked by mis take.

5. Secretary be directed to write Executive Committee of Foreign Mission calling their attention to the fact that in the minutes of 1920 Tsingkiangpu appropriations, under name of Mr. Wayland, Class V (2) Column IV, the double starred item of $200.00 Mex was inadvertently omitted in the letter written by the Committee to our Mission Treasurer at Shanghai. In this letter all of Mr. Wayland's other double starred items were granted. All other double starred iteme for new missionaries were likewise granted. We request that this item of $200.00 be granted beginning with year 1921-22.

6. Tenghsien School Board Committee be directed to write the Executive Committee of Foreign Missions calling their attention to the fact that the item of $500.00 Mex. Column 3. granted Tenghsien Bible Institute year 1920-21, was inadvertently omitted from the estimates as printed in the back of minutes of 1920, but the appropriation of $500-00 is referred to on page 23 of the same minutes, and the Committee be requested to increase this item to $1000.00, as the item was double starred. The Mission requests that this $1000.00 be granted for year 1921-22. The attention of the Executive Committee is called to the fact that in their letter there is an error in addition of $500.00 in item appropriation to the various stations.

The total should read $16,453.00, whereas it reads only $15,953.00 Mex. We request that this $500.00 be granted as part of the $1000.00 asked for Tenghsien Institute.

7. We recommend that the $15,953.00 in Column IV, recently granted by the Executive Committee be apportioned as follows; and the Mission Treasurer be directed to pay accordingly, as notified by the Secretary of Mission:

Yencheng	$1700.00	Mexican
Hsuchoufu	2000.00	,,
Hwaianfu	900.00	,,
Tsingkiangpu	1200.00	,,
Taichow	2353.00	,,
Suchien	3800.00	,,
Haichow	1800.00	,,
Chinkiang	2200.00	,,
	$15953.00	

8. That each station in filling out their estimate blanks for 1922-23 add to their items in Column 3 1921-22, the sum mentioned above the total being the amount entered in column 3.

9. Beginning April 1, 1922, the former appropriation to Su Wan School Board be discontinued and the Secretary be instructed to inform the said Board of this action at once, and that the full $300.00 be allocated to the holding of teachers' institutes within the bounds of our Mission.

10. Mr. Richardson's appropriation 1922-23, Column 3, V. 3 $100.00 and Column 3, V. 4 $144.00 be transferred to Mr. Crenshaw's name.

11. That the appropriation of $720.00, Column 3, 1921-22, Chinkiang Agency be transferred to Mr. Crenshaw's name, and be used for the upkeep of the agency.

12. That the Mission Secretary be directed to insert in future copies of the printed Mission Minutes on the estimate sheets, the names of the classifications, as well as the numerals.

13. Your Committee was unable to make any recommendation in regard to the request for dormatories for Language School at Nanking.

F. A. Brown, Chairman.

Completed Report of Extension Committee.

Your Committee reports that during the year we have examined and approved the building of residences for Dr. Bell, Messrs. Smith, Hancock, and (conditionally) a native teacher'-sresidence for the Chinkiang Boys' School. Also a residence for Mr. McLauchlin. Also for the outdoor dispensary of the Taichow hospital, and for the Boys' School at Taichow. We also approved conditionally of the purchase of property with the fund for Haichow Girls' School.

We would say that in most cases when these plans came to us they were accompanied by very insufficient specifications and lacking in details, which in several cases required considerable delay and correspondence before final action could be taken. It should be remembered that as full particulars as possible should be furnished the committee, in order to help them in their considerations.

We recommend:

1. That the Mission appoint a committee composed of Messrs Bradley, Brown, Paxton and Mrs. Crenshaw, to draw up plans, say two or three plans, for one story houses, and three or four plans for two story houses, with as full specifications for same as they can conveniently get, and that in future, except in extraordinary cases where Mission directs ortherwise, those building houses shall choose one of these plans and build accordingly. (Of course, it would be allowable for the individual building to make minor and inconsiderable changes in the plans for their own convenience).

That the Committee be advised to consult whit Mr. Wilson of Hangchow in regard to these plans, and to call on the treasurer of the Mission for what fees may be necessary as a result of such consultation.

That the above plans be kept in duplicate in the hands of the Secretary of the Mission.

2. That all plans for Hospital and dispensary buildings be referred for advice and criticism to the Medical Committee, and after approval by majority, passed on with their approval to the Extension Committee for final action.

3. That on account of present high prices the Extension Committee be authori ed to approve of estimates for residences during the current year (including outhouses where required) amounting to an increase of $800.00 Mex over the rule, making $6800.00 for the total amount, provided the outside measurements exclusive of the porch do not exceed 1800 English square feet in size. Also that owing to the present conditions at Haichow, that station be allowed, if necessary, $200.00 Mex. in addition to the above amount.

That, where outhouses are not required, the total amount in above cases must be reduced by $500.00 Mex.

J. R. Graham, Chairman.

Report of Representatives Tenghsien School Board.

Your representatives on the Tenghsien School Board report:

This has been a very successful year. There were about 25 graduates, something over half of these in the Bible School department. The whole number of students during the year has been 95 ; fifty in the Bible and forty-three in the Normal departments. Of these twenty-nine were from our own Mission, an average attendance during the year of twenty-six.

There is great need for additional foreign help in the School, and there is need of better Chinese teachers. Those in authority are using every effort to secure the very best teachers. possible. They want to make the Normal Department first class in every respect. Only graduates of High Schools are received in the regular Normal course but there is a special course for men in middle life who have not had the advantages of the modern High School training.

A pre-theological Class is to be opened this fall. This class is to fit High School graduates for entrance into the Semirary proper. It requires two years work beyond the High Schools of Shantung Province.

There is also to be opened as soon as possible a Higher Bible Course. The present teaching force is not adequate for this now, but it may be necessary to open anyhow and do the best possible.

As the Mission knows, Mr. Stevens has been obliged to return to the United States. The loss to the School has been a severe one, and has been keenly felt. We hope and pray constantly for his restoration to entire health and strength and for his return to the work he is so fitted to do in this land.

We feel constrained to mention the sacrifices of our Northern Presbyterian Brethren have been making for this School. They have kept Rev. Roy Allison there when he was sorely needed elsewhere, when it seemed almost essential for the upkeep of their work that he should be sent elsewhere. During the absence of Mr. Yerkes from Yihsien, an adjoining station, on furlough, leaving no ordained foreign missionary at that station, rather than take Mr. Allison away from Tenghsien, they sent a Chinese Pastor to Yihsien to take charge of the oversight of the evangelistic work there.

We are sure that as the School is improved it will be more and more useful to us, both in its Bible and in its Normal departments, and we recommend it heartily to stations in the Mission which have not yet tried it.

We would call attention to estimate sent home through the Conference Committee for $13,000,00 Mex., for equipment.

Your Committee would make the following recommendations:

1st. In view of the fact that we have not yet secured the $600 gold, which we were expecting from the Milton Stewart Fund, as according to the last two years, that our Representatives on the Board be instructed to continue efforts to secure this fund; and that, in case these efforts fail, they be permitted to solicit at home, through Mr. Stevens, special contributions for this fund, the rules as regards "special," of course being observed.

2nd. That the Mission request n next year's Esrimates $1000.00 Mex, in Column 3, and $1000.00 n Column 4 for this school.

3rd. That the auditing of all funds for the Institution coming through this Mission be in the hands of the station of the person by whom the funds are handled.

4th. That the vacancy on the Faculty be filled at once, and we nominate for this position Rev. B. C. Patterson.

Respectfully Submitted,
W. C. McLauchlin

Report of Committee on New Seminary.

One member of your Committee was present at Weihsien, Shantung, at the meeting of the Board of Directors of the New Shantung Theological Seminary. At this meeting a strong consitition was adopted.

The plans for the New Seminary were presented to the Kiangpei Presbytery last autumn, and by letter to the Huaiyang Presbytery. The Kiangpei Presbytery voted to affiliate in control of the Institution on condition that it is located at Tenghsien.

The Board has since decided to locate the Seminary at Tenghsien, and to move there for the opening session in the summer of 1922. Rev. W. M. Hayes, D.D., and Rev. A. B. Dodd have accepted calls to the faculty, and the Northern Presbyterian Board has agreed to this arrangement. The Seminary is now being conducted at Weihsien.

The course adopted requires one or two years work in College or in some pre-theological class after graduating in High School before entrance into the Seminary. There is to be only one session a year of six months beginning the latter part of August, and the course is to continue through four years, making in all twentyrfour months of class work, the same as three years of eight months. This gives the student more active work in the field and makes him more useful to his station, and so better able to support himself while taking his Seminary course.

The Seminary is to be entirely under the control of the Chinese Presbyterian Church, members of Missions having a share in its control only as they are members of the Presbyteries operating the Seminary. The Chinese are hoping to support the Seminary, of course gladly receiving any free gifts from foreign friends. Members of the Shantung Presbyterian chur. ches have already subscribed something over $10,000.00 Mex., and one elder in our own Kiangpei Presbytery has subscribed $1,500.00. They request the loan of the services of Dr. Hayes and Mr. Dodd from the Northern Presbyterian Shantung Mission, and they reqnest the North Kiangsu Mission to leand them a man as soon as we can do so.

Respectfully Submitted,
Wm. F. Junkin

Report of Committee re voting on the return of Missionaries after furlough.

The following plan was adopted.

At the mission meeting immediately preceding the time when the missionary's furlough is due, let the station of which the missionary is a member present a request to the Mission for the return of the missionary, the call to be presented through a committee of the Mission to be known as the "Personel Committee." In case this call is made by the station, the "Personel Committee" is then to announce to the Mission that the missionary is called to return after his furlough, and the missionary is thus informed before going on furlough that he is expected to return. In case the station does not put in a call for the return of the missionary, then it shall be the duty of the Personel Committee to make inquiry of the other stations to find out whetoer any of the other stations wish to call for the missisnary whose furlough is due. In case another station wishes to call, then the committee should annouce to the mission that the missionary is called to such and such a station when he returns from furlough, and this committee should privately inform the missionary of the fact that his former station did not recall him, but that the other station did, The missionary will then know

that with the permission of the Mission he is to return to the other station on his return from furlough. In case no other station calls a missionary who is not recalled by his own station, then it shall be the duty of the Personel Committee to call on the station to present their reasons for not recalling the missionary, and the missionary should be informed of these reasons, and he should be given the privilege of presenting his case to the mission at its regular session, before he goes on furlough, and the mission should then judge his case on its merits, and send its decision to the Executive Committee. In case of emergency furlough on account of illness or for other reasons, it is the duty of the station of which the furloughed missionary is a member, to immediately report to the Personal Committee as to whether they call for the missionary to return to his station. It shall then be the duty of the Personal Committee to proceed according to the rule outlined above, notifying the missionary concerned, just as soon as reports have come from station or stations, and also make a report to the Mission.

Report of Committee on Publicity and Reinforcements.

Your Committee reports that the special needs of the Mission both for funds and for new missionaries have been kept before the Executive Committee, and the home church.

Respectfully submitted,

Report of the Sunday School Committee.

Your Committee would like to report that there was an increase this year of three hundred and sixty three pupils in our Sunday Schools. It still remains true that over half of the pupils are in two stations. Some stations still have less enrolled in Sunday School than in the church membership. The suggestion is made that where possible the effort be made to enroll every church member and inquirer in a Sunday School Class.

Respectfully submitted,

Our participation in the School being conditioned on the Members of the Board of Managers subscribing to the doctrinal basis as well as members of the Faculty. Extracts from the report, the full report being on file. "The school has a very strong conservative Faculty of splendid women and Bible teachers all members of the Bible Union (I am told) and among the members of the Board are the names of Miss Margaret King Miss Paxon Miss Tsai, Pastor Chia (now of Tenghsien) and many others. The number of pupils increased from 50 last year to 66 this year, 14 provinces and 19 missions were represented by the student body. There were 4 S Pres. Pupils this year. Seven mission Boards participate in the Union and the Christian Mission is particularly anxious that a unit system be adopted as the basis of the Union. Proposed changes in the Constitution were proposed as follows and adopted by the Mission Article IV Basis of the union. Each Mission Board desiring to participate in the Union as a major unit shall furnish 1 One member of the Faculty.

2 An annual sum of $800. M. toward the current expenses.

3 A sum of $15000 M. for buildings and equipment. Each Mission Board desiring to participate in the Union as a minor unit shall furnish.

1 One member of the Faculty 2 an annual sum of $400. M. for current expenses 3 a sum of $5000. M, for buildings an equipment. Further additions to the Faculty shall be asked for first from the missions participating as major unit. The above ratios of 2 to 1 in current expenses and three to one in building fund as between the major and the minor units shall be preserved in any future askings for support of the school. Any money paid into the building fund by a Co-operating Mission Board previous to the establishment of the unit system shall be credited to the share of said Board.

Changes in Article V 1st paragraph changed to read as follows. Board of Managers. Each Mission Board participating as a Major unit may have two representatives and two alternates on the Board of Managers. Each Mission Board participating as a Minor unit may have one representative and one alternate on the Board of Managers. Miss Florence Nickles is our S.P. representative. Last year the Mid-China Mission gave $600. towards current expenses the year before $700. was given $5000 Gold has been paid by the S.P.M. into the building Fund. This was sold for only about $5000 M. Special mention should be made of the spiritual life of the school. The atmosphere of earnestness and consecration, of the close and helpful contact between students and Faculty. It was especially urged by several of the Board that the preservation and this spirit and this close contact is of more importance than pushing growth in numbers."

The North Kiangsu Mission requests that the Presbyterian Church in the United States do not recognize nor finance the permanent National Christian Council proposed by the Conference II This Mission gives the following reasons for this its action, namely: *a* Our Church could not assume her proportion of expense without either curtailing our own needy work or enlarging the debt. *b* The National Christian Council refused to give any unequivocal statement of the religious beliefs of the Council to be established, and that in the face of requests to this effect from our own Mission and others bodies. *c* Strong opposition to the Council has been manifested among Chinese pastors and organisations as well as in some of the Mission. *d* Adequate provision has been already made for managment of Mission work by various Churches, so that this new and exepensive Machinery is unnecessary. Report of the Chinkiang Agency Committee

"The Committee recommends that the same arrangement be continued with Messrs. *Foo Chong & Co.* and also the *China Inland Mission* and furthermore we would respectfully urge the *Members* of the *Mission* to *Obey the Rules of the Rest House.*" "*No Chinese Man is Supposed to Use the Rooms Usually Occupied by Foreigneers.*" *Under No Circumstances is a Chinese Woman to be Allowed on the Premises Unchaperoned.*" "The penalty for violating this last rule is loss of the building for the use of the Mission." "The Committee was instructed to investigate and report at next Mission Meeting on the feasability of building a place of our own in Chinkiang."

Report of the Representatives on The Mateer Memorial Institute Tenghsien.

Your representatives respectfully report that the two terms ending June 22 have been satisfactory and uneventful. An average of 86 students were in attendance, about fifty of whom were in the Bible Departments, about 60 in the Normal section besides this 50 students in the practice school were enrolled. Twenty eight of the total number in the Bible Dept. and Normal school were from the S. P. Missions teritory. A few were selfsupporting. A pretheological course has been begun, this gives Middle school men two extra years of College work in preperation for Seminary work proper. There were two or three men for the higher Bible course but no extra class was opened for them. They were accomodated in the regular classes. The Board and Faculty are a unit in their desire to increase the value of the Normal work and all are desirous of getting in touch with a suitable Christian teacher, Chinese preferred. Mr. Stevens is greatly missed and his return anxiously awaited. Electricity has been installed and the service is excellent and

not very expensive. The Board of the Institution sent a letter to the Suchien station thanking the S. P. Mission sending Mr. & Mrs. Patterson to fill Mr. Stevens place. A new teacher named Cheng has accepted a call to begin teaching work in the Autumn. He is a man of splendid charachter and attainments. Attention is called to the ** item of $1000. for Tenghsien in the present years estimates. At the Oct. meeting of the Board the following minutes were recorded. "19 voted to receive a partial report of the Committee on the basis of Union as follows After considering the tentative basis of union. Your committee would recommend the resolution as adopted by the Board on Feb. 16-17 1916 as the permanent basis of union and for the information of the directors and teachers the following items should be again recorded on the minutes. Basis of representation on the Board. That the school should be commited to the control of a Board of Directors the number from each Church to be in general in relation. (*a*) To the annual expendature determined by the number of students from each Church. (*b*) The amount represented by the capital investment in the plant. (*c*) The salaries of the foreign professors on this general basis we recommend that for the present there shall be four representatives from the Southern Church and six from the Northern. Moreover we shall always aim to have entire agreement between the two Churches as regards the general aim and policy of the school. (*d*) The annual school expenses are supplied by each Mission in proportion to the actual number of students from each church each year. (*e*) Property: We recommend that the capital invested by the churches be for the present on the basis of two to one" The N. Pres. Church has invested $25000. mexicans and the S. Pres. is expected to put $13000. as soon as convenient. The doctrinal statement demanded by Board is as follows. (N.B. The article at the end requiring the directors to subscribe has not been approved by the N. Pres'n. Mission. The other articles have been approved as they stand).

Articles of faith proposed as a basis of union in the Tenghsien Bible and Normal School.

These articles are translated from the constitution of the Shantung Chinese Church Seminary.

山東神學校暫行簡章

本神學教育之綱領悉本以下所列之信條

1. This school earnestly maintains that the 66 books of the O. and N. Testaments, which are recognized by the evengelical churches, is the holy work of God. And that He by his supernatural power revealed to men through it His teachings on righteousness and spirituality. Moreover it stands for the plain and fair interpretation of this word-history as history, prophecy as prophecy, and that it is man's only standard of faith and works.

本校深信凡正宗福音派之各教會所認定之聖經即新舊約全書六十六卷爲上帝之聖言乃神以超常之能力啓示於人關於道德及靈性之教義並無謬誤其言爲記事者即爲記事其言爲預言者即爲預言爲人信行之唯一準則

2. God is the one triune God, the Father the Son and the Holy Ghost.

神爲獨一無二三位一體即聖父聖子聖靈

3. And that Jesus Christ was born of the Virgin Mary through the extraordinary power of the Holy Ghost. That He went about for 30 odd years, preaching and teaching his disciples. That He performed miracles and signs all as the gospels declare. And that He was crucified and buried according to custom. He arose on the third day. And during the succeeding 40 days shewed Himself many times to his disciples. He ascended to heaven, subjected all things unto Himself and is the head of the church.

耶穌基督乃以超常之能力爲童貞女馬利亞被聖靈感動而生在世三十餘年周遊佈道三年教訓門徒廣施異能大展神蹟俱如福音所言曾經釘死十字架按禮埋葬第三日復活四十日間屢向門徒顯現以後升天伏萬有於足下爲教會之元首

4. That before Jesus Christ came to earth He was with God, one with Him in body and nature. When He came to earth He became a real man one with Him in nature and body. While in the flesh His words and acts fully and unerringly manifested the Father.

耶穌基督未曾降世之先已與神同在與神同性同體既經降世卽完全爲人與人同性同體其在世一切言行均足代表神毫無謬誤其他一切聖賢之是非當以其與耶穌言行之向背爲論衡

5. Jesus Christ was crucified for man's sins, and suffered sin's punishment, his sacrifice thus appeasing God's righteous anger against sinners, and opening a way of mercy.

耶穌基督被釘十架作人挽回之祭爲人類之代贖(神因以消滅向罪人之忿怒而施以恩慈)擔當人類之罪惡代受人類當受之刑罰

6. Jesus Christ will return again to judge mankind and all believers look earnestly for his coming.

耶穌基督必再降臨爲一切死人活人之審判主其形體復臨爲一切信徒熱切之希望

7. The Holy Ghost has an individual personality. He is one with God in nature and existence and has all the attributes of God.

聖靈有個性與神同性同體卽神有神之諸德

8. Man was created first in Gods image, and had his likeness. This however was lost in Adam's sin and until he is reborn he cannot be reunited to God.

人按神之形像被造而具神之形像但因元祖亞當俱陷於罪非經重生必不能與神復和

9. The new-birth must be through faith in Christ's sacrifice by the working of the Holy Spirit.

重生必賴基督之血藉聖靈之感動因信而成

10. Those who receive Jesus Christ as Lord and confess him before men are disciples and sons. Those who reject Jesus Christ shall in no wise escape eternal punishment.

凡接受耶穌基督爲救主且當衆承認爲信徒者皆得成爲神之兒女凡拒絕基督者必不免將來之永苦

11. The Devil has a real existence. And while God permits him he may work his wicked devices, but he is to be bound and finally punished.

魔鬼有確切之存在在神任憑他的時期內可肆行其引誘迷惑之魔力但將來必被制服而受永罰

12. The visible Church is made up of believers, and is Christ's body for which He died.

形勢之教會乃指全體信徒而言又爲基督之身體基督爲之捨命

In the minutes of the Mission 1921 P. 50 Art 12. The directors are requested to consider the Missions legal rights on consumating the union with the other missions in the Mateer Memorial Institute. We recommend (*a*) that the funds required for buildings be granted on the understanding that if it is ever found recessary to withdraw from the school an equitable disposition of thefunds invested by the S. Presbyterian mission be allowed (*b*) that if convenient this mission should own the land on which the teachers house is located and hold the deeds for the same in the name of the Mission. II Recommended that the Ex. Com. be requested to allow the $13000. for residence or dormitory as soon as possible. *Expenses* On account of famine conditions the cost of each student was actually $68.90 instead of the $55. that was budgetted and collected. The Stewart Fund provided $600.99 gold for our S. Pres. men for the year. The S. Pres. mission was asked for $1000.00 and $1000 ** none of this money was paid directly by the Ex. Com. but all the expenses up to $55.00 per student was paid by the students or their patron stations and from the student fund. There is quite a deficite that has been met temporarily by the Treas. of the N. Pres. Mission. The exact figure has not been made clear yet as some of Mr. Stevens books are involved. The deficit seems to total about $900.00. That if some small part of the funds asked each year are left over that this remnant be applied towards partly defraying the expenses of repairs at the discretion of our representative. Further that $1000.00 be put on the estimates in Column III and $1000** be put in Col. IV. The urgent necessity of these items are apparent when it is known that salaries *must* soon be raised and new men are being sought for the new departments. It is understood that the money budgetted is to keep down the expenses of our S. Pres. boys. That the Rev. F. A. Brown write and request the Administrator of the Milton Stewart fund to continue the grant of $600. G. for worthy students and that he express the Missions appreciation of their Cooperation. That Mr. Stevens be retquested to return to Tenghsien if he comes to China during this year. That if he feels that he would rather work elsewhere that the Mission will consider this request, recommended also that the funds for this school be sent subject to the order of the S. Pres. representative on the Faculty of the M. M. I. and that the Tenghsien station be requested to audit the accounts." Mission voted as follows. "The Committee is instructed to inform the Northern Presbyterian Mission that we cannot put Church funds into the plant

unless all the Bodies concerned require their representatives on the Board of Directors as well as the members of the Faculty to subscribe to the Articles of Faith agreed upon."

The Committee recommends that the Mission thanks Mr. Romig for his letter. II That the Mission appoint a man to assist in the teaching work as requested by the Board of Directors of the Seminary. III That the doctrinal basis of cooperation be the articles proposed by the Seminary and already voted on by this Mission as a basis of union with the M.M.I. IV That as this Chinese Church cannot hold with security any public funds that when the Mission makes a grant for land and buildings the same shall be held by the Mission for the institution and shall not be alienated from this unless the Mission finds it necessary to withdraw from the school. The N. Kiangsu Mission complies with the Tenghsien Seminarys request for a member of our Mission as a teacher.

Report of the Resolutions Committee

1 Shantung Churches Seminary Neither Dr. Woods nor Dr. Junkin were able to attend the meetings of the Board of the new Seminary. However we beg to report that the New Seminary buildings are now being completed and will accomodates the students applying for admission in August. That $10000. endowment fund has been secured. Mr. Chang of Suchien has promised a liberal gift this autumn towards this fund. There were about 25 students present last term Practically all the present students of Shantung ttend this seminary Your Committee is in receipt of a communication from Rev. H. G. Romig in re this Seminary and as it is largely a matter of information recommend that it be recorded here Mr. Stevens to go to Tenghsien that Rev. B. C. Patterson and Stevens be on the Seminary Board as shall be found most satisfatory to them. (2) We recommend that in as much as the Ex. Com. has ordered the Mission to take up Denovo the whole question of orthodoxy in union institutions, that the Mission appoint Messrs. Graham Sr. McLauchlin, Montgomery, Hopkins and Brown to make the required investigation at the Nanking Union Seminary. That the report of the doctrinal teaching in the Seminary by Dr. Price with any other cognate literature be put in their hands and that they are expected to ask any necessary questions and bring their conclusions to the Mission for signature for forwarding to the Ex. Com. and that a copy of the report be sent to the

Seminary. 2 That a copy of this action be sent to the Mid-China Mission and that they be requested to cooperate with this Missions Committee in the De Novo investigation. 3 Mission opposes the election of the five nominees for the faculty and teaching staff on the ground of Inexperience. 4 That in as much as Clarks Theology is unsound & destructive of Xm faith, we recommend that it be entirely excluded from the list of reference books as well as Text books in the Theological Seminary. 5 With reference to Hastings Dictionary. Recommends that while this Mission approves the effort of the faculty to guard the students against the harmful parts of the dictionary by the insertion of a printed caution in each volume Yet this mission disaproves of the Seminary selling this book to the students or commending its use to them. (6) As to the problem of discipline presented to the Home Church by the Missionary joining the native Presbytery while supported by the Ex. Com. This Mission recommends that its members do not join the Native Presbytery except on what is called the Amoy plan which gives the Missionary while a member of the Home Presbytery an advisory position in the native Presbytery. (7) The report of the Board of Directors of Nanking School of Theology having been referred to this Committee we would recommend 1 the matters referring to Clarks Theology and Hastings dictionary and the election of the new professors are carried in the resolutions with reference to the De Novo investigation of Union Institutions. (8) With reference to the letter from the Ex. Com. re a rental charge of $100 and a property Fund charge of $200. per student per acedemic residential year The Mission recommends that as it has insufficient information in re to date that it appoint Rev. Lewis Lancaster to make an inquiry into the conditions obtaining and the necessity for the charge. (9) In reference to investigating Tsianfu University that your investigating Committee in Conjunction with the Mid-China Missions Committee appoint a similar committee to investigate and make recommendations to the Ex. Com. and the Missions. 10 In reference to the schools at Tenghsien that your Committee of Investigation send members to Tenghsien and make a report to the Ex. Com. or the Mission. The Committee to investigate the Nanking Theological Seminary was directed to go to Nanking for that investigation.

Because ~~we are unique~~ this school for preachers & teachers has a special territory as large as half the state of Ala. & our total grounds for building to date (in a history of ten yrs) have been just something over 9 acres.

Because the students, faculty and others who are anxious to get organized class room space, chapel space, reading room, etc & other improvements seats 1 has a hundred for 2 !

Because the school is a unique school over 90 % of all grads go into direct missionary work. ~~Practically, Ex-students are practical~~

We turn out ~~students~~ students.

"To the Missions cooperating in Nanking Seminary, to be presented through the Board of Managers:

At the meeting of the Board of Managers March 28th, 1923, the following action was taken: "It is understood that the phrase, the integrity and historical reliability of the Holy Scriptures, as it occurs in this article (Art. VI Sec. 1) may be interpreted by each signer in accordance with the doctrinal standards of his own church." As this action has been understood to allow individual interpretation of Art. VI Sec. 1 of the constitution, which must lead to confusion and misunderstanding:

I. Therefore the North Kiangsu Mission requests the cooperating Missions to declare, with this Mission, that the doctrinal basis as defined in Art. VI. Sec. 1 and Art. VII. when fairly interpreted, includes the following essential facts of Christian truth, which have always formed an integral part of the doctrinal standards of the cooperating churches.

(1) It is an essential doctrine of the Word of God and of the doctrinal standards of the cooperating churches that the Holy Spirit did so inspire, guide and move the writers of the Holy Scriptures as to keep them from error.

(2) The deity and virgin birth of our Lord Jesus Christ are essential doctrines of the Word of God and of the doctrinal standards of the cooperating churches.

(3) The vicarious atonement of our Lord Jesus Christ is as essential doctrine of the Word of God and of the doctrinal standards of the cooperating churches.

(4) It is an essential doctrine of the Word of God and of the doctrinal standards of the cooperating churches concerning our Lord Jesus Christ that on the third day He arose from the dead with the same body with which He suffered and with which He also ascended into Heaven and sitteth at the right hand of His Father, making intercession.

(5) It is an essential doctrine of the Word of God, the supreme standard of our faith that our Lord Jesus Christ showed

his power and love by working mighty miracles. This working was not contrary to nature but superior to it.

II. That we request the present Board of Managers to endorse the above interpretation.

III. That each member of the faculty in submitting to the Board of Managers a written statement agreeing to teach in harmony with the Constitution, to do so with the understanding that the above interpretation is the plain and historical intent of the Constitution.

IV. That in order to avoid future difficulties and to maintain the standing of the Seminary above reproach, we request the cooperating missions to send only such men to the Board of Managers as can heartily agree to administer the institution in harmony with the Constitution as interpreted above. Each member of the Board of Managers, on entering upon his duties shall sign a written statement to this effect.

V. That the mission instruct it's Investigation Committee to seek the cooperation of the Mid-China Mission in maintaining the principles enumerated above, it being understood that if there be any essential changes the action of the joint committee shall be reported to this Mission for approval.

VI. That the Mission's representative on the Board of Managers of Nanking Seminary be a member of the Investigating Committee with instructions to present the final actions to the Board of Managers of the Seminary.

VII. That a copy of this action be sent to the Executive Committee of Foreign Missions.

The Chairman led in prayer, asking for God's blessing upon the action just taken, and upon Nanking Theological Seminary.

Dr. J. B. Woods moved: That all material for the Ad Interim, Resolution and Estimates committees shall as far as possible be placed in the hands of their respective chairmen at least two weeks before the date of mission meeting. We instruct the chairmen of these committees and each station to cooperate in facilitating this. That these committees shall meet at least twenty-four hours before mission meeting to consider and properly digest the material. That the chairmen of these three committees compose the docket committee. Carried.

Voted that the North Kiangsu mission instruct the mission treasurer to pay the travel expenses of John Bradley to the U. S. the money being given direct to Dr. Bradley so that he can arrange for the ticket himself.

Dr. White presented the following resolution re Memorial to Miss Watkins: This mission understands that plans are on foot to raise funds for a dormitory in the Shanghai American School as a Memorial to the late Miss Mildred Watkins. The work in which she gave her last years, the teaching of the Bible to the American children in China is in the opinion of the mission, a great work, which in the future is liable to be neglect-

ed or perverted to the teaching of erroneous views. The bes Memorial, and one which would not be antagonistic to he expressed wishes, would be the endowment of a chair of Englis Bible which can be placed in the Shanghai America School provided adequate assurances are given that the Bible will b interpreted according to evangelical principles. In case it seem best to place this memorial in the Kashing High School, th school for Chinese in which Miss Watkins was so deeply interest ed, the mission votes that this memorial be placed in that school and to be used in such a way as, in the judgment of the Exe cutive Committee and of the missionary in charge of the Kashing High School, would constitute the most fitting memorial. This mission would advise the Executive Committee to see that efforts for such a memorial are directed along these lines.

Report of The Committee on Chinese Bible Encyclopedia

Your committee on Chinese Bible Encyclopedia respectfully reports:—That good progress in preparing the Encyclopedia has been made during the year, and it is about ready to publish. We hope to begin printing just as soon as word comes from the Committee of Publication in Richmond authorizing the committee of our China missions to proceed with the work, and assure us that the needed funds will soon be remitted.

It is the purpose of your committee to publish the work in substantial form, but as economically as possible. There will be excellent illustrations, but these are furnished without expense to the church, part of them being a memorial gift, part being

contributed through the generosity of the Sunday School Times, Philadelphia.

The cost of the whole publication shall not exceed the sum set by the General Assembly viz. $20,000. gold. No apprehension need be felt that the expense will exceed this sum. Considerable private funds have been used in the preparation of the Encyclopedia, but no request for reimbursement will be made for these. No fears need be felt about the literary style of the book: it will be that found uniformly in all such publications.

The Mission is to be congratulated on the wise and experienced committee which has supervision of this work. They are for North Kiangsu Mission, Reverends B. C. Patterson, W. F. Junkin, J. W. Paxton and for Mid-China Mission Reverends L. L. Little, H. Maxcy Smith and W. H. Hudson and Mr. G. Mc Intosh of Presbyterian Mission press, Shanghai.

Attention is called to the action of the General Assembly overture No. 26, and amendment of May 23rd. which show clearly that it is the will of the Assembly that the work of publishing should proceed without delay. Therefore we recommend as follows: The North Kiangsu Mission respecfully urges the Committee of Publications of Richmond Va. to authorize the committee of the China missions to begin at once the publishing of the encyclopedia in accordance with the instructions of our General Assembly. We request the Mid-China Mission to unite with us in this request, to Committee of Publication, and direct the secretary of the mission to convey this action to the Executive Committee of Publication Richmond Va.

Respectfully submitted,
Henry M. Woods.

Comm. On Communications. And Resolutions Re Communication In Regard To Publication Committee

Report of Bible Teachers Training School

The eleventh annual meeting of the Board of Managers of the Bible Teachers Training School convened in Nanking on April the eighteenth, with every cooperating mission represented.

Miss. Rouzee of Los Angeles led all the devotional exercises, and brought to us helpful and inspiring messages at each

session. She has been teaching in the school all winter, and God has abundantly blessed her messages to the students of the school and others, who have been privileged to listen to her clear and helpful expositions of God's word.

The report shows steady increase in attendance. In 1921 there were fifty students in the school, in 1922 there were seventy-five, and this year there were eighty-four. Last year there were fourteen provinces, and nineteen missions represented; this year there were twenty-four missions, coming from the same number of provinces. Shensi, Yunnan and Kueichow being the three unrepresented in the student body.

"Since moving into the new building the student body has doubled in numbers, and the various activities of the school, and of the plant and ground has correspondingly increased." The faculty and board desire above all else that the school might be kept simple in faith, and teachable in spirit, retaining that love for the lost that has characterized the earlier students in this school.

There were thirty-four graduated in this year's class, twice as many as have previously graduated at any one time. They are spoken of as young women "of high purpose, clear vision, and deep devotion," and we rejoice that they are going forth so well prepared for definite soul-saving work.

For the first time an Alumni Institute was inaugurated, wishing especially to take advantage of Miss. Rouzee's presence in the school. About twenty graduates, together with some forty who remained in the school during the holidays, together with a large group of local student s attended this Institute, which proved to be one of great spiritual refreshment. We find the students of the Bible School assisting, in some capacity, in nearly all the Mission institutions in Nanking. They are also doing house to house visitations, Sunday School work, personal work Bible teaching and assisting in evangelistic services. They have been working in fifty different places, with a total weekly average attendance of twenty-five hundred. There have been souls saved, and prayers answered this year, for which we praise God.

On page 13 of last year's minutes. (North Kiangsu) we read as follows: "Our participation in the school being conditioned on the members of the Board of Managers subscribing to the doctrinal basis as well as members of the faculty. "As the Christian mission had sent in a recommendation by their representative asking that the board of managers and faculty be not required to sign the doctrinal basis, this statement on the part of our mission caused considerable discussion, and our business committee fin-

aally presented the following: "We recommend in answer to the rreport from the North Kiangsu mission:

1. That as the adoption of the constitution by the mission aand Boards carries with it the allegiance of mission members to tthe doctrinal statement in it, signing it be not required by Board mmembers.

2. That the board request the missions to appoint in the ffuture as they have in the past representatives to the board of ddirectors, who are in full agreement with this doctrinal basis.

TThe business committee also recommended that the following aaction be taken in regard to the communication from the Christtian mission re members of the faculty signing the constitution aand doctrinal statement, (1) "Recommended that there be an uunderstanding that a record could be made by the recording ssecretary of the Board of Managers, of the assent of the memtbers of the faculty from the Christian Mission, to the consstitution, including the doctrinal statement, and that this be taken iinstead of a signature.

The faculty is strongly conservative, as you know. Miss iNickles, will return to the school this autumn, Miss Smawley iis expected by the first of the year. Miss A. E. Wellar one of tthe finest Bible teachers in the C. I. M. has generously been lent tto the school for the coming year. Miss Margaret King. Miss IRuth Paxson, Miss Christiana Tsai, Rev. Chia Yu Ming, with cother Chinese representatives remain on the board as "members aat large." We would therefore recommend the usual appropriation wwhich together with that of the Mid-China mission makes us a mmajor unit, thus continuing our representation in this institution.

Mary N. Woodbridge,

Report of representative on the Board of Managers of The Shanghai American School

The year just passed has on the whole been the most successful one in the history of the school. The attendance has been llarger and the faculty the best we have ever had.

Your representative was placed on the executive committee aand has given careful attention to the matters coming before iit involving considerable correspondence and the voluminous mminutes of its subcommittee on building. The executive committee meets regularly once a month and in addition there has lbeen one or two called meetings.

The so called "old board" has transferred all of its interests aand duties to the "new board" and has ceased to exist.

The first group of buildings on the new property have been completed and the school will open in its own property this fall.

The principal Mr. Bartlett has been sent to America to conduct a campaign for funds to erect a second group of buildings and on his return to China another campaign will be put on out here if conditions are favorable.

Fees are fixed with a view of making each department self-supporting. Reduced rates to non-contributing missions have been abolished. Reduced rates to contributing missions are granted. Each mission being asked to make its appropriation to the school sufficient to cover, in the long run, the total of such reductions. The large number of Southern Presbyterian children now attending the school will make it necessary for us to increase considerably our appropriation.

Respectfully submitted,

H. Maxcy Smith.

Report of Committee on Survey

Mission directed us to provide each member of the Assembly Stewardship Committee and the Executive Committee of Foreign Missions with a copy of the pamphlet (or manuscript) "Our Five Year Equipment Needs."

After a lengthy correspondence on the part of Mr. Taylor, with Nashville, we decided to have the manuscript copied here, Misses Sloan and McCollum came to our rescue and made twenty copies of same. We sent these to all members of the two committees in the home church thirty-five individuals, with covering letters giving the reasons of the mission for this action.

In most cases however one copy of the manuscript was sent to two committeemen, but individual letters were sent to all. We expressed the hope in these letters that it would yet be possible for them to release the information contained in the manuscript to the whole church.

The manuscript contains about eight thousand words and two copies are here for your inspection.

We recommend:

(1) That special prayer be now offered for God's blessing upon this appeal, which is just now reaching the home Church.

(2) That a special appropriation of thirteen dollars be made to reimburse this committee for the expense of preparing and mailing the manuscript.

(3) That the mission directs each station to comply promptly with Dr. Melvin's request for follow up letters to pastors of home churches.

(4) That this committee be now discharged, and should there be any further correspondence connected with the Survey it be referred to the Ad Interim Committee.

Respectfully submitted,
F. A. Brown,
H. Kerr Taylor,

Report of Sunday School Committee

Your committee on Sunday Schools met with Kiang-Bei Presbytery, and requested the presbytery to appoint a committee on Sunday Schools, which they did.

We cooperated with their committee, in preparing a suggested program in English and in Chinese for Sunday School Rally day. A date was agreed upon for holding these Rallies simultaneously. and these notices and programs were sent to all stations and churches in Kiang-Bei Presbytery, and to all stations in the southern half of our mission. I am unable to report how generally this rally was observed as reports for same would have been sent to Mr. Montgomery, who is now on furlough.

We recommend that the Sunday School Committee be advised to hold a Sunday School Institute, during the coming year for the whole mission, preferably at Tsingkiangpu or Hwaianfu.

Respectfully submitted,
F. A. Brown.

Report of Representatives on Mateer Memorial Institute Board

Your representatives held two meetings during the year, one of these being with the regular board meeting at Tenghsien. We were well-pleased with the work done by the students, the faithfulness and efficiency of the faculty and staff, and with the cordial cooperation of the members of the board from the Northern Presbyterian Church. Dr. Patterson is including in his personal report other facts of interest about the Institute. The chairman of our committee was appointed auditor of the accounts of the board, and made report of his audit to the board.

Mr. Milton Stewart of Los Angeles, graciously complied with our request and gave us $600.00 gold for our students.

In 1922, the mission voted not to put funds into the plant unless the bodies concerned would require their representatives on the board of directors as well as the members of the faculty to subscribe to the articles of faith agreed upon.

In consequence of this action the Mateer Memorial Institute Board at its meeting in June requested the Northern Presbyterian Mission to reconsider its action of 1922 and to accept as the basis of union a creedal statement such as had been proposed and to agree to send only those men as directors who were in hearty sympathy with this statement.

The Northern Presbyterian Mission took the matter into kindly consideration and voted to adopt the Hua-Pei Seminary creedal statement and to only send as directors men who are in sympathy with their theological position, and to demand that the directors and teachers must sign this statement each year. The following is this creedal statement:

1. We unreservedly believe what orthodox Christians of every denomination accept as the Bible; namely, the sixty-six books of the Old and New Testament. We believe the entire record to have been made under the guidance (inspiration) of the Holy Spirit. We believe what it records as history to be genuine history; its miracles to be actual facts, its prophecies to be truly prophecy and its teaching to be the unique and supreme rule for faith and life.

2. God is one only; three persons in one, the Fathr, Son, and Holy Spirit. These three are the same in substance, equal in power and glory.

3. Before the Incarnation, Christ was Deity with the Father. Born of a virgin through the Holy Spirit, He became man, even our Lord Jesus Christ. He is perfect in His human nature and the Gospels give a true account of His words and deeds. He died on the cross, was buried, rose again, and ascended into heaven whence He will Come again in His own body to judge the world and to fulfill the hopes of those who trust in Him.

4. Jesus Christ, to atone for the sins of men died in our stead as a propitiatory sacrifice.

5. Christ having risen in the body from the grave is the assurance that our mortal bodies will also rise again.

6. The Holy Spirit is a Divine Person and not a mere influence. power or attribute of God. He takes the things of Christ and shows them unto men, calls, regenerates, guides and sanctifies His people, and makes intercession for them.

7. There is a personal devil who by God's permission is allowed to exercise his powers, but who will finally be fully restrained and punished.

8. The true church is constituted as the Body of Christ by those believers who have been renewed by the Holy Spirit and who accepting Christ by faith rest upon Him alone for salvation.

Inasmuch as the above statement is almost identical in content with the statement approved by this mission in 1922 and as it is desirable that the two institutions should have identical view-points, therefore

Resolved; That for the sake of uniformity this mission accepts the Hua-Pei creedal statement in lieu of the statement proposed last year, and recommends this to the Mateer Memorial Institute Board for their approval.

Our representatives on the board are authorized to request the Executive Committee of Foreign Missions to send as soon as possible the $13,000 Mex. for residence and dormitory asked for in the Five Year Equipment Fund. (See minutes of 1922.)

In view of the fact that the Seminary has come to Tenghsien since the above sum was approved as sufficient and has taken all available building sites, the mission requests the Executive Committee to appropriate $4,000 Mex for land and walls for the above buildings we propose to erect at Tenghsien.

The mission elects two members to the board, and request the presbyteries of Kiang-Beh and Huai-tong to each elect a Chinese member of the board thus giving this mission and these two presbyteries a total of four representatives on the board.

Respectfully submitted.

F.A.Brown.

Report of Hugh W. White as Representative of the North Kiangsu Mission on the Board of Managers of Nanking Theo. Seminary.

The Board of Managers held the annual meeting on Mar. 28th. and 29th., 1923. At this meeting the joint-committee representing the Mid-China and the North Kiangsu Mission presented the requests as previously approved by these missions. Since that time a letter has been received by the board from Rev. H.C. Ritter, a member of the faculty. Also there are letters from the Board to this mission (1) asking the mission to act on the elections and the amendments to the constitution proposed by the board.

And (2) proposing a special meeting of the board on Oct. 11, 1923, to consider whether it is practicable to "maintain the Seminary on its present union basis." The points raised in this letter are (a) whether members of the faculty are to be investigated by individuals and committees or only by the board. (b) What the constitution requires as to the Scriptures and its interpretation.

As conditions in the Seminary, I would report as follows:-

1. The fact that there is teaching in the Seminary which is contrary to the constitution and to the assurances under which our men and our property were intrusted to the institution is now beyond question. The North Kiangsu investigating committee found three members of the faculty now on the field whose teaching they could not approve. The joint committee of our two missions, including two members of the faculty, officially recognized that there is such teaching. Mr. Ritter in his letter makes the following statements, viz.,

(a) "You cannot discuss the authorship and date of the Pentateuch without stating that from the traditional view-point it is the work of Moses, but that beginning with Jean Astruc students of the Old Testaments have found literary characteristics which would indicate that the Pentateuch is composite in character, that the main strata which modern students of the Old Testament have been able to distinguish usually bear the symbols JE, D.P, and that JE is usually dated around 900,B. C. D around or prior to 621 B . C .and P around 500 B .C ."

(b) "Students assigned articles in Hasting's Dictionary, 'The Bible----The relationship of translations to the original. See Hasting's, 'The Canon' 'Apocrypha', 'Septuagint', 'Versions', etc."

"Lesson 1,3,4 5,6, are outlines of the first five chapters of Gray's introduction to the Old Testament."

"The object of my course as a whole is to give the students an idea of the Old Testament as the Hebrew Bible, of the processes by which it came to be recognized as sacred and authoritative by the Jews, of the tradition among the Hebrews as to the authorship of the various books, of how the Christian Church in taking up the Hebrew Bible took up the Hebrew traditions as to authorship, and of the reasons why modern Biblical scholars do not accept such traditions as final."

"The Seventh Day Adventists, the Zionists, the Holy Rollers, and dozens of other sects, including the heavily endowed propaganda of the Premillenialists, all trade upon the ignorance of the Chinese Christians..... It is vital that we arm our students against such propaganda."

"I do not know how to interpret the Bible and how to interpret Christianity to the eager inquiring minds of the Chinese students, if I cannot freely use as text-books and source materials such standard theological books as Clarke's Theology, Hasting's Bible Dictionary, Gray's Introduction, Kneudson's and Davidson's Old Testament Theology, Eiselen's and Smith's Historical Studies in the Old Testament History, Roger's and Ryle on Babylonian, Semitic and Hebrew traditions."

"If the time ever comes that I cannot willingly and conscientiously follow out the policies of the administration of the school I will voluntarily resign..... with deep earnestness and longing I trust that my wife's health may be restored, and if it be the Father's will that I may be enabled to return to the Seminary."

From the above quotations it will be seen that Mr. Ritter is still teaching the Welhausen—Driver theories, not knowing that they have been completely exploded by later discoveries. (See writings of R. D. Wilson). His letter shows further that the statement on the part of the Board of Managers that "Hasting's Bible Dictionary is used as a reference book and not as a text-book" (See Minutes Board Managers, April, 1922 and report of North Kiangsu Investigating committee) is not dependable. He further upholds the course of his colleague who teaches, Clarke's Theology. It is evident also from his letter that the members of the faculty who teach contrary to the constitution are not going to give up their positions without a frank, open discussion and decision of the matter by the Board..... in which he is entirely right.

2. The actions of the Board are supposed by some to concede our request, at least in part. That the Board's position may be understood I have had printed a statement of what was said and done, and submit the same herewith as part of my report.

3. Under the present system of organization there is no possible means of keeping the institution free from teachings which discredit the Scriptures since the cooperating Missions put men on the Board who want liberal teaching in the Seminary, any steps we may take about the faculty or the text-books will be futile. We have no means of bringing these missions to conform to the Standard of their own churches nor can we influence the election of these missions of their representative on the Board. Therefore we cannot carry out the requirements of the constitution. No moderate means will remedy this situation. Dr. P. F. Price in his letter to Mr. Ritter, as read before the mission, shows plainly that conditions in the Seminary have been known all along by the faculty, and our men may have done something

with the problem, but in vain. It is evident, then. that efforts to correct the situation though the faculty or the Board as now constituted will not avail. If all the Modernists on the faculty were removed and the same method of forming the Board, it would not be five years till we would have the same situation over again.

4. As to the other matters referred to the mission by the Board I would recommend: (a) That the mission inform the Board it is not prepared to approve elections for the faculty until assurances are given that the teachers elected will stand for the constitution and we ask that the Board of Managers elect as professors and as assistant professors only men who have been on the field not less than five years.

(b) That if a satisfactory basis of union be found the amendment to the constitution as to classification of the teaching staff may be included.

(c) That in as much as the alumni association does not represent any ecclesiastical or administrative body, the mission does not approve of giving it representation on the board.

(d) The North Kiangsu mission accepts the proposition from the chairman of the Board of Managers of Nanking Theological Seminary to hold a meeting of the Board of Managers on Oct. 11, 1923. to consider whether it is practicable to "maintain the Seminary on its present union basis."

Report of Estimates Committee

Your committee respectfully offers the following recommendations:— (All funds referred to in this report are in Mexican dollars.)

(1) The $500.00 of unassigned appropriations in the Mission Treasurers hands, for the current year be considered as belonging to Yencheng station in view of a typographical error.

(2) The chairman of the estimates committee be instructed to write to the Executive Committee relative to $894 for Mr. Wayland and $1,000 for Hwaianfu. These two appropriations were paid in 1922-1923, entered in the estimates (col. 111) for 1923-1924 but have not yet been granted. The mission requests that these two amounts be granted as permanent annual appropriations beginning with the current year 1923-1924.

(3) Since the Mission has granted the Goldsby King Memorial Hospital $1,500 for the first six months of the current fiscal year, we request the Executive Committee to grant $1,500 for the remaining six months.

(4) Mr. Taylor is authorized to write for an additional $200.00 as an annual appropriation beginning with the current year. This request to go through the Mission treasurer.

(5) The Mission treasurer is authorized to pay out of the expected one thousand dollars from the profits of the Shanghai Office for the current fiscal year, as follows:

The remainder to be applied to the travelling expenses of those members, both men and women, making special trips to Mission and Committee meetings.

(6) Dr. Woodbridge is granted permission to write to the Executive Committee requesting a grant of $300.00 for increased rent etc. if needed. Listed class VII Col. 4.

(7) The Mission request the Executive Committee to advance from the Goldsby King Memorial fund the sum of $7,300 for a residence and outhouses for Dr. Newman at Chinkiang and that this money be deducted from the annual payments on this fund, beginning in 1926.

(8) The following emergency repair funds are requested from the Executive Committee for the current year only, as approved by the Extension Committee.

Repairs for three damaged buildings at Haichow ...	$2,500

The Tenghsien Committee is authorized to write for the above grant.

(10) The Executive Committee is requested to appropriate $13,000 for residence and dormitory at Tenghsien, Mateer Memorial Institute, as listed in Minutes 1921 in the Five Year Equipment Fund. $8,000 residence: $5,000 dorm.

(11) It is the earnest desire of the mission that residences be provided as speedily as possible for the following: Ghiselin, Montgomery, Wayland, Currie, Bridgman, Graham, Jr. L. White, C. Woodbridge, H. Patterson.

The above men are authorized to write the Executive Committee showing the urgency of the need and the Ad-Interim committee is instructed to prepare a preferential list of these residences.

(12) The chairman and Secretary of the present Estimates committee are requested to write a covering letter to the Executive Committee, explaining all the annual estimates.

(13) That the mission requests that salaries be increased by the following amounts :-

Single missionaries	$50.00 Gold

(14) Provided there are no instructions from Mr.Lancaster re his appropriations of $367.00 this sum shall be added to the surplus fund accruing in the office of the mission treasurer to be paid to special travel expenses, (as described above in motion (5) for this year. Next year this appropriation shall stand under Lancaster's name,

(15) The Mission treasurer and Dr. S. I. Woodbridge are appointed a special committee to adjust Dr. Sydenstricker's account on leaving Chinkiang.

(16) Taichow station is permitted to write to Mr. Hunt of Presbyterian Church U. S. A. through the Executive Committee asking for $2,000 Gold to be used for equipment and unforeseen expenses in the erection of the Boy School.

(17) The sum of $300 shall be transferred from the appropriations of the current year of Suchowfu station to B.C. Patterson.

Report to the Executive Committee re Mr. McNeill's gift of $1,000 gold for a Memorial Chapel at Tan Yang.

As to the Mission's responsibility. It has had a Building Committee for years of which Mr. Sydenstricker and Mr. Crenshaw were the local members. Mr. Sydenstricker in 1922 Minutes page 12, reported that Tan Yang chapel was repaired and wanted the committee continued to carry out the wishes of the donor. This was adopted by the mission over the demur of Mr. Crenshaw, as Mr. Sydenstricker said he knew the wishes of the donor.

(a) We find that the Building Committee acted irregularly in not having the approval of the Extension Committee for the repairs undertaken.

(b) That Dr. Sydenstricker misunderstood the wishes of the donor and acted unwisely in using funds as he did.

(c) We suggest that Chinkiang station write the Executive Committee and say that $700. 00 Mexican of the $1176. 80 dollars received from Mr. Mc-Neill has been used to very good advantage in remodeling and enlarging the chapel at Tan Yang and request the Executive Committee to take up the matter with Mr. McNeill and if he does not approve, of the chapel at Tan Yang, as repaired and rented annually as a memorial to his wife, that he be approached as to his willingness to allow the gift to be used in some other town in Chinkiang field, in which case we ask the Executive Committee to make a special appropriation of $700.00 Mex. to apply on the McNeill Memorial.

d) That an audit of Mr. Sydenstricker's books be made by the Mission treasurer and any balance found due this fund and unreturned to Mr. McNeill, to apply on the new memorial. In the event of the above recommendations being carried out Mr. Sydenstricker's note for $1100. 00 be returned to him.

Respectfully submitted

Report Of Committee Appointed By 1922 Meeting Of North Kiangsu Mission To Investigate Union Institutions In Which Our Church Is Cooperating

Since the whole work of this committee has been fully presented to the mission by circular letter as the work was done, and each step was approved by a large majority vote of the mission before the next step was taken, we deem it unnecessary at the present time to make a detailed report, unless the mission instruct us to the contrary. Record of all actions taken by the committee and its correspondence are at hand in case the mission desires to have it read in part or in toto. There are two letters, however, which have not been submitteed to the mission, one from Mr. Ritter addressed to the Board of Managers of Nanking Theological Seminary, a copy of which was placed in the hands of this committee and a letter from Dr. Chester with reference to the advisibility of our Executive Committee's continuing Dr. Leighton Stuart's support while he is connected with Peking University. Finally we have the following recommendations to make:—

1. That the investigating committee be continued, vacancies being supplied by referring nominations to nominating committee, that all decisions already passed by the mission be carried into effect as soon as posssible, and that the investigation be continued in accordance with the previous action of the mission by circular letter and instructions received from the Executive Committee in a letter dated June 12, 1923.

11. That the two circular letters already passed by more than two thirds majority vote of the mission, be spread upon the minutes of this meeting of the mission as the report of this committee.

Respectfully submitted,
F. A. Brown,
M. A. Hopkins.

1st. Circular letter:—

The committee appointed by the 1922 meeting of the North Kiangsu mission to investigate the doctrinal soundness of all

union institutions, in which the mission is participating, has had two meetings, one in Nanking on Nov. 1-3, at which Messrs. Graham, Brown, Montgomery and Hopkins were present, and one in Tsingkiangpu on Dec. 13, and 14, at which Messrs. Graham, Hopkins, Montgomery and McLauchlin were present. Before these two meetings and before the Annual meeting of the Mid-China mission in Oct. 1922, the chairman of this committee in accordance with instructions of the mission on page 39 of the 1922 Minutes requested the Mid-China Mission, through the secretary of their Ad Interim Committee, to cooperate with this committee. But, either through misunderstanding of the request, or for other reasons, up to the time appointed for this committee to meet we received no communication from them agreeing to take part in this investigation. Hence, this committee met and made the investigation of the Nanking Seminary without their cooperation, and now, respectfully submit the following report and recommendations.

Each of the ten members of the faculty now on the field, Messrs. Richardson, Ritter, James, Price, Lancaster, Li Heo Fu, Chu, Shen, Peng and Sie, appeared before the committee and were carefully questioned on all points in the appended questionaire, and was asked such other questions as were necessary to obtain complete answers to all these questions. We were gratified at the willingness of all these brethren to frankly state, in unequivocal terms all their views on these subjects.

As we found seven members of the faculty in substantial agreement with the doctrinal position of all evangelical churches as interpreted in the historic creeds, on all the points contained in the questionaire, we deem it unnecessary to send their answers to the questions. But, we are enclosing the signed answers of the remaining three, and ask a careful consideration of them as a vital part of this report.

In regard to the members of our church on the faculty, in addition to the fact that we found them all doctrinally sound, mention should be made of their diligence in promoting sound teaching and their vigilance in guarding the student body from unsound influences, and for this reason we feel that the efforts of these brethren are due a more hearty and sympathetic appreciation and cooperation from our church and mission, than has been accorded them in the past.

At the time of this investigation we believe that the predominating influence of the Seminary faculty is for the conservative side, and while there is ground for the many current rumors about unsound teaching in the Seminary of two members of the faculty now on the field, yet we feel that some of these rumors

have been exagerated. With reference to the use of Hasting's Bible Dictionary and Clarke's Theology, we found that the former is in the Seminary library as a reference, book and that the book-room still has a considerable stock on hand which is being sold to the students, but in both cases a notice is inserted warning the students against the errors. Clarke's Theology is not now used as a text-book, but is in the library as a reference book.

Recommendations.

In regard to the unsound teaching brought out in the course of our investigation we present the following recommendations, which, if carried out, will we think make it possible for our mission to continue to cooperate with the Institution:

(1) After a long conference with Mr. Ritter, in which he frankly stated his views on all points raised, we feel that his views of the inspiration of the Scriptures, and his interpretation of the Old Testament, together with his views on many other less vital doctrines, differ so widely from the historic creeds of all Evangelical Churches that there is no other course for our mission to take than to seek his removal from the faculty. The above conclusion is not based solely on the appended brief outline of answers to the main questions, but his whole attitude to the question of Biblical criticism, as brought out in the discussion, and on his method of teaching, which we are sure will fail to lead students to a sound view of the Bible. This point is all the more important because he is the head of the department of Old Testament Literature and interpretation. Hence, we recommend that the mission request the Board of Directors of the Seminary that Mr. Ritter's connection with the Seminary be terminated at the close of the present school year in June 1923. We deeply regret that we feel constrained, to make this recommendation because of Mr.Ritter's fine spirit and character and his interest and unwearied effort in behalf of all pertaining to the development of the Seminary.

(2) In the case of Mr. Sie, who has just joined the faculty as assistant Professor of Religious Education, we found that his theological views were so immature and unsettled that he cannot be regarded as a safe and reliable instructor of young men preparing for the ministry. By "immature and unsettled" we mean he seems never to have thought through the great fundamentals of the Christian faith and incorporated them as a vital part of his religious experience. Hence, we recommend that the Mission request the Board of Directors of the Seminary that Mr. Sie's connection with the Seminary be terminated at the close of the present school year in June 1923.

(3) Although some of Mr. Shen's views are far from being all that we desire, yet, because he is a man of more mature thinking and because of the difficulty of securing good men for the Seminary Faculty, we recommend that for the present the Mission take no action with reference to him, but that his case be reconsidered when this committee holds its conference with the two members of the Faculty now at home on furlough.

(4) Since Dr. Rowe and Mr. Smith are on furlough, we recommend that this committee be continued until they return and a personal interview be held with them.

(5) That through this committee an immediate effort be made to secure the cooperation of the Mid-China Mission in carrying out the above recommendation; and that, as soon as the Mid-China Mission's cooperation is secured, the whole matter be jointly presented to the Board of Directors of the Seminary.

(6) That, in case the Mid-China Mission does not see its way clear to cooperate, this committee be authorized to take up the question with the Seminary Board.

Report on Schools at Tenghsien

Two members of this committee were present at the meeting of the Board of Directors of Mateer Memorial Institute and Theological Seminary of the Shantung Church, and found that the doctrinal position and teaching of both Institutions are satisfactory, and did not deem it necessary to make any further investigations.

Note: In accordance with article nine of the report of the Resolution committee, page 39, 1922 minutes, we have appointed Messrs. Brown and McLauchlin to act in conjunction with representatives of Mid-China Mission's Committee, to investigate the Shantung Christian Universary at their earliest convenience.

Respectfully submitted,

J. R. Graham,
J. N. Montgomery
W. C. McLauchlin
F. A. Brown (see note)
M. A. Hopkins

I heartily approve and vote in the affirmative on the entire report and on all the recommendations except in No. 6. My reason for dissenting on this last is that I doubt the propriety of taking action that might be misunderstood be the Mid-China brethren as a kind of ultimatum. F. A. B.

2nd. Circular letter. Proposed Communication to the Board of Managers of Nanking Theological Seminary.

The two committees appointed respectively by the Mid-China and North Kiangsu Missions of the Southern Presbyterian Church in accordance with instructions from the General Assembly, to investigate the teaching in all Union Institutions in which our church is cooperating, in joint session; respectfully submit the following to the Board of Managers of Nanking Theological Seminary:—

First, that we discover that the Board of Managers of Nanking Theological Seminary has failed to enforce article VI. sec. 1 of the constitution requiring each member of the faculty to submit in writing a statement agreeing to teach in harmony with the constitution. Art. VI. Sec. 1 is as follows "each member of the faculty, upon taking a chair in the Seminary, shall submit to the Board of Managers in writing a statement agreeing to teach in harmony with the constitution: reaffirming his loyalty to the doctrinal standards or declarations of his own church, and declaring his belief in the integrity and historical reliability of the Holy Scriptures."

Second, that we find teaching by some members of the faculty which we consider subversive of belief in the integrity and historical reliability of the Holy Scriptures, which is contrary to the aim of the Seminary and stated in art. 11 sec. 1. "The Seminary shall be interdenominational in character, thorough in intellectual processes, evangelical in doctrine, reverend in spirit, pedagogical in method and practical in aim." Also Art. VI, sec. 1 (quote above) and Art. VII, sec. 5.

1. "It accepts the Scriptures of the Old and New Testaments as the inspired Word of God, the supreme rule of faith and practice, and as containing all things necessary to salvation." We, therefore, request:—The Board of Managers:—(1) To insist upon having a signed statement from already elected and acting professors in accord with constitution Art. VI, sec. 1 (quoted above). (2) To take steps to eliminate all teaching contrary to or inconsistant with the constitution, see especially article II, sec. 1 Art. VI, sec. 1, and Art. VII Sec. 1 (all quoted above). (3) To provide in the Teaching Department that young men Chinese or foreign, otherwise qualified but without practical experience be tested at least one year before being elected to a full professorship. We call attention to the Board of Managers II. To the following extract from the Preamble and Constitution of the Presbyterian Department of Nanking School of Theology (see Minutes 1913 Board of Directors of Presbyterian Union Theological Seminary of Central China page 3, "in becoming participants in the Nanking School of Theology, we representatives and members of the Presbyterian bodies participating, deem

it our duty to frankly and faithfully declare the principles upon which we stand. While we desire to manifest the broadest charity in matters non-essential, we hold unalterably to the great fundamental truths of our Christian faith. We understand that the Word of God which is the basis of teaching in the union Institution is to be held as historically true, being inspired in every part, and that the teaching done in common shall be faithful in essential truths contained therein which are commonly defined as Evangelical Christianity, and if at any time the teaching, either in class room or by any authorized text book is found to be out of accord with these fundamental truths, as understood by us, we shall deem it just grounds for protest, and, if the condition is not remedied, for withdrawal." Also see Minutes of the Board of Managers of Nanking School of Theology 1913 page 5,. "The Preamble to the constitution of the Presbyterian Department was received as information and approved as basis of the work of that Department." We request the Board of Managers to call attention of the cooperating bodies to the above extract.

2. To the fact that in connection with (2), above investigation has shown the theological position of Mr. H. C. Ritter to be out of harmony with the doctrinal basis of the Seminary and of the signed statement required of each member of the faculty when inducted into office, see Art. VI. Sec 1, (quoted above). Because of this fact his return to the Seminary after furlough will constrain us to take definite steps to secure the severance of his relation with the Seminary. 3. To our confidence that Nanking Seminary can be made most useful to the church in China and most influential for vital religion by teachers and students who fearlessly face all the problems of scholarship, ancient and modern, and from assured conviction maintain the conservative doctrine upon which the Institution was founded. We therefore through the Board urge all the cooperating bodies to unite with us in maintaining the Seminary in accord with the original agreement. 4. To the appointment of a sub-committee consisting of Reverends Graham, Hudson, Brown, alternate H. M. Smith, representing both missions to appear before the Board of managers at the next annual meeting to emphasize the gravity of the situation. Signed for the

Report of Work on Haichow Hospital

During the past year not much work has been done on account of lack of funds. Since the death of Mr. E. C. Graham no payments had been made until recently and we were compelled to wait till money came so that we could again start on our program.

The hot water heater system was installed last summer and has been in use during the winter. It works well and is an economical way of heating the buildings.

The Delco water pressure system has been installed and provides water under 40 pounds pressure to the clinic building, hot and cold water being available. As soon as possible water will be available in all the buildings, also under pressure, both hot and cold.

In October, 1922, Gold $5000.00 was paid in by Mr. Graham's heirs, this being a part of the G. 25,000.00 originally planned for the improvement and equipment of this hospital. As there was some misunderstanding we were not notified of the arrival of this money and it has lain idle in Shanghai until a month ago when we were told that it was there and was to be used. Needless to say it will immediately be put to use.

The Committee asks to be continued another year.

Respectfully,

L. S. Morgan.

Report of the Committee on the New Hwa Pei Seminary

In October 1922, the Board of Directors met at Tenghsie and adopted a creedal statement and a constitution.

Remarkable Growth: The class of five graduated las January. The attendance was thirty-six during the term as new class of about thirty-five who have sent in applications t enter this autumn. These men are coming from Yunnan, S chwan, Shansi, Canton, and the Central Provinces. The abo shows that the school is appreciated and is filling a serious need

Buildings: During the year thirty new dormitory rooms have been put up, and three professors' houses as well as a large building for classes and dining-room. All these buildings will be taxed to their utmost this autumn. Other residences are being erected as rapidly as possible.

Women: From the prospectus in your hands you will see that women are received into the Institution. Provision has been made for them for this year in one of the professors' houses.

Teachers: The Shantung Independent Church has sent a teacher and his pay—a fine Christian worker, Lin Yen Ting. Pastor Ding Li Mei has accepted work on the faculty. Misses Hayes and Dodd, and Pastor Chia Yu Ming gave full time to the work and Mr. Patterson half-time.

Mr. Stevens has not been able to decide definitely about his return. The work is growing very rapidly and if Mr. Stevens does not return the Southern Presbyterian Mission should nominate some one to take his place and help on this work as much as possible.

Cost: The term fund from about the middle of August to the end of January and outside of travel and clothes a student's expenses should not be much over forty dollars a term.

We recommend:

1. That in case Mr. Stevens does not return this year that this mission will allocate to that Seminary a man that will be acceptable to the Board.

2. That this mission calls attention to the Presbytery with which it is affiliated to the provision that two directors from each presbytery taking part in this Seminary--one each year—are to be elected on the Board of Managers and ask that these directors be sent to the Board meeting. And to vote that all directors as well as teaching staff are required to subscribe annually to the creedal statement of the Seminary.

B. C. Patterson,
J. R. Graham.

IN MEMORIAM

Mrs. John W. Vinson

Nee Jeanie de Forest Junkin

Born Feb. 23rd, 1873, New Providence, Va. of Rev. E. D. Junkin and Agnes Ann Penick Junkin. She was the youngest of ten children, seven of whom are still living.

At the age of three years her parents moved to Houston, Texas, where she lived until young womanhood. She was a graduate of the Normal School, Louisville, Ky. Later taught in Peace Institute, Raleigh, N. C.

Throughout her school career she was very much interested in foreign missions. She and her sister, Mrs. J. W. Bradley, were appointed as missionaries to China Sept., 4,1904 and were stationed at Sutsien, Kiangsu with their brother, Rev. Wm. F. Junkin.

In April 1908 she was married to Rev. John W. Vinson. They moved to Haichow soon after, where she spent the remainder of her life in faithful and loving service among the Chinese people whom she loved and for whose souls she had a passion.

After a lingering illness, during which time she manifested a beautiful faith, and remarkable courage, she passed to her reward on March 25, 1923.

With the home-going of Mrs. Vinson the Southern Presbyterian Church has lost a faithful and loyal worker; the Chinese, a true friend; her family, their youngest and beloved sister; her husband, a devoted wife; her children, a loving mother.

These verses from the fortieth Psalm seemed to be the text of her life: "I delight to do Thy will, O My God: yea, Thy law is within my heart.

I have preached righteousness in the great congregation; lo, I have not refrained my lips, O Lord, Thou knowest.

I have not hid Thy righteousness within my heart; I have declared Thy faithfulness and Thy salvation; I have not concealed Thy loving-kindness and Thy truth from the great congregation."

Associated Mission Treasurers

Shanghai April 29th. 1924, C. N. Caldwell Representatived

I have examined the accounts of the Associated Mission Treasurers with the North Kiangsu Mission, Examining all the individual balance sheets of the mission, the Shanghai accounts, and all necessary vouchers, and find the above to be a correct statement of the North Kiangsu Mission's account with the Associated Mission Treasurers.

Auditor of the Associated Mission Treasurers.

Mr. Douglas of the Mid-China Mission was welcomed as a corresponding member and given the privileges of the floor.

It was voted that the report on Nanking Seminary as presented by the Committee on Resolutions and Communications be taken up seriatum.

This report was adopted as given below.

Report Re Nanking Seminary

In deference to the action of the General Assembly instructing the North Kiangsu Mission that "at least for the present to consider whether it would not be wise to retain its connection with the Seminary." And because the General Assembly has requested the "Cooperating Churches to require their represent-

atives on the Board of Managers to subscribe to the Basis of Doctrinal teaching in the Seminary to which the teachers are required to subscribe"—And because "the General Assembly gives notice that unless the instruction in the Seminary be kept in harmony with the historic, evangelical interpretation of the Bible, it will take proper steps toward the dissolution of the joint control." And because the General Assembly affirms its right to make at any time official investigation through its accredited representatives of the teaching given in Nanking Seminary.

Resolved 1. That this mission's action giving notice of withdrawal be held in abeyance and

2. That for the coming year a representative of the mission be appointed to the Board of Managers, who is to report to the next Annual Meeting of the Mission for action.

3. That our representative on the Board of Managers immediately call the attention of the Board of Managers to the points in the report of our General Assembly on Nanking Seminary.

4. That the proposed amendment to the constitution of the Seminary (see Minutes of the Board of Managers, June, 1924) regarding investigation of the Seminary, is contrary to the spirit of the instruction of our General Assembly and therefore our mission casts its vote against the amendment.

Letter to the Executive Committee and Copy to Mr. Hancock was approved.

"Dr. E. W. Smith,

Nashville, Tenn.

Dear Dr. Smith:—

You will have received a cable, regarding Mr. Hancock's return to China. The following is the full action of the Mission in the matter:

The reasons for this action are as follows:

First: Mrs. Hancock's health record in China. As the Committee knows, Mrs. Hancock has had two breakdowns for the same sickness which have necessitated return to the homeland. The doctors of the Mission are unanimous in the opinion that Mrs. Hancock should not return to China. The Mission does not deem it wise for Mr. Hancock to return without his family.

Second: The Taichow Station does not invite the Hancocks back. The Station is unanimous. In the Yencheng Station, which has invited them, there is a strong minority opposed to it. No other Station of the Mission stands ready to invite them.

The Mission would call the attention of the Executive Committee to the hasty departure of the Hancocks from China, according to the order of physicians which made it very difficult for the Mission to take action regarding their return in time to notify them before their departure.

Moreover, the Mission requests that a copy of this letter be sent to Mr. and Mrs. Hancock.

I. Be it resolved that the North Kiangsu Mission approve of our own Mission hospitals, wherever feasible, taking young men of approved character and educational training and giving them practical and theoretical training in medicine to supply their own and the needs of other hospitals in our Mission.

Be it further resolved that the Tsingkiangpu Hospital be designated as the one to now begin this work and that the Mission approve of the location of a third doctor there at as early a date as is possible.

In passing the above action it is distinctly understood that our Mission is not seeking to supplant the supply of doctors made available from time to time by Tsinan, but to supplement that supply with a grade of doctors now so much needed by all of our Mission hospitals and the country.

II. Resolved—that the representative of the Mission on the Nanking Seminary Board be instructed to investigate the work and methods of Dr. Reichelt in Nanking, and report to the Mission.

III. The Tsingkiangpu Station asks the Mission to concur in calling Mr. and Mrs. Taylor and Mr. Wayland back to China and to Tsingkiangpu.

Wednesday Afternoon

1. Whereas in the "Seven Year Plan" of missionary education in the Sunday Schools there is a vacancy caused by the turning over of our Cuban work to the Northern Presbyterian Church and

2. APPENDIX

REPORTS OF COMMITTEES

Report of the Mateer Memorial Institute Committee.

Your committee respectfully reports as follows: Two meetings of the Board have been held during the year just closed, at both of which we were represented. All members of the Board in attendance at the second meeting signed the doctrinal statement.

There has been a net increase in students of about fifty. Some important changes have been made in the curriculum, which will doubtless be reported in detail by our representatives on the faculty.

A member of this committee was again appointed as auditor, and the accounts have been audited and found correct through Aug. 1923. The treasurer reports a considerable deficit, due to the fact that the Northern Presbyterian Mission has not paid their proportion of the running expenses. They expect, however, soon to wipe out this deficit. The treasurer will doubtless make a report in detail on these matters. In this report your committee is only referring to the larger issues.

We are happy to report that our Executive Committee of Foreign Missions has made its first appropriation to the equipment of the institution. $5000. gold for residence, land, etc.

We are glad to report that the Institute has been strengthened, and that the spiritual tone is high. As far as we have been able to learn those stations in the mission who are patronizing the school have been well pleased with the training received by their students.

Needless to say our representatives on the faculty have rendered most faithful service, and our relations with the brethren of the Northern mission are most harmonious. The school has an even greater future before it and we recommend that those of our stations who have so far sent very few students to the Institute, consider the advisibiltiy of sending more. The Institute desires to serve the whole mission.

There is one aspect of the situation, however, that causes us some concern, and we think the mission should be informed. On the new basis on which we are now cooperating, our students are costing us for tuition, board and incidental running expensess of the institution, an average of $95.00 per student. (no stipends to students included). This is considerably more than the aver-

age for our own High Schools. In this connection the Board at its recent meeting made a somewhat radical change in the curriculum, opening what in reality amounts to a high school department.

Therefore, we recommend that the Mission direct the Tenghsien Committee in cooperating with our members on the faculty to devise some means by which either the enrollment of our students can be increased, or our gross appropriations decreased.

Respectfully submitted,

F. A. Brown,

J. E. Wyland.

Supplementary report on M. M. I. from one of Our Faculty representatives.

When our last report went out to the world we were under the shadow of a serious bandit menace. God has signally protected us all and we are grateful.

The workers in the M. M. I. would record their appreciation of the work that Mr. Allison has done for us in America this year, and we look with pleasure for the family back for the autumn term.

We would also note the gratitude of all, Chinese and foreigners alike that Mr. Stevens has been allowed to come back to us.

The Institute has had one of the most prosperous years in its history.

The number of Bible students has not grown as much as we would like to see, in view of the poor and needy fields to be evangelized. We hope the patrons will look out for earnest men who may be called to go out as evangelists and foundation workers, this is the most difficult as well as the most necessary work of the Church.

The students have done much evangelistic work during the session. There are about ten preaching bands and some of them have been very faithful, and work is opening up in nearby points through their efforts. Some of the teachers go with some of the bands and give what help they can.

There has been a large increase in the number of men taking the lower Normal course. This course brings a man to about the same grade as that of a middle school (High School in the U. S.) graduate.

Fearing that cheap rates will induce immature students to come in such numbers as to crowd out the other men we have raised the tuition for all and propose to receive only Christian men hereafter.

There are about twenty men in the Seminary preparatory course. This course has now been changed and advanced so as to make it the next logical step for Middle School graduates. While it was especially designed for Seminary men. It has as electives higher mathematics, English in higher grades, and pedagogical features, that make it suitable for men preparing to teach in middle schools.

Two donors in Philadelphia have made a generous contribution that is being used to put up about twenty five rooms for dormitories. These rooms are built according to the Chinese style, brick and one story high, a very comfortable house.

These rooms will be a great boon to the school that is now using the dining room, in the basement, for a recitation, and class rooms for dormitories.

The Southern Presbyterian Church has also sent in a contribution of $5000. This is to be used to build a residence and to buy land. This also fills a most pressing need. May God bless these donors and their gifts of love.

Due to protracted illness the school is losing one of its most earnest, patient and valuable teachers Mr. Liu Hsi En. We hope to get a good man in the autumn to take his place but will be forced to give a much higher salary.

Some young women who are taking part of the Seminary course have attended the classes in the M. M. I. this spring doing preparatory work. This is the first time that women have been admitted to the classes. We are glad to say that the proprieties and harmonies have all been maintained.

As a college grade geological and mineralogical course has now been put in the curriculum and as there are very few specimens on hand we are ready to receive any little mineral or fossil specimen that may be mailed to us, and will be most grateful to those that take the trouble to send us these things. Ordinary parcel post is effective here.

B. C. Patterson.

Report of Committee on Communications and Resolutions

Inasmuch as the Sunday School Mission Study course for 1925-26 will be on our China fields; and since Mr. Grant has asked our Mission to prepare and send home material, such as

maps, suggestions for posters, charts, articles, etc. We recommend that Dr. Bell, Mr. Montgomery, and Miss Josie Woods be chosen as the Committee to secure such material and send it home. We also recommend that each Station appoint one of its members to cooperate with this Committee in this work. We suggest that the committee proceed at once in this work, since it is very urgent and the time yet available is short.

A communication has been received from the National Christian Council, enclosing some statistical blanks which they hope can be adopted by all the Missions in China. We recommend that these blanks together with the communication from the N. C. C. be forwarded to the Executive Committee, with the suggestion that they be used hereafter for all our Missions, if feasible.

A number of communications were placed in the hands of the Committee from Dr. A. Sydenstricker relative to conditions in the Chinkiang field. The Committee recommends that no action be taken.

A communication has been received from the Nurses' Association of China, requesting that the home Boards give them in their Schools etc. a better support. The Committee suggests that this communication be forwarded to the Executive Committee as information.

A letter from the Chairmen of the Committee on the Shanghai Community Church, requesting a contribution from our Church toward the erection of this Church. We suggest that our Church make no contribution at this time, because of the great crying needs in our Mission fields and the inability of the Church to adequately meet such needs.

With reference to the letter and cable from Dr. H. W. White, the committee makes no recommendation.

Two communications from Rev. C. J, Crane of Korea, requesting that the N. K. Mission unite in asking that representatives from all our Mission fields be given an official standing in the General Assembly in the homeland: the Committee advises no action at this time on this question. We suggest that Rev. Locke White reply to Rev. Crane as to our action.

Report of the Women's Committee.

The most important thing that this Committee has done during the year was to arrange for the conference for Bible Study for Chinese women in November. Forty-five women attended this meeting, which was held at Chinkiang, thirty-seven of them finished a definite section of the course. The work was

stiff, and two good sized classes did very well in different courses. A number of others who were not easily classified had to do more individual work, but all did faithful and satisfactory work, though with such varying ages, from sixteen to sixty, the work was not all equally good. Miss King very kindly came over and helped us by taking the devotional meetings.

A sub-committee has been working on a course of study and have a tentative course arranged that we are following now.

One thing done this year is an innovation. The ladies of the Mission held a meeting for discussion of some of their problems just before Mission Meeting. This meeting recommended; (1) that the name of the Women's Committee be changed to Women's Executive Committee; (2) that one lady member of each station be on it; and (3) nominate on that committee for coming year, Mrs. Armstrong, Mrs. J. B. Woods, Mrs. Montgomery Miss Matthes, Miss Mc Cutchan, Miss Graham, Mrs. Smith and Miss Mizell. (4) They also nominate Mrs. Paxton as representative on the Board of the Bible Teacher's Training School for Women, with Mrs. Armstrong as alternate.

This Committee is arranging for another group of Bible Study Classes for October.

(Una Hall Paxton, Chairman.)

Report of the Board Meeting of the Bible Teachers' Training School for Women.

The twelfth annual meeting of the Board of Managers for the Bible Teachers' Training School for Women was held at the school at Nanking, March 25-27, 1924, with full representation of the participating Missions, though several of the co-opted members were absent.

In looking at the members of the faculty and board, one could but be impressed with their uncompromising adherence to the truth, and that they stand for vital, evangelistic, spiritual Christianity. Throughout the meeting, their dependence on the Lord for help, their constant turning to Him in prayer when any difficulty arose, and their giving Him full glory for any measure of success, were most noticeable.

During the year the educational requirements for entrance have been raised, and when an objection to this from one of the missions was read, the reply was, that this school is the only one in China for the training of educated women as Bible teachers.

but that there are many for uneducated women, and that those unable to enter this school would have a number of schools to choose from.

During the past year, there have been 95 students attending the school, 43 in the higher course and 52 in the lower. They are a most intelligent, responsive group of young women, and it was a joy to speak to them. Various interesting comments were heard about them, "Eager and earnest in their evangelistic work." "Soul-winners." But in every case it was that they are full of holy zeal.

Twenty were turned away from the dormitory this 1st year for lack of room, though these buildings are not yet three years old, and were built with room for expected growth. At this meeting the problem of a new dormitory was faced and it was decided to buy the foreign hospital which adjoins the grounds. It was offered at a reasonable figure, and the board voted to buy it and have the alterations made this summer, thus increasing the capacity of the institution for the fall term.

I brought up the matter of the action of our Mission last August, but found it impossible to get anything changed. The faculty is without reproach, and the members of the Board most staunch in their faith, and again and again expressed themselves as out-and-out on the conservative side, but to have the board sign a doctrinal statement would mean a revision of their constitution, and they pointed out that our North Kiangsu, and one other Mission would be the only ones that they could hope to allow this action to be taken. All feel that the crisis is one and all stand for the truth, but felt that if any effort was made in this direction, it would mean opposition from other missions, and that the reaction would be to send just the type of persons that we did not want on this board. At present the board is perfectly safe, and it would take several years, with a number of changes both in the board and faculty before there would be any danger. They felt that the Lord had very definitely guided during these twelve years, and they set a time and rededicated the school and all connected with it to the Lord and in an act of faith committed the future to the Lord and asked Him to keep all true to the Bible and from teaching error.

The formal answer given to our mission is found in the Minutes 1924, page 8, and reads: "We recommend in answer to the report from the North Kiangsu Mission, (1) that the adoption by the Missions and Boards carries with it the allegiance of Mission members to the doctrinal statement in it, signing it be

not reguired by board members. (2) that the Board request the Missions to appoint in the future as they have in the past, representatives to this Board of Directors who are in full agreement with this doctrinal basis."

In addition to this a committee of two, Miss Ruth Paxson and Miss Brittain, were appointed to meet with our Women's Committee and explain to them this action, making clear that there is no thought of compromise. We were unable to find a day in which all could meet, and so after great effort, it was abandoned, at least for the time.

We recommend: (1) that the joint appropriation with Mid-China Mission be referred to joint Conference Committee: (2) that we appoint a representative and an alternate on the Board: (3) that we continue our support of the institution as long as it remains in its present attitude.

Orr's Encyclopaedia.

The money is being provided by the Committee of Publication and the work is now in the hands of the Commercial Press. Dr. Woods is busy each day proof reading. The work was delayed a few weeks by the lack of Hebrew and Greek type. Advance advertisements are being sent to the Missions.

The Mission expresses its gratification to Mrs. Woods for her gracious offer.

Extension Committee's Completed Report.

Antung.

1. Moved that we accept the offer of the C. I. M. re turning over to us of the work at T. K. P. and at Antung.

2. That we pay up to the amount of $8000.00 Mex. for the property concerned.

3. That we call for necessary workers to adequately man the work.

4. That we double star, in 4th column, $1500.00 Mex., in order to care for the new work.

5. That a Committee composed of Dr. Graham, Mr. Montgomery and Dr. Junkin be empowered to make the necessary arrangements with the C. I. M. and with the two stations concerned and that any funds necessary for equipment be passed on by this committee.

We approve of the suggestion that the Christian Reformed Mission put a missionary in the Chinkiang High School and empower the Chinkiang Station to make the necessary adjustments.

That in reply to the request of the Christian Reformed Mission for a division of territory looking forward to their opening of a new Station, we would refer them to the former action of our Mission, suggesting that they, in consultation with our Yencheng and Taichow Stations, endeavor to open work to the north and south of Ru Kao.

August 19th. Aproved of the use of $250.00 in repairing the Boys School Dormitory at Chinkiang.

Educational Committee

It is recommended that Taichow and Hwaianfu be authorized to have Junior High Schools for girls.

We recommend that the next year's Educational Committee be asked to make a survey of the schools of the Mission, and bring in such recommendations as may grow out of such survey, to the Mission.

We recommend that the following be elected as the Mission representatives on the High School Council of the East China Educational Association: Miss Mizell, Mr. Armstrong and Mr. Yang of the Chinkiang Boys' High School.

It is recommended that a Committee be elected to consider the whole matter of Industrial Education in the North Kiangsu Mission, either as connected with our present Schools, or as a separate institution. This Committee shall consider such questions as, need for such education, means of financing, equipment, etc., This Committee to report to next Mission Meeting. The following are nominated for election as the Committee. Dr. Junkin, Dr. Graham, Mr. Grafton and Mr. McCutchan.

Estimates Committee.

The Committee makes the following recommendations:

1. That, in making out the Estimates blanks, each station put in column three all amounts granted last year which were

asked as annual appropriations. We believe that this is in accord with the spirit of the committee's rules, if not in accord with the letter of the law. But, in order to make our position clear to the committee we put a single star beside all amounts about which there is any question, and that a covering letter be written by the chairman and secretary of the Estimates Committee.

2. That in case of a cut the equal percentage of cut be deducted from each appropriation, including union institutions.

3. The committee recommends that Rev. B. C. Patterson be granted an extra appropriation of $200.00 Mex. for the Tenghsien residence, in view of the fact that it is necessary to put in a dispensary for the use of Mrs. Dr. Patterson.

4. That the Chinkiang Station be granted $300.00 Mex. to be used in connection with securing possession of land in the Paxton lot, on which there is a grave.

5. That the Chinkiang Station be granted $200.00 Mex. from the Equipment Fund to be used for the purchase of land adjoining the Crenshaw residence, it being understood that this land together with the Crenshaw lot is to form two residence sites.

6. That Dr. Casper Woodbridge be granted a special fund of $200.00 Mex. to repair the Rice house, in which he is to live this year.

7. That Rev. E. S. Currie be granted $300.00 Mex. additional on his house in order that he may add screens and other necessities.

8. That Rev. O. V. Armstrong be granted an emergency appropriation of $200.00 Mex. to rebuild bathhouse and laundry at the Boys School, Suchowfu. These rooms fell during the recent heavy rains.

9. That Miss Lois Young be authorized the ask for $2000. Gold from the Central Church Atlanta, to rebuild the roof of the Christian Herald Orphanage building, now used by the Girls' School, Suchowfu.

10. That Miss Lois Young be authorized to ask for $3000.00 gold from the same church to finish and equip the new building for the Girls' School, Suchowfu. It will be remembered that the money for this building was given by this church as a memorial to Mrs. Stevens.

11. That, whereas in the Equipment Fund Estimates, as printed on page 51, 1921 Minutes, the amount asked for the Girls' School and Boys' Schools, respectively, at Hwaianfu, is

only Mex. $10,000, instead of $20,000 allotted to the schools of most of the other stations, we request that the Hwaianfu schools be allowed a total sum of Mex. $20,000 each.

12. That Rev. J. W. Vinson be granted a special emergency fund of $200.00 Mex. to be used in repairing damage done by floods on the walls of the Boys' School at Haichow.

13. That the following annual grants be made to new missionaries:

Rev. J. E. Bear—$500.00, Rev. R. P. Richardson—$500.00

Rev. E. H. Hamilton—$1500.00, Rev. C. H. Patterson $1500.00

Rev. G. R. Womeldorf—$1500.00, Miss Helen Bailey—$1000.00

Miss Mary Woods—$600.00, Miss Gussie Frasier—$600.00

Dr. C. H. Voss—$1500.00, Dr. Casper Woodbridge, $1500.00 Miss Oliver—$400.00, Miss Dunlap—$400.00 Miss Bissett, $400.00

These amounts are to be placed in the fourth column and double starred.

14. Recommended that the Taichow Girls' Junior High School be given an additional appropriation of $438.00 to bring its appropriation up to $1700.00, this appropration to begin April 1, 1925.

15. That the Tsingkiangpu, Taichow, and Yencheng Boys' Schools be given an additional appropriation of $400.00 each, these appropriations to begin April 1, 1925.

16. That in reply to the Executive Committee we say that we do need the $1000.00 item for the Mateer Memorial Institute at Tenghsien this year.

17. That the Mission ask the Executive Committee to pay $70.00 Mex. to the Nanking Foreign School toward the fees of each pupil from the North Kiangsu Mission attending the School.

18. That the Mission approve the adding of another residence to the Equipment Fund for Tenghsien - $1000.00 for land and walls additional.

19. That the Mission approve the special gift to Dr. Bell from a friend at home for the purchase of a Ford automobile.

20. That the Mission approve of the use of the following special gifts:

*Woodbridge, S.I., Wayland, Yates. Bradley. 23 Nays Brown, Crenshaw, Ghiselin, McFadyen, Price, White Locke, Armstrong, 7. As amended the report reads as follows. In accordance with "instructions to make full report to the General Assembly thru the Executive Committee." (see supplimentary report to the General Assembly on Orthodoxy on the Foreign Field, last paragraph) we hereby request the Executive Committee to present the following action to the General Assembly of the Presbyterian Church in the United States at its 1924 session in San Antonio, Texas. Whereas the Nanking Theological Seminary was founded by the Northern and Southern Presbyterian Churches, and so was originally our institution, to which we invited others whom we believed to have faith and purpose similar to our own; and Whereas after careful consideration of the whole situation, not only from the point of view of the present crisis, but also from that of the history of the institution since the consumation of larger union, with the persistent recurrance of crises like the present, we have reached the solemn conviction that harmonious continuation in the union on the present basis is impossible for the following reasons: 1. Because of the difficulty of efficiently controling an institution composed of so many divergent units. 2. Because, in spite of earnest efforts and constant vigilance we have failed to keep the institution free from the compromising influence of men of liberal views on the Board, who do not agree with us and the church we represent on fundimental Christian truths, which are also the expressed beliefs of all evangelical churches. 3. Because we have been unable to secure from the Board satisfactory guarantees that the teaching in the institution will be positively and definately conservative, especially on the subjects of Biblical Introduction and Exergesis. (We are not here referring at all to denominational differences) 4. Because careful investigation shows that the Board had failed in its duty to safeguard the institution from unsound teaching. 5. Because the present arrangment is provocative of constant misunderstanding and contention, not only among the missions cooperating in the institution, but among the two missions of our church, and also between individual members of our own Mission which is not only distressing to all parties but is injurious to the peace and harmony of the church of Christ. 6. Because of the well known fact that among the more conservative elements not only in the various missions, but to a considerable extent in the

Chinese church, there is a lack of confidence in the institution, which has already resulted in the loss of students and in the resignation of at least one valuable member of standing ability. (from the Faculty) 7. Because our testimony to the truth is dimmed by connection with an institution, in which it is believed by both our missions, that certain individuals on the Board and Faculty hold that there should be room for the teaching of both liberal and conservative viewpoints with regard to the Scriptures, without predjudice to one or the other, leaving students free to accept either viewpoint. 8. Because the present critical condition of the church throughout the whole world, demands of our church an undimmed, clear-cut, ringing, unequivocal testimony, which is in keeping with her historical position, unwavering stand for pure evangelical teaching. implicit belief in the whole Bible as the very Word of God, and high calling of God to contend earnestly for the faith which was once for all delivered to the saints. Therefore be it resolved: A. That the North Kiangsu Mission do hereby give notice to the Board of Managers of Nanking Theological Seminary at its next regular annual meeting that, after one year from date of side Board meeting, in accordance with the Constitution, Sec. X Art. I, (Should any of the cooperating missions wish to withdraw from the union, it shall give one years notice of its intention; this notice to be presented to the Board of Managers at its annual meeting) The North Kiangsu Missions connection with the Seminary as at present constituted, will cease, and that our representatives on both the Board and Faculty will be withdrawn, and that we request the General Assembly to relieve the North Kiangsu Mission of all financial responsibility for the conduct of the Seminary, and that the Executive Committee discontinue our half of the annual appropriation to its work. B. That we signify our hearty desire to cooperate with all the Presbyterian Missions, who originally founded the Seminary, in taking immediate steps to dissolve the present union to raise the funds needed to reimberse the other missions whom we admitted into the union with us, for their investments in the buildings and equipment; and to rehestablish the original union of Northern and Southern Presbyterians along on such a basis as to satisfactorily safeguard sound teaching in the institution for the future, and insure complete control of the institution thru an adequately guaranteed board of managers. That in case resolution B. prove infeasible, we request the Mid China Mission to also withdraw from the Union, and with funds reverting to us from the Seminary our two Missions establish our own seminary and Bible school in Chinkiang, or some other

central location. D. That a Committee be appointed to take the proper steps to the consumation of B. or C.

Dr. McFadyen gave notice of an appeal to the Executive Committee against the above action.

The Present Investigating Committee was appointed to answer his appeal.

Upon the recommendation of the Medical Committee Mrs. Woodbridge was allowed to go to Peking for treatment, and in case the Doctors in Peking advise her to go to the U.S. Dr. Woodbridge was also authorized to go with her, to U.S.

Mr. Stevens request for an appropriation was referred to the Estimates Committee with power to act.

Resolved that a copy of the action of the mission re Nanking Seminary be sent to the Bi-Monthly Bulletin's Editor and Co. Editor with the request that it be published in the next issue of the Bulletin, and that we request the Editors to refrain from editorial comment on any subject which may be considered controversial in our Mid-China and North Kiangsu Missions work, actions or policies, and that a copy of this action be sent to the editors.

The present investigation committee was appointed to press action "D"

APPENDIX

To the Members of the North Kiangsu Mission.

Dear Brethren,—

The undersigned, representative on the Board of Managers of Nanking Theolegical Seminary, and member of the mission's Investigating Committee on conditions in that institution, were as you will note from papers enclosed a sub-committee of the mission's Investigating Committee. In view of the quite general interest throughout our mission in regard to the recent meeting in Nanking, we are making the following report.

The called meeting of the Board, composed of both Chinese and foreigners, was held on Nov. 1st,'23. An informal meeting composed of the foreign members of the Board, the foreign members of the faculty, and certain others including Bishop L. J. Birney of the Northern Methodist Church, Rev. C. E. Patton, D.D. of the Northern Presbyterian Church, was called for Oct. 31st, '23, by Dr. Frank Garrett, the Chairman of the Board. Mr. Junkin, though not a member of the Board, was invited to this meeting. At both meetings your representative were given a courteous hearing in the presentation of the paper adopted by our mission.

At the informal meeting of the foreigners the questions raised by Mr. Ritter in his letter of June 4th,'23, to the Chairman of the Board of Managers—in view of which letter the present situation has arisen—were brought before the attention of the body; notably the question as to the interpretation of the phrase in the constitution, "the integrity and historical reliability of the scriptures;" and also the question as raised by Mr. Ritter—in connection with his insistence on the use of such works as Clarke's Theology, Hastings' Dictionary, etc. in the institution—namely, that "there should be room for both viewpoints to be taught side by side, without prejudice to the one or the other, with students free to accept either viewpoint without criticism when led by conscience and judgment to do so." We called attention to the fact that our mission had reason to believe that individuals on the Board of the Seminary had expressed themselves as entirely in accord with the position of this letter, and we urged the gathering, in presenting the paper from our mission, to endorse, and to secure through the controlling missions, such action on the points involved as would eliminate future confusion and misunderstanding.

Immediately the faculty presented the enclosed paper, marked faculty paper, which coming as it did was apparently considered a substitute for our paper. While acknowledging the merits of such a paper signed by all the members of the faculty on the field, we pointed out that this paper was clearly not a substitute for the North Kiangsu paper, and the discussion which followed fully substantiated this. There was quite general approval of the faculty's paper as a statement of the present faculty's views, it being made clear, however, that the statement should not be binding on future members of the faculty or on the future policy of the Seminary.

In the discussion, statements were frankly made by several that the positions of the faculty's paper could be accepted together with the viewpoint of Mr. Ritter's letter of June 4th, '23, and further together with the holding of commonly known liberal views in connection with the composition of the Pentateuch and other old Testament scriptures. Drs. Bowen and Nance, members of the Board, declared unequivocally that Mr.Ritter's position as expressed in his letter of June 4th, '23 was their own. Bishop Birney while declaring that the faculty's paper was agreeable to him—tho he might suggest one or two minor changes—plead for liberty of teaching in the faculty and liberty of belief on the part of the students. It was affirmed by several present that they

did not regard the book of Jonah as history but rather as allegory; the later dating of some of the prophecies was championed; and it was stated by at least one member of the Board that he did not regard as essential the historicity of the first three chapters of the book of Genesis. Mr. Marx of the Disciples Mission stated frankly that his church stood for liberty of belief and liberty of teaching on the one foundation of belief in Jesus Christ, and that he felt sure that his church would not stand for any stricter interpretation of the constitution. When it was suggested that new members coming into the faculty in the future would not be happy in the institution unless they were in harmony with the beliefs of the present faculty as expressed in this paper, Drs. Nance and Bowen stated that if that was to be the effect of the paper, "it lets us Methodists out." At this crucial juncture the President of the Semina y declared that the paper under discussion was not to be signed by the Board; that it was not to be regarded as binding on future members of the faculty; that it was simply an expression of the present faculty; and he exhorted the brethren to allay their fears.

At this stage we pointed out the futility of adopting such a paper viewed so differently by members of the faculty as well as of the Board, and earnestly urged a clear and unequivocal stand that would keep the Seminary conservative. We begged them to meet the issue made so plainly in Mr. Ritter's letter of June 4th, '23, as well as in the paper which we were presenting from our mission. We made it plain that so far as our mission's paper was concerned we were not bringing charges against anyone, but that in the paper we and our mission were simply requesting the Board to meet the issue squarely which had been raised so clearly in the letter from Mr. Ritter which called the meeting into being and for which our paper had been prepared. We further called the attention of the meeting to the fact that the Joint Committee on Investigation from our two missions, consisting of Messrs. McMullen, Price, Smith, Hudson, Mrs. Crawford, Richardson, Graham, Hopkins, Brown, Montgamery and McLauchlin, had last year unanimously informed the Board of their disapproval of just the position now under discussion, as raised anew by the letter from Mr. Ritter of June 4th, '23.

But our pleadings were in vain, and to our dismay we found ourselves entirely alone in our request and contention; other than the acceptance of the faculty's paper "as an acceptable statement" the gathering refused to take action; and just before the acceptance of the paper it was made clear by more than one

member of the Board present that the acceptance of the faculty's paper involved no decision in the issue as noted in the North Kiangsu paper. In the above discussions we of course made it clear that we recognized the right of anyone to hold and teach such views as he might choose, provided such teaching is done in institutions founded on different understandings from the one on which this institution was founded. We further explained that we felt it necessary to acquaint the more mature students with the various viewpoints under discussion. This meeting of foreigners was altogether amicable and the discussions were conducted with the utmost courtesy.

At the Board meeting next morning your representative presented the North Kiangsu paper in both Chinese and English and moved its adoption. The motion was not seconded. (Note, that Mr. Junkin, who along with others sat as a corresponding member, was not a member of the Board, and our mission was without Chinese representation for the reason that—due to the failure of our mission, it was said, to send up the name of a nominee,—he had not been appointed by the Synod to the Board). The faculty's paper was discussed at length with very much the same exhibition of difference of viewpoint, though somewhat restrained, that characterized the informal gathering of the evening before. Toward the close of the discussion the same tense situation developed, followed by the same assurances, and that the approval of this paper by the Board only "expresses approval of what the faculty is now doing." We again plead for a clear unequivocal stand, but again to no avail. The following action was taken:

> "that the statement of the faculty be accepted by the Board of Managers as an acceptable presentation of the theological teachings and position of the faculty; that it be printed in the appendix to the minutes and sent to the various bodies comprising the constituency of the Seminary."

It was also voted:

> "that the actions of the North Kiangsu Mission and the Mid-China Mission be also printed in the appendix for information only.

The Board also took the following action:

> "We are of the opinion that in order to preserve the highest degree of harmony and fraternal good will among the members of the Seminary faculty, and thus promote that atmosphere of spiritual life and fellowship which is so

essential in an institution such as this, inquiries into the kind of teaching done by any members of the faculty, either in the class room or by authorized text books, should be made only by a committee appointed by the Board of Managers which is the only body to which the cooperating missions have delegated the authority to direct the general policy and curriculum of the Seminary; the interests and desires of the cooperating missions being always safeguarded by the fact that all actions of the Board of Managers are subject to review and approval or disapproval by the delegating bodies whom the Board represents."

Your representative while not questioning the faculty's first responsibility to the Board, yet opposed that part of the action that would restrict all future inquiries regarding conditions in the Seminary solely to committees to be appointed by the Board, urging that every effort be made to make known, freely and frankly, and at any time, existing conditions in the institution. It was further resolved:

"that this resolution be passed, not as an addition to the Constitution of the Seminary, but as an interpretation of the powers of the Board as set forth in the Constitution, Art. IV, 3; and that due notice be given that at the next annual meeting of the Board this resolution will be presented as an amendment to the Constitution."

It was also voted that the investigation Committee for this present occasion shall consist of Messrs. Bowen, O. C. Crawford, Garrett, Nance, Hudson, McMullen, Taylor, Junkin.
A further action of the Board was as follows:

"Inasmuch as the teacher concerned has written, protesting against the action of the Board of Managers at their last annual meeting in his absence, (English minutes, p. 3, par. 2.,) and stating that his teachings were not such as the action of the Board would seem to imply, and further, inasmuch as this action was taken without full information and investigation by the Board, be it resolved that this action be reseinded and that the consideration of the above mentioned teachings be deferred until the teacher's return."

A letter was received from the student body of the Seminary expressing the desire for the return of Mr. Ritter to the Seminary.

When the Investigation Committee of our mission, of which we are a sub-committee, meets we suppose they will of course take up the question of making to the mission recommendations for action.

We are sending copies of this report to each station and also to Mrs. Richardson and Price.

Respectfully,

H. Kerr Taylor,

Representative on the Board of Managers.

W. F. Junkin,

Member of the Investigation Committee.

The Committee arose and reported progress.

The following resolution was presented by Dr. Junkin:

1. In view of the action of the Assembly requesting a reconsideration and vote on the matter of the Nanking Seminary, and

2. In as much as there have been no such changes in connection with Nanking Seminary as to cause us to alter our convictions as expressed at the special Mission Meeting in Chinkiang, Jan. 1924, and

3. In as much as the authoritative bodies of all the other churches cooperating in the conduct of the Seminary have failed to accede to the earnest request of our General Assembly to require the representatives on the Board of Managers of the Seminary to subscribe to the same basis of doctrinal teaching in the

Seminary to which the professors are now required to subscribe, we are convinced that the time has come when the North Kiangsu Mission must sever its connection with Nanking Seminary *as at present constituted*—

Therefore—

Be it resolved that the North Kiangsu Mission hereby notifies the home church, the Executive Committee of Foreign Missions and the Board of Managers of the Nanking Seminary that we will not continue in the union in the Seminary *as now constituted.*

Having heard that efforts are being made by members of the Mid-China Mission to reorganize the Seminary under assured conservative control by Presbyterian bodies, we hereby declare that we will cordially meet such efforts and will be glad to help in any way we can to bring about such a consummation.

With this understanding that we are definitely committeed to the severance of our relations with the Seminary *as it is at present constituted,* we declare ourselves glad to discuss freely the details of reorganization, dissolution or withdrawal at the coming Conference of the two Missions, the matter then to be referred to the two Missions for final and individual action at their next annual meetings.

By this action it is understood that should there be no reoragnization of the present union the matter does not come up again in this Mission for discussion, unless under a motion to reenter the union.

The above was approved by the following vote:
Ayes-Dr. H. M. Woods, Mr. and Mrs. J. R. Graham, Sr. Mr. Caldwell, Rev. and Mrs. J. W. Paxton, Rev. and Mrs. J. B. Woods, Dr. and Mrs. H. W. White, Rev. and Mrs. Wm. F. Junkin, Rev. and Mrs. T. B. Your Committee wishes to report that everything was arranged to hold classes for women to study the Bible at Tsingkiangpu in October of last year, but war conditions made it uncertain up to the last moment as to whether or not the classes could be held. There were too many soldiers traveling around for different ones to feel justified in sending the women on such journeys. We hope, however, to be able to hold a meeting in March of next year at Suchien.

The Montgomery residence Committee reports progress and asks to be continued.

The Hwaian Girls' School Committee reports no progress, asks the name of Miss Woods substituted for Miss Wells, and asks to be continued.

The following resolution was presented by the Committee on the Hancock case:

Your Committee recommends that the following action be communicated to the Executive Committee of Foreign Missions as the reply of the Mission to their inquiry by cable.

While we gladly testify to the fine Christian character of both Mr. and Mrs. Hancock, their love for the Chinese, their long years of self denying work in the service of our Lord, and their devotion to His cause, yet it is the judgment that Mr. Hancock has not the qualities that would fit him for effective service on the foreign field.

Among the limitations to his usefulness, which have been given by members of the Mission who formerly worked with him, we would mention the following:

1. He frequently showed bad judgment in the selection of Chinese assistants.

2. He was much too credulous in trusting them and was too easily imposed upon.

3. His methods of handling funds were not in accord with approved Mission policy. For instance, his accounts were kept in such a way as to make their auditing almost impossible. We do not mean, of course, that there is the slightest reflection on his honesty. His plans of work called for an expensive and sometimes wasteful use of Mission funds.

4. He showed himself to be visionary and lacked sober judgment and was often prone to start new undertakings that he did not carry to completion.

5. He was known to take up judicial cases with the Chinese authorities without the consent of his station.

6. It was very difficult to persuade him to submit to the will of the majority and he did not do good team work.

7. He did not adapt himself nor his family to the living conditions in China and did not take the precautions that most of us find necessary for presercation of health.

8. His knowledge of the language was very limited.

While none of these shortcomings taken singly are sufficient to work against his usefulness to any great extent, and while we recognize that many of us fall short in one or more of the particulars above mentioned, we feel that in Mr. Hancocks case this combination of traits seriously militate against his usefulness in China, although we feel that Mr. Hancock can use his undoubted gifts for preaching and pastoral work to better advantage in the home field than here. It appears that it is on account of the above reasons, plus the fact that Mrs. Hancock has twice before been sent home for health reasons two station where Mr. Hancock formerly worked have declined to invite him to return and the third station where he has labored has a considerable minority opposed to his return.

It has been the custom of our Mission for the majority to yield to the minority in such cases only extending a call, in the interests of harmony, where it is unanimous.

We regret the necessity for bringing forward these reasons, but it was formerly considered that the health reason, which was valid, would be recognized as sufficiently, weighty, and the causes mentioned above were withheld before and after the Hancocks departure, out of a feeling of kindness and for fear of aggravating Mrs. Hancock's ill health,

This is the third time in annual meeting that we have reaffirmed our decision as to the inadvisability of Mr. and Mrs. Hancock's returning to the field. If, however, Mr. Hancock, after considering our frankly stated reasons, still feels aggrieved, he may nominate a representative, to be approved by the Executive Committee, to come and go into the matter fully, or if this still does not satisfy him, and he wishes to appear before us in person to argue his case, we will afford him an opportunity for a full and impartial hearing, which was impossible before, owing to Mr. Hancock's hasty departure.

The above resolution was adopted by a vote of 53 to 6.

Meeting was closed with prayer.

Thursday Afternoon.

Meeting opened with prayer.

Report of Sunday School Committee was read and approved:

On account of two stations failing to report their Sunday School work, it cannot be estimated whether there was any progress or not last year. The Committee would like to report that several stations have found a normal class for teachers most helpful in improving the instruction in the Sunday School. In former years Rally Day has proved helpful in increasing interest and attendance in the Sunday School. Hence the Committee wishes to make the following resolution:

Resolved that November 22nd be set a side as Rally Day in the North Kiangsu Mission and that as far as possible stations cooperate with Presbyteries in observing this day, it being understood that taking part in Rally Day is left to the judgment of each individual missionary.

Committee—Mrs, Lancaster, Chairman, Mrs. Montgomdry, Mr. Talbot.

Resolved that we appoint Messrs Lancaster and McLauchlin a committee of two to bring in recommendations for changes in our Manual.

The Committee for a revised list of salaries of native helpers reports that owing to the economic conditions and the rapid advance in the cost of living, it seems impracticable to present a report. The Committee asks to be continued if it is so desired. Voted that the Committee be continued.

Yencheng Station recommends that Rev. and Mrs. C. H. Smith be permitted to take their furlough beginning in the summer of 1926, in order to avoid conflicting furloughs.

Feeling that the Executive Committee should have all the light that we can give, regarding the Hancock case,

Resolved, that any Station today be given an opportunity to express its desire to have Mr. and Mrs. Hancock work in that Station. Should no such invitation be put on record today, be it resolved that the Executive Committee be informed that at present no station if inviting the Hancocks.

A vote was taken by Yencheng Station, inviting Mr. Hancock to return te the field. The resulting vote was 5 for, and 5 against, while 2 did not vote.

Resolved that the Ad Interim Committee be appointed as a special Committee to change the time and place of next Mission Meeting, should an emergency arise that in their judgment necessitates such a change.

Voted that the next Mission Meeting be at Haichow, June 3, 1926.

Dr. Bell was elected Chairman, and Mr. Armstrong, Vice Chairman.

Minutes of the day read and approved.

After the singing of a hymn and prayer, the Meeting adjourned to meet at Haichow, June 3, 1926, 8 P. M.

Report on Chinese Bible Encyclopedia

The Missions Committee in charge of the publication of the Chinese Bible Encyclopedia respectfully report that the Encyclopedia has been completed and published and the sales have been encouraging beyond our most sanguine expectations. We originally proposed to issue an addition of 4000 copies of four volumes each, but on account of the growing demand found it necessary to enlarge the edition to 6000 copies; of these about 5300 copies have been already sold. We feel grateful to the contributors in our Southern Presbyterian Church and to our Churches Executive Committee of Publication, Richmond Virginia for providing the necessary funds to publish the work, and to all those faithful friends we extend our hearty thanks. Your Committee desire to commend the excellent work done by the Commercial Press in printing the Encyclopedia, and propose sending the Press a letter informing them of our Missions favorable opinion of their work. Owing to several circumstances which it was impossible to forsee and provide against, as fall in exchange, the serious "strike" of laborers in Shanghai, and the greatly increased cost of labor, the total cost of publication is somewhat higher than was estimated at first; but all things considered, the cost of publication is most reasonable. The total, as per bill rendered by the Commercial Press is $26182 Mexican. Payments by Mission treasurer $18000. Balance due the Press $8182. We recommend that the Mission request the Executive Committee of Publication to increase their appropriation to meet the increased cost of publication, and that $15000. Mexican be set aside for a new addition which will probably be required before long. We gratefully thank our Heavenly Father for His loving kindness in helping us over our many difficulties which seemed insurmountable, and in bringing the work to a successful completion, we feel doubly grateful because already many unsolicited assurances have been given us from widely different parts of China testifying to the usefulness of the book. "*Of Him Through Him* and *to Him* are all things; to whom be glory forever and ever Amen."

Respectfully submitted

Report of the Mission Representative on the Bible Teachers Training School for Women.

Your representative attended the meeting of the Board of Managers held April 15th and 16th. Nineteen members were present.

During the summer of 1924 the Foreign Hospital was bought and remodeled to be used as a dormitory, and occupied last autumn. This was done at a cost of nearly $20,000, most of the money coming from the Presbyterians North, and the Friends Boards, who had not previously paid up their allotments.

Attention should be called to a few other points in the printed minutes. $5,240.04 was raised by the Chinese Alumnae, but has been put in the bank as they are hoping to add to it and later build a dormitory.

The Board approved of a plan to put up a new building to be used as music practice rooms and outdoor gymnasium. This money was to be secured from private sources, and not to exceed $3,000 Gold.

Page 8 is the following: "Voted that we request each Mission contributing as a Major Unit, to provide the salary of a Chinese teacher on the basis of $600 Mexican annually.

All were looking forward toward the return of Miss Chen Mei Ing, who has been in the Los Angeles Bible Institute preparing, and who was to return this fall, and begin her work as teacher in the school this September. You will notice that Pastor Chia Yu Ming and Rev. Marcus Ch'en have had invitations extended them to become members of the faculty, as the Board felt the need of strong Chinese men on it. Miss Angy Manning Taylor, a well known Bible Teacher of America, has been invited out for a year to work in the Extension Department and also to teach in the school.

There were 91 students in the institution last year. 42 of these were given diplomas in June, 26 of whom were in the higher course, the Bible Teachers Course. Religious work is carried on by the students, in a number of places is Nanking, include the jail. It is estimated that they come in contact with about 2000 weekly. During the Easter vacation this Spring, a number of the young women students went out fer meetings in girls schools and in the country. As far as I have heard they did very acceptable work. About 19 places were visited in this way, several of which were in our own Mission.

Some of our stations have graduates from this school working as Bible women or teachers. Two are at Haichow, three at Hsuchowfu, one at Tsingkiangpu and one at Chinkiang, a total of seven. There were eight young women from the Southern Presbyterian Mission at the school in the spring and I think more are there now.

We thus see that the school is seving us in very practical ways, and the women who have come from the school seem to have given most satisfactory and valuable service as teachers of the Bible or as Bible women.

Your representative would therefore recommend that we acquiesce in the request of the board and that we appropriate the sum of $500 Mexican yearly as one half of the amount asked from the Major Units for a Chinese teacher.

Report of Committee on Resolutions and Communications

1. Recommended that the Executive Committee of Foreign Missions be requested to pay Dr. H. W. Newman on the basis of regular furlough salary for six months, beginning from May 25th.

2. As to the request ot the Mid China Mission for a joint delegated Conference, we recommend that the Mission first hear the delegation sent from the Mid China Mission, upon this subject, and then proceed to discuss the matter with a view to some action.

3. Your Committee has received the following resolution from Mr. Lancaster: "Resolved that a Committee composed of Rev. F. A. Brown, Dr. Junkin and Dr. Graham be appointed to investigate cooperative plans of Mission work with the Chinese with a view to authorizing the use of an approved plan which may be used by Stations separately, or by the Mission as a whole". We recommend that the Mission hear Mr. Lancaster and that then the plan be discussed and appropriate action be taken.

4. The Hsuchowfu Station presented the following request: "That the North Kingsu Mission extend a call to Dr. L. M. Merrow, M. D. as a short term worker for the period of three years, to go to Hsuchowfu to assist Dr. Grier. It begin understood that the Committee will pay her travel to the United States at the expiration of the three years." We recommend that the request be granted. (not approved)

5. As to the action of the Executive Committee re Dr. Bradley, we recommend that the matter be considered by the Dectors of the Mission in consultation with the Ad Interim Committee.

6. As to the request of the Executive Committee that missionaries refrain from making special appeals in the home Church for objects not included in the regular budget, we recommend that the members of this Mission refrain from making such appeals.

7. As to the cable and communication from the Executive Committee re Mr. and Mrs. Hancock, we recommend that the matter be referred to the following Committee: Dr. Price, Mrs. Harnsberger, Graham, Jr., Dr. White and Mr. Brown.

8. As to the request from the General Assembly as to the interest of the home Church in the progress of the Chinese Church, and their desire that they make still stronger efforts toward self-support, we recommend that the action of the Assembly be placed in the Christian Intelligencer, and that Dr. Woodbridge print a few hundred copies to be sent to the Stations for distribution among the churches.

9, As to action of Assembly re method of preferring charges against fellow missionaries or institutions in which our church participate, Mr. Armstrong later will bring in a recommendation in connection with other resolutions.

10. As to request from Executive Committee that Dr. H. W. White reply to certain charges made against him by Mr. Tewksbury, Bishop Birney, Dr. Hudson and the A. I. Committee of the Mid China Mission and others, we recommend that Dr. White answer these charges before the Mission and send a written copy of same home to the Committee.

11. We recommend that the expense of Associate Workers in the Mission to the Mission Meeting be paid as in the case of full time missionaries.

12. As to the request from Dr. Lowrie that the North Kiangsu Mission release Mr. Taylor for full time work with the Bible Union, we recommend that the Mission reply that it does not see its way clear to comply with this request.

13. Your Committee has read and examined with interest the report of Dr. McMullen, our representative on the Board of the American School. We commend him very highly for his efforts to improve the efficiency of the school, and keep the expenses down. As to getting the kind of Bible instruction

which this Mission wants, we recognize the difficulty. Since it seems most difficult to get this type of instruction through the Board, we recommend that our representative on this Board approach the Board with a view to get their consent to pay half of the salary of a teacher to be recommended by the two Missions. We recommend that the Executive Committee be requested to provide the other half. In case the Board is unable to comply with this request, we recommend that the Committee be asked to provide the entire salary. We also recommend that we ask the Mid China Mission to cooperate with us in this matter, and that one member from each Ad Interim Committee be appointed to take up the matter with the Committee and to locate an acceptable teacher.

14. We recommend that the Mission endorse the action of the Mid China Mission as to suggestions to the Executive Committee with reference to furloughs. See Mid China Mission Minutes, 1925, page 74-5.

15. We recommend that the Mission approve the request of the Mid China Misssion as to the increase in Board and Tuition at the Shanghai American School, i. e., that the Executive Committee be asked to allow Mr. Caldwell to pay one half of the increase from Mission funds.

16. We recommend that the Mission by a standing vote express its genuine appreciation to the members of the Tsingkiangpu Station and Mr. Vinson for the care with which they arranged for the Mission Meeting, for the kind hospitality we have enjoyed in their homes, and the hospital and for the exceptionally splended entertainment afforded us.

Report of Women's Executive Committee.

The women of the Mission met for prayer and conference on Thursay afternoon—the opening day of the Misson meeting, and again on Saturday. One helpful feature of this meeting was the discussion of the reports of Committees who had been appointed to work on subjects connected with women's work.

The committee on salaries gave some valuable suggestions on fixing the salaries of Bible Women.

A plan was also set on foot to develop the women of the churches along the ideals of the Women's Auxiliaries.

The committee on Course of Study suggested to our Women's Conference that all the Stations try the tentative course of study for women. A number of places report that it has been very helpful.

In trying to readjust our organization to fit our new position as active members of the Mission, we recommend that instead of having the two committees, as named in the Mission Minutes, there be only the Woman's Executive Committee which is composed of one member from each Station. The duty of this committee is to call annually, during the time of Mission meeting, an unofficial meeting of the women. The reports of sub-committees, appointed by the Executive Committee, will be received and discussed at this meeting.

We also recommend that the women of the Mission continue to nominate the Women's Exective Committee.

Lena S. Armstrong, Chairman

Report of the Extension Committee.

The Extension Committee has approved plans as follows: Residences for Dr. Patterson at Tenghsien, Mr. Montgomery at Hwaianfu, Mr. Ghiselin at Taichow.

Boys' Schools for Mr. Armstrong at Hsuchowfu and Mr. Vinson at Haichow.

Girls' School for Miss Young—remodelling old Orphanage Dormitory at Hsuchowfu.

McQuire Chapel at Tai Hsing in the Taichow field for Mr. Harnsberger Haichow field chapel built by Mr. McLauchlin. Mr. Smith disapproved as this was built by combining chapel funds, and we wish a ruling of the Mission as to the legality of such action.

I Ling Chapel in the Yencheng field for Mr. Smith.

We would again call the attention of the Mission to the fact that if we are to act as a Committee, and be of any use as a check on building plans, it is useless to say report by wire. We can't get any real concensus of opinion in that way. So, please give time to your Committee to really go into your plans and report back findings to the Chairman who will notify you of any changes desired, and recommendations made. Give us at least a month's time for consideration and report. Perhaps a word of apology is due for long delays this year, but we feel that the mails or lack of such facilities should bear the blame.

A. A. McFadyen, H. W. McCutchan, C. H. Smith.

Minority Report on the Hancock Case.

We dissent from the majority report of the North Kiangsu Mission as to reasons for not inviting Mr. and Mrs. Hancock back to China on the following grounds:

1. They had an invitation from one of the stations of this Mission to return.

2. Leading Chinese Christians desire and are praying for their return.

3. They had given the prime of their life to the work in China, enduring without a murmur the most severe hardships.

4. Mr. Hancock never had an opportunity of answering the criticisms of him.

5. They have strong faith in the Bible and have done good service for the faith in the whole Bible.

6. Looking back over his work we see that Mr. Hancock had certain ideals and worked consistently towards them.

7. Most of the out stations in the West and South Yencheng fields, and some in the Taichow field were opened by Mr. Hancock.

8. By his foresight, when Yencheng Station was struggling for existence, Mr. Hancock provided the missionaries needed.

9. The boys school and girls school of the Yencheng Station were opened and conducted for several years by Mr. and Mrs. Hancock.

10. Mr. Hancock studied finance, and is especially to be commended for using the Mission Money on permanent investments rather than on temporary rentals.

11. Mr. Hancock worked and planned for self support.

12. Mr. Hancock never hesitated becuase of difficulies.

13. Mr. Hancock has indomitable energy.

14. When over-ruled on certain cherished plans we have known Mr. Hancock to submit in the sweetest spirit.

15. Mr. Hancock has used his mechanical gifts to good advantage.

For these reasons we believe Mr. and Mrs. Hancock should be returned to China.

Report of the Ad Interim Committee regarding Cooperation with Mid China Mission.

In response to the communication from the Mid China Mission in regard to cooperation, we recommend the following action:

In view of the generally recognized need for closer cooperation between our two Missions, for the promotion and control of enterprises in which both Missions participate, for the elimination of and misunderstanding, and for the fostering of a fuller fellowship in our common work,

And, in view of our relation to the Home Church and to the Executive Committee of Foreign Missions, who desire that we speak with greater unanimity on questions concerning the whole China field,

And in view of the communication received from the Executive Committee suggesting organization for this purpose,

We, therefore, propose:

1. That we approve the principle of a Conference between the two Missions.

That this Conference be a delegated Conference, and that it be held in Shanghai next February at the close of the East China Educational Conference.

That the number of delegates be approximately in proportion to the number of Missionaries in each Mission, 36 for North Kiangsu and 30 for Mid China.

The 36 from North Kiangsu should be chosen as follows:

Four from each of the eight regular stations, to be selected by the stations concerned,

One each from Tenghsien, Nanking and Shanghai, with the addition of Mr. Caldwell, ex officio.

That the motion of Oct. 2nd, be rescinded and that the next meeting of the North Kiangsu Mission be a full meeting instead of a delegated one.

Whatever permanent organization is ratified by the two Missions is to be representative of stations.

The object of the proposed joint meeting shall be:

(1) Felloship and prayer concerning our common ideals and work.

We suggest that the whole of the first day be given to such devotional conference.

(2) The consideration of questions pertaining to the present Conference Committee, such as:

Location of missionaries,
Retirement rules for missionaries,
Relation of missions to the General Assembly,
Monthly Messenger,
Salaries of missionaries,

and also such questions as:

Relation of new organization to the Executive Committee of Foreign Missions;

Questions concerning union institutions;

Relationship to the Notional Christian Council;

General questions of finance and mission policy.

(3) The discussion of a permanent organization in accordance with. the letter from the Executive Committee of Foreign Missions. Such organization shall deal with such matters of Common interest to both missions as are delegated to it by both missions.

(2) The proposals of this joint delegated meeting shall be submitted to the two missions. The organization agreed upon shall go into effect only after ratification by both missions. No proposal or recommendation of this joint meeting shall be sent home, either officially or pricately until ratified by both missions.

It is understood that the proposed new organization shall not impare the autonomy of either mission, except in such matters as shall be committee to the organization by the two missions.

(3) That the Missions elect Messrs. Paxton, Junkin and J. B. Woods, Sr. as the arrangement committee to act in conjunction with the arrangement committee of the Mid China Mission.

Recommendations Passed.

Be it recommended.

1. That all items for equipment already authorized by the Mission do not require additional reference to the Mission after funds have been received.

2. That the separate sums for equipment mentioned in a letter from Mr. Willis under date of October 23, 1924 be turned over to the individuals or stations for whom they are designated. We recommend further, that the item in this letter of $243.00 designated to "North Kiangsu Mission" be applied to the North Kiangsu College Fund.

3. That the fund of $4000 gold for residence of Jas. R. Graham, Jr., be assigned to Mr. and Mrs. C. H. Smith, the Smith residence having already been turned over to the Grahams.

4. That the Executive Committee approve the use of the money received from the rent of the Sydenstricker residence at Chinkiang to pay for six mou of land bought for the Boys' School, with the approval of our Ad Interim Committee, and that the balance of the rent be used for repairs and alterations as far as needed. The Chinkiang Station is instructed to write a covering letter regarding the matter.

5. That in the statistical reports as printed in the minutes the item in the educational and the medical reports marked "native contributions" be changed to read "Income from Native Sources". This change does away with ambiguity, and conforms to the Assembly's Minutes.

6. (a) That all members having Mission property in their care shall each year so arrange their appropriation as to provide an adequate sum for reparis, and that they be very careful in making necessary repairs each year.

6. (b) That in answer to letters received from Mr. Willis regarding unused balances of funds for residences that have been built in North Kiangsu Mission : We recommend that all such unused funds be transferred to residence funds in our mission where such funds are less than the approved amount for residences and not be held by the Treasurer of the Executive Committee for future repair accounts. The established custom of the Mission is that apropriations for repairs are made annually and we think that this plan should be continued.

7. That we approve the use of $400 found under Miss Dunlap's name in the Sutsien Station being paid to Miss Dunlap at the Chinkiang Station for the current year, it being understood that this is not establishing a precedent, and that this sum will next year revert to Sutsien for Miss Dunlap's successor.

8. That the Mission approve Mr. Crenshaw's request to Mr. Willis for $302.25 to pay extra expenses of Mr. Crenshaw and family in connection with their refugeeing in Shanghai in June of this year.

9. That in regard to the $1,205 mentioned by Mr. Willis for equipment under the head "Chinese Chapels", we recommend, *First*, that our Committee Chairman write a letter to Mr. Willis to findif this sum is undesignated ; *Second*, that the first chapel ($500 Gold) be assigned to Chinkiang ; *Third*, that the second chapel be assigned to Mr. Graham in the Tsingkiangpu field ; Fourth, that the reminaing $205 be given to the Yencheng Chapel Fund.

10. That Mr. H. W. White be allowed use of a special gift of $300 marked "Chapels" for his annual Bible Classes, Mr. Willis having already been acquainted with the wishes of the donor, and having given his consent.

12. We recommend that our Treasurer pay to the Tsingkiangpu Station and Mr. Vinson, $1.50 per day for each adult member and $1,00 per day for each child over 18 months, and that these amounts be charged to the salary account of missionaries involved. and that all other expenses in connection with the Mission Meeting be paid by the Treasurer upon presentation of the account.

Dunring session of Annual Mission Meeting, October 1925.

In regard to communications from Dr. Sydenstricker, the following was passed:

Resolved that in answer to certain communications in regard to the Chinkiang Station from Dr. Sydenstricker, we recommend that the Mission appoint Messrs. Graham, Sr., Smith, and Montgomery to meet with the Chinkiang Station and Dr. Sydenstricker, as soon as possible, to review the matters involved; at the same time requesting all present to sign any findings and agreements of the meeting and report to the next meeting of the N. K. Mission.

It is recommended that, in case Mr. Wayland does not return to China to resume charge of the Tsingkiangpu Boys' School next year, after his regular furlough, the Mission agree to endeavor to make an arrangement to relieve Mr. Taylor of educational work at that time and thus allow him to enter the evangelistic work, whether by exchange, allocation of newly arrived worker, or otherwise.

Recommended that the Mission request the Executive Committee to send Miss Mary Caldwell to Taichow as soon as possible to fill the urgent need for a nures in the Sarah Walkup Hospital.

The Mission would respectfully call the attention of the Executive Committee to the fact that the call for anurse at Taichow was approved several years ago, and that this station has been waiting for Miss Caldwell for several years. (Of course this matter comes before the Conference Committee)

Recommended that the request of Dr. & Mrs Crenshaw to take their furlough in November of this year be granted.

In response to a protest from Sutsien concerning proposed transfer of Dr. J. B. Woods, Jr., and a letter from Dr. Reavis, regarding Dr. Bradley's ill health and his probable early return to China and saying that the Executive Committee requests that some arrangement be made by which an associate Doctor already on the field can be given Dr. Bradley, it is recommended:

That Dr. Bradley be advised to locate temporarily at Haichow, and that Dr. Casper L. Woodbridge be advised to remove temporarily to Sutsien; also that Mr. Junkin be requested to write to Dr. Bradley and to the Executive Committee about this action.

Recommended that the Mission take note of the coming furlough of Dr. and Mr. J. B. Woods, Sr., and the necessity of providing an additional Doctor for the work at Tsingkiangpu.

Recommended that Dr. and Mrs. Henry M. Woods be permitted to take their furlough this year. and that they be requested to reutrn to China and that Dr. Woods engage in literary work.

Recommended that $125 Gold be paid Miss Merrell, at the end of her term, toward her furlough expenses.

Moved that the following Mission action be forward to Dallas Presbytery, the Standing Committee and the Executive Committee of Foreign Missions:

The last General Assembly had before it this Overture: "The Presbytery of Dallas has heard with deep and sincere regret the distressing conditions existing in our Foreign Mission work. While we must willingly grant all possible influence from war in China and the anti-American feeling in Japan, we do not feel that these conditions furnish an adequate explanation for the sad reduction in converts and offerings, together with the large increase in our existing deficit. The conviction is widespread through our Church that there is an entirely too willing tolerance with Modernism which has invaded the Missionary forces, and our people are holding back their offerings until this

condition shall be relieved. Modernism never can win souls to Christ, and if we would be fruitful witnesses for Him we must cleanse our borders of every appearance of this evil. The Presbytery of Dallas would, therefore, respectfully overture the General Assembly to appoint a Committee whose duty it shall be to make a thorough investigation of our Foreign Mission work, both at home and abroad, and the entire findings of the Committee shall be given to the Church at large."

The Standing Committee of Foreign Missions, on the basis of this overture, made the following recommendation which was passed by the General Assembly: "Inasmuch as charges of unsoundness in doctrine among the ranks of our Missionaries has been made in an overture from Dallas, Presbytery an a representative from that Presbytery before your Standing Committee reiterates the charge and declares he has proof of the same, we therefore recommend that the attention of the Executive Committee of Foreign Missions be called to this fact and they be directed to investigate this charge and, if necessary, report the case or cases to the Church courts having jurisdiction over the parties involved".

As to this Overture and the Assembly's action, the North Kiangsu Mission in China wishes to make the following statements:

I. The Overture in referring to the statistics of the year of 1923-4, speaks of "the sad reduction in converts and offerings" in China, and Japan. The statistics for that year show that there was not only no "sad reduction", either in "Converts" or "offerings", but an incerase in both. The facts are as follows:

	Converts	offerings
1922-3	878	$68,747.90
1923-4	920	83,773.66

(the offerings are given in Mexican)

II. Inasmuch as "charges of unsoundness in doctrine" on the part of Missionaries have been made, the North Kiangsu Mission desires to say that we know of no member of this Mission who holds unsound views in doctrine. However, we gladly welcome investigation.

III. As to the method of preferring charges, this Mission desires to record its unqualified approval of the last Assembly, which was as follows: "Missionaries who have what they consider well founded charges affecting the conduct or orthodoxy

of fellow missionaries or of institutions for whose management our Church is responsible, in whole or in part, should bring such charges before the Mission directly concerned, or before the Executive Committee of Foreign Missions, or before the proper courts, in order that these charges may be thoroughly investigated in an orderly manner, their truth or falsity determined, and appropriate action taken". The North Kiangsu instructs its members to adhere strictly to this action. This Mission would like to see the same proceedure followed by individuals or Presbyteries at home, when wishing to make charges against the members of this Mission.

The Mission also heartily approves the following action of the Executive Committee at their meeting in June: "We recommend that the same regulation the General Assembly passed for the direction of our missionaries be accepted for the direction of the members of our Committee and of our officers, both as to criticism of persons or institutions accused of unorthodoxy and as to endorsement of those that are under criticism.

REPORT OF COMMITTEE ON RESOLUTIONS AND COMMUNICATIONS.

1. We approve the special furlough regulations which are to be inserted in the Executive Committee Manual for 1922, page 20, after fifth paragraph, which are as follows:
   (1) As far as practicable, both new and returning missionaries should be sent out so as to reach the field soon after Sept. first, and not later than Sept. 30th.
   (2) Single ladies arriving on the field not later than Sept. 30th shall be allowed to leave on furlough not earlier than five years from the previous July first.
   (3) Single ladies arriving on the field later than Sept. 30th shall be allowed to leave on furlough not earlier than five years from June first of the succeeding year.
   (4) Married couples and single men arriving on the field not later than Dec. 31st shall be allowed to leave on furlough not earlier than seven years from the previous July first.
   (5) Married couples and single men arriving on the field later than Dec. 31st shall be allowed to leave on furlough not earlier than seven years from the succeeding June first.

Voted, that the Mission reaffirm its former action in regard to the furloughs of doctors, whereby, when in the judgment of the mission it is for the best interest of the medical work, a doctor may be permitted to take a six months furlough, exclusive of time of travel, after five years' service on the field.

2. We receive as information the audit of the account of the North Kiangsu Mission in account with the Associated Missions Treasurers, and recommend that it be recorded in the minutes.

3. *Re* communication from the synod of North China, explaining its action in unanimously voting against entering the new Church Union on the proposed basis of union (doctrinal), it is recommended that we receive this as information and that it be placed in the appendix of the minutes for purposes of reference.

4. *Re* communications concerning the Peking Language School. Recommended that it be received as information.

5. *Re* printing, etc. of the Bible Encyclopedia. We recommend that it b ereceived as information, and that no action is required.

6. Your committee has received a note from Dr. S. I. Woodbridge, requesting that the mission appoint him as a missionary at large; but since he does not go into details as to what he means, and your committee is not entirely clear as to his meaning, we recommend that we defer action until next mission meeting, when we can have more light on the subject.

7. *Re* Mr. Willis' inquiry as to our judgment on the subject of the Executive Committee assisting in rebuilding the Mateer Memorial Institute Building which was destroyed by fire. We recommend that we refer this to the Committee on North Kiangsu Mission College or await action on its report.

8. In regard to the communication from Mr. Willis re drawing equipment funds, we recommend that the treasurer pay these funds at the station's request, or at the request of the building committee concerned after plans have been approved by the extension committee.

9. In answer to the letter of Mr. Willis of Feb. 22nd, 1926, with reference to the call for equipment funds at home, we recommend that the call for all equipment funds, approved in Mexican dollars, be presented to the home Church in gold dollars a tthe average rate of exchange obtaining for the last five years.

9. *Re* the Executive Committee not sending out reinforcements during the year from April, 1926, to March, 1927, we recommend that the Mission express its regret that the Executive Committee found it necessary to take such action, and urge the reconsideration of this matter, and if possible the sending of recruits this year.

10. We recommend that our Secretary (Pro Tem.) express our sympathy to Mr. Caldwell, and the assurance of our prayers for his speedy recovery.

11. *Re* the letters from Dr. Latham and from Dr. Smith in reference to the Hancock matter, since the Executive Committee has taken final action in the matter, we recommend that the Mission take no further action.

12. *Re* the Mid China Mission's request that the Lancasters be transferred to the Mid China Mission, with a view to continuing work in the Seminary in Nanking, we recommend that since our relation with the Nanking Seminary does not terminate until the spring of 1927, we defer action on this request until the next mission meeting. It is the earnest hope of this Mission that Mr. and Mrs. Lancaster continue in the Mission; however, should Mr. and Mrs. Lancaster later request their transfer, we signify our intention to ask for workers in exchange for them.

13. *Re* the recommendation of the Executive Committee that we make changes in our rules for deciding whether or not a missionary should be asked to return to the Mission after a furlough, we recommend, that we retain the old plan as found in our minutes for 1921, pages 66 and 67 (second line from top), through the clause ending "return from furlough," and that from that point the rule read, "The Personnel Committee shall then report to the Mission the action of the Station, and the Mission shall vote on the question of whether or not the missionary shall be invited to return after his or her furlough, the names of those thus invited being recorded in the minutes.

(2) In case a majority of the votes thus cast are against the return of the missionary, he shall be given a written statement of the ground of the adverse vote (see manual, section 43) and a hearing on his own behalf before the mission, after which a second vote shall be taken.

(3) Should this second vote be adverse, the figures both of the first and second votes, pro and con, and a statement of the Mission's grounds for not desiring the missionary's return shall be forwarded to the Executive Committee for its decision in the matter.

(4) In case a missionary is given an emergency furlough for illness or other reasons, then at the next Annual Meeting (unless ill health or other reasons has made his detention in the homeland permanent or probable, in which case the Mission may vote or postpone voting as it deems best) the Mission shall vote on the matter of his return, and in case the vote is adverse, shall forward the figures of the vote, together with the statement of grounds for recall to the missionary concerned, and to the Executive Committee, which before deciding the matter shall send the missionary

back to his Mission, if he so desires, to be heard in his own behalf before the second vote is taken, as provided in paragraph (2) above.

14. We recommend that the Mission by a standing vote express its hearty appreciation to the members of the Haichow Station for the care with which they arranged for the Mission Meeting, for the kind hospitality we have enjoyed in their homes and in the Boys' School, and for the excellent provision for our every comfort.
15. In regard to the inquiry from Mr. Willis as to the judgment of the North Kiangsu Mission on the matter of the Committee in Nashville assisting in the rebuilding of the building of the Mateer Memorial Institute, destroyed by fire in August 1925, we reply that at this time we do not recommend that the Executive Committee assist in the matter of rebuilding.
16. We recommend that Dr. Morgan be asked to write a letter in Chinese expressing to General Bei Bao Shan the appreciation of the North Kiangsu Mission for his very complete provision for our safety in travel, his cordial welcome shown by meeting us at boats and trains, and appearing in person at our first meeting, and his splendid hospitality in inviting us to dine with him in his beautiful seaside palace.
17. We recommend also that Dr. Morgan have a letter written in Chinese to the gentry of Haichow, expressing our cordial appreciation of their hospitality.
18. We recommend that the Mission express its gratitude to the Chairman, and to Mr. Bear, Mr. McLauchlin, and Mrs. Hewett, for their efficient work during Mission Meeting.

REPORT OF LAST YEAR'S PERSONNEL COMMITTEE.

The Personnel Committee makes the following report re the matters referred to them concerning the outstanding indebtedness of Rev. Chas. Ghiselin in China.

Your Committee wrote to Mr. Ghiselin and to the Executive Committee and has received replies from both. The Executive Committee did not deem it wise to pay the outstanding debts, but took the matter up with Mr. Ghiselin. Mr. Ghiselin verified the correctness of most of the debts; expressed his sorrow for the delay in paying them; promised to pay them as soon as possible, and since his return to America has made several substantial payments on some of them.

The Executive Committee has recently written the Taichow Station instructing them to write a letter and tell them about the financial habits of Mr. Ghiselin at Taichow. The Executive Committee has requested Mr. Ghiselin to meet them at their August meeting.

Mrs. N. D. Junkin, for Committee.

RECOMMENDATIONS OF THE EXAMINING COMMITTEE

We recommend:—

1. That those, already reported as not having finished their required work on language, be allowed to vote at this meeting and up to August 31 as sufficient excuses have been presented.

2. That hereafter it shall be the responsibility of each station to see that its language students take the necessary time for their language work.

3. That those failing to finish the course in the required time lose their vote until they have fulfilled the requirements.

4. In the case of married women, that the rule apply only to those who came to the field in 1923 and after, for the following reasons; because of previous lack of enforcement of this rule, and the fact that the power of voting was only given in 1924, and because married women have taken up a large share of work. But we urge that all finish the Course before their first furlough.

5. That the reports for next year's work be in the hands of the Examining Committee before next Mission Meeting.

6. That the report of the Examining Committee be read, each year, immediately after roll call in order to determine the voting privilege of students of the Language Course.

7. That the printed leaflets containing Course of Study and explanation of credits etc., be handed to all new missionaries as well as to those already on the field, who come under the rule, and that each station secretary keep a supply on hand.

8. That in the directory shall be also printed the names of the Station Examiners appointed by the Examining Committee.

N. D. Junkin, for Committee.

ADDITIONAL RECOMMENDATIONS OF EXAMINING COMMITTEE

We recommend:—

That, as regards language study requirements, the North Kiangsu Mission include its doctors and nurses in the rule made for evangelists and educational workers (in 1924): that those who have been on the field five years without completing the prescribed three years language study must be referred to the Mission for action. (1924 minutes, page 16).

N. D. Junkin, for Committee.

REPORT OF THE COMMITTEE ON PERSONAL REPORTS

Resolved—That hereafter the secretary of each station bring or send to the Annual Mission Meeting, to be given to the Annual Report Committee a typewritten paper (in duplicate) of from 2,000 to 3,000 words, embodying and editing the personal reports of that station.

Further, that each station be allowed one half-hour period in which to present their work inspirationally. Tenghsien, Nanking and Shanghai should be allowed 10 minutes each for presenting their personal reports. We request the arrangements Committee to see that the periods for presenting these reports shall all fall within the first three days of the Mission Meeting.

EXTENSION COMMITTEE REPORT

Suchowfu, Ku
May 18th, 1926.

Dear Brethren,

Very little work has come before the Extension Committee since last Mission Meeting. There has been a lull in building activity. And no questions involving comity with other Missions have arisen.

Plans have been approved for new buildings as follows:

Chinese Chapel and Residence for Rev. F. A. Brown, Hsiao Hsien.

Women's School in Haichow city, and Chapel at Hsugou in Haichow field for Mr. McLauchlin.

Four Chinese Rooms Sutsien Girls' School. Miss Bailey.

South Gate Church at Hsuchowfu. Plans submitted. Mr. Armstrong.

Administration building, Chinkiang Boys' School on plans submitted by Mr. Farrior.

The last two of the above to be built according to plans and specifications furnished by Mr. Wilson or other Architect.

Respectfully submitted,
Signed) A. A. McFadyen.

Added. Country Chapel, Yencheng field, at Tongkan. Approved by R. B. Price and Vinson.

COMMITTEE ON CONFERRING WITH CHINKIANG STATION AND REV. A. SYDENSTRICKER IN REGARD TO THE HANDING OVER OF THE BAOYEN FIELD TO THE METHODISTS

The Committee met in February in Chinkiang, consulted with some of the Chinese leaders in Chinkiang, examined all the data which had been gathered on the subject from the Station Minutes, and the Kiang-an Presbytery; Also had a long conference with Mr. Dodd, the representative of the Methodist work in Chinkiang, gave a careful study to the map of the section of the field under discussion—then asked Dr. Sydenstricker to confer with us and to state fully his views and his complaints. He did so, and with Mr. Dodd present and the map before us, we took up each of his complaints and found that they were not well-grounded. Dr. Sydenstricker's chief ground of complaint was that the Chinkiang Station had left 8 Stations in that field uncared for. It developed in the enquiry we made that the Methodists now have Chapels either in the same places or very nearly, and that there is no difficulty about our members and enquirers attending if they will do so, and in most of the points they are doing so. In the city of Baoyen there has been a split in the Presbyterian constituency, and many of the constituecy are unwilling as yet to attend, but there no good reason why they should not eventually do so if time is given for the differences to be healed over. It was decided to ask the Chinkiang Station to put a good man in the city for a year, who was to use his influence to heal the differences, and urge the people to accept the arrangement, and that a letter be sent to the field signed by this Committee and Dr. Sydenstricker, telling them of this decision. Dr. Sydenstricker cheerfully (apparently) approved of this finding. The letter was written, Dr. Sydenstricker signed it, a copy sent to the Synod and to Kiangan Presbytery, and the Committee adjourned.

Report of the Representative to the Bible Teachers Training School.

This year's Board Meeting was marked by an evident desire to put increasing responsibility upon the Chinese. Two important offices were filled by Chinese—that of Vice-chairman of the Board and the Chairmanship of the Executive Committee. All motions and important speeches were interpreted into Chinese. It was most promising for the future to see how very conservative the Chinese members of the Board were. They were most anxious that the spiritual tone of the school be kept up, the spiritual life of the students emphasized, the strictly Bible courses undiminished, the books for the Library selected with greatest care, and the preachers be listened to with discretion.

The enrollment this year was 111, the Methodists North leading with 14 students, C. I. M. and Presbyterian North next, with 13 each. We were in the third group with Methodists South, and Southern Baptists, 8 each. Of 178 graduates, 163 are employed in active work scattered over 16 provinces. 93 are in direct evangelistic work, 32 are teachers in Bible schools and 30 are teachers in girls' schools.

During the year, though so disturbed, several evangelistic trips have been made by senior students. In these trips they seem to have done a great deal of good work and gained much under experienced direction. All the students have regular practice work in various places in Nanking directed by Miss Mellor. There was some discussion as to how much time should be given to Religious Education, Child Psychology and Pedagogy. As it now stands, 2 hours are required in the first year, elective work is given in the second, and a further course is offered for a third year for any desiring to spend more time on this line of study. It was decided that this was ample.

The faculty remains largely the same. The Stewart Evangelistic Fund enabled us to have two whom otherwise we could not have had —Miss Chapman and Miss Taylor. Miss Chapman has done admirable work in training students in music, especially to sing in Chinese, and to sing Chinese tunes. Miss Angy Manning Taylor, an experienced Bible Teacher from America who has done a good deal of Bible teaching in our own Church at home, came out last autumn and has been giving the School regular teaching each day, and also some general work in Bible for outside teachers and Bible workers in the city. Miss Taylor's presence has enabled two members of the faculty, Miss Parmenter and Miss Chiao, to give, each, a quarter of her time to evangelistic work in various other places. Several members of the faculty have definite time set aside in their schedule for personal work in interviews with students. Rev. Chia Yu-ming has been teaching this spring in the school, and it is hoped that he will be able to give half of each year to the school. The increase in the number of pupils makes it desirable that there may be additions to the faculty during the year.

A residence for Rev. Chia Yu-ming is being built, and another teacher's residence has been authorized. A new Dining Hall was approved, and the Music Room and Gymnasium approved last year, but not built, are to be built when funds are in hand. Several Missions have not paid in their money on Equipment Fund, our own being one that has $5,000 outstanding. When all of this money is in hand, the Executive Committee is instructed to authorize the building of a new dormitory, which will supply the additional room needed for normal growth. The Chinese Committee has on hand over $7,000, but hopes to raise $20,000 and build a dormitory. A Library Fund is to be started in memory of Miss Esther Butler, one of the

founders of the school. This is to be housed in the Administration Building. The present Library is to be greatly increased, and worthwhile books, both in Chinese and English, added, though great care is to be exercised in the selection of books. The current expense account closes with a very small Margin—$10.77. Next year board is to be increased $10 a year on account of the increased cost of food.

The equipment fund required of each major unit is $15,000. Five thousand of this has been paid, leaving still due $10,000. Our share would be $5,000. Your representative would recommend that we urge our Committee to appropriate our share of the Equipment Fund, $5,000, our half for running expenses $400, and the half asked for and granted last year, $300 toward the support of a teacher.

(Signed) Una Hall Paxton.

REPORT OF REPRESENTATIVES ON MATEER MEMORIAL INSTITUTION.

Your representatives attended the meeting of the Board of Directors of the Mateer Memorial Institute held in Tenghsien, May 6-7, 1926..

We heard with pleasure the report of the acting principal, Rev. B.C. Patterson, D.D., of the good work that had been done during the year in spite of very great difficulties brought about by the burning of the main building of the Mateer Memorial Institute. Your representatives greatly deplore the decrease in the number of students taking the Bible Course, and we hope and pray that the Lord of the harvest will call out many others who have a real passion for souls, and who will take the training which will prepare them for great usefulness.

There was much discussion of various plans looking to the future of the work, but it was impossible to make any definite plans because of the fact that the school is not able to accommodate any larger number of students than were enrolled last year.

In the minds of all the representatives there was a deep sense of appreciation of the help given to the school by North China Theological Seminary, in its loan of a part of its buildings.

Wm. F. Junkin.

MANUAL COMMITTEE.

Inasmuch as a number of questions are under consideration which will affect the Manual of the Mission, the Committee appointed to bring in recommendations for changes in the Manual, asks to be continued and requests that an additional Member of the Committee be appointed by the Chairman.

L. H. Lancaster, Chairman.

NANKING SEMINARY BOARD REPORT

The Mission's Representative on the Nanking Seminary Board reports that he did not attend the regular meeting of the Board, but wrote a letter to the Chairman of the Board stating the action taken at the last Annual Meeting.

Wm. F. Junkin.

THE NORTH CHINA SEMINARY.

The North China Theological Seminary has had a very successful year. There were 101 students in the Seminary proper, and 35 from the Women's Bible School in attendance on classes. There were only nine graduates, but fifty in the entering class. The student body is drawn from many provinces in China and from Korea.

The faculty nad students have been kept in health and protected in the midst of many dangers. We are grateful for all these things, and hopeful for the future of the Seminary.. Your Committee has been much encouraged over the earnestness of the students in study and in the strong spirit of prayer.

One of the Chinese teachers, Rev. Li Yien T'ing, who has been supported by the Independent Church of Tsinanfu, has resigned to become pastor of that Church. Another teacher of ability and consecration has been secured to take his place, and funds are in hand to pay his salary.

REPRESENTATIVE MISSION MEETING FOR 1926.

Proposals of Committee.

No. 1. Three members from each station, Shanghai, Nanking and Tenghsien to count as one station. Nine stations. 27 Members in all.

No. 2 Each station to elect its delegates in any way that seems best.

No. 3. The secretary of the Mission to be a member, ex-officio, of the delegated meeting. If not regularly elected as a member he shall have no vote.

No. 4. The chairman to be elected by the 1925 Mission Meeting and to become, automatically, one of the three members from his station.

No. 5. If desired the station may instruct its delegates. To this end all important questions and relative information shall be referred to the Mission secretary early enough for him to place such in the hands of the stations at least six weeks before the delegates leave home for their meeting.

No. 6. The place of the meeting to be decided on by the 1925 Mission Meeting but to be at one of the regular Mission Stations.

No. 7. Time suggested is during the first week of June, 1926.

No. 8. All committees to report by letter to the delegated Mission Meeting. The chairman of the A. I. C. to be a member, ex-officio, of the meeting but without a vote unless he be one of the regular delegates from his station.

No. 9. Personal reports to be combined into one document, carefully typewritten and sent as a station report to the delegated meeting.

SYNOD OF NORTH CHINA ON ASSEMBLY'S UNION SCHEME

June 2nd, 1926.

The Synod of North China, representing over 23,000 communicants, at its meeting at Tenghsien last month, unanimously voted against entering the Union Church on the proposed basis of union. The reasons given were:—

1. There were many things in both the Creedal Statement and the Constitution which were far from satisfactory.

2. They felt they were fairly representing the attitude of their presbyteries in taking this stand, as four of their presbyteries had unanimously rejected the basis, another had favoured it with distinct stipulations and with the remaining presbytery had declared their determination to follow the Synod's lead in the matter of entering the Union.

The Synod also voted that they could not accepted as accurate the announcement of the carrying of the overture by a 2/3 vote of the prebyteries as given by the Ex. Com. of General Assembly and cited the instance of the above mentioned presbytery in Shantung which, though it had plainly voted with stipulations, had been counted in the affirmative.

The Synod also protested against the delegates of presbyteries which had already withdrawn from the Presbyterian Church being seated as voters in our General Assembly, as was done at last meeting.

It is hoped that the presbyteries in the fields of the Southern Presbyterian Missions will continue to stand by the Synod of North China in the firm stand it is taking against what it cannot but regard as a dangerously liberal basis of union.

Sincerely,

Albert B. Dodd.

THE CHINKIANG AGENCY

Since the last Mission Meeting the Agency Committee has added to the kitchen and tableware a few articles, and has put elecrtic lights

in part of the rooms, and hopes to wire the others in the near future. We would be very glad to have suggestions as to what may be done to make the rest house more useable.

We recommend that our present arrangements be continued with the C. I. M. and Foo Chang.

J. E. Bear,
Hazel Mathes.

1. Recommended that our two Missions concur in the action of the North Brazil Mission, as follows—"That the Mission recommend to the Executive Committee that a ruling be adopted requiring a young missionary going home on his first furlough, to bring with him a statement from his Mission as to what kind of work he is best fitted for and what course of study he should take while in the homeland."

2. Recommended in reply to the Executive Committee's letter of October 7, 1925, asking for views re use of furlough, that wherever possible a missionary on furlough should devote a part of his time to study.

3. Voted to refer communication from Dr. Reavis re location of Miss Mary Caldwell, to the Joint Conference Committee.

4. Recommended that our two Missions lay special emphasis upon the adequate staffing of the North Kiangsu field, having due regard for the maintenance of existing work in Mid-China, and to this end we recommend to the Joint Conference Committee.

(*a*) That of the next five male evangelists to come to the field, one be sent to Mid-China and four to North Kiangsu.

(*b*) That we consider for the present the two Missions have claims in proportion to the number of their stations, for the assignment of new lady evangelistic workers.

(*c*) That until there are three doctors in Tsingkiangpu and Hwaian fields, and two doctors at each other hospital in North Kiangsu, all doctors coming out on regular appointment go to North Kiangsu, excepting a possible psychiatrist for Soochow, and unless vacancies occur in Mid-China.

5. Recommended to the Joint Conference Committee the policy that in the allocating of missionaries, the supplying of vacancies does not necessary take the precedence of supplying other vital needs, but each case should be settled on its own merits.

6. Recommended to refer the allocating of nurses and of teachers to the Joint Conference Committee without recommendation.

7. In reply to a communication from Rev. L. L. Little regarding length of summer vacation, recommended that in view of the fact that we already have a six-weeks rule for vacations in each Mission we consider no further action necessary.

8. Recommended that we do not consider this a suitable time to take up the matter of relative appropriation of the two Missions.

9. Recommended that we reaffirm the action already taken by the Missions in regard to retiring rules for missionaries.

10. That the secretary be authorized to have 300 copies of the minutes printed for distribution to the members of the two Missions.

(*a*) We recommend that Dr. Price be asked to continue as Editor, of the Monthly Messenger.

(*b*) That Miss Bradley be asked to continue as Secretary and Treasurer.

(*c*) That each station elect one representative to be known as Station Editor. The combined Station Editors shall form the Editorial Board.

(*d*) That the Editor be authorized to coopt such additional help as he shall find necessary.

(*e*) We earnestly urge all the missionaries to subscribe to the "Monthly Messenger" and to assist in the gathering and sending in of news.

Recommended (*a*) that celebrations of tne 60th Anniversary of our Mission work be held in each Mission, and in each station in conjunction with the Chinese.

(*b*) That it be suggested to the Executive Committee that a suitable celebration be held in the home Church.

(*c*) That a Committee of six be appointed who shall prepare programs in English and Chinese for the field celebrations, and also compile material for the use of the home Church.

Committee—Dr. P. F. Price, Dr. R. J. McMullen, Dr. L. Nelson Bell, Rev. J. W. Paxton, Mrs. W. C. McLauchlin, Rev. L. L. Little.

(Not referred but taken up on Committee's own initiation).

While affirming our conviction that it is desirable to register our schools with the Chinese Govrenment as soon as proper conditions of registration can be obtained, we recommend that our schools do not register under the present regulations.

REGULATIONS

1. Any institution of whatever grade established by funds contributed from foreigners, if it carries on its work according to the regulations governing various grades of institutions as promulgated by the Ministry of Education, will be allowed to make application for recognition at the office of the proper educational authorities of the Government according to the regulations as promulgated by the Ministry of Education concerning the application for recognition on the part of all educational institutions.

2. Such an institution should prefix to its official name the term "szu lih" (privately established).

3. The president or principal of such an institution should be a Chinese. If the president or principal has hitherto been a foreigner then there must be a Chinese vice-president, who shall represent the institution in applying for recognition.

4. If the institution has a board of managers more than half of the members of the board must be Chinese.

5. The institution shall not have as its purpose the propagation of religion.

6. The curriculum of such an institution should conform to the standards set by the Ministry of Education. It shall not include religious courses among the required subjects.

16. Voted to receive the report on Shanghai American School as information and commend Dr. McMullen in his efforts on behalf of Bible study in the school.

17. Recommended in reply to the Executive Committee's communication of Nov. 30th regarding extraterritoriality privileges and the toleration clauses, we as a body of Southern Presbyterian missionaries do not feel it advisable to make any deliverance on this subject. At the same time we express our confidence that China and the other Powers will arrive at an equitable agreement.

"And the Mission further renews its recommendation of Dr. C. H. Fenn to succeed the late Dr. S. I. Woodbridge as the missionary editor of the paper.

REPORTS OF COMMITTEES.

Committee on Plan for Autonomy in Evangelistic Work.

Premable.—The present upheaval, which has seriously affected all the work in the North Kiangsu field, presents an unparalleled and God-given opportunity to make fundamental changes in the policy of our work.

Therefore, be it resolved:—

1. That all evangelistic workers, (preachers and Bible-women), except those noted in article 2, below, must be wholly supported by the Chinese constituency.

2. That each Evangelistic Missionary may select one or more (not more than four), workers to be his or her co-workers; to be not the workers at any one outstation in the field, but to go all over the field, preaching and teaching Bible Classes and distributing the Word of God and disseminating Christian literature, with the aim of developing groups of Christians at point after point in the field, who shall be able and willing to call their own preachers.

3. That strong efforts be made to get groups of churches to call preachers even where the man has to divide his time between as many as six churches; the arrangement being that each church pay on the salary of the preacher an amount in proportion to the time he is assigned to that church.

4. That this plan be put into force completely, at least by September, 1931.

5. That during the years of adjustment, before this plan is put into full operation, those stations which desire it may use the transitional plan outlined below, it being understood that if they do not adopt this second plan during the transitional period, they do adopt and put into effective operation the plan as outlined above.

The Transitional Plan.

1. Where a single congregation, or a group of two or more congregations served by one man, has as many as two

hundred communicants, this local Chinese congregation or group must pay in full the salary and traveling expenses of the preacher and all other current expenses.

2. Where a single congregation or a group of two or more congregations served by one man, has as many as one hundred communicants, this local Chinese congregation or group, must give at least one half of the salary and traveling expenses of the preacher, and must furnish all other current expenses.

3. Where the member is fifty or more, the local Chinese congregation or group must give at least one-fifth of the salary and traveling expenses, and must furnish all other current expenses.

4. Where the membership is as many as twenty-five, with only one place of worship, the local Chinese congregation must give at least one-tenth of the salary and traveling expenses, and all other current expenses.

5. Where the membership of a given congregation or group served by one man, is between the numbers mentioned in the above articles, the amount of salary and traveling expenses given by the Chinese constituency should be in accordance with the ratio indicated by these numbers.

6. Where the membership is only twenty-five or less, and is scattered, worshiping at two or more points, or where the membership is less than fifty, and worshiping at four or more points, the amount demanded from the Chinese Constituency is left to the discretion of the Evangelist in charge.

7. In cases where it is necessary for one man to serve two or more points widely separated, eight or more miles apart, special grants may be made for itineration.

8. It is clearly understood:—

(1) That where congregations or groups of congregations are already giving more to the support of their work than this scheme contemplates, such congregations or groups should be held to their present standard, or led to even larger giving. The putting of this plan into operation should, in no case, allow a congregation or group to fall backward in their giving under the cloak of falling in with the plan.

(2) Those stations which use this interim plan, should try to put it into full operation at least by the summer of 1928.

(3) In cases where the rules of this interim plan are not complied with, the evangelist in charge should promise only occasional service by an employee of the Mission.

(4) In cases in which, for special reasons, it is thought that the rules might be waved, the matter must be brought up to the mission for consideration and action.

9. Unless it be at some strategic point, the Mission refuses in the future to rent or lease property for the use of out-station congregations or schools, and in no case must this be done without first obtaining the consent of the Mission. At the end of the four year period all rented property must be given up, except that which the Mission takes up on its merits and allows.

10. When the field served by a Chinese preacher is new, or the church-membership of the whole field this man is serving is less than one hundred, and it seems necessary to do so, Mission funds may be used to rent or lease property for the home of this preacher and his family.

COMMITTEE ON PRINTING.

Voted: to request the Mission to appoint Messrs. H. M. White, A. A. Talbot, and M. A. Hopkins, a committee to put this report into Chinese and have two hundred Chinese-English and five thousand Chinese copies printed.

Report on Shantung Christian University.

As substitute for Dr. Bell I attended the meetings of the Board of Directors of the University held in Tsingtao this summer. The medical department of the University, with which we are especially concerned, has had an encouraging year in spite of the disturbed condition of the country. Dr. Shields is gratified to find that a large number of mission hospitals have been carried on during the absence of missionary doctors by graduates of this department in a very satisfactory manner.

From what I have learned by living in close proximity to this institution for the last half year, I cannot but record my opinion that our connection with it through the medical department, however efficient this department may be in itself, involves us in a serious responsibility for much unsound teaching in the other departments.

Respectfully submitted,

M. A. HOPKINS.

Bible Teachers Training School for Women.

Your representative regrets that on account of the wars she was not able to attend the meeting of the Board this year which had been called for the early part of April.

The arrival of the Southern Army not only prevented that meeting, but the soldiers drove out the students, stole their personal belongings, looted the buildings and burned one dormitory.

Miss Shaw has resigned as president of the school and Rev. Kia Yu-ming has been elected president. I understand he is now living in the new home built for him by the school.

I have no official information but I understand that the school expects to open in the Spring on a small scale if the political conditions in Nanking do not make it impossible.

It is my observation that the school through the students is exerting a tremendous influence for the cause of genuine Christianity throughout the whole of China. It seems to be

one of the last institutions the Church in China can afford to lose. Let us all pray the Lord that it may recover from this blow with renewed energy and renewed spiritual power. The women of China need what this school is trying to give them.

LENA S. ARMSTRONG.

Educational Conference, Kuling, August 1926.

A conference to consider the policy of the School work in North Kiangsu Mission was called and two questions were considered, namely, (*a*) consolidation of Senior Middle Schools, and (*b*) the attitude of the mission towards registration.

There was a good deal of helpful discussion of the subject of consolidation of Senior Middle Schools. A motion was passed asking the Committee to call a like conference at Kuling for the summer of 1927.

It was voted to notify the China Christian Educational Association that our Mission disapproved of registering its schools under the present government regulations.

Voted: to notify the Executive Committee that Rev. H. M. Smith, the Vice-representative, will take up the work of our representative in the Associated Mission Treasurers for the present; and that this conference recommend to both missions that Mr. Smith be elected as our representative to succeed Mr. Caldwell.

3. That a copy of these resolutions be sent to Mr. and Mrs. Caldwell, to the Executive Committee of Foreign Missions, and to the Christian Observer.

MINUTES OF THE NORTH KIANGSU CONFERENCE ON SCHOOLS, SHANGHAI, CHINA, JUNE 11, 1927.

In response to the action of the A.I.C., May 20, to hold a conference to settle the question of whether or not

schools should be opened for the fall term, the following members of the Mid-China and North Kiangsu Missions met at the Shanghai American School building at nine a.m. to-day.

Present: Mr. and Mrs. Bear, Dr. and Mrs. Crenshaw, Mr. R. P. Richardson, Dr. and Mrs. Bradley, Miss Farr, Mr. and Mrs. Taylor, Dr. and Mrs. White, Mr. Montgomery, Mrs. Rice, Mr. Armstrong, Mr. Allison, Mr. and Mrs. Talbot, Miss Talbot, Dr. and Mrs. Junkin, Dr. Graham, Mr. and Mrs. Farrior, Miss Caldwell, Mr. Maxcy Smith, Miss Rebecca Wilson, Mrs. Venable, Dr. Blain, Dr. Jas. Woods, Jr., Miss Graham, Dr. and Mrs. Morgan, Mrs. R. B. Price, R. B. Price.

The meeting was called to order by Dr. Junkin, chairman of the A.I.C.

After a reading from the scriptures by the chairman, several prayers were offered for guidance in all matters coming before the conference.

Mr. Armstrong was elected chairman and R. B. Price secretary.

It was moved and carried that the conference go into a committee of the whole for the discussion of all questions to be taken up by the conference.

After discussions which continued into the afternoon session the committee of the whole reported to the conference as follows:

Resolved that in view of the new regulations for schools as announced by various governments in China and in view of the present discussions everywhere about the conduct of Christian schools, we advise the North Kiangsu Mission to make the following pronouncement:—

1. That the regular courses shall be maintained in the Bible and in the Christian religion and attendance shall be required on Christian religious exercises.

2. That believing that restrictions, governmental or otherwise, placed upon religious instruction in Christian schools are contrary to the spirit of religious freedom, and therefore harmful to the cause of Christ, the North Kiangsu Mission cannot advise continued support of schools accepting such restrictions, and does not believe that such support will be continued by the church in America. The mission

while believing in the principle of registration with the government does not approve of registering under such conditions as shall interfere with the rights above stated.

3. That the mission hereby affirms its fundamental aim of spreading the gospel, in and through all its institutions; that while it endeavors to make its schools as technically efficient as possible, it regards them as primarily for the Christian constituency and as agencies for bringing students to the Truth of God and strengthening them in it; and the mission cannot see its way clear to continuing schools in which this aim is not preserved (See A. I. C. Report, p. 60).

4. Therefore, in view of the fact that the present government regulations, as we interpret them, do not permit of these requirements being complied with, we advise the North Kiangsu Mission to close all schools in which these regulations are enforced for the year 1927-1928.

5. Recommended that no definite arrangements be made for the opening of day and boarding schools until after mission meeting.

6. Recommended that the A. I. C. interpret its action taken at Chinkiang concerning payment of salaries for a maximum of six months.

7. Recommended that the A. I. C. consider holding the next mission meeting at Shanghai, September 1st, 1927.

8. Recommended that the A. I. C. at its next meeting consider the advisability of asking a committee of Chinese, one from each station, to meet with the A. I. C. at one of its August meetings, or with the mission at its meeting. The purpose of this being to afford the Chinese representatives an opportunity to report on the work carried on during the absence of the missionaries from the stations, and to confer as to carrying on the work in the future.

The above report of the committee of the whole was adopted.

The conference voted to express the thanks of those present, on behalf of the mission, to Dr. Kelly of Yencheng for his interest in the work of the Yencheng ,station and for the efforts that he has made to protect the mission property at Yencheng.

The reading of the minutes for correction was dispensed with, and after prayer by Dr. Morgan the meeting adjourned.

R. B. PRICE, *Secretary.*

Woods, Jr., Dr. and Mrs. White, Mr. Armstrong, Mrs. Rice, Dr. and Mrs. Bradley, Mr. Montgomery, Mr. Farrior, Mr. Richardson, Dr. and Mrs. Crenshaw, Mr. Bear, Mr. R. B. Price, Mr. Taylor.

Report of Committee on School Policy.

1. We recommend to the Mission that we have two senior Middle Schools for Boys, (one to be located in the Northern end of the Mission, and one in the Southern end), and one senior Middle School for Girls, and that the Committee on School Policy bring in to the next Mission Meeting definite recommendations as to the location of these schools.

2. The recommendations, if passed at this Mission Meeting, must be reconsidered and re-affirmed by a second meeting of the Mission before the recommendations become permanent actions of the Mission.

3. In addition, we recommend that we ask the Kiang Peh, Ling Chen and Hwai Tung Presbyteries appoint two Chinese representatives from each Presbytery to confer with the Mission School Policy Committee on the subject.

One. Voted: that the Ad Interim Committee request Mr. Caldwell to continue to receive circular letters until mission meeting, especially in view of the disturbed conditions.

Two. Voted: that in view of the fact that Miss Merrill has remained longer than contemplated in the action taken at the Tsing Kiang Pu Mission meeting, that the Executive Committee be asked to pay her passage to America.

Three. Voted: that because of special circumstances, the Bridgmans be advised to go on furlough, sailing March 12.

Four. Voted: that we request Dr. E. W. Smith or Dr. Fulton, since they have both been in China, on account of special and urgent problems, to visit the field in the near future.

Five. Voted: that in answer to Mr. Grant's request, Mr. Taylor be appointed to see that proper articles and photographs be sent regularly to the Presbyterian Survey, especially keeping in mind the February North Kiangsu number. Also that Mr. Brown be appointed to see that proper articles and photographs be sent regularly to the home church weekly papers.

Six. Voted: that the chairman write the Executive Committee, that while the national situation is serious, yet we hope that it will so clear up that missionaries due back from furlough to the North Kiangsu Mission can return to the field this summer, and that the Ad

Interim Committee will take up the matter in early June and will cable the committee its advice.

Seven. Voted: that we recommend that the Taichow station secure a foreigner on the field to teach in the Taichow Boys' School in the place of Miss Merrill, provided the mission continues its schools on the present basis.

Eight. Voted: that we recommend to the mission that we take up and settle the school policy of the mission at the next mission meeting

Nine. Voted: that the Ad Interim Committee advise the school committee to meet in Tsing Kiang Pu, April 23 at 9.30 a.m. to discuss the educational policy, and to make definite recommendations to the mission.

Ten. Voted: that it view of the authority vested in the Ad Interim Committee to change the time of mission meeting, (see p. 12, 1926 minutes) that the meeting of North Kiangsu Mission be called in Taichow on July 8 at 8.00 p.m.

Eleven. Voted: that the letter from the National Christian Council re the Jerusalem Council be received as information.

Twelve. Voted: that the building committee proceed with the construction of the new building of the Chinkiang High School.

Thirteen. Voted: that the building committee of the Wayland residence proceed with the construction of this residence, provided the committee cannot get the contractor to wait longer without too great expense.

Fourteen. Voted: that the building committee of the Taichow hospital be advised to continue with construction.

Fifteen. Voted: that the building committee of the Taichow church proceed with construction, if after waiting a month or so it is the judgment of the station and the building committee that it is advisable to do so.

Sixteen. Voted: that the Suchien station proceed with the Symonds Memorial Chapel in the country field, if conditions permit.

Seventeen. Voted: that we cable the Executive Committee that after careful consideration, four buildings are allowed to proceed in construction, namely, Chinkiang High School, Wayland residence, Taichow hospital and Taichow church.

Eighteen. Voted: that the secretary of the committee write a letter to Mr. Caldwell, expressing appreciation for his point of view, but that after careful consideration, we feel that we should proceed with the buildings.

Nineteen. Voted: that in the case of the Chinkiang High School, we rule that the established condition, mentioned in the Executive Committee's Manual, Section 55, and in the North Kiangsu Manual, Section 55, is the work proceeding under the contract as let.

Twenty. Voted: that in case we are called out of the stations, arrangement be made for the payment of a maximum of six months' salaries, preferably in installments month by month.

Twenty-one. Voted: that except in extraordinary cases, where the station feels that it would be quite safe and advisable to leave the institutions in the hands of the Chinese, we advise the hospitals and schools to close operation, should we be called out of the stations.

Twenty-two. Voted: that

Whereas conditions in China are bringing about changes in the work of missions and changes in the administration of the work of missions; and

Whereas this is an opportune time to more strenuously urge the Chinese church on toward self support and full independence; and

Whereas we are sure that the handling of large sums of money and the control of valuable properties towards the contribution of which they have had no part or responsibility, would be hurtful to the Chinese church, especially in centers where this church is very young and often very poor;

Be it resolved that we, the Ad Interim Committee of the North Kiangsu Mission request the Executive Committee of Foreign Missions to take definite and strong action upon the matter of self support, which action may be transmitted to the Chinese church through the Synod, Presbyteries, Sessions and individual pastors and missionaries, urging upon the individual churches and individuals the necessity of assuming larger financial obligations and responsibilities, assuring them that we look forward to the day when all mission work will be turned over completely into the hands of the Chinese church; at the same time definitely declaring to the Chinese church that the home church, through the mission, expects to continue to control such work as is now in its hands in proportion to the amount of funds invested.

We feel that the above declaration is especially urgent at this particular time because of the fact that many other missions are turning over to the Chinese much or all of their work, institutions and funds, without the Chinese assuming adequate financial obligations, and such actions by other missions will naturally lead our Chinese brothers in this field to expect similar motion from us.

By such a declaration we are sure the Executive Committee would help the Chinese Christians and the Chinese church, and would greatly strengthen our hands against taking a step which would, as we see it, postpone the day of self support and full independence and would give

more reason for the old charge that it is a "foreign organization," and would lay the church and its officers open to many dangers and temptations.

We feel that a clear distinction should be made between seeking the advice of our Chinese co-workers and turning over to them the *administration* of foreign funds.

Of course we all recognize the absolute independence and full authority of the properly organized indigenous churches and their complete control of all funds contributed by or through them.

Twenty-three. Voted: that we approve of Mr. Hopkins accepting the call of the North China Theological Seminary, Tenghsien, and we approve of the first available evangelist going to Suchien after the vacancy at Taichow has been filled.

Twenty-four. Voted: that we urge the Executive Committee to send an evangelist to take Mr. Ghiselin's place at Taichow and also an evangelist to take the place of Mr. Hopkins at Suchien.

Twenty-five. Voted: that famine funds coming through the treasurer, Mr. Caldwell, be divided as follows: 30% to Hsuchowfu, 30% to Tsing Kiang Pu, 20% to Suchien, 10% to Haichow, and 10% to Hwaianfu.

Twenty-six. Voted: that the Ad Interim Committee feels it impossible to come to any satisfactory conclusion on the Council constitution at this time.

Twenty-seven. Voted: that permission be granted to use the following special gifts:

Dr. Junkin for evangelistic work, two gifts, $150.00 gold and $250.00 gold.
Mr. Montgomery for evangelistic work, two gifts, $25.00 gold each.
Mrs. A. A. Talbot for evangelistic work, $75.00 gold.

Twenty-eight. Voted: that we recommend to the mission that the Ad Interim Committee have at least two stated meetings a year and the mission urge its members not to send out circular letters except in the case of urgent necessity.

Twenty-nine. Voted: that the appreciation of the Ad Interim Committee be expressed to the Chinkiang station for their hospitality to those attending the meeting.

The meeting closed with prayer by the chairman.

Secretary of the Ad Interim Committee.

101. Voted: to **approve actions I-V of the conference on schools** and order these actions spread on the minutes of the A. I. C. These actions are as follows:

Resolved that: in view of the **new regulations for schools** as announced by various governments in China and in view of the present discussion everywhere about the conduct of Christian schools, we advise the N. K. Mission to make the following **pronouncement:**

1. That regular required courses shall be maintained in the Bible and in the Christian Religion and attendance shall be required on Christian Religious exercises.

2. That believing that restrictions, governmental or otherwise, placed upon religious instruction in Christian schools are contrary to the spirit of religious freedom, and therefore harmful to the cause of Christ in China; the North Kiangsu Mission cannot advise continued support of schools accepting such restrictions, and does not believe that such support will be continued by the church in America. The Mission, while believing in the principle of registration with the government, does not approve of registering under such conditions as shall interfere with the rights above stated.

3. The Mission, while endeavoring to make its schools technically as efficient as possible, hereby affirms that the fundamental aim of all its school work is to aid in the establishment of the Church of Jesus Christ, and that these schools are primarily for the Christian Constituency. The Mission cannot see its way clear to continue schools in which this aim is not preserved.

In furtherance of this aim it shall be required that a minimum of seventy per cent of all new students entering Middle School in any term come from the Christian constituency, and that Primary Schools shall be maintained only where one-fifth of the pupils are from homes of Christians or inquirers.

No primary School shall be maintained with an enrollment of less than fifteen pupils unless by special consent of the Station.

No Day School shall be maintained in which the local Chinese constituency do not give one half the running expenses. The question as to whether rent is included in running expenses shall be left to the individual Stations.

4. Therefore, in view of the fact that the present government regulations, as we interpret them, do not permit of these requirements being complied with:

We advise the North Kiangsu Mission to close all schools in which these regulations are enforced for the year 1927-1928.

5. Recommended that no definite arrangements be made for the opening of day and boarding schools until after Mission meeting.

Voted: that we advise Misses Woods and Young to go to **Nagoya** for a year with the understanding that, if, within the year, there is an urgent call for either or both of them to return to China, the North Kiangsu Mission reserves the right to take the matter up with the Nagoya Girls' School.

150. Voted: that the committee, having heard **Mr. Wayland's** reasons and weighed them carefully, accede to his request to be allowed to return to the U. S. A. to be subject to recall to China as soon as conditions permit.

151. Voted: to advise **Mr. Hamilton** to take up work among the **Chinese in Korea** for a year with the understanding that the mission reserves the right to recall him after February 1st if it sees fit.

152. Voted: that we interpret paragraph 2 of Action 14 regarding **Emergency Expense** as follows: This rule means that each adult missionary should charge to himself at least $1.50 per day of all living expenses including rent and

all over this he may charge to the Emergency Fund up to $1.50 per day.

153. Voted: that in cases where it is necessary for a member of the mission to **buy or rent furniture** he may bring the matter before the A. I. C. The committee may make him a special grant for this purpose in addition to the regular Emergency Allowance if conditions warrant, it being understood that the furniture purchased belongs to the mission, the responsibility for the ultimate disposition thereof to be upon the person receiving the grant.

154. Voted: that the Treasurer be authorized to advance Taels 375.00 to Dr. Price for the purpose of purchasing furniture, one half of this amount to be deducted from the Emergency Allowance over a period of six months.

155. ESTIMATES.

Estimates Committee Report, September 15, 1927.

1. In regard to appropriations expiring March 31, 1928, we recommend.

(a) That all appropriations be continued, to be used by each station as said station deems wise and feasible, except as may conflict with any action passed by the mission.

(b) No transfers are to be made from one department to another without the approval of the A. I. C.

(c) As to boarding school funds, after covering unpaid obligations, a maximum of $60 Mex. per month may be used at the discretion of the station for employees. such as caretakers and teachers.

2. In regard to appropriations for 1928-1929.

(a) The estimates requested by the stations and approved by the mission, are generally based on the principle that boarding schools will need only a portion of the year's appropriations. See appendix for full list.

(b) The appropriation for the "Chinese Christian Inteligencer" is approved on condition that the present method of control and historic policy be unchanged.

(c) In view of the well known liberal theological position held by the Shantung Christian University, and in view of the lack of positive evangelical teaching in this institution, this mission gives notice that it cannot see its way clear to continue its yearly appropriation for this institution after the fiscal year 1928-1929, unless a change is made in this position.

(d) We respectfully request the Executive Committee of Foreign Missions to appropriate a total of $126,500.00 Mex., as per full lists in the appendix.

3. Voted: to omit all items in column four (4) for one year, 1928-1929.

4. Voted: that members be allowed to use gifts as follows:

Miss Wells	Gold	$100.00
Mrs. Paxton	Mex.	161.58
Mr. Hamilton	Gold	80.00
Mr. McLaughlin	Gold	350.00
Mrs. McLaughlin	Gold	200.00
Mrs. Grier	Gold	150.00
Mrs. Brown	Gold	150.00
Mr. Richardson	Gold	65.00
Dr. Bradley	Gold	60.00
Dr. White	Gold	50.00
Miss Young	Gold	252.50

All the items appearing above were used for the work, medical, educational or evangelistic.

5. Voted: that in calling all assistants or Christian workers beginning October 1, 1927, the following conditions be observed.

1. The contract whether oral or written should not exceed one year in length.

2. In case it becomes necessary to close the contract, for causes over which the mission has no control, the mission shall not be held liable for more than two months' salary, from the time the notice is given.

6. The Associated Mission Treasurers accounts were examined, found correct and approved.

7. Voted: that the chairman and secretary of the Estimates Committee write a covering letter to the Executive Committee explaining the estimates for the year 1928-1929, and request an early reply.

8. Voted: that as soon as each station has been visited by a missionary, lists be prepared of all damaged mission property with estimated cost of major repairs or rebuilding. These lists are to be submitted to the Extension Committee for approval. The A. I. C. will then take the matter up for further action.

9. Voted: that the mission authorize its treasurer to pay the expenses of those staying in the American School or elsewhere for the period of mission meeting, above the sum of $1.50 per adult, and $0.75 per child up to seven years, if boarding, and hereby authorises the treasurer to pay from salary accounts at the rate of $1.50 and $0.75 respectively. These items to be charged to Mission Travel Expense and to the Emergency Funds.

Respectfully Submitted,

DEAR BRETHREN, Attention H. Maxcy Smith.

The General Assembly of 1927 in establishing the Committee on the Assembly's Work, Minutes 1927, pages 134 and following, took the following action in relation to Executive Sub-Committees:

"Each Executive and Promotional Committee shall mail to each member of the Committee on the Assembly's Work, not later than the last Tuesday in April, a copy of its Annual Report. The Executive Committees shall at the same time prepare and mail to each member of the Committee on the Assembly's Work a detailed budget for the coming year for a sum not to exceed the sum actually collected the preceding year, together with their 'Askings' for the coming year. This Committee shall at its May meeting determine the budget (in no case to exceed the amount collected the previous year) and the 'Askings' for the coming year for recommendations to the Assembly. All plans for new work by the various Sub-Committees for the coming year shall also be submitted to this Committee at its May meeting for report and recommendation to the Assembly."

In view of the above action of the Assembly the Committee on the Assembly's Work at its meeting July 5, 6, 7, 1927, adopted the following recommendation of its Sub-Committee on Foreign Missions:

"1. In view of the action of the General Assembly instructing the Committee on the Assembly's Work to bring the cost of our work within the amount of receipts for the preceding year, we recommend to the Committee on the Assembly's Work that a reduction of $100,000 in the appropriations for work of Foreign Missions for the year 1928-1929 be made, and that our appropriations for 1928-1929 be $1,181,067.92."

A careful analysis of the budget expense of the Foreign Mission work has developed that it is necessary to place the

reduction made obligatory by the actions of the Assembly and the Committee on the Assembly's Work on Classes IV, V, VI, VII, IX and X, and the amount that can be allowed to North Kiangsu on such of the above classes for the year beginning April 1st, 1928, is as follows:

Class IV	$14,178.70
„ V	18,149.38
„ VI	6,988.17
„ VII	5,811.35
„ IX	2,931.41
Total	$48,059.01

Your particular attention is directed to the General Assembly action which assigns the actual appropriation for the year to the General Assembly after the budget has been submitted to the Committee on the Assembly's Work for recommendation by it to the General Assembly.

We must remember, therefore, that we are working under the General Assembly and it behooves all of us to fall in line, for we are not responsible for results but for the faithful performance of directed duties.

It is to be presumed that the term "Askings" is to cover such sum as the Assembly may fix as a "goal" for the Church not to be in any wise confused with the amount actually allowed to be spent under the instruction limiting expense to actual receipts for the preceding year.

In order that the two may not be confused you are to revise any estimates that have been made for the year beginning April 1st, 1928, and report them on the forms mailed to you under another cover, letting Column 3 show the actual amount assigned under each class, the total not to be more than $48,059.01 in 3rd Column.

To give information as to "Askings" you are to use Columns 4 and 5 so that the Assembly can be shown what the present force could use if the Church should reach the goal that may be set under the "Askings" submitted by the Committee on the Assembly's Work.

Yours sincerely,

EDWIN F. WILLIS, *Treasurer.*

Action of the North Kiangsu Ad Interim Committee, September 16th, 1927, covering estimates as printed below.

Voted: that in view of the letter from Nashville which has come since Mission Meeting the Estimates Committee be asked to revise the estimates for Column 3 in accordance with the above action and in accord with the request in this letter, and revise Column 4 by including the amount scaled in each case from Column 3 of the 1926 Minutes with the amounts appearing in Column 4 of the same minutes.

Note.—The amount originally asked for at the Mission meeting was Mex. $126,500 as against Mex. $135,527 for the past year. (See report of Estimates Committee above.)

The meeting was opened with a season of prayer on Thursday afternoon, March 22, 1928, at 3 p.m., the service being led by the chairman.

A number of communications were read and suggestions received for discussion.

The time for tomorrow's mettings was set as follows: 9 a.m. to 12 m; 2 p.m. to 4.30 p.m. An invitation was extended to all members of the mission present in Shanghai to attend the meetings of this committee with the privileges of the floor.

Dr. Junkin, the convener of the Joint Meeting of the two Ad Interim Committees gave notice that the meeting of the committees would be held in this room tomorrow evening, at 8 o'clock.

245. Voted to send the following cable to the Executive Committee.

"Advise McFadyen return as soon as possible. Letter follows."

246. Voted to ask the Executive Committee to return Dr. and Mrs. H. M. Woods to the field by September, 1928, to engage in literary work.

247. Voted to advise Mr. Hamilton to return at once to assist in the work of the Suchowfu station.

248. Resolved that the A.I.C. heartily concurs in the action of the Executive Committee in sending back Dr. and Mrs. Morgan to the field.

249. Voted that we say to the Korean Mission that we approve of Dr. Jas. B. Woods, Jr. remaining in Korea until June, and that Dr. Woods be asked then to go to Chinkiang if feasible, and if not that his location be left to the A.I.C., Yencheng and Suchowfu extending calls to him.

250. The following communication from Messrs Stevens and Hopkins at Tenghsien was approved:

The faculty of the Mateer Memorial Institute unanimously requests the return of Dr. and Mrs. B. C. Patterson to Tenghsien this fall in time for the opening of the school on September 14th. In this request the faculty of the North China Theological Seminary heartily concurs, and expresses the desire that they return earlier if possible as the seminary is scheduled to open on August 22nd.

"This is to ask that you approve this request and pass it on to the Executive Committee of Foreign Missions."

251. Resolved that we say to the Executive Committee that this A.I.C. desires the return either of Rev. and Mrs. C. H. Smith or Rev. and Mrs. H. T. Bridgman to Yencheng this summer, and that we ask the Executive Committee in consultation with them to send one out at that time, and to put the other one on the same basis as that of Rev. Locke White and others, subject to call between now and September, 1928, by the N. K. Ad Interim Committee's cable to the Executive Committee.

252. Resolved that we request the Executive Committee to send Dr. and Mrs. J. B. Woods, Sr. to the field as soon as convenient.

253. Resolved to request the Executive Committee to send Mr. H. W. McCutchan back in the fall to do literary or other work.

254. Resolved to request the Executive Committee to return Miss Mada McCutchan this summer to teach the foreign children at Taichow on the understanding that she will be released for work in the Sutsien field when that work opens up.

255. In regard to Rev. and Mrs. Locke White, Rev. and Mrs. E. S. Currie, Miss Cassie Lee Oliver, Miss Jessie D. Hall,

Rev. and Mrs. C. H. Smith or Rev. and Mrs. H. T. Bridgman, and Miss Charlotte Dunlap, it was voted that we cannot now recommend that they prepare to return to the field this summer. But we do think the situation is improving and we hope that by mid-summer we may be able to make such a recommendation. As soon as we can see our way clear to do so, the A.I.C. of the N. K. Mission will cable the Executive Committee.

The following clause was added to this motion in regard to Miss Dunlap: "to work in one of the hospitals of the mission, Chinkiang having the first claim."

256. Voted that the committee advise Rev. and Mrs. C. H. Patterson not to make any engagement binding him in such a way that it will be impossible for him to be released for return to China this coming autumn or winter. We cannot at this time advise him and Mrs. Patterson to prepare to return to the field this summer. But we think conditions are improving, and we hope that by mid-summer we will be able to make such recommendation. As soon as we can see our way clear to do so, the A.I.C. of the N. K. Mission will cable Mr. Patterson.

257. Subsequently the following action was passed. Resolved to send the following cablegram to the Executive Committee in accordance with the action of the Joint Meeting of the Ad Interim Committees:

Joint Ad Interim Committees advise Rev. and Mrs. C. H. Smith and Rev. and Mrs. H. T. Bridgman return by September 1st. Smiths transferred Chinkiang.

258. The following names are to be decided by the N. K. Ad Interim Committee as conditions on the field develop:

Rev. J. W. Vinson,
Dr. and Mrs. L. N. Bell,
Miss G. L. Fraser,
Rev. and Mrs. T. L. Harnsberger,
Miss Marguerite Mizell,
Rev. and Mrs. J. E. Wayland,

Mission will have the privilege of calling Miss Woods back to her work by cable. This action is taken at this time because the new school term begins April 1st, and we feel that the school should know at the beginning of the term that there is a possibility of Miss Woods being called on short notice.

260. Resolved that although we have strong hopes of eventually being able to carry on school work, we at present see no prospects of being able to open the boarding school at Yencheng this coming autumn. We feel that **Mr. Jas. R. Graham, Jr.** formerly of the Yencheng school, has special evangelistic gifts, and we would like to see him, in case he wishes to go into **evangelistic work,** take at least a year's course in seminary or bible school and seek ordination in preparation for such work in case school work in China should in future prove infeasible.

261. Voted to direct the secretary to write to the Executive Committee requesting them in future to return no missionary to the field without first getting the judgment of the mission.

262. Resolved to request **Mr. Bear** to leave Tenghsien and come to Chinkiang and take care of the evangelistic work this spring and early summer.

263. After discussion the following motion was adopted: Appreciating the frankness and clearness with which Mr. Bear has presented his problems to the committee, we feel that we can only take a sympathetic attitude to his request, and that if after he has been in Chinkiang for some time he still desires to be relieved of evangelistic work, the A.I.C. will reluctantly accede to his request.

264. Voted to send a courteous reply to the letter from the M.M.I. faculty to Rev. Jas. E. Bear.

265. After lengthy discussion of the Chinkiang evangelistic need, and after the taking of several ballots, **Rev.**

and Mrs. C. H. Smith were advised to locate there permanently provided the Bridgmans are returned.

266. Voted that in the event Dr. Bradley does not feel that he can conduct the hospital work at Sutsien, the A.I.C. requests him to go to Yencheng for work temporarily.

267. Voted that Mr. Montgomery be requested to return and take up his work in China when the way is clear, and that the Japan Mission be so informed.

268. A letter from Rev. Kruger of Tsingtao was received as information, and the chairman was directed to send a suitable reply.

269. A letter from Miss Helen Abbott now in Seoul, Korea, was received and the committee approved her return to America. The secretary was further instructed to write a letter of appreciation to Miss Abbott for her services among us.

270. The following request from the Suchowfu station was approved:

Please request the Executive Committee of Foreign Missions to pay **Mrs. Grier's** salary for the time she is absent from China, time not to exceed five months, at the regular field salary rate, (see Minutes N. K. Mission, 1927, page 38;) and to authorize Mrs. Grier's return to China without any further action from the A.I.C. [Note: the Executive Committee authorized Mrs. Grier, when she was last on furlough to make this brief visit to the U.S.A. at her own expense at this time. The purpose of this request is simply to make clear to Nashville that the A.I.C. concurs and that no further action is needed by the A.I.C. later.]

271. The **Suchowfu** Women's Hospital was authorized to **carry over** a maximun of $800.00 similar to other hospitals as mentioned in A.I.C. Minute No. 229.

274. Dr. Bradley was granted permission to use a special gift of $50.00 gold in replenishing the Sutsien hospital.

275. A request from Rev. R. P. Richardson was granted that he be allowed to take his family to Taichow after April 1st for a visit of ten days or two weeks, this visit to be extended to three months if conditions warrant, it being understood that if unfavorable conditions arise, he will bring them back to Shanghai immediately.

Similar permission was granted to Mrs. Bradley, Tinsley, Mrs. White and Miss Wells.

282. Resolved that the chairman appoint a committee of two to collect, examine and approve the lists of property losses, both personal and mission, as sent in by the various stations and missionaries, and pass them on to the mission treasurer. The chairman appointed Messrs McLauchlin and Richardson on this committee.

283. Voted to permit Mr. Junkin to use the Symonds Memorial Chapel fund (see Minutes 1927, page 4,) if and when he thinks the situation justifies.

284. After discussing the matter of resuming **hospital building** operations **at Taichow,** it was voted that at a later meeting when the political situation is a little clearer we will pass on this matter. The secretary was instructed to write a letter of explanation and appreciation to the Messrs Belk of Charlotte and Monroe, N. C. on behalf of the mission.

285. Voted to instruct the committee on the **educational policy** of the mission to appoint a sub-committee from its membership to thoroughly canvass the matters committed to it, especially the matters on page 35 of the 1927 Minutes, and after hearing the recommendations of this sub-committee, to bring in recommendations to the next meeting of the mission.

286. Voted to use great care in renewing calls for all evangelistic workers and teachers; only those should be recalled who are really needed and who can be properly supervised. Moved, that the two Ad Interim Committees collaborate with the Treasurer in collecting, examining and approving lists of losses suffered in the various stations.

Voted that in accordance with instructions from the Executive Committee of Foreign Missions re **insurance of institutional buildings** all insurance on these buildings be handled by the Treasurer direct, that the funds for insurance now actually paid by the various stations be deducted from the appropriations of these stations and transferred to the Treasurer and that the Executive Committee be requested to make additional appropriations, where needed, for any additional insurance after this date.

Voted, that the Executive Committee be requested to furnish an **automobile to the Treasurer** not to exceed in cost $2,000 Mex.; and that the Treasurer be authorized to revise the budget of office expenses to include $600 Mex. for upkeep and running expenses, if necessary asking for additional appropriation.

On recommendation of the doctors of the two missions the following was adopted: that all medicines for the personal use of missionaries and their families, when purchased on the order of a physician, shall be paid for by the Treasurer, and charged to **medical expenses.**

Voted to approve the letter of the Mid-China Mission re **missionary salaries** and to instruct the secretary to send the Executive Committee a copy of this letter as the action of this committee.

Resolved, that should the Executive Committee increase the appropriations to the two missions for 1928-1929 beyond the amount already indicated (thus restoring the cut in whole

or part) that such increase be not allocated until acted upon by this joint conference committee.

On motion a letter prepared by Dr. Junkin addressed to the Governing Board of the **Community Church** in regard to calling a new pastor was adopted.

Voted, that this joint committee representing the two missions of the Southern Presbyterian Church in China meeting on March 26th, 1928, in Shanghai requests the Executive Committee of Foreign Missions to express for this committee to the **administration in Washington,** and especially to the department of the **Navy,** our sincere appreciation of the very valuable service rendered to many of the members of our missions during the past months in China, notably in connection with the evacuation in March and April, 1927.

Resolved, that the members of the missions be permitted to draw their **emergency salary allowances** during the summer of 1928, if necessary, except for the time that a whole family is at their station.

On motion the chair appointed Messrs. Smith, Farrior and and Price a committee to apply the above resolution to children.

Resolved, that we have heard with gratitude to God of the awakening of many in our beloved church to a new sense of missionary zeal and that we rejoice with the Woman's Auxiliary and with our Executive Committee of Foreign Missions over the blessing of God that has attended their efforts. All this welcome news gives us new courage here to press on.

The important subject taken up by order of the Executive Committee in regard to the **return of missionaries** was discussed at each session of the joint committee. Each mission reported what it had done in regard to asking for the return of missionaries.

Voted, that we consider these reports seriatim and report directly to the Executive Committee.

The report made by the North Kiangsu committee was first discussed.

Voted, that **Dr. and Mrs. Henry Woods** be asked to return now or during the summer to do literary work under

the supervision of a Literature Committee to be appointed by the joint conference committee of the two missions.

Voted, that **Miss Mada McCutchan** be asked to return now or during the summer to teach missionary children at Taichow until she can get back to her station, half of her salary while she is teaching to be paid by members of the station as per agreement with the Executive Committee.

Moved that the status of all other members of the North Kiangsu Mission be as per accompanying list.

The Mid-China list, which had been approved by the mission and sent home early in February, was also taken up for discussion.

Resolved that in view of the fact that the North Kiangsu Mission has withdrawn from the **Nanking Seminary** and does not now desire to resume any responsibility in this connection the Joint Committee leaves the question of the relations of the Mid-China Mission to the Nanking Seminary and the recall of the Mid-China members of the staff to the Mid-China Mission and the Executive Committee. (Note. This resolution automatically cuts off of the list approved by the joint committee the names of **Drs. Richardson and Price,** but leaves them on the Mid-China list.)

On motion the Mid-China calls were approved as per accompanying list.

Voted, that the lists of the N.K. and M.C. Missions as amended by the joint committee be edited by the secretary of the joint committee and the secretary of the N.K. Ad Interim Committee, and these lists appear in the minutes without further comment.

All sessions were opened and closed with devotional exercises. Minutes of all sessions were read and approved.

On motion adjourned to meet at the call of the chairman.

Present: Messrs Hudson, Smith, Moffett, Price, F. W., Young, Miss Sloan, Miss Talbot from the Mid-China Mission, Messrs Graham, Bradley, McFadyen, White, McLauchlin, Womeldorf, Farrior, Price, R. B., and Taylor (without vote) from the North Kiangsu Mission.

Rev. Jas. R. Graham, D.D., the last chairman, called the meeting to order and the committee engaged in prayer.

Officers were elected as follows:

Chairman: Rev. W. H. Hudson, D.D.,
Secretary: Rev. H. Maxcy Smith, D.D.,
Clerk: Rev. H. Kerr Taylor.

Communications from the Executive Committee were read.

The following letter to the American Consul in Shanghai, authorized by the last meeting of the Joint Conference Committee, on the **attitude of our missions toward** the question of accepting **indemnities or reparations** for property destroyed, was approved.

Mr. C. J. Spiker, American Consul,
Shanghai American Consulate,
Shanghai.

DEAR MR. SPIKER:—

In response to your expressed desire to know the attitude of the Missionary organizations toward the question of accepting indemnities or reparations for property destroyed, the undersigned Committee, representing the Missions of the Presbyterian Church in the U.S., (Southern Presbyterian Church,) has been instructed to write you in the following sense:

Our home authorities have not, so far as we have been informed, formulated any policy with reference to this matter.

The Missions on the field see no objection in principle to accepting indemnities or reparations, especially when property is taken over by governments, or destroyed through the negligence of responsible agents of governments, or when the circumstances are such that if it were a claim against the American Government it would be recognized as right.

We feel that in any given case of the destruction of property all the circumstances should be taken into account, as well as the probable effect of action or non-action, and that any claim made should be governed by the purpose to reach a settlement equitable to all parties concerned.

As Missions we recognize the right of individual members of our organizations to make or to withhold claims for personal losses.

Whether punitive indemnities should be demanded or not and when, we believe to be a question which is not within the province of missionary

organizations as such to express an opinion. It is a question solely for the government.

With assurance of our appreciation of the service the United States Government is rendering us in many ways, and of our sympathy with the officials upon whom such heavy responsibilities rest in connection with the present conditions in China,

We are,

Yours faithfully,

J. R. Graham, Sr.,
H. Kerr Taylor,
H. Maxcy Smith,
Committee.

The committee which drafted this letter, Messrs Graham, Smith and Taylor, was instructed to answer the Executive Committee's request of June 16, 1928, for the opinion of this Joint Conference Committee on indemnities, and to enclose a copy of the above letter with their answer. The committee was further instructed to draft a statement on **protection of missionaries** in answer to the Executive Committee's request.

It was resolved to appoint a committee of five, two from Mid-China Mission and three from North Kiangsu Mission, to serve as a **committee on personal losses and reparations** with power to act. All claims for personal losses of missionaries shall be submitted to this committee who shall carefully scrutinize and approve same before authorizing payment of reparations by the treasurer from the G. $125,000 China Emergency Fund. Claims for losses shall be made on a basis not to exceed Mex. $4,000 for a family of five which has suffered practically a total loss. The committee as elected was McLauchlin, Taylor, Farrior, Hudson, Moffett.

The committee adjourned with prayer to meet tomorrow evening at 8.30 o'clock.

Tuesday evening, September 11, 1928.

The committee was opened with prayer, and the minutes of the former session were read and approved.

The committee appointed to answer the Executive Committee's request for this committee's **opinion on** the matter

of the **protection of missionaries** reported and the report was adopted. The aye and no vote being called for on the motion resulted as follows:

Ayes: Hudson, Smith, Miss Sloan, Miss Talbot, Graham, Bradley, McFadyen, White, McLauchlin, Montgomery, Price, R. B. Nos: Moffett, Price, F. W., Farrior.

The statement is as follows:

In answer to the Executive Committee's request for our opinion on the matter of the protection of missionaries by our government in case of danger or trouble, this committee would state that while recognizing the many factors and implications of this question we see no objection in principle to accepting and claiming this protection in time of need; and that, as is often urged by those who would disclaim such protection, while we are dependent on the good will of the people among whom we live for success in our work, we do not believe that the statement that a reasonable claim for this protection will forfeit that good will is well founded; nor do we believe that the ultimate interests of the missionary cause and of international justice will be served by stipulating in advance that no claim for protection will in any circumstances be made.

As missionaries we entered the work in China with the purpose of making known the gospel of Christ with little thought of relying on the United States government for safety, and it was clearly understood that personal dangers were likely to arise.

But as missionaries we doubt the wisdom or justice of being set in a class apart with the distinct stipulation that in case of danger or difficulty the government is asked to do nothing in our behalf other than to use diplomatic means.

We question the statement often made that reliance on gunboats is a serious hindrance to missionary work, and we feel that the harm resulting to Christian work as a result of protection of missionaries, which protection in point of fact has seldom been asked for, is a matter that has been much overemphasized.

In the case of danger or of difficulty the question of actively seeking the protection of the government is one that must be considered with regard to such questions as its effect on the cause we represent, the interests of the people among whom we dwell, the cause of international law and justice, and the general international relationships involved.

By way of suggesting one of many complications involved, it must be borne in mind that if a request was made to the government to take no action in case of injury to a missionary, the interests of others than missionaries would also be seriously affected. Such a request might give reasonable grounds to other citizens to complain that their just rights had been jeopardized by such action.

In conclusion, while appeals to the government for protection should not be made hastily, we see no reason for stipulating in advance that no such appeals will be made or divesting ourselves of the right to do so.

In reply to the request of the Executive Committee (Dr. Smith's letter of June 16, 1928) for a report of our opinion regarding the **transfer** of church and chapel **property to** the **Church of Christ in China** as proposed in the letter of Rev. A. R. Kepler of April 20, 1928, we would say that as the Church of Christ in China in not yet in a position to hold property even if it were transferred to them, we do not feel it wise to take up this matter.

Voted to approve the following action of the committee on **Personal Losses and Reparations,** "Gifts from regular church sources should be deducted from any claims for losses of personal property by missionaries."

Voted to approve of the North Kiangsu Mission's call for **Dr. and Mrs. Buckingham** in view of the fact that the Kashing hospital has been rented to the Chinese and there is therefore no call for Dr. Buckingham's services there.

After the reading and approval of the minutes, the committee adjourned with prayer.

W. H. HUDSON, *Chairman,*
H. MAXCY SMITH, *Secretary,*
H. KERR TAYLOR, *Clerk.*

Resolutions of the Estimates Committee approved by the A.I.C.

1. We recommend that the estimates as printed in the 1926 **Minutes** be adopted as the **basis for the estimates** for the year beginning April 1, 1929, and that the Secretary of the A.I.C. write a covering letter explaining the reason for so doing.

2. We desire to call the attention of the stations to the action of the Executive Committee at Nashville in regard to the necessity of **insuring our school and hospital buildings,** and also to the action of the Joint Conference Committee re this at its meeting of March 24, 1928.

3. We recommend that the $800 appropriation for the **Tsinan Medical Work** be continued for the year 1929-1930, but we request the mission at its next meeting to make a final decision regarding this appropriation.

R. P. RICHARDSON,
Secretary Estimates Committee.
